The Montana Innocence Project is a 501(c)(3) nonprofit organization dedicated to exonerating the innocent and preventing wrongful convictions.

We use DNA and other evidence to advance credible claims of innocence through our interdisciplinary Innocence Clinic based at the Alexander Blewett III School of Law at the University of Montana. We also work to improve our criminal justice system through proven public policy reforms, and through training and education for attorneys, law enforcement, and other Montanans across the state.
