Assignment #3

Create an activity or a lesson plan that exposes children to their natural environment. The objective of this activity should be to help student develop a sensitivity to or awareness of their environment. Please outline the specifics of this activity. In addition, reflect on the purpose and outcomes of the activity. As always, be sure to tie in specific from our reading (i.e. chapter from Louv’s Last Child in the Wood) or an outside academic journal article.

Children’s Communication
Assignment Grading Criteria

*Your score on this rubric will be multiplied by 3 for a total score out of 15 points.

5 Responds to prompt in its entirety, applies and analyzes course concepts, refers to specifics from the reading or an outside credible source, applies relevant professional, personal, or other real-world experiences, and shows effort (at least two, double-spaced, typed pages).

4 Mostly responds to prompt, applies and analyzes course concepts, may fail to refer to specifics from the reading or an outside credible source, applies relevant professional, personal, or other real-world experiences, and more effort could have been made.

3 Partially responds to prompt, summarizes relevant course concepts, fails to refer to specifics from the reading or an outside credible source, contributes some professional, personal, or other real-world experiences that may or may not relate to course content, and more effort could have been made.

2 Partially responds to prompt, may or may not refer to relevant course concepts, fails to refer to specifics from the reading or an outside credible source, contributes some professional, personal, or other real-world experiences that may or may not relate to course content, and little effort has been made.
