

Science Trivia 2

- | | |
|---|------------------|
| 1. What is the name of the North Star? | Polaris |
| 2. How many prime numbers are even? | only one, the #2 |
| 3. What is the latitude of the North Pole? | 90 degrees north |
| 4. What is the common name for acetic acid? | vinegar |
| 5. At what temperature on the Fahrenheit scale does water boil? | 212° Fahrenheit |
| 6. One of the body's natural defense mechanisms are these cell structures that sweep particles upward out of the lungs. | cilia |
| 7. What machine measures pulse, respiration and galvanic skin response? | polygraph |
| 8. What is the main artery leaving the heart? | aorta |
| 9. What is the high-altitude high-speed wind that blows from west to east? | jetstream |
| 10. Mature insects contain three body parts. Name them. | head |
| 11. | thorax |
| 12. | abdomen |
| 13. What do we call the study of heredity? | genetics |
| 14. Which gas makes up 78% of the air in our atmosphere? | nitrogen |
| 15. What toxic metal was found in most dental fillings that were done before 1975? | mercury |

'Environmental Health Science Education for Rural Youth' Grant Number 1R25 RR020432, is funded by a Science Education Partnership Award (SEPA) grant from the National Center for Research Resources, a component of the National Institutes of Health.

Science Trivia 2

1. What is the name of the North Star? _____
2. How many prime numbers are even? _____
3. What is the latitude of the North Pole? _____
4. What is the common name for acetic acid? _____
5. At what temperature on the Fahrenheit scale does water boil? _____
6. One of the body's natural defense mechanisms are these cell structures that sweep particles upward out of the lungs. _____
7. What machine measures pulse, respiration and galvanic skin response? _____
8. What is the main artery leaving the heart? _____
9. What is the high-altitude high-speed wind that blows from west to east? _____
10. Mature insects contain three body parts. Name them. _____
11. _____
12. _____
13. What do we call the study of heredity? _____
14. Which gas makes up 78% of the air in our atmosphere? _____
15. What toxic metal was found in most dental fillings that were done before 1975? _____
