PRINTING · WITH · TRADITION™

Since 1930

Quality

PRINTING • WITH • TRADITION™

From the beginning of time, people have expressed themselves and relayed information. The need to communicate has existed from stone walls to parchment, moveable type to computer screen. No less has this need existed in the world of education, more specifically, higher education.

Since 1930, University of Montana Printing has provided the means to communicate to the masses. Now, more than ever, the demands of the information age require universities to convey their message in an efficient and persuasive way. UM Printing & Graphic Services is here to meet that challenge and continue that tradition.

Commercial

The printing industry changes as quickly as the information technology itself, and UM Printing & Graphic Services is no exception. But there are some things you cannot replace and that is an undeniable history. Printing & Graphic Services has a long-standing tradition at The University of Montana.

Included in this information piece are tear-out note cards highlighting each of the affiliated campuses of The University of Montana (remove at perforation and fold in half). This is our way of showing how important we feel each of the satellite campuses are to UM as a whole. It's also a small way of thanking you for your continued patronage.

CAMPUS • CONNECTION

Printing & Graphic Services strives to efficiently and effectively support education, marketing and research at The University of Montana by reproducing quality documents, publications, and promotional materials through the use of traditional and digital printing services.

As part of The University of Montana, Printing Services is proud to be your on-campus printing specialists. We are a full-service printing, copying, and bindery production facility; a valuable resource for all your printing and imaging needs. If your department is in need of quality printing at a reasonable cost, give us a call! We will be able to assist you in communicating your message in a professional style. From designing your project to mailing it, we are here to work with you! Questions regarding the various services we offer are just a phone call away. If your project is of a special nature that we are unable to print for you, we will find the right resource that can. Printing & Graphic Services is proud of its history with The University of Montana.

WHY USE PRINTING & GRAPHIC SERVICES?

- **Convenience** - Printing & Graphic Services is dedicated to the University. You may bring your job to the production facility, or you can order online. Customer representatives will meet with you at your office or you can visit our Missoula campus office in the lower level of the Todd Building. We offer free delivery and pick up in Missoula, so you need not leave campus.
- **Printing Knowledge** – We are your on-campus printing professionals with more than 200 years of combined graphics and printing experience. Printing Services will assist, and provide technical support in all areas of printing, copying, mailing, graphics and digital services.
- **Cost-Effectiveness** – Printing Services evaluates and assesses every project for the most economical and efficient method of production.
- **Budget Recycling** – When you use our services, your funds are recycled through the University keeping the funds on campus to provide more and improved services to you.

By utilizing leading-edge technologies, Printing Services produces highly effective printing, copying and mailing projects at the best value. Printing Services is committed to serving the best interests of the University and thus enhancing the University's image, effectiveness, and development.

Printing & Graphic Services is familiar with the special requirements of the academic and campus communities. We are familiar with the requirements regarding recycled paper usage as well as the concern surrounding agency/departmental budgets and desire to cut costs.

Missoula, Montana

The University of
Montana and

THE UNIVERSITY OF MONTANA - MISSOULA
COLLEGE OF TECHNOLOGY

The University of Montana was founded in 1893 in the burgeoning pioneer town of Missoula, less than 90 years after Lewis and Clark and their Corps of Discovery explored the area. Since then, the University has nurtured a tradition of cultural and scientific exploration. Today, "The Discovery Continues" at UM – from a local, regional and global perspective into the next frontier of space.

Students receive a high-quality, well-rounded education and training for professional careers in the University's three colleges – arts and sciences, forestry and conservation, and technology – and six schools – journalism, law, business, education, pharmacy and the fine arts.

Located in the heart of western Montana's stunning natural landscape, UM is a magnet not only for top-notch teachers and researchers, but also for students from across the country and around the globe. A city within a city – with its own eateries, stores, medical facilities, banking and postal services, and zip code – UM has an increasingly diverse population and rich culture.

Discover your future at The University of Montana.

COMMUNICATION

Today's technology enables us to reach a worldwide audience. But to be effective, our message must make a personal connection with our intended audience. Printed materials carry your message. They are the touchable, tangible, personal connection between you and your customers.

Think of those materials as your tools. Tools that support your organization and department and reinforce all your other messages. Sometimes they're a first impression, a person's first exposure to your department or business, your philosophy, your services, your educational opportunities. You know what they say about first impressions.

They're important – first impressions and your printed materials. They must communicate your marketing message with quality, consistency, and accuracy. They must contribute to the success of your department or business.

*You're all professionals in your field.
You support higher education and the University system. We're printing professionals. We support you.
At Printing & Graphic Services our job is making your job easier.*

We make you look good as you are.

OUR • PEOPLE

The Printing & Graphic Services staff

More than 15 people of extraordinary talents make up Printing & Graphic Services. A few have attended The University of Montana as well as their children. They come to Printing & Graphic Services and The University of Montana and stay. One of the best places to work in Western Montana is a place where everyone aims for the same goal, no matter what their "job." The priority is the same from the front desk to the bindery department – your printing done within budget, on deadline, and with visual consistency for The University of Montana campuses. It sounds so simple, but without our dedicated people, it just couldn't happen.

You talk, we listen. Printing consultants and customer-service representatives know printing. Experts. Guides. Resources. Problem solvers. Craftspeople, artisans, professionals in all departments deliver an array of printing services available under one roof, on campus. Need advice? Technical support? That's what we're here for. Graphic Artists express and enhance your ideas to maximize your message. Make your audience sit up and take notice. Our team can get your job done. The people at Printing & Graphic Services take pride in our good work and in your success. We like to think they're related.

MontanaTech

THE UNIVERSITY OF MONTANA

Montana Tech has earned its reputation as a world-class institution by consistently producing dedicated, success-oriented students who excel in industry. We do this by focusing on challenging and innovative curricula that maximize hands-on learning opportunities.

Abundant opportunities for undergraduate research make Montana Tech unique for students pursuing math or science degrees. Tech grads have hands-on experience that sets them apart when applying for advanced degrees, working in research laboratories, or managing a classroom as a teacher.

Mission Statement:

To meet the changing needs of society by supplying knowledge and education through a strong undergraduate curriculum augmented by research, graduate education and service.

Vision Statement:

To be the leader for undergraduate and graduate education and research in the Pacific Northwest in engineering, science, energy, health information sciences, and technology.

OUR • TOOLS

MAYBE YOU LIKE TO KNOW EVERY WHO, WHAT, WHERE AND WHY OF YOUR PRINT JOBS. OR MAYBE YOU HAVE TOO MUCH ON YOUR PLATE TO DELVE INTO DETAILS. EITHER WAY, YOU'LL BE HAPPY TO KNOW PRINTING & GRAPHIC SERVICES HAS THE CAPABILITY TO HANDLE YOUR PRINT JOBS.

COLOR PRINTING

When it comes to full-color printing, Printing & Graphic Services has been, and continues to be, committed to investing in new technology. We purchased an automated four-color press to enhance your high-profile printed pieces.

Our large four-color press with sheet dryer is loaded with advanced electronic and spectrophotometric controls for amazing precision and speed. Our four-color press is a perfector, which means it can print two colors on both sides of the sheet in one pass. From art prints to stunning color brochures, newsletters and posters, and everything in between, we can print it.

SMALL PRESS PRINTING

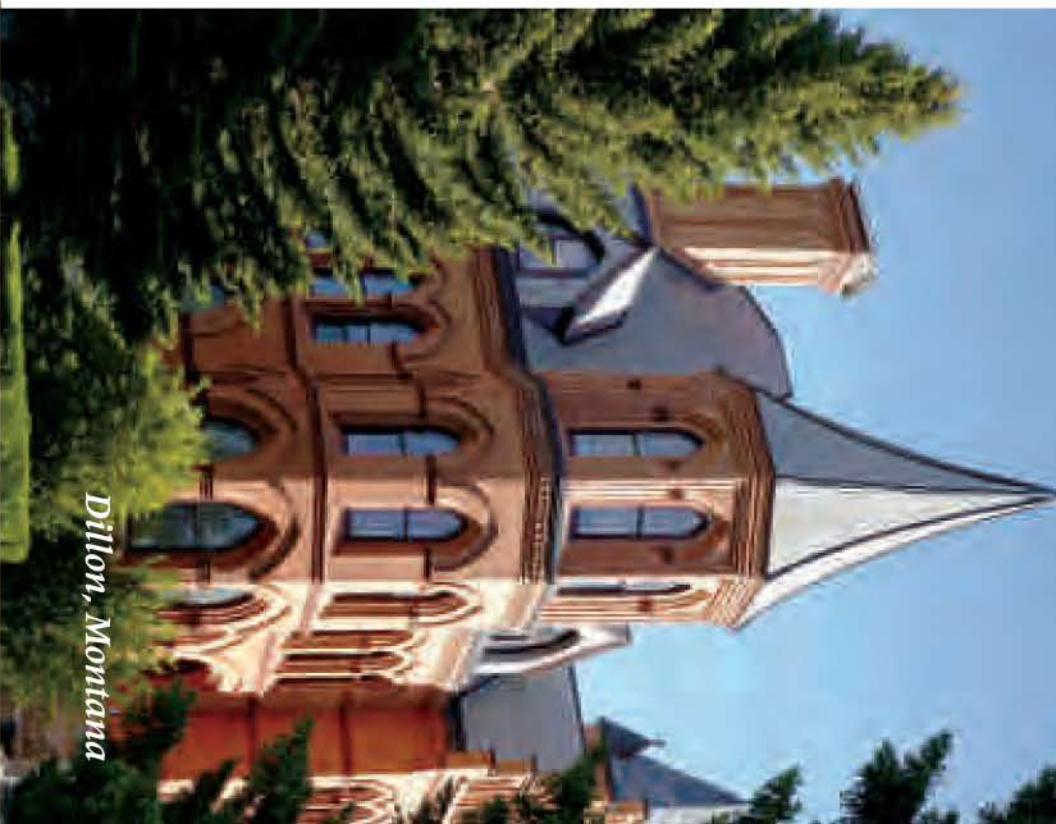

Not every job is a full-color job. We have a large two-color perfector press along with smaller presses to accommodate letterheads, envelopes, business cards, business forms, raffle tickets, and invitations more efficiently and economically.

WEB PRESS

Our large two-color web press produces newsprint catalogs, booklets and numerous paged documents. It's a very unique press since it folds, trims and delivers a finished printed product in a single pass. We are proud to work with the School of Journalism to print the Kaimin, The University of Montana's student newspaper. The Montana Kaimin, in its 108th year, is published by the students of The University of Montana, Missoula. The UM School of Journalism uses the Montana Kaimin for practice courses and Printing & Graphic Services provides a unique on-campus newspaper printing opportunity.

BINDERY

The ink's on the paper but your job is not done. Nearly every job needs "finishing." Trimming. Folding. Collating. Binding. Stitched — saddle or flat. Glued into pads. Printers call it all "bindery." Printing & Graphic Services has the bindery equipment to complete your job in-house.

All printing comes down to the quality of the dot, and our new computer-to-plate (CTP) system creates a superior dot, maintaining detail and color intensity. Color matching no longer requires a leap of faith. Our spectrophotometry equipment calibrates our color-proof maker and press to ensure the color you want is the color you get.

Printing & Graphic Services at The University of Montana has always shared the concern for environmentally friendly printing practices along with using recycled paper products. To complement this goal we are moving toward a chemical-free CTP process. We have successfully tested and achieved this state-of-the-art process and will be one of the leaders in this newest technology. We are proud to be part of this revolutionizing chemical-free process, which is a huge step for us and The University of Montana.

With our new CTP digital-plating system we have moved to a PDF workflow and invested in state-of-the-art software to make sure your printed projects are completed accurately and efficiently, in a fraction of the time. Our new PDF workflow enables our clients to send files electronically with minimal errors and with greater convenience. New software enables us to create ink-density files that are sent directly to our four-color press to ensure color consistency on the printed sheet and throughout the entire print run. These files are saved to be able to match the exact print color on repeat printing orders.

Whether the images in your printed pieces start out as prints, transparencies or negatives, our large scanner produces the quality, high-resolution scans that we demand for our clients.

When your job is done, it's cataloged and stored in our archive library. Our electronic file storage and back-up system protects your files so we can pick up exactly where we left off the next time you call. Need to reorder? Just call or e-mail us. Your document's on file.

GRAPHIC • DESIGN

It's not everyday that an in-house university printing service has its own graphic design studio, but UM Printing & Graphic Services provides just that – graphic design to campus.

Two full-time graphic artists lend their creative talents to making your project as dynamic as possible. Then they integrate it seamlessly into the printing process so that you end up with an attractive printed piece.

We are privileged to work with the latest computer design software such as PhotoShop, InDesign, CorelDraw and Illustrator, which allows us the means to produce up-to-date graphic design.

The award-winning Graphic Services also carries a rich tradition at The University of Montana and continues to strive to create a positive image of all entities of campus and its message through effective and innovative design.

Posters, flyers, brochures, annual reports, logos, signage. You name it, we can do it!

The University of Montana-Helena
COLLEGE OF TECHNOLOGY

The University of Montana–Helena College of Technology (UM-Helena) is a vibrant and growing center for higher learning, offering technical proficiency Certificates, Associate of Applied Science, Associate of Arts, and Associate of Science degrees, as well as study toward upper-level and graduate-level programs in cooperation with other Montana University System institutions. It is located in the thriving state capital city of Helena, well known for its high quality of life and accessibility to outdoor recreation. Our low student-to-faculty ratio, informal and friendly learning environment and affordable tuition make the college a smart choice for students seeking convenience, individual attention, and a quality education. UM-Helena has the tools to help students succeed.

Technology

The University of Montana Press publishes innovative works that possess freshness in art, language and theme. It supports and extends the intellectual, educational and public roles of the University through publications for academic and public audiences. A central aspect of the mission is the publication of works that address the history, culture, literature, and public policy of The University of Montana and Montana regions.

The University of Montana Press has embraced as its mission the obligation to disseminate scholarship of the highest standard and to publish serious works that promote education, foster public understanding, and enrich cultural life.

OUR • PROMISE

Gratitude

Printing & Graphic Service's people and tools are supported by a promise and a tradition of quality. A promise to work together to achieve the best product for you. A promise and tradition of fair dealing and open communication – knowing that your job, big or small, is today's priority. A promise and tradition of efficient use of your time and creative use of your ideas, our expertise, and everyone's resources. A promise and tradition to manage opportunities, prevent problems, accept challenges and promote higher education.

Pride

Not empty promises and not without tradition. Backed by more than 77 years of commitment to our customers and The University of Montana. Pride in our work. Gratitude for our good fortune.

Printing & Graphic Services thanks all of our customers for their continued support and The University of Montana campuses for the opportunity to be a part of their success. We appreciate being your in-plant printer and look forward to working with you in the future.
