V. CATALOG LANGUAGE

Attach the current catalog language with the proposed changes clearly identified.

VI. JUSTIFICATION

AHST 202 Surgical Procedures II (5 credits) has been offered spring semester for a decade or more and has been routinely taken by graduates during their final semester, but the program requirements do not indicate this and the course catalog does not show it as a requirement of the program. It is, in fact, an addition to the AHST 201 Surgical Procedures I (4 credits) course offered each fall semester and an essential part of Surgical Technology curriculum required for accreditation.

This class is offered spring semester and is described as such:
- AHST 202 - Surgical Procedures II
Credits: 5. A study of surgical procedures following the patient through the preoperative, intraoperative, and postoperative stages of Cardiovascular, Thoracic, Orthopedic, Neurological, and Ophthalmic specialties.

VII. SUBMISSION

After all signatures have been obtained, submit original, and an electronic file to the Faculty Senate Office, UH 221. An electronic copy of the original signed form is acceptable.
