“Defining a 21st Century Education for a Vibrant Democracy” Conference
Monday, October 26-Tuesday, October 27, 2015
3rd Floor of the University Center

Over the course of a day and a half, this interactive conference will explore UM's role in creating a dynamic educational experience for today’s students. The first day will focus on important and timely issues in higher education, including general education, liberal education, global education, and workforce development. The second day will focus specifically on the UM-Missoula campus, looking at academic innovation and educational delivery. We hope to address the following questions:

- What is the role of a liberal arts education in today’s society?
- How do we prepare global leaders and address workforce needs?
- How can we continue to foster innovation at UM?

This conference is meant to be inclusive, and we encourage ALL staff, faculty, students, administrators, and community members to participate as their schedules permit.

Visit the conference website to register and to view the full schedule and lists of keynote speakers and panelists.
