Summary

Course Form Action: UPDATE  Catalog Year: 2016-2017
Prefix: AHXR  Course #: 195
Course Title: Radiographic Clinical: I
Course Dept.* MC: Health Professions
Default subcommittee review: Forestry & Biomedical Science (ASCRC)

If the course requires review by more than one subcommittee due to interdisciplinary content please select: Choose

Course Changes*

Please check one or more of the following and enter the corresponding changes in the course catalog details:

- Course Title
- Description
- Learning Outcomes
- Prerequisites
- Other
- Credits
- Level
- Course Number
- Repeatability

Justification/explanation*

For new courses please provide rationale for why the course is needed, how it fits with existing curriculum and whether there are curricular adjustments (see procedure 201.30.)

This course change is part of a proposed revision in Program Scope & Sequence. Under the proposal, didactic courses would be clustered in the first year, and clinical courses in the second year (with the exception of this course, AHXR 195 Clinical I, which would be reduced to 2 credits). This would eliminate overlapping clinical rotations among first and second-year students, reducing crowding at clinical sites and enhancing student success.

Course Information

Current Course Catalog

Prefix: AHXR  Course #: 195
Full Title: Radiographic Clinical: I
Short Title: Radiographic Clinical: I
Level: U
Credits: 1 TO 12
Brief Course Description with Prerequisites* (R-20) Offered over two semesters throughout the Radiology Technology program, beginning Spring semester. Students will begin with an introduction to patient management and basic radiographic procedures. The final semester offers opportunities in advanced patient management skills and experience with highly skilled radiographic procedures. Each semester builds on the previous semester.

Exact Entry to appear in the next catalog

Prefix: AHXR  Course #: 195
Full Title: Radiographic Clinical: I
Short Title: Radiographic Clinical: I
Level: U
Credits: 1 TO 14
Brief Course Description with Prerequisites* (R-20) Offered over two semesters throughout the Radiology Technology program, beginning first year, Spring semester. Students will begin with an introduction to patient management and basic radiographic procedures. Other affected programs

Does this proposal affect other departments/programs because of:

• required courses including pre-requisites or co-requisites?
• perceived overlap in content areas?
• cross-listing of course work?
• program offers a teaching major or minor (choose Professional Education Council)?

If yes, click ADD and enter all affected departments/programs. If no, go to the next section.
