Thursday, March 26th, 2014
UC 332/33, 2:00-3:30 PM

The meeting began a few minutes late as the chair decided to wait for some last minute arrivals.

The meeting’s purpose was simple: to review and address updates to the Strategic Plan. The Provost advised the committee about how the process would work and the goals of the day’s meeting. The primary purpose of the meeting was to capture the planning subcommittee’s recommendations and make sure they were articulated in the Strategic Plan.

The committee then read through the Provost’s suggested updates to the Strategic Plan and provided feedback and criticism of the proposals. Several changes were made based off of these conversations.

At the conclusion of the group document review, the Provost agreed to send a revised and updated copy of Strategic Plan to the committee members that included the newly suggested edits.
