I deserve this today, today I deserve it.

Check Before Leaving
Occasionally we have students who live with computer errors or viruses all summer come to us in August, saying that they have been living with these easily solved problems for months. Don’t do that. It’s better to check in with us before leaving for the summer! Stop by our Service Desk for a last minute tune-up. We’re located on the first floor of the UC, next to Jus Chillin’, and we are open Monday-Thursday 11:00am to 6:30pm, and Fridays 11:00am to 4:00pm. While our Service Desk is not open during the summer months, we will be open until the Friday of finals week – that’s May 12th. We will also be available for tech support during summer hours via appointment. If you have issues during summer, please call 406-243-2625 and we’ll help you out.

The Culture is Growing
Office culture is a major aspect of any working establishment. The people working in the office can be just as important as the work being done. Within a small window of time, I was able to experience an office where cultivating relationships is emphasized and where relationship bridging efforts establish community. While working at Student Affairs IT, I see the hard work that gets done as well as the determination from the staff to see a consistency in helpful tech support. In addition to the staff working hard to take care of the faculty and students on campus, they also excel in expressing the value they see in their employees. This encouragement has opened the door for the caring and friendly culture that I’ve seen at SAIT. From TEC’s to the full-time staff, there is a wonderful combination of interests that tie this community together. From encouraging words to humorous memes, the office culture at SAIT has been one that is unforgettable and is special for all those that get to participate in it. It’s an uncommon feeling to leave an office after finishing work and feeling better than when you first arrived, and that is what happens when working at Student Affairs IT.

Summer Hours
As this semester comes to an end, many of us are looking forward to our Summer plans. Our service desk will no longer be open for walk ups starting the end of finals week, Friday the 12th of May. If you will be living in Missoula over the break, Student Affairs IT will still be available to help with your technology problems! You are always welcome to give us a call at 406-243-2625 from 8:00AM to 5:00PM or email us at tec.supervisors@mso.umt.edu. If you would like to meet in person, please give us a call to schedule a time to have a TEC come meet you at our service desk in the University Center. Have a great Summer!

Contact Info
Student Affairs IT
Phone: (406) 243-2625, 8AM - 6:30PM
Monday-Thursday, Fridays 8AM - 5PM
Email: tec.supervisors@mso.umt.edu

Win Bear Bucks!
Each month we will be hosting a drawing to win a certificate to redeem $5 in Bear Bucks! To enter, send us a message on our Facebook page that states what popular movie or game is being quoted in this month’s 404 title. We will announce the winner on February 28th via Facebook!

Let us know what you think of the 404! Scan this QR code, fill out the short survey, and be entered in for another chance to win $5 in Bear Bucks!

Meet Your SAIT Staff!
Kobe Sagami
Greetings, I’m Kobe. I’m from the wasteland known as Kalispell but was born in Texas, y’all. I’m a second semester freshman currently checking off gen-eds for my Management Information Systems major. I’m not really sure what I want to do after college aside from hopefully making some cash. If I wasn’t pursuing money and did what I loved I’d be sitting at home playing video games all day. But, I’ve recognized that isn’t a way to live life so I’ve taken steps to become a valuable member to society by going to school, working at SAIT, and going to the gym! That doesn’t distract me entirely from gaming, though. In fact, I spend most of my free time on my computer waiting for a new MMORPG to come out any day now.

From Teh Googlez
• LEGO comes from the Danish word leg godt.
• LEGO is 83 years old.
• The company is 83 years old, but the interlocking LEGO blocks were manufactured from 1949.
