

BCP Spring 2010 Proposed Courses (page 1 of 2)

Course Number	Course Name	Credits	Satisfies		Course Description
			GER		
1	ANTH 101H	Introduction to Anthropology	3	H	A survey of anthropology which introduces the fundamental concepts, methods and perspectives of the field. The description and analysis of human culture, its growth and change. The nature and functions of social institutions.
2	COM 150S	Interpersonal Communications	3	S	Focus on communicating and listening more clearly to improve personal and professional relationships. Topics include forms of communication, communication and identity, emotion, conflict, climates, gender, and cultural diversity.
3	CAPP 120	Introduction to Computers	2		Introduction to computer terminology, hardware, and software, including wire/wireless communications and multimedia devices. Students utilize word processing, spread sheet, database, and presentation applications to create projects common to business and industry in a networked computing environment. Internet research, email usage, and keyboarding proficiency are integrated.
4	LIT 110L	Introduction to Literature	3	L	Study of how readers make meaning of texts and how texts influence readers. Emphasis on interpreting literary texts: close reading, critical analysis and effective writing.
5	M 090	Introductory Algebra	3		Prereq., M 065 (M 002D) or appropriate placement score. Review of arithmetic principles of integers and rational numbers, linear equations in one or two unknowns, and operations with polynomials and rational expressions. Credit does not count toward an Associate of Arts, Associate of Applied Science, or Baccalaureate degree.
6	M 095	Intermediate Algebra	3		Prereq., M 090 (MAT 005D) or appropriate placement score. Topics include linear equations and systems of linear equations, inequalities, applications and graphing; polynomials; rational expressions and equations; radicals, rational exponents and complex numbers; quadratic equations; introduction to exponential and logarithmic functions. Credit does not count toward Associate of Arts or Baccalaureate degrees.
7	M 121	College Algebra	3	M	Prereq., M 095 (MAT 100D) or appropriate placement score. Intended to strengthen algebra skills. The study of functions and their inverses: polynomial, rational, exponential, and logarithmic functions.
8	PSY 100S	Introduction to Psychology	3	S	Introduction to the scientific study of behavior in humans and other animals.
9	SCN 175N	Introduction to Physical Science	3	N	An introduction to the basic principles of physics, chemistry, environmental and earth sciences with emphasis on the scientific method and process. (Suitable for students with little science background).
10	WTS 101	College Writing I	3	WRIT	Prereq., WRIT 095 or passing score on placement test. Instruction and practice in both the expository writing and research process. Emphasis on the use of specific techniques of writing to develop style, unity, clarity, and force of ideas, and structure. Students are expected to write without major errors in sentence structure or mechanics.

Additional Options/Ideas

	Course Number	Course Name	Credits	Satisfies	
				GER	Course Description
<b>11</b>	CAPP 134	Basic MS Word	2		Prereq., CAPP 120 (CRT 100) or basic computer experience and consent of instr. Preparation of business forms, correspondence, mail merges, columnar projects, and reports using up-to-date software. Business related application projects, graphics, and printer operation are included.
<b>12</b>	M 115	Probability and Linear Math	3	M	Prereq., M 090 (MAT 005D) with a grade of B- or better, M 095 (MAT 100D), or appropriate placement score. Systems of linear equations and matrix algebra. Introduction to probability with emphasis on models and probabilistic reasoning. Examples of applications of the material in many fields.
<b>13</b>	WTS 121	Introduction to Technical Writing	3	WRIT	Course assumes a basic computer literacy. Passing score on placement test or consent of instructor. Introduction to technical writing situations with appropriate formats. Emphasis writing with document design and graphic placement introduced. Students are expected to write without major faults in grammar or usage.
<b>14</b>	WTS 095	Developmental Writing	3		Prereq., placement or referral by WRIT 101 (WTS 101) instructor. Designed for students who need instruction and practice integrating critical thinking, reading and writing before entering the required first-year writing course. Credit does not count toward Associate of Arts or Baccalaureate degrees.
