SEC. 1114. SENSE OF CONGRESS ON BUSINESS CASES ANALYSES FOR DECISIONS AFFECTING THE WORKFORCE AND MODIFYING LOCATIONS OF WHERE WORK WILL BE EXECUTED OR COMPLETED.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) in a budget constrained environment, the military departments and Defense Agencies must utilize all available tools to make informed, supportable decisions in moving workforce and workload from one location or entity to another;

(2) such tools should include a properly supported and documented business case analysis (BCA);

(3) several military departments and Defense Agencies have fallen short of proper analysis and support with respect to decision described in paragraph (1) in recent months;

(D) Defense Health Agency officials contend that the quality of the work completed at the center is not at issue, and they plan to continue the work at a different facility which is not a joint research facility and does not have the capability or capacity to continue the work of the center;

(6) before a military department or Defense Agency embarks on a workforce decision of workload in excess of \$3,000,000 per year, the Department of Defense needs to understand the possible costs, benefits, risks, and impacts to the small business goals, small and disadvantaged contracting agreements, and other sensitivities of the Department associated with such a decision;

(7) the military departments and Defense Agencies should perform a business case analysis, as part of any workforce decision described in paragraph (6);

(8) any such business case analysis for a workforce decision having an annual estimated cost of \$5,000,000 or more should be reviewed and approved by the Under Secretary of Defense for Acquisition, Technology, and Logistics, and the Under Secretary should provide such business case analysis to the congressional defense committees at least 30 days before taking any action to effect a shift in the workload concerned;

(9) the Assistant Secretary of Defense for Logistics, Materiel, and Readiness, working with the Cost Analysis Program Evaluation office, should develop minimum standards and criteria for business case analyses covered by this section and a process for the review and transparency of such business case analyses; and

(10) the Assistant Secretary should submit to the congressional defense committees, by not later than 180 days after the date of the enactment of this Act, a report on the plan of the Assistant Secretary plan to implement the standards and criteria described in paragraph (9).

(b) BUSINESS CASE ANALYSIS DEFINED.—In this section, the term “business case analysis” means a structured methodology and decision support document that aids decision making by identifying and comparing alternatives by examining the mission and business impacts (both financial and non-financial), risks, and sensitivities.

The dietary supplements included within the product category shall include dietary supplements that are marketed for muscle building, weight loss, and sexual enhancement.

“(B) A dietary supplement in the product category of dietary supplements considered to be high risk under subparagraph (A) may be sold by a commissary store or exchange store, or a retail establishment operating on a military installation, only if the dietary supplement has been verified by an independent third party for recognized public standards of identity, purity, strength, and composition, and adherence to related process standards.

SEC. 1097. REPORT ON MILITARY TRAINING FOR OPERATIONS IN DENSELY POPULATED URBAN TERRAIN.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Despite years of contingency operations in densely populated urban areas, the United States Armed Forces continue to rely on crude mock-ups of city blocks for urban training.

(2) Current urban training complexes do not offer sufficient capability to train or exercise joint, combined arms or large units in a dense urban landscape of tall buildings and other obstacles inhabited by millions of people.

(3) Combat units from all military services train in facilities that are significantly smaller and less complex than the real-world urban environments of today and of the megacity challenges anticipated in the future.

(4) The military services have identified the training gap, but do not have the resources or funding to invest in the development of massive cities with the infrastructure and obstacles that would be encountered during a contingency in dense urban environments.

(5) In 2015, the Chief of Staff of the Army published guidance to subordinate organizations to continue to develop concepts and capabilities related to all aspects of the dense urban terrain challenge.

(6) The United States Army Training and Doctrine Command (TRADOC) was directed to assume the leadership for the development of solutions to address the myriad of challenges operating in dense urban terrain, including requirements for the developing an urban studies program to increase operational leader understanding of urban environments, advancing material solutions for current and future megacity challenges, and improving urban systems modeling capabilities.

(b) **REPORT.**—

(1) **IN GENERAL.**—Not later than February 1, 2017, the Secretary of Defense shall submit to the congressional defense committees a report on plans and initiatives to enhance existing urban training concepts, capabilities, and facilities, and to provide for new training opportunities that will more closely resemble large, dense, heavily populated urban environments. The report should include specific efforts to provide for a realistic environment for the training of large units with joint assets and recently fielded technologies to exercise new tactics, techniques, and procedures, including consideration of anticipated urban military operations in or near the littoral environment and maritime domain as well as the cyber domain.

(2) **FORM.**—The report required under paragraph (1) may be submitted in classified or unclassified form.

SEC. 1277. SENSE OF CONGRESS ON COMMITMENT TO THE REPUBLIC OF PALAU.

(a) FINDINGS.—Congress makes the following findings:

(1) The Republic of Palau is comprised of 300 islands and covers roughly 177 square miles strategically located in the western Pacific Ocean between the Philippines and the United States territory of Guam.

(2) The United States and Palau have forged close security, economic and cultural ties since the United States defeated the armed forces of Imperial Japan in Palau in 1944.

(3) The United States administered Palau as a District of the United Nations Trust Territory of the Pacific Islands from 1947 to 1994.

(4) In 1994, the United States and Palau entered into a 50-year Compact of Free Association which provided for the independence of Palau and set forth the terms for close and mutually beneficial relations in security, economic, and governmental affairs.

(5) The security terms of the Compact grant the United States full authority and responsibility for the security and defense of Palau, including the exclusive right to deny any nation's military forces access to the territory of Palau except the United States, an important element of our Pacific strategy for defense of the United States homeland, and the right to establish and use defense sites in Palau.

(6) The Compact entitles any citizen of Palau to volunteer for service in the United States Armed Forces, and they do so at a rate that exceeds that of any of the 50 States.

(7) In 2009, and in accordance with section 432 of the Compact, the United States and Palau reviewed their overall relationship. In 2010, the two nations signed an agreement updating and extending several provisions of the Compact, including an extension of United States financial and program assistance to Palau, and establishing increased post-9/11 immigration protections. However, the United States has not yet approved this Agreement or provided the assistance as called for in the Agreement.

(8) Beginning in 2010 and most recently on February 22, 2016, the Department of the Interior, the Department of State, and the Department of Defense have sent letters to Speaker of the House of Representatives and the President Pro Tempore of the Senate transmitting the legislation to approve the 2010 United States Palau Agreement including an analysis of the budgetary impact of the legislation.

(9) The February 22, 2016, letter concluded, “Approving the results of the Agreement is important to the national security of the United States, stability in the Western Pacific region, our bilateral relationship with Palau and to the United States' broader strategic interest in the Asia-Pacific region.”

(10) On May 20, 2016, the Department of Defense submitted a letter to the Chairmen and Ranking Members of the congressional defense committees in support of including legislation enacting the agreement in the fiscal year 2017 National Defense Authorization Act and concluded that its inclusion advances United States national security objectives in the region.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) to fulfill the promise and commitment of the United States to its ally, the Republic of Palau, and reaffirm this special relationship and strengthen the ability of the United States to defend the homeland, Congress and the President should promptly enact the Compact Review Agreement signed by the United States and Palau in 2010; and

(2) Congress and the President should immediately seek a mutually acceptable solution to approving the Compact Review Agreement and ensuring adequate budgetary resources are allocated to meet United States obligations under the Compact through enacting legislation, including through this Act.

(a) FINDING.—Congress makes the following findings:

(1) An increasing number of communities across New York have reportedly identified the presence of perfluorooctanoic acid (PFOA) and perfluorooctane sulfonates (PFOS), which can contaminate water and cause adverse health effects.

(2) According to reports, levels of PFOA and PFOS have been detected in the public and private water supplies in the cities of Newburgh and Plattsburgh and the towns of Hoosick Falls and Petersburg, New York. Public and private wells in these communities are being tested by the New York Department of Environmental Conservation (DEC) and the New York Department of Health (DOH).

(3) The Environmental Protection Agency (EPA) has identified PFOA as an “emerging contaminant,” and in 2009, the EPA issued an updated provisional health advisory for

drinking water of 70 parts per trillion for PFOA and PFOS.

(b) REPORT.—

(1) IN GENERAL.—Not later than September 1, 2016, the Secretary of the Air Force, in collaboration with the Administrator of the Environmental Protection Agency, shall submit to Congress a report on perfluorooctanoic acid (PFOA) and perfluorooctane sulfonates (PFOS) contamination at Stewart Air National Guard Base, Newburgh, Plattsburgh, Hoosick Falls, and Petersburg, New York.

(2) ELEMENTS.—The report required under paragraph (1) shall include the following elements:

(1) shall review the discharge characterization of covered members at the request of the covered member; and

(2) if such characterization is any characterization except honorable, may change such characterization to honorable.

(b) CRITERIA.—In changing the discharge characterization of a covered member to honorable under subsection (a)(2), the Secretary of Defense shall ensure that such changes are carried out consistently and uniformly across the military departments using the following criteria:

(1) The original discharge must be based on Don't Ask Don't Tell (in this Act referred to as "DADT") or a similar policy in place prior to the enactment of DADT.

(2) Such discharge characterization shall be so changed if, with respect to the original discharge, there were no aggravating circumstances, such as misconduct, that would have independently led to a discharge characterization that was any characterization except honorable. For purposes of this paragraph, such aggravating circumstances may not include—

(1) For each covered member discharged, the Separation Code, Reentry Code, Narrative Code, and Separation Authority shall not reflect the sexual orientation of the member and shall be placed under secretarial authority. Any other similar indication of the sexual orientation or reason for discharge shall be removed or changed accordingly to be consistent with this paragraph.

(2) For each covered member whose discharge occurred prior to the creation of general secretarial authority, the sections of the DD-214 form referred to paragraph (1) shall be changed to similarly reflect a universal authority with codes, authorities, and language applicable at the time of discharge.

Subtitle J—Open Government Data

SEC. 1097. SHORT TITLE.

(a) SHORT TITLE.—This subtitle may be cited as the “Open, Public, Electronic, and Necessary Government Data Act” or the “OPEN Government Data Act”.

SEC. 1098. FINDINGS; AGENCY DEFINED.

(a) FINDINGS.—Congress finds the following:

(1) Federal Government data is a valuable national resource. Managing Federal Government data to make it open, available, discoverable, and useable to the general public, businesses, journalists, academics, and advocates promotes efficiency and effectiveness in Government, creates economic opportunities, promotes scientific discovery, and most importantly, strengthens our democracy.

(2) Maximizing the usefulness of Federal Government data that is appropriate for release rests upon making it readily available, discoverable, and usable—in a word: open. Information presumptively should be available to the general public unless the Federal Government reasonably foresees that disclosure could harm a specific, articulable interest

protected by law or the Federal Government is otherwise expressly prohibited from releasing such data due to statutory requirements.

(3) The Federal Government has the responsibility to be transparent and accountable to its citizens.

(4) Data controlled, collected, or created by the Federal Government should be originated, transmitted, and published in modern, open, and electronic format, to be as readily accessible as possible, consistent with data standards imbued with authority under this subtitle and to the extent permitted by law.

(5) The effort to inventory Government data will have additional benefits, including identifying opportunities within agencies to reduce waste, increase efficiencies, and save taxpayer dollars. As such, this effort should involve many types of data, including data generated by applications, devices, networks, and equipment, which can be harnessed to improve operations, lower energy consumption, reduce costs, and strengthen security.

(6) Communication, commerce, and data transcend national borders. Global access to Government information is often essential to promoting innovation, scientific discovery, entrepreneurship, education, and the general welfare.

(b) AGENCY DEFINED.—In this subtitle, the term “agency” has the meaning given that term in section 3502 of title 44, United States Code, and includes the Federal Election Commission.

SEC. 1099. RULE OF CONSTRUCTION.

Nothing in this subtitle, or the amendments made by this subtitle, shall be construed to require the disclosure of information or records that are exempt from public disclosure under section 552 of title 5, United States Code (commonly known as the “Freedom of Information Act”).

(1)(A) The laboratory director shall pay each year the first \$2,000, and thereafter at least 20 percent, of the royalties or other payments, other than payments of patent costs as delineated by a license or assignment agreement, to the inventor or coinventors, if the inventor's or coinventor's rights are assigned to the United States.

(B) A laboratory director may provide appropriate incentives, from royalties or other payments, to laboratory employees who are not an inventor of such inventions but who substantially increased the technical value of the inventions.

(C) The laboratory shall retain the royalties and other payments received from an invention until the laboratory makes payments to employees of a laboratory under subparagraph (A) or (B).

(2) The balance of the royalties or other payments shall be transferred by the agency to its laboratories, with the majority share of the royalties or other payments from any invention going to the laboratory where the invention occurred. The royalties or other payments so transferred to any laboratory may be used or obligated by that laboratory during the fiscal year in which they are received or during the 2 succeeding fiscal years—

(A) to reward scientific, engineering, and technical employees of the laboratory, including developers of sensitive or classified technology, regardless of whether the technology has commercial applications;

(B) to further scientific exchange among the laboratories of the agency;

(C) for education and training of employees consistent with the research and development missions and objectives of the agency or laboratory, and for other activities that increase the potential for transfer of the technology of the laboratories of the agency;

(D) for payment of expenses incidental to the administration and licensing of intellectual property by the agency or laboratory with respect to inventions made at that laboratory, including the fees or other costs for the services of other agencies, persons, or organizations for intellectual property management and licensing services; or

(E) for scientific research and development consistent with the research and development missions and objectives of the laboratory.

(3) All royalties or other payments retained by the laboratory after payments have been made pursuant to paragraphs (1) and (2) that are unobligated and unexpended at the end of the second fiscal year succeeding the fiscal year in which the royalties and other payments were received shall be paid into the Treasury of the United States.

(b) DISPOSITION OF EXCESS ROYALTIES AND OTHER PAYMENTS.—If, after payments to inventors under subsection (a), the royalties or other payments received by an agency in any fiscal year exceed 5 percent of the budget of the agency for that year, 75 percent of such excess shall be paid to the Treasury of the United States and the remaining 25 percent may be used or obligated under subsection (a)(2). Any funds not so used or obligated shall be paid into the Treasury of the United States.

Any payment made to an inventor as such shall continue after the inventor leaves the laboratory. Payments made under this section while the

inventor is still employed at the laboratory shall not exceed \$500,000 per year and after the inventor leaves the laboratory shall not exceed \$150,000 per year to any one person, unless the President approves a larger award (with the excess over \$500,000 being treated as a Presidential award under section 4504 of title 5, United States Code).

(d) INVENTION MANAGEMENT SERVICES.—A laboratory receiving royalties or other payments as a result of invention management services performed for another Federal agency or laboratory under section 207 of title 35, United States Code, may retain such royalties or payments to the extent required to offset payments to inventors under subparagraph (A) of subsection (a)(1), costs and expenses incurred under subparagraph (D) of subsection (a)(2), and the cost of foreign patenting and maintenance for any invention of the other agency. All royalties and other payments remaining after offsetting the payments to inventors, costs, and expenses described in the preceding sentence shall be transferred to the agency for which the services were performed, for distribution in accordance with subsection (a)(2).
