UM MontanaView Scholarships

$1,000 for your Remote Sensing Project!

The goals of these fellowships are (1) to support students and provide encouragement and resources for them to pursue a career in geospatial sciences and remote sensing; and (2) to benefit the state of Montana by providing information, data, and analysis that will improve the management of natural resources.

Eligibility:

- University of Montana undergraduate, graduate or post-baccalaureate student
- In any discipline
- Has good academic standing
- Working on a project that uses remote sensing – projects will be presented in April 2024, preference will go to projects which benefit an identified organization, agency, or group
- Has not received the award before
- Financial need may be used as a secondary criterion

Applicant Checklist:

- Name, Department
- Phone number and email address
- A cover letter of no more than 1 page clearly identifying the problem, its significance, the planned approach, and a stakeholder (e.g. a state agency, a community organization, a school or university, etc.).
- Your resume or CV

Number of awards: 2

Application Deadline: 20 February 2024
