APPENDIX: Future Job Growth in Montana

Table A: Projected Jobs by Detailed Occupation in Montana, 2010 – 2020

This is a large Excel Spreadsheet that examines job numbers at the detailed occupation level (840 in all), within minor and major occupational groups. These data are based upon job estimates and projections by the Montana Department of Labor and Industry (Sept., 2011) that were adjusted in the course of this study. Adjustments made in these data are shown in the table. The table includes information on education and training requirements ordinarily required for each detailed occupation.

Table B: Projected Jobs by Detailed Occupation in the U.S., 2010 – 2020

This table is the same as A except that it examines job numbers at the detailed occupation level for the U.S. as a whole. The data contained in this table were developed by the U.S. Bureau of Labor Statistics (January, 2012), and are available on the BLS web site.

Section C: Background Trends and Conditions Shaping Jobs Growth in Montana

This section contains a variety of charts and other illustrations that help in describing major trends and conditions in the population and in the economy of Montana that heavily influence and shape how job growth is likely to occur in the future.
