If any portion of responsive records is withheld, please provide a written explanation identifying the specific legal basis for each withholding and release all reasonably segregable non-exempt material. 26-145	06/30/2026 12:00:00 AM	Open		Matt S Larson		NON-NR email-based reqiest from 4-22-26 Dear Records Officer, I write to narrow and clarify my prior request concerning University of Montana surveillance systems, including Verkada and any associated analytics, integrations, or disclosures to law enforcement. This narrowed request is intended to facilitate prompt production of the most clearly identifiable records first. UM's published CCTV procedure states that UM "will freely exchange information, including any surveillance camera recordings" with MPD, MCSO, and other law-enforcement agencies for investigations, and that copied recordings used as evidence require logbook entry. My request is directed primarily to records that should exist under that policy, along with records showing whether any searchable or biometric features were licensed, enabled, tested, or used. Please produce the following records, in native electronic format with metadata where available, for the period January 1, 2020 to present. ### Priority Category 1: Policies, procedures, and retention 1. All current and prior UM, UMPD, and Office of Public Safety policies, procedures, directives, and training materials concerning: - surveillance cameras; - cloud-camera systems; - face-search, facial-recognition, person-search, vehicle-search, or analytics features; - retention, deletion, export, disclosure, and evidence handling. 2. Any written privacy, use, notice, consent, or accessibility policies concerning facial-recognition, facial verification, biometric processing, or AI-assisted surveillance features. 3. Any signage standards, notice templates, or public-facing notices used in monitored areas. ### Priority Category 2: Contracts and procurement 4. All contracts, order forms, SOWs, amendments, renewals, invoices, quotes, and purchase records for: - Verkada; - any surveillance-camera or cloud-camera vendor; - any ALPR/LPR, face-search, person-search, or biometric service. 5. Any records sufficient to show what software modules, licenses, feature bundles, or add-on services UM purchased or was provisioned, including whether face-search, people analytics, vehicle-search, audio, or license-plate-related capabilities were included. ### Priority Category 3: Feature configuration and audit evidence 6. All records showing whether any of the following were ever licensed, enabled, configured, tested, disabled, or used: - facial recognition; - face search; - person search; - people history or similar tracking; - vehicle search; - audio capture; - license plate recognition or ALPR/LPR. 7. All Feature Manager, admin-console, compliance, or configuration reports sufficient to show: - default settings at deployment; - feature changes over time; - who changed those settings and when. 8. All audit logs, access logs, export logs, sharing logs, and admin logs showing: - user access to live or stored footage; - exports, downloads, or copied evidence; - shared video links or case packages; - external/vendor support access; - disclosures to law enforcement. ### Priority Category 4: Disclosures and sharing with MPD/MCSO/federal agencies 9. All logs, records, correspondence, or transmittals reflecting disclosure or transfer of video, still images, search results, or incident packages from UM to: - Missoula Police Department; - Missoula County Sheriff's Office; - Missoula County Attorney; - City Attorney; - any federal agency. 10. All requests from those agencies to UM for surveillance footage, still images, searchable data, or case support, whether formal or informal. 11. All logbook entries or equivalent chain-of-custody records for recordings copied, removed, exported, or preserved as evidence. ### Priority Category 5: Facial-recognition / biometric compliance 12. All records concerning UM analysis of compliance with Montana facial-recognition law, including any review of: - MCA 44-15-105 through 44-15-111; - meaningful human review; - consent, notice, non-facial alternatives, or reporting obligations. 13. Any records showing whether biometric templates, face logs, face-match results, or other data derived from facial-recognition or face-search functions were ever generated, stored, exported, or disclosed. ### Priority Category 6: Accessibility and public-facing barriers 14. All records of complaints, accessibility requests, grievances, or internal

26-169	07/23/2026 12:59:51 AM	Closed	No Response from Requester	Antoine Wiley	Athanor Works LLC	Under the Montana public records law (Article II, Section 9 of the Montana Constitution and Title 2, Chapter 6, MCA), I request existing, aggregate, de-identified grade-distribution data for undergraduate courses across the University of Montana campuses, including Montana Technological University, that the University already maintains. For each course, section, instructor of record, and term, I request the count of students receiving each final grade (A, A-, B+, and so on through F, plus non-letter outcomes such as P/NP, W, I, Q) and total enrollment. If not kept in that form, the closest existing equivalent (e.g., reported average GPA and enrollment per section). Time period: all retained terms, or the most recent ten academic years. Please provide the data electronically in native, machine-readable format (CSV or Excel). These are aggregate counts, not individual records; aggregate grade counts that identify no student are not FERPA education records. Where a section is small enough to risk identifying a student, please mask only those individual cells rather than withholding the whole row. I am not asking the institution to create new records or perform analysis, only to export data it already holds. I request a public-interest fee waiver: the data will be published free to the public and not sold or used for solicitation. In full transparency, the requester is Athanor Works LLC, a for-profit company; the records will be free to the public and the direct use is non-commercial. Please provide an itemized estimate before incurring any fee; I do not authorize any charge without my prior written approval.

Course grade distributions for every undergraduate course, by section, instructor, and term, for the most recent 10 academic years (Fall 2015 to present): counts of each final grade awarded (A, B, C, D, F, W, and any I/P/NP) per section. 2. Section enrollment data for the same courses and terms: maximum capacity, actual enrollment, and waitlist counts per section. 3. Repeat and DFW data where already compiled: counts of D, F, and withdrawal outcomes per course and term. 4. Numeric course and instructor evaluation summaries (quantitative items only, such as overall rating, estimated workload or hours per week, and would-recommend), by course, section, and term. I am not requesting free-text student comments. Please provide aggregate counts only, with any cells below the institution's disclosure threshold suppressed. No individual student records are sought, so this is not restricted by FERPA. I respectfully request your response be provided on a timely basis based on the applicable statutory requirements. If access to the records I am requesting will take longer than that time period, please contact me to advise when I should expect copies or the ability to inspect the requested records. If any of the requested records are readily available now, please feel free to send those immediately rather than waiting to compile the full set of materials. Part 1: Employment Contracts and Salaries Pursuant to applicable authority, I am writing to request copies of the complete written employment agreement or other written document establishing the currently effective employment terms for each athletic department staff member listed below. Please include, at minimum, the applicable original, fully executed base agreement and all amendments, addenda, extensions, appointment letters, offer letters, or similar records. The records provided should show the staff member's annual compensation and start/end dates of employment. If an existing agreement remains in effect but compensation has changed, please provide both the continuing agreement and the amendment, salary record, or other document showing the updated compensation. A salary record alone does not satisfy this request when a written employment agreement, appointment letter, offer letter, or similar written record exists. I write Bobby Ball, a column on Montana Grizzlies football that reports on athletic department finances across the Big Sky and the FCS. I am asking the same questions of several public universities. I request: Records dated or in effect from July 1, 2025 through the date of this request: (a) Any written policy, plan or memo setting the total amount the University will provide to student-athletes under the House v. NCAA settlement, or how that amount is divided among sports. (b) Any existing report, spreadsheet or summary showing total payments to student-athletes under the settlement, in total, by sport, or by men's and women's programs. This includes submissions or attestations to the College Sports Commission, the NCAA, the Big Sky Conference or the Montana Board of Regents, and any Title IX or gender-equity analysis of the allocation. (c) A blank copy of each form of revenue-sharing agreement the University uses with student-athletes, with any standard addenda or term sheets. (d) Records sufficient to show the University accounts that fund these payments and the sources of money in those accounts (for example, general operating funds, student fees, athletics-generated revenue, or transfers from a foundation or other outside entity). (e) The employment contract or letter of appointment for each employee whose duties include administering these payments (general manager, chief revenue officer, director of player personnel, or a similar title). I am asking for records that already exist. I am not asking the University to create a new compilation. Please provide records electronically, as searchable PDFs or in their native format (for spreadsheets, native Excel is preferred). 26-209	09/16/2026 02:52:37 PM	Open		Schuyler Watt		This is a request under Article II, Section 9 of the Montana Constitution and the Montana Public Records Act, Title 2, chapter 6, part 10, MCA. I write Bobby Ball, a column on Montana Grizzlies football that reports on athletic department finances across the Big Sky and the FCS. I am asking the same questions of several public universities. I request: Every revenue-sharing agreement under the House v. NCAA settlement between the University and a student-athlete in effect at any time from July 1, 2025 through the date of this request, in every sport, with any amendments. Redactions I ask for: the athlete's name, signature, address, email, telephone, date of birth, student ID number, jersey number, position, class year, hometown, prior schools, agent or representative, and bank or payment account details. Please leave visible the sport, the compensation amounts, the payment schedule and the agreement's other terms. If the University believes a sport has so few agreements that sport plus amount could identify a student, I ask it to relabel those agreements "other sport" rather than withhold them. This request does not concern any particular student. I do not know who holds these agreements and am not asking. It covers every agreement in every sport. Alternative: if the University already keeps a list, ledger or spreadsheet of these agreements or payments, I will accept a copy with the same identifiers removed, showing only sport and amount, in place of the agreements themselves. Legal basis for release in redacted form. Article II, Section 9 opens these records except where "the demand of individual privacy clearly exceeds the merits of public disclosure." FERPA permits release of education records "after the removal of all personally identifiable information." 34 C.F.R. § 99.31(b)(1). The Montana Supreme Court has held that "FERPA does not prevent the public release of redacted student disciplinary records" and ordered a redacted copy released. Bd. of Trs., Cut Bank Pub. Schs. v. Cut Bank Pioneer Press, 2007 MT 115, ¶¶ 31, 38, 337 Mont. 229, 160 P.3d 482. In Krakauer v. State, 2019 MT 153, 396 Mont. 247, 445 P.3d 201, the Court refused a request that named one student and explained how a general request would differ: the Commissioner "could have responded by supplying the appropriate records with each student's personally identifying information redacted to protect his or her privacy interests." Id. ¶ 35. Where records "may be redacted to prevent disclosure of personally identifiable information," "the demand for the student's privacy may not clearly exceed the merits of public disclosure." Id. ¶ 44. This is that general request. It names no student and asks for every agreement in every sport. Section 20-25-515, MCA, protects the same student interest, and a record from which no student can be identified does not implicate it. The public interest is specific: these agreements commit University money, and the public is entitled to know how much the University pays athletes, from which funds, and how it divides that money among men's and women's sports. Please provide records electronically, as searchable PDFs or in their native format (for spreadsheets, native Excel is preferred). If the fees will exceed $25, please send an itemized estimate before starting work. If part of this request is ready before the rest, please release it on a rolling basis. 26-219	09/21/2026 05:06:11 PM	Waiting for requester		Lea Bossler	none	Good afternoon, This is a request for financial records (transactions), spanning from 2018 to present. I am requesting the paper trail of transactions from University of Montana accounts that are taxpayer funded (in part or full) -> direct pay or reimbursement of personal pay -> the businesses listed below. The information I am asking to receive would include: Date, amount, purpose for University of Montana, and as specific as possible on the purchase. As someone who has formerly worked for one of these businesses, I am aware that sometimes they split the facility into several sub-businesses that would have their own fiscal note on the transactions. I have done the internet-based leg work of providing alternate search terms where this scenario may apply. The most thorough method would be for the individual completing this information request to contact each business entity and directly asking for the potential description terms on a credit card statement for the facility. This would be best accomplished by the University Staff completing this request, rather than a community member without a title.
