

Sabbatical Committee Report 2006

Associate Provost Staub's office collected and organized the 33 applications and made them available to the Sabbatical Committee during the last week in November 2006. Each committee member reviewed and ranked all the proposals and sent their individual ranking forward. Associate Provost Staub summarized the ranking before the committee's final meeting on December 12th. At that time the committee discussed most of the applications but spent c time on those at and below the funding "bubble" to ensure fairness and reach a consensus. Of the 33 applications, 27 were funded.
