Intra-campus MEMORANDUM

THE UNIVERSITY OF MONTANA

DATE: September 27, 2008
TO: G.G. Weix, Chair, ASCRC
FROM: David Patterson, Chair, Department of Mathematical Sciences
RE: Group III Symbolic Systems request

The Department of Mathematical Sciences requests that the Group III symbolic systems requirement be satisfied by “one MATH course of at least 3 credits numbered 131 or above, excluding courses numbered x90-x99 (for example, Math 195 and 291 do not count).” We have attached justifications for Math 131, 150, 152, 241, and 444. All other math courses numbered 131 or above have one of these courses as a prerequisite.
