FROM: Betsy Wackernagel Bach, Chair, Communication Studies

RE: Request to Designate Symbolic Systems for General Education Requirements for COMM Majors

Please be advised that faculty in the Department of Communication Studies have unanimously voted to require the Symbolic Systems sequence of MATH 117 and Statistics (MATH 241, PSYC 220; SOC 202 or HHP 486) for all COMM majors.

Please note that we also will encourage students to take foreign languages as well, particularly if they are doing our Rhetoric option.

If there is a form to complete to make this request, I will be happy to comply. I couldn’t find an appropriate form on the ASCRC website.
