243-4206

**Country Destination:** Costa Rica

**Credits:** 15

**Degree Level:** Undergraduate

**Program Dates:** January-April

**Cost:** Approximately \$12,500

**Application Deadline:** November  
2011

Aerie's Semester in Wilderness Medicine is a unique program in the wilderness medicine field, providing students with industry-leading certifications earned through unparalleled experiential learning opportunities. Our rigorous academic program employs realistic scenarios, interactive lectures, as well as clinical observations in a variety of settings, including an urban American emergency room and advanced life support ambulance service, as well as in a developing-world rural health clinic to ensure a well-rounded, challenging and rewarding educational experience. Students register for the following classes: HHP 395 Emergency Medical Technician and Incident Management; PTRM 395 Wilderness Rescue and Survival Skills; PTRM 395 Wilderness Medicine and Risk Management. Visit [http://aerimed.com/courses/wilderness\\_courses/](http://aerimed.com/courses/wilderness_courses/) for additional information.
