Federal Law and Student Academic Records

Family Educational Rights and Privacy Act of 1974 (FERPA). FERPA defines the requirements for access to and release of student education records. Student education records are generally defined as records that are directly related to a student and are maintained by an educational institution. The University of Montana has designated certain parts of a student's education record as "Directory Information," which may be disclosed to third parties without the student's written permission unless the student requests non-disclosure at the Registrar's Office.

In general, education records that are not designated Directory Information may be disclosed only to the student unless the student provides written consent to disclose those records to other persons. However, disclosure of non-directory information may be made to (1) to parents or legal guardians of a student who is under 21 years of age and has been disciplined by the college for any alcohol or drug policy violations, and (2) to parents or legal guardians of a student who is in a health and safety crisis.
