Proposed Planning Subcommittee Assignments

FY 2015

The four topics below were selected by the Planning Committee as the four most important topics for which more detailed plans and actions should be developed for FY 2015 and the next biennium (FY 2016-2017).

1. **Enhancing Advising** (Beth Howard and Brian French would be primary resources)
   
   Matt Filer, Asa Hohman, Teresa Branch, Matt Riley

2. **Increasing Enrollment** (Sharon O’Hare would be a primary resource)
   
   Maggie Linder, Bill Johnston, Peggy Kuhr, Tom Gallagher, Jamie Stanton

3. **Becoming a top tier graduate and research university** (Scott Whittenburg would be a primary resource)
   
   Scott Whittenburg, Steve Lodmell, Kim Granath, Hugh Jesse

4. **Identifying big picture values to guide resource allocation**
   
   Jim Burchfield, Mike Reid, Mark LoParco, Mary Ann Bowman

Garrett Bryant will help each subcommittee to organize logistics for the subcommittee.

The task of each committee is to identify the actions for current implementation and FY 2016-2017 implementation to move the university forward in the specific topic. Actions and who has primary responsibility to implement them should be specified.

As the academic year progresses each subcommittee should develop a written report to the full committee about its recommendations and it also should be prepared to engage the full committee in discussion of the ideas presented. The first report will be made in the January 29th UPC meeting, and will be presented by subcommittee 4, “Identifying Big Picture Values to Guide Resource Allocation.”
