Name: Nicky Phear

Dept: Forestry and Conservation

Email: nicky.phear@cfc.umt.edu

Phone: 243-6932

Country Destination: Vietnam

Credits: 6 credits

Degree Level: Undergraduate and
Graduate

Program Dates: Dec. 27, 2011-Jan.
19, 2012

Cost: \$3695

Application Deadline: October 15,
2011

Wintersession in Vietnam

Spend your winter break in areas of incredible ecological diversity gaining experiences of lifetime. Join us on our inaugural exploration of climate change in Vietnam as we study the river delta, beaches, and city life. Lively floating markets, quiet riverside villages, national parks, experiential research sites, and the big city of Saigon: the Mekong Delta is the captivating backdrop for this field-based program on climate change issues as well as the culture, ecology, economy, and history of Vietnam. Classes include: Society, Economy, and Environment of the Mekong Delta, and Effects and Mitigation of Climate Change in the Mekong Delta.
