### Justification/explanation*

For new courses please provide rationale for why the course is needed, how it fits with existing curriculum and whether there are curricular adjustments (see procedure 201.30.)

This course change is part of a proposed revision in Program Scope & Sequence. Under the proposal, didactic courses would be clustered in the first year, and clinical courses in the second year. This would eliminate overlapping clinical rotations among first and second-year students, reducing crowding at clinical sites and enhancing student success.
