NEW COURSE: INNOVATIONS FOR A POST COVID-19 WORLD

Society will be entering a new normal as a result of COVID-19. New innovations will emerge to meet the challenges of this new normal. This six-week, highly experiential, self-directed, online summer course will challenge you to **explore your ideas, develop leadership skills, and actually attempt to build something** (an initiative, a product, a business) that matters for the world we are living in now and the world of the future.

We will connect you to our network of Montana innovators, entrepreneurs and experts across a wide range of fields who will help you think outside the box and develop design thinking skills, problem-solving mindsets, and fast-paced critical thinking to **make a real impact** as a community leader, business leader, or entrepreneur.

Students from **any major and level** can explore the potential for innovation across a diverse range of interests including (but not limited to):

- Government
- Arts & Culture
- Science
- Health & Wellness,
- Climate Change
- Business
- Nonprofit
- Education

**JUL. 6- AUG. 14.**
