

Staff Senate passed two seconded motions at our December 13, 2017 meeting:

- To protect integrity, transparency, and shared governance, add "and a staff representative" to the sector head language within the ad hoc working group:
 - “Establish an ad hoc working group of sector heads [and a staff representative] to deliberate regularly to keep the planning efforts as a priority and ensure communication across the campus.

- With all decisions related to post-VSO realignment, employees must be fairly compensated if increases in scope of responsibilities and duties exist (based on HR policies).
 - Therefore, we strongly object to the inclusion of “To the extent possible, a moratorium will be placed on career ladders and submission of new role descriptions for the next 6 months.”
 - Staff Senate encourages all staff members to revisit their current role descriptions.
