<td>Focuses on moral judgments, responsibilities to society and their impact on decision making, with particular emphasis on business ethics and values.</td>
</tr>
<tr>
<td>BIOH108</td>
<td>BASIC ANATOMY (73211)</td>
<td>TU TH</td>
<td>9:30AM - 11:50AM</td>
<td>A one semester course with laboratory focusing on learning the scientific principles of anatomy leading to a general understanding of the functional anatomy of the body’s architecture and systems.</td>
</tr>
<tr>
<td>BIOH201N</td>
<td>HUMAN ANATOMY &amp; PHYSIOLOGY I - LEC (72427)</td>
<td>M W F</td>
<td>10:00AM-11:50AM</td>
<td>Comprehensive knowledge of human form and function necessary for students preparing for health-related professions. Emphasis on structure, function and homeostatic regulation of body systems.</td>
</tr>
<tr>
<td>BIOH202N</td>
<td>HUMAN ANATOMY &amp; PHYSIOLOGY I - LAB (72578)</td>
<td>W</td>
<td>2:00PM - 3:50PM</td>
<td>Basic knowledge necessary for students in health-related programs. Emphasis on normal anatomy and physiology with presentation of basic concepts in chemistry and microbiology as they relate to human anatomy and physiology.</td>
</tr>
<tr>
<td>BIOO101N</td>
<td>SURVEY MONTANA WILDLIFE &amp; HABITAT (73591)</td>
<td>TU TH</td>
<td>6:00PM - 7:20PM</td>
<td>Interpreting biological patterns associated with selected Montana wildlife species, including mammals, birds, reptiles and amphibians.</td>
</tr>
<tr>

</tbody>
</table>

The history and development of the film medium. Emphasis on critical analysis of selected classic or significant films.

General geology including the work of wind, flowing water, glacial ice, gravity, earthquakes, volcanoes and plate tectonics in shaping the earth.

A series of laboratory and field experiences designed around basic geologic processes and materials. Familiarization with common minerals, rocks, land forms, and structures.

A comprehensive introductory history of Colonial, Revolutionary and 19th century America, to 1877.

Introduction to the study of literary works in an historical context or a sequence of historical contexts.

Systems of linear equations and matrix algebra. Introduction to probability with emphasis on models and probabilistic reasoning. Examples of applications of the material in many fields.

Intended to strengthen algebra skills. The study of functions and their inverses: polynomial, rational, exponential, and logarithmic functions.

Writing laboratory course to assist with success in WRIT101. Focus on document organization and structure.
YOU’LL LOVE THE WAY WE CARE FOR YOU

URGENT CARE OR BY APPOINTMENT

(406) 541-0032

HEALTHY MIND AND BODY FOR THE WHOLE FAMILY

- Primary Care Services
- Chronic Disease Management
- Colorectal Screening
- Laboratory Services
- Medication Assisted Treatment
- Mental Health & Substance Use
- Pain Management
- Pediatric Care
- Wellness Exams
- Women's Health Care

We accept Medicare, Medicaid, Healthy Montana Kids, VA and most private insurance. We have a sliding fee schedule which takes into account family size and household income.
