Student Use and Access
Describe current facilities that would be upgraded with the purchase. Include course names and the number of students expected to use these facilities. Provide handicap accessibility information and list any other uses for the facilities.

Every student enrolled in Journalism classes (beyond JRN100) is issued network storage for his/her network home directory. This storage provides students with a personalized computing environment and personal storage for their ever-growing digital projects. Our arrays are currently populated with a mix of 7-year-old 750GB drives and 1-year-old 2TB drives. There is a strong likelihood that our 7 year old drives will begin failing at an unsustainable rate. In order to ensure the safety of students data we need to replace these drives.

Hardware and Software
Provide a complete, itemized list of requested hardware, software, and other projected costs.

23 Western Digital 2TB RE4 drives - WD2000FYYZ

Yes ☐ No ☐ If this request involves connecting new stations/servers to the campus network, are the required networking equipment and internal wiring facilities available?
Expenditure Proposal

Describe the proposed use of funds. Please clearly identify any components of the project which are available at no cost or are being funded from other sources.

23 Western Digital 2TB RE drives - WD2000FYYZ - Total $3450.00

We will be using our current Promise Vtrack 610f arrays and Apple Xserves.

Costs related to installation and maintenance are the responsibility of the recipient of Student Computer Fee funds.
Annual Report (use separate Equipment Expenditure Report Form)

All units that receive SCF equipment allocations are required to submit annual expenditure reports. Due dates for these reports will be announced each spring, and must be submitted before new allocations may be expended. Failure to provide the required annual report will result in withholding of further funding approval for the entire unit.

Signatures / Dates

Signatures certify that staff time, space, equipment, facility alterations, cost sharing funds, etc. required for this are available, and that the proposed project is consistent with the educational and professional objectives for the project Project Director's academic or administrative unit.
