Service Learning is a method of teaching and learning in which students, faculty and community partners work together to enhance student learning by applying academic knowledge in a community-based setting. Student work addresses the needs of the community, as identified through collaboration with community or tribal partners, while meeting instructional objectives through faculty-structured service work and critical reflection meant to prepare students to be civically responsible members of the community. Service Learning courses can be counted as Honors courses toward Davidson Honors College graduation requirements (although there is a maximum of two outside-of-classroom experiences that may be counted for Honors credit).
