Program Information: Certified Clinical Medical Assistant (CCMA)

Program Overview
Program trains students to assist physicians by performing functions related to the clinical responsibilities of a medical office. Instruction includes preparing patients for examination and treatment, routine laboratory procedures, diagnostic testing, technical aspects of phlebotomy, and the 12 lead EKG and the cardiac life cycle. Students review important topics including phlebotomy, pharmacology, the proper use and administration of medications, taking and documenting vital signs, cardiology including proper EKG lead placements, a professional workplace behavior, ethics and the legal aspects of healthcare. Program includes classroom lecture and hands on labs and a clinical externship opportunity at a local healthcare provider. Students who complete this course sit for the National Healthcareer Association (NHA) Certified Clinical Medical Assistant (CCMA) exam.
