

# 2025-26 UNIVERSITY OF MONTANA ACADEMIC CATALOG

---

What's made at the University of Montana is remaking the world.

Founded in 1893, the University continues to reinvent the world as we know it through the courageous creativity of those who call it home.

Today, Montana is proud to have over 11,000 Grizzlies across a variety of studies, including undergraduate and graduate programs and technical certifications, all of whom contribute their passion and practicality toward stewardship and sustainability for the world around us. A top-ranked research university, Montana's impact is felt locally and globally, with Grizzlies going on to find success abroad as Rhodes Scholars and at home as Truman, Goldwater, and Udall Scholars. Known for unbridled curiosity and creativity unmatched on either side of the Rockies, the University of Montana strives to be both accessible and accountable — respected worldwide and responsive at home.

## Disclaimer

The University of Montana and its colleges and schools reserve the right to change the rules, the calendar regulating admission and registration, the instruction in and the graduation from the University and any other regulations affecting the student. The University also reserves the right to withdraw or adjust courses and programs as they appear in the catalog at any time. Please direct questions about the catalog and the information contained within to the Office of the Registrar or to the appropriate academic department.

# TABLE OF CONTENTS

|                                                                 |    |                                                           |     |

# ACADEMIC POLICIES, UNDERGRADUATE ADMISSIONS, AND ADVISING

- Undergraduate Admission (p. 12)
- Academic Policies and Procedures (p. 25)
- Degree and Certificate Requirements for Graduation (p. 36)
- General Education Requirements (p. 39)
- Academic Advising & Academic Support Services (p. 52)
- Office for Student Success (p. 54)

## Undergraduate Admission General Information

Undergraduate students are students who have graduated high school but have not yet been awarded a bachelor's degree. In addition, students who have already received a bachelor's degree and are returning to school for another undergraduate certificate, two-year, or four-year degree are also considered undergraduate students.

Applications for admission to undergraduate programs are managed by the Office of Undergraduate Admissions. The specific requirements for admission are outlined in the sections below. Applications are accepted from Montana residents, non-residents, and international students. Eligible undergraduate students may enroll either full-time or part-time. The University of Montana reserves the right to establish admission requirements that promote academic success.

### When to Apply: Dates and Deadlines

- University of Montana processes applications year-round.
- Applicants are encouraged to submit their applications 6-8 months prior to the start of the term of admission to ensure adequate time to arrange housing and financial aid, secure academic credentials, register for courses and attend orientation.
- **Recommended Application Deadlines:**
  - Autumn Semester: November 1
  - Spring Semester: October 1
  - Summer Semester: April 15
- **Final Application Deadline:**
  - One week before the start of the term. See the Undergraduate Admissions website (<https://umontana.edu/how-to-apply/dates-and-deadlines.php>) for specific dates.
- See International Student Admission for international application deadlines

### Admission Deferral Policy

- All applications are kept on file for one full academic year from the original application term (e.g., an application for Autumn 2024 may be updated to Autumn 2025).
- Applicants may defer their term or update their application during this one-year period without reapplying.
- After one year, a new application, application fee, and all required academic documents must be resubmitted.
- Scholarship offers are not deferred beyond the current academic year. Incoming student scholarships are evaluated annually.

- Applicants must inform the Office of Undergraduate Admissions of any changes to their original application. Most changes can be submitted via the online Admitted Student Portal.

### Accessing the Application

- The online application can be accessed via the Office of Undergraduate Admissions (<https://umontana.edu/apply.php>) website. Applicants should look for the application specific for their applicant type:
  - Freshmen, Transfer and Post-baccalaureate, and International: Apply Montana (<https://applymontana.mus.edu/>) or CommonApp (<https://www.commonapp.org/explore/university-montana/>).
  - Non-degree and Readmission: See "Other Applicants (<https://umontana.edu/how-to-apply/process/other-applicants.php>)."
- Application Fee: \$30
- The application fee is waived for Montana residents, active military personnel, and Veterans.
- NACAC and SAT fee waiver forms are accepted with appropriate documentation.

## Applicant and New Student Services

The following resources can be helpful to prospective and new students:

### Visitor Services

- Campus visits (<https://umontana.edu/visit.php>)

### Financial Aid/Cost of Attendance

- Scholarships (<https://umontana.edu/how-to-apply/scholarships.php>)
- Financial Aid (<https://www.umt.edu/finaid/>)
- Western Undergraduate Exchange (WUE) (<https://www.umt.edu/finaid/scholarships/non-resident-scholarships-for-entering-students/>)
- Residency Classification for Tuition Purposes (<https://www.umt.edu/admissions/residency.php>)

### Accessibility and Inclusion

- Office of Disability Equity (ODE) (<https://www.umt.edu/disability/>)
- UM Diversity Initiatives (<https://www.umt.edu/diversity/>)
- Military and Veterans Services Office (MVS) (<https://www.umt.edu/veterans/default.php>)

### Immunizations and Housing

- UM Housing (<https://www.umt.edu/housing/>)
- Immunization Requirements (<https://www.umt.edu/curry-health-center/new-students/default.php>)

### New Student Course Registration and Orientation

- Freshmen Core Course Registration ([https://www.umt.edu/office-student-success/for-students/freshmen\\_course\\_registration.php](https://www.umt.edu/office-student-success/for-students/freshmen_course_registration.php))
- Course Placement Exams:
  - Math Placement (<https://www.umt.edu/office-student-success/for-students/mathplacement/default.php>)
  - Writing Placement (<https://www.umt.edu/office-student-success/for-students/writplacement/default.php>)
  - Foreign Language Placement (<https://www.umt.edu/world-languages-culture/student-resources/language-placement.php>)

- Chemistry Placement (<https://www.umt.edu/office-student-success/for-faculty-staff/placement.php>)
- New Student Orientation (<https://www.umt.edu/orientation/>)

## Dual Enrollment

Dual enrollment is designed to provide Montana high school students with the opportunity to earn college credit through Missoula College.

UM Missoula College and local high schools work together to provide these opportunities to their students. Check with your high school counselor to see if your school offers dual enrollment with Missoula College.

For more information see Missoula College Dual Enrollment Program (<https://www.umt.edu/missoula-college-dual-enrollment/>)

## Contact Information

University of Montana

Office of Undergraduate Admissions

Gilkey Center, 950 Arthur Avenue, Missoula, MT 59812

Main line: 406-243-6266

Toll-free: (800) 462-8636

Email: [beagriz@umontana.edu](mailto:beagriz@umontana.edu)

## Standardized Tests

SAT or ACT scores are not required for general admission if a student can show high school completion or the equivalent. However, students who have taken these tests are encouraged to submit their scores for course placement purposes. Individual programs or scholarships, such as the Davidson Honors College scholarships, may require SAT or ACT scores. Students are advised to consult program websites for more information.

## Conditional Admission

UM Mountain Campus applicants who do not meet academic eligibility requirements may be considered for conditional admission. Students must show evidence of potential for success at UM to be considered for conditional admission.

Students considered for conditional admission will be asked to supply an up-to-date unofficial academic transcript. Students may also submit for consideration other supporting documentation not available in the initial application, such as:

- academic improvement plans
- letters of recommendation
- personal statement
- evidence of supplemental coursework
- standardized test scores
- documentation from healthcare provider

Students admitted to UM conditionally will be granted full admission after completing 24 credits with a grade point average of at least 2.0. Students are expected to complete the 24 credits within two semesters, but must complete them within three semesters. In cases where academic preparation falls well below the general preparation or GPA standards for the admission type, applicants will be directed to

the Missoula College where courses can be taken to strengthen their preparation for success at the University of Montana.

International undergraduate applicants who meet academic eligibility requirements but who do not meet the English language proficiency requirements for undergraduate admission will be considered for international conditional admission. See International Conditional Admission (Pathway Program)

## Special Enrollment Processes and Limitations

### Intra-Campus Transfer

- Students transferring from Missoula College or Bitterroot College to the UM Mountain Campus must meet the academic eligibility requirements of UM Mountain Campus.
- Transfers between UM campuses may affect scholarship, financial aid eligibility, tuition assessment, and registration.
- Students enrolled full-time at one campus can take a maximum of six credits at another campus without changing campus enrollment.

### Procedure for Intra-Campus Transfer

- For students never previously enrolled at the transfer-to campus:
  - Complete an Admission Change Form from the Admitted Student Portal (<https://www.umt.edu/admissions/admitted-student-checklist/default.php>) (new students).
  - Complete the Intra-Campus Transfer Form (<https://www.umt.edu/registrar/forms/default.php>) and submit to the Office of Undergraduate Admissions (continuing students).
- For students previously enrolled at the transfer-to campus:
  - Complete the Intra-Campus Transfer Form (<https://www.umt.edu/registrar/forms/default.php>) and submit to the Office of the Registrar.

## Programs Leading to Professional Licensure

As required by federal regulations (34 CFR §668.43) and in compliance with the State Authorization Reciprocity Agreements (SARA) Manual, the University of Montana indicates for each state whether the curriculum of a program meets or does not meet the educational requirements for licensure or certification in that state or indicates that no determination has been made.

The University of Montana cannot guarantee any state licensure or certification authority will approve or deny an application for licensure. Furthermore, disclosures provided by UM may not account for changes in state requirements. Current and prospective students are encouraged to contact their state's licensure authority or review the University of Montana Professional Licensure page (<https://www.umt.edu/provost/students/professional-licensure/default.php>) for all licensure and certification requirements pertaining to their state.

## Risk Assessment

The University of Montana-Missoula reserves the right to deny or condition admission, readmission, or continuing enrollment if an individual is deemed to present an unreasonable risk to campus safety and welfare. Factors considered include:

- History of violence or destructive tendencies
- Behavioral issues on other college campuses
- Rehabilitative therapy completion.

## Admissions Review (Safety & Security)

- No applicant's admission may be barred automatically, solely by reason of a criminal conviction, if state supervision has terminated, or solely by reason of a youth court adjudication.
- The admissions officer reviews applicants for academic eligibility and may refer an application to the Office of the Vice President for Student Success and Enrollment Management if there are concerns about an applicant's potential risk to campus safety and welfare. The Office of Community Standards will then request any additional necessary documentation.
- Additional information may be requested in cases involving:
  - Felony convictions
  - Adjudications of being a danger to others or self
  - Suspensions or expulsions for disciplinary reasons from other educational institutions
  - Other factors suggesting the applicant may present an unreasonable risk to the campus

## Direct Admission to Departmental Programs

Departments reserve the right to set additional admission standards for direct entry to their programs. Students are advised to check the respective academic department websites for more information on program-specific admission requirements.

Applicants seeking direct entry to selective programs will be reviewed for general admission to the university through the Office of Undergraduate Admissions. The Office of Undergraduate Admissions will admit the student to the appropriate pre-major program or pre-professional advising track. Application for direct entry to the degree program is an additional, separate process administered by the academic department. The student should consult the department website and work with their assigned academic advisor to understand program-specific application procedures.

## Distance Education

Distance status is designed for students who are registering for completely online courses only.

Students seeking to study fully online must meet the same admission requirements as students studying on campus.

Fully online students are not required to meet immunization requirements. Students who change their status to include some or all on-campus classes will be required to submit immunization records.

## Application Completion

Admission to University of Montana is based on self-reported educational accomplishments provided at the time of application. All admission offers are conditional upon verifying the accuracy of self-reported information through official documentation.

The Office of Undergraduate Admissions retains the right to rescind an offer of admission or change a student's campus if final official transcript(s) show that a student is no longer eligible for admission or that the student misreported academic accomplishments at the time of application.

## Completing an Application File

To complete an application file, an admitted student must submit final official copies of all transcripts.

- "Final" means that all coursework is complete and all final grades have been assigned and posted on the transcript. High school transcripts must show the graduation date, which must be prior to the transcript print date.
- "Official" means that the transcript has been issued directly to the Office of Undergraduate Admissions by the previous institution and has not been in the student's possession, except in cases where a transcript is issued to a student in a sealed envelope and the envelope remains unopened. In such cases, the student must submit the transcript to the Office of Undergraduate Admissions in the original, sealed envelope.

Transcripts submitted by the student or student's parent, except in cases where the transcript remains in the original, sealed school envelope, are not considered official and will not be accepted to meet this application completion requirement.

Only electronic transcripts submitted via an approved transcript clearinghouse (i.e. Parchment, National Student Clearinghouse) will be accepted as official. Faxed transcripts are not accepted, except for MACRAO fax from MUS institutions.

Students should request that transcripts be sent to the following address:

Office of Undergraduate Admissions

University of Montana

Gilkey Building

950 Arthur Avenue.

Missoula, MT 59812

beagriz@umontana.edu

Application files still missing final transcripts by the 15<sup>th</sup> class day for the first term of enrollment will be considered incomplete. Students will be notified and course registration will be restricted for future terms until the required documents have been submitted.

## Freshman (First-Time Undergraduates) Admission

Freshman students are those who have completed high school or its equivalent and who have completed fewer than 12 college-level semester credits at another institutionally recognized (<https://mus.edu/borpol/bor300/301-5.pdf>) college or university after high school graduation. Students who have earned any college-level course credit or advanced credits before graduating from high school are also considered incoming freshmen.

## Academic Eligibility

The following admission standards are relevant for new, first-time freshmen.

## Admission to Missoula College & Bitterroot College Undergraduate Degree Programs (2-year) and Certificates

Freshmen meeting at least one of the following requirements are eligible for admission to Missoula College:

- High school graduation from a high school accredited by a state accrediting agency, or

- high school equivalency completion assessment (GED or HiSET) with a minimum passing overall score, or
- ACT composite score of 19, or
- SAT combined score of 1010

## Admission to UM Undergraduate Degree Programs (4-year) and Certificates

### General Preparation

Freshmen students seeking first-time full-time general entry to UM's four-year degree and certificate programs must have received or be on track to receive a high school diploma or high school equivalency certificate and meet at least one of the following requirements:

- a minimum 2.50 cumulative high school grade point average, or
- a class rank in the upper half of their high school graduating class, or
- a minimum HiSET combined score of 50, or
- a GED combined score of 580 (minimum passing overall score).

Alternatively, freshmen students who have not completed a high school diploma or high school equivalency may demonstrate academic eligibility with one of the following:

- a minimum ACT composite score of 22, or
- a minimum SAT combined score of 1120

AND

Successful completion of the following college preparatory program:

- Four years of English.
- Three years of math, including Algebra I, Geometry and Algebra II (or the sequential content equivalent of these courses). Students are encouraged to take a math course in their senior year.
- Three years of social studies, including global studies (i.e. world history or world geography); American history; and government, economics, American Indian history or other third year courses.
- Two years of laboratory science. One year must be earth science, biology, chemistry, or physics; the other year can be one of those sciences or another approved college prep laboratory science.
- Two years chosen from the following:
  - foreign language (preferably two years), or
  - computer science, or
  - visual and performing arts, or
  - vocational education units.

Students must also meet minimum proficiency scores in Math and English.

Students must demonstrate a minimum math proficiency score of:

- 22 on the ACT Math section, or
- 27.5 on the SAT Math test, or
- 3 or above on the AP Calculus AB or BC subject examination, or
- 4 on the International Baccalaureate (IB) calculus exam, or
- 50 or above on the CLEP subject examinations in selected topics [college algebra, college algebra-trigonometry, pre-calculus, calculus, or trigonometry]

In lieu of the above score requirement, students can complete a rigorous high school core including four years of mathematics in high school (Algebra I, Algebra II, Geometry & a course beyond Algebra II) and three years of laboratory science; or three years of mathematics including a

course beyond Algebra II and four years of laboratory science with grades of C or higher.

Students must meet a minimum Writing Proficiency score of:

- 18 on the Combined English/Writing section of the Optional Writing Test of the ACT, or
- 7 on the Writing Subscore of the ACT, or
- 25 on the Writing and Language test of the SAT, or
- 3 on the AP English Language or English Literature Examination, or
- 4 on the International Baccalaureate (IB) Language A1 Exam, or
- 50 on the CLEP Subject Exam in Composition, or
- 3.5 on the Montana University System Writing Assessment.

In lieu of the above score requirement, students can demonstrate a cumulative high school GPA of 3.0 or higher or a cumulative high school GPA of 2.5 or higher AND a course grade of C or better in the 11<sup>th</sup> grade English course.

Freshmen who meet general preparation requirements but who have not demonstrated Math and English language proficiency levels at the time of admission will be provisionally admitted. They will be required to sit for placement testing prior to first-term registration. Students who do not meet Mathematics and Writing proficiency requirements after testing will be advised to enroll immediately in Math and Writing coursework and will be encouraged to complete that coursework in their first 30 credits.

### Eligibility Exemptions & Special Circumstances

- Non-traditional Freshmen (students who do not enter college for a period of at least three years from the date of high school graduation or from the date when they would have graduated from high school) are exempt from the general preparation and Math and English language proficiency requirements for bachelor's degree programs listed above.
- Freshmen with non-traditional or exceptional academic backgrounds and who do not meet one or more general preparation requirements may be eligible for conditional admission to UM and may be encouraged to submit materials beyond what is required to provide a holistic and accurate picture of their academic preparedness. See Conditional Admission. Home school students and students in unaccredited high schools are strongly encouraged to submit SAT or ACT or high school equivalency test results in addition to other required materials.
- Students younger than 17 at the time of application will be reviewed for both academic and social-emotional preparedness for full-time study. They may be asked to supply additional materials to demonstrate their preparedness for college attendance.

## How to Apply

A complete application to the University of Montana consists of the following items. It is the responsibility of the applicant to ensure that all documents are submitted properly and on time. Applicants must initiate requests to have final credentials sent to the University of Montana. *Credentials that have been opened, faxed or emailed by the student or parent or submitted in an unsealed envelope are considered unofficial copies and will not be accepted to meet official documentation requirements.*

### Required Documents:

#### 1. Admission Application:

- The online application is available via the Office of Undergraduate Admissions website (<https://www.umontana.edu/apply/>).

- Applicants unable to access the online application should contact the Office of Undergraduate Admissions.
- Ensure the application is fully completed and signed before submission.

## 2. Application Fee:

- A non-refundable fee of \$30 is required with your application.
- This fee is payable once at the undergraduate level if followed by enrollment.
- Payment records are kept on file for one year for those who do not enroll immediately.
- The application will not be processed until the fee is paid.
- Application Fees are waived for Montana residents, Veterans and active military personnel.

## 3. Final High School Transcript:

- A final transcript must be sent directly from the high school to the Office of Undergraduate Admissions after graduation.
- The transcript must include the graduation date and final GPA.
- Transcripts are essential for verifying eligibility for admission and scholarships.

## 4. Immunization Records:

- All students, with the exception of students who are registered as fully online, must submit immunization records prior to the start of the first term of enrollment.
- It is crucial that the immunization record is complete, accurate, and validated by a health official.

## Additional Documents (if applicable):

### 5. ACT/SAT Scores:

- While optional in most cases, ACT/SAT scores can be submitted to assist with admission decisions and academic placement.
- To qualify a student for admission using ACT or SAT scores, an official copy of the score report should be sent directly from the testing agency or included on an official high school transcript.
- Score reports submitted directly by students or parents are acceptable only for use in course placement and are not sufficient for admission purposes.

### 6. College/University Transcripts:

- Applicants with prior college or university attendance (including dual enrollment or early college credit) must send official transcripts from each institution directly to the Office of Undergraduate Admissions after all final grades are posted.
- For electronic transcript submissions, institutions should use a secure transmission service (i.e. Parchment or National Student Clearinghouse).

### 7. Advanced Credit

- Applicants should request that official scores for advanced exams (e.g. AP exams or IB exams) be sent directly to the Office of Undergraduate Admissions.
- See the Office of Undergraduate Admissions website ([https://www.umt.edu/admissions/admission-requirements/advanced-](https://www.umt.edu/admissions/admission-requirements/advanced-credits/default.php)

[credits/default.php](https://www.umt.edu/admissions/admission-requirements/advanced-credits/default.php)) for more information on credit award for advanced credit exams like IB and AP.

## Important Notes:

- Ensure all documents are submitted by the stated deadlines.
- Incomplete applications may result in delays or non-consideration for admission.
- Contact the Office of Undergraduate Admissions for any questions or clarification needed during the application process.
- **Home School Students:** Students graduating from a home school or unaccredited high school should follow the application procedures for Home School Admission (<https://www.umt.edu/admissions/admission-requirements/other-applicants.php>) on the Admissions website.
- **High School Equivalency:** Students completing a High School Equivalency assessment (HiSET or GED) should follow the application procedures for Traditional Freshmen with GED/HiSET (<https://www.umt.edu/admissions/admission-requirements/freshman-requirements.php>) on the Admissions website.
- **Dual Enrollment Credit:** Dual enrollment/Early College credits are not used in the determination of applicant status (MUS DE Guidelines, Section 6), but they are used in the determination of a student's Satisfactory Academic Progress (<https://www.umt.edu/finaid/maintaining-eligibility/SAP/>) at UM.
- **UM Dual Enrollment Students:** Admission to the UM-Missoula College Dual Enrollment program does not imply admission to UM, Missoula or Bitterroot College undergraduate programs. Current or former UM-Missoula College Dual Enrollment students must complete application procedures for Freshmen to be considered for undergraduate admission. Dual enrollment credit awarded from UM-Missoula College is included in the student's UM academic record and submission of the UM transcript is not required.

## Transfer Admission Academic Eligibility

Transfer applicants must meet the following criteria to be eligible for admission to the University of Montana (UM) Mountain campus:

- **GPA Requirement:** A minimum cumulative GPA of 2.0 (on a 4.0 scale) for all college-level coursework completed after high school.
- **Credit Requirements:** Twelve or more university-level (non-remedial) semester credits earned after high school at institutions whose accreditation is recognized by the Montana University System (MUS) (Policy 301.5 (<https://mus.edu/borpol/bor300/301-5.pdf>)).
- Transfer applicants who have completed less than twelve university semester credits will automatically be reviewed based on freshmen requirements.

## How to Apply

To apply for transfer admission, students must submit the following documents:

### Required Documents:

#### 1. Admission Application:

- Complete and submit the online application available on the Admissions website (<https://umontana.edu/how-to-apply/process/undergraduate.php>). Applicants unable to access the online application should contact the Office of Undergraduate Admissions.

- Ensure the application is fully completed and signed before submission.

## 2. Application Fee:

- A non-refundable fee of \$30 is required with your application.
- This fee is payable once at the undergraduate level if followed by enrollment.
- Payment records are kept on file for one year for those who do not enroll immediately.
- The application will not be processed until the fee is paid.
- Application Fees are waived for Montana residents, veterans, and active military personnel.

## 3. College/University Transcripts:

- Applicants must send an official transcript from each institution attended after high school directly to the Office of Undergraduate Admissions.
- For electronic transcript submissions, institutions should use a secure transmission service.
- A student transferring from a Montana University System institution can request a Single Admissions File (<https://www.mus.edu/transfer/SingleAdmFile.html>) ("Transmittal") to meet the transcript requirement. The transmittal will include copies of all official transcripts, as well as immunization records and test scores previously submitted.

## 4. Immunization Records:

- All students, except those registered as fully online, must submit immunization records prior to the start of the first term of enrollment.
- The immunization record must be complete, accurate, and validated by a health official.

## Additional Documentation (if applicable)

### 5. Dual Enrollment Transcripts:

- While not required at the time of application, official dual enrollment or early college transcripts must be sent from each institution directly to the Office of Undergraduate Admissions prior to enrollment.
- For electronic transcript submissions, institutions should use a secure transmission service.

### 6. Advanced Credit:

- Upon admission, applicants should request that official scores for advanced exams (e.g., AP, IB, CLEP, DSST) be sent directly to the Office of Undergraduate Admissions.
- More information on credit awards for advanced options and credit for prior learning is available on the Admissions website.

## Important Notes:

- Deadlines and document submission requirements are outlined in the General Admissions requirements section of the catalog.
- Dual enrollment/Early College credits are not used in the determination of applicant status, but they are used in the determination of a student's Satisfactory Academic Progress (<https://www.umt.edu/finaid/maintaining-eligibility/SAP/>) at UM.

# Transfer Credit Evaluation

At the University of Montana the Office of Undergraduate Admissions is responsible for transfer credit evaluation for undergraduate students in cooperation with academic departments. Below are details on how transfer credits are evaluated, the types of credits accepted, and the steps for requesting a review or re-evaluation of your transfer credits.

## Definitions

- **Transfer Course Evaluation:** The process by which the University of Montana reviews and assesses courses completed at other institutions to determine their equivalency to UM courses. This evaluation includes verifying the academic level, content, and credit value of the courses to establish how they will be credited towards the student's degree requirements at UM.
- **Credit Articulation:** The formal recognition and recording of transfer credits by the University of Montana. This process involves converting evaluated transfer courses into UM equivalent courses or General Education credits and recording them in the student's academic record.
- **Transfer Rules:** The set of guidelines and equivalency standards used by the University of Montana to determine how courses completed at other institutions translate to UM courses. These rules are established through the Transfer Course Evaluation process and are periodically reviewed for accuracy and relevance.
- **Course Equivalent:** A course equivalent refers to a course completed at another institution that is recognized as having substantially similar content, level, and learning outcomes to a course offered at the University of Montana. This recognition allows the transfer course to fulfill the same academic requirements as the UM course.
- **Credit for Prior Learning (CPL):** Credit for Prior Learning, previously known as Prior Learning Assessment (PLA), refers to the recognition and awarding of academic credit for college-level knowledge and skills gained outside the traditional academic environment. This can include learning acquired through work experience, military service, professional certifications, independent study, and other non-collegiate educational experiences. The credit is granted based on an assessment that the prior learning meets the standards and requirements of University of Montana's academic programs.
- **Course Substitution:** Course substitution is the process by which a student is allowed to replace a required course in their degree program with a different course that has similar content and rigor. Unlike course equivalents, which are established by the Office of Undergraduate Admissions to apply broadly to all students and involve the establishment of Transfer Rules, course substitutions are approved on a case-by-case basis by the relevant academic department. This process is specific to individual students and does not involve the Office of Undergraduate Admissions or result in changes to Transfer Rules.

## Transfer Course Evaluation and Credit Articulation Policies

### Transfer Course Evaluation

- The Office of Undergraduate Admissions determines whether courses are college-level, appropriate grading and credit conversion, and applicability towards UM's General Education requirements.
- College-level courses are courses that are applicable toward an Associate's or Baccalaureate Degree at UM or Missoula College. College-level credits from institutions accredited by one of the accrediting agencies listed in the Montana Board of Regents Policy

301.5 (<https://mus.edu/borpol/bor300/301-5.pdf>) are deemed to be transferable.

- Credits from institutions that are candidates for accreditation by one of the listed agencies are accepted after the student completes 20 semester credits with a 2.0 GPA at UM.
- Credits from remedial or developmental courses, or from non-accredited schools, are not applicable toward a degree and will not be accepted. See the Appeal of Admission Decisions section for more information.
- Credits from institutions outside the U.S. may be transferrable if the institution and academic program are recognized by the country's Ministry of Education. Students with international credentials must submit them for independent credential evaluation before UM can determine eligibility for credit transfer. See the International section for information on submitting non-U.S. transcripts for international credit evaluation.
- The Office of Undergraduate Admissions reviews all transfer courses at the time of admission for newly admitted students and when requested through Transferology for current and prospective students. Priority for review of evaluation requests made through Transferology will be given in the following order: current students within one semester of graduation, current students not within a semester of graduation, prospective students.

### Grading and Equivalency

- Transfer courses graded C- or above may count towards General Education, Major, Minor, Concentration, or Certificate requirements.
- Freshman/sophomore courses (100/200 level) generally are not equivalent to junior/senior courses (300/400 level) and vice versa.
- UM accepts Associate of Arts (AA) and Associate of Science (AS) degrees from institutions with approved accreditation, satisfying lower-division General Education requirements. Associate of Applied Science (AAS) degrees focus on technical skills and do not necessarily satisfy all lower-division General Education requirements at UM.
- Transfer course grades are calculated separately as Transfer GPA and are not included in the UM institutional GPA.
- Transfer courses taken for quarter credit will be converted to semester credits upon evaluation (quarter units divided by 1.5 = semester units).
- The Office of Undergraduate Admissions works in collaboration with academic departments to review transfer courses for UM equivalents. Transfer courses are reviewed for UM course equivalents under the following conditions:
  - Transfer course shares the same or highly similar title to an active UM course in the same academic area
  - Transfer course and UM course have substantial overlap in content (i.e. 80% or more shared content)
  - Transfer course and UM course are offered at the same level (i.e. both lower-division or both upper-division).
- A transfer course that does not substantively match an existing UM course in content and level will be evaluated for elective credit and General Education credit only.

### Transfer Rules

- The Office of Undergraduate Admissions uses the Transfer Course Evaluation process to establish Transfer Rules for courses that have no prior record of evaluation.
- Transfer Rules will be posted to our transfer equivalency database, Transferology (<https://www.umt.edu/admissions/transferology.php>),

for public view and housed in Banner to be applied at the time of Credit Articulation. Transfer Rules do not have fixed expiration, but may be reviewed periodically for updates. If a transfer course or a UM course has been inactivated, the Transfer Rule will become inactive.

- Individual academic programs may set their own limits on the validity of a Transfer Rule to meet program requirements. This is often to ensure that their course work is relevant for state or national licensing requirements. Students should check with individual academic programs about the validity of their transfer credit to meet program requirements.

### Credit Articulation

- Only admitted and enrolled UM or Missoula/Bitterroot College students are eligible for Credit Articulation.
- Transcripts must be sent directly from previous institutions. Unofficial copies, such as those emailed by students or submitted in unsealed envelopes, will not be accepted.
- Students must request that official transcripts from U.S. institutions be sent to [beagriz@umontana.edu](mailto:beagriz@umontana.edu).
- UM will complete the Credit Articulation of all recognized transfer courses at the point of admission. Transfer courses completed subsequent to UM or Missoula College admission will be articulated upon receipt of the final official transfer transcript.

### Intra-Campus Transfer

- Missoula College and Bitterroot College are embedded colleges within University of Montana. Course credit earned while enrolled in an undergraduate program at any UM campus (Missoula, Bitterroot, Mountain) is considered institutional credit, not transfer credit, and is not evaluated by the Office of Undergraduate Admissions. For more information about transfer pathways between Missoula and Bitterroot Colleges and UM-Mountain campus, please contact the relevant Academic Advising office. See also Internal Campus Transfer.

### Articulation Agreements

UM maintains articulation agreements with various institutions to facilitate the transfer of credits. These agreements outline specific Course Equivalencies and ensure a smooth transition for students transferring to UM. Program transfer pathways can also be found using the Transferology (<https://www.umt.edu/admissions/transferology.php>) tool.

For a complete list of these agreements, please visit Articulation Agreements (<https://www.umt.edu/provost/faculty/articulation-agreements/>) on the Office of the Provost's website.

### Transfer Credit Re-evaluation

UM provides a structured process for re-evaluating transfer credits from recognized post-secondary institutions:

#### Re-Evaluation Process

- Students can request reconsideration of Transfer Course Evaluations by completing the Transfer Course Re-evaluation Form ([https://www.umt.edu/admissions/admission-requirements/transfer/transfer\\_course\\_re\\_evaluation\\_request.php](https://www.umt.edu/admissions/admission-requirements/transfer/transfer_course_re_evaluation_request.php)) available on the Office of Undergraduate Admissions website.
- The Office of Undergraduate Admissions will reconsider the Transfer Rule for previously evaluated courses, provided that additional detailed information about the course, such as a detailed course syllabus or outline is provided. The Office of Undergraduate

Admissions will work with individual academic departments when necessary to accurately re-evaluate a transfer course.

- The Office of Undergraduate Admissions does not guarantee that a change to the Transfer Rule will be approved.
- Transfer courses that have been approved for credit transfer but not equated to a UM course can be submitted to the student's Major, Minor, or Certificate department for consideration as a Course Substitution to meet graduation requirements.

## Documentation and Communication

- All Credit Articulations and Transfer Rules are documented in Banner. Credit Articulations are accessible to students and academic advisors through Degree Works, UM's degree audit software.
- Students will be advised via email when their Credit Articulation is complete and viewable in Degree Works.
- Students wishing to appeal the results of a Transfer Course Evaluation can consult the Appeal of Admission Decisions section.

## Evaluation Process for Credit for Prior Learning (CPL)

UM recognizes and awards credit for various forms of prior learning, such as learning demonstrated through advanced placement exams, workforce training, and other prior learning assessments according to the UM Credit for Prior Learning Guidelines (<https://www.umt.edu/faculty-senate/procedures/asrc-procedures-201/prior-learning-assessment-pla-guidelines-203.30.pdf>).

## Advanced Exam Credit

- UM awards credit for Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP), and Project Lead The Way (PLTW) courses based on successful completion and assessment scores according to UM policies. Specific questions regarding Advanced Credits should be directed to the Office of Undergraduate Admissions.
- To have advanced exam credit evaluated, students should request official scores be sent to Office of Undergraduate Admissions for AP, IB, CLEP, and/or PLTW exams.
- UM will evaluate the scores based on existing policies and award appropriate credit. Applied credits will be reflected in Degree Works (Banner) and on the transcript as CPL credit.
- Specific advanced credit exam policies and approved articulations related to these exams are available on the Admissions website: Advanced Credit Options (<https://www.umt.edu/admissions/admission-requirements/advanced-credits/default.php>).

## Military Credit

- Military courses are reviewed for transfer credit based on the Joint Services Transcript (JST) and ACE Military Guide recommendations.
- It is recommended that students with military credit first connect with the Military and Veterans Services Office (MVSO) for help identifying and prioritizing military credits for transfer. Since transferring in a large volume of military credits can prompt a premature max credit review, the MVSO can help recommend the correct timing for the application of credit to meet student needs.
- To have military credit evaluated for transfer, students should request an official Joint Services Transcript (<https://jst.doded.mil/jst/>) be sent to the Office of Undergraduate Admissions.

- UM will evaluate the JST and grant the recommended elective credit based on the ACE Military Guide evaluation and MVSO recommendations.

## Other Credit for Prior Learning

- If prior learning is listed in the American Council on Education (<https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Students.aspx>) (ACE) National Guide (<https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Students.aspx>) students should order a working transcript from ACE with the course or exam listed and have it sent to the Office of Undergraduate Admissions. The Office of Undergraduate Admissions will grant credit based on the recommendation on the ACE working transcript.
- If the prior learning is not listed in the ACE guides, students should contact the academic department chair for the program overseeing the subject matter at UM. Students will be responsible for providing sufficient information about the course or experience to complete an evaluation. Once the department has evaluated the course or experience and approved the credit for transfer, the chair should notify the Office of Undergraduate Admissions for credit articulation.
- If a student wants the prior learning to reflect a specific UM course equivalent on the transcript, the Office of Undergraduate Admissions must receive written notification approving the specific UM course equivalent from the UM Department Chair for the academic subject matter.
- The Office of Undergraduate Admissions does not review prior learning for General Education credit. If a student wants prior learning to meet General Education requirements, the student can petition for course exemption through the General Education Committee per the General Education Transfer Appeal Guidelines 202.40.5 (<https://www.umt.edu/faculty-senate/procedures/202.40.5-genedtransferappealguidelines-3-23.pdf>).
- Only prior learning that is listed in the ACE guides or governed by existing policy (such as IB, AP, and Advanced Credit policies) will be viewable in the Transferology database. Most non-standard prior learning will require evaluation on an individual student basis.

## Post-Baccalaureate (Second Bachelor's Degree) Admission

Students who have earned an undergraduate bachelor's degree and would like to pursue another undergraduate bachelor's degree may apply with post-baccalaureate status.

Post-baccalaureate is an undergraduate degree-seeking status at UM. Students who have earned an undergraduate bachelor's degree and who are not intending to pursue a degree should apply either as:

- degree-seeking with an "undeclared" major through UM Undergraduate Admissions to take undergraduate classes at UM Mountain Campus or Missoula College, or
- as non-degree through the Graduate School (<http://www.montana.edu/gradschool/>) to take graduate-level classes or to take a combination of graduate and undergraduate classes.

Students not intending to pursue a degree must choose the level that best meets their needs as a student.

Students who previously attended University of Montana and who are returning after a break in attendance of fewer than 24 months are considered continuing students and can access registration without

reapplication. For previous UM students who are returning after a break in attendance of 24 months or more, see Former UM Students (Readmission).

## How to Apply

- To qualify for post-baccalaureate status, students must have been awarded or be on track to earn a four-year bachelor's degree from an institution whose accreditation is recognized by the Montana University System (MUS) (Policy 301.5 (<https://mus.edu/borpol/bor300/301-5.pdf>)).
- While there are no special degree-related or course requirements for general admission to the university as a post-baccalaureate student, individual academic programs may have prerequisites for entry into upper-division courses in the program area. Students should consult department websites and resources for additional requirements specific to the academic programs of interest.
- Post-baccalaureate applicants who have completed fewer than 90 semester credits at the time of application will be ineligible for post-baccalaureate status and will be reviewed for transfer admission. If the applicant can provide official proof of bachelor's degree award prior to the start of the initial term of enrollment, the student will automatically be reconsidered for post-baccalaureate status.
- Unofficial transcripts can be used to make a conditional decision on post-baccalaureate status pending receipt of official documents. Unofficial transcripts cannot be used to review for credit transfer.

### Required Documents:

#### 1. Admission Application:

- Complete and submit the application online available from the Office of Undergraduate Admissions (<https://umontana.edu/apply.php#undergraduate>) website. Students who have previously attended UM in a degree program should view the instructions in Former UM Students (Readmission).

#### 2. Application Fee:

- A non-refundable fee of \$30 is required with your application.
- This fee is payable once at the undergraduate level if followed by enrollment.
- Payment records are kept on file for one year for those who do not enroll immediately.
- The application will not be processed until the fee is paid. Application Fees are waived for Montana residents, Veterans, and active military personnel.

#### 3. Official College/University Transcript(s):

- Submit an official transcript from each institutionally recognized (<https://mus.edu/borpol/bor300/301-5.pdf>) accredited college and university attended to be awarded transfer credit and to have a previously awarded degree recognized. A final official transcript must be received in the Office of Undergraduate Admissions by the 15<sup>th</sup> class day of the first term of attendance. Academic eligibility will be reviewed again upon receipt of the final transcript.
- For electronic transcript submissions, institutions should use a secure transmission service and send the transcript to [beagriz@umontana.edu](mailto:beagriz@umontana.edu).

#### 4. Immunization Records:

- All students, except those registered as fully online, must submit immunization records prior to the start of the first term of enrollment.
- The immunization record must be complete, accurate, and validated by a health official.

### Important Notes:

- Deadlines and document submission requirements are outlined in the Undergraduate Admission - General Information section.
- A course-by-course evaluation will not be done for students who have previously earned a U.S. baccalaureate degree. General Education requirements are considered complete for these students. Academic advisors will be able to consult the official undergraduate transcript submitted with your application and apply Course Substitutions for degree requirements met through the first bachelor's degree. Please see Transfer Credit Evaluation (<https://www.umd.edu/admissions/apply/transfer/transfer-credits.php>) for more information.

## Former UM Students (Readmission)

Students who have previously enrolled in a credit-bearing degree or certificate program at University of Montana or Missoula College are considered returning students.

### Academic Eligibility

- Former students who have been absent from the University of Montana for 24 months or more must apply for Readmission before they can register for courses. Students who have been absent from UM for less than 24 months do not need to reapply and can work directly with their academic advisor to register for the next semester.
- This policy applies to both Missoula College and University of Montana-Missoula campuses.
- Students must be in good standing to be eligible for Readmission.
- Students who previously only attended UM with non-degree status, dual enrollment status, or through continuing education programs are not eligible for Readmission status and must apply using a new applicant status (Freshman, Transfer, Post-baccalaureate)

### Readmission to Academic Programs:

- Some academic programs at Missoula College require students who do not enroll for a semester or more (excluding summer) to apply for Readmission into that specific program. Check with your program for additional requirements.

## How to Apply

### Required Documents:

#### 1. Application Submission:

- All students who qualify for Readmission can use the simplified application for Readmission via the Admissions website (Other Applicants (<https://www.umd.edu/admissions/admission-requirements/other-applicants.php>)).
- Current or former UM non-degree, dual enrollment, or continuing education students who are now seeking degree status are not eligible to use the Readmission application and must apply using the undergraduate application (<https://umontana.edu/how-to-apply/process/undergraduate.php>).

#### 2. Application Fee:

- Former UM students who qualify for Readmission are not required to pay the undergraduate Application Fee unless they are changing from graduate to undergraduate status, or vice versa. The Application Fee

is only paid once at the undergraduate level for students who have subsequently enrolled.

### 3. Transcripts:

- Former UM students who have attended another college or university since their last attendance at the University of Montana-Missoula must submit official college transcripts from those institutions.

### 4. Immunization:

- Applicants for Readmission must comply with the immunization requirements as listed on the Curry Health Center (<https://www.umt.edu/curry-health-center/new-students/default.php>) website.

### Important Notes:

- Deadlines and document submission requirements are outlined in the Undergraduate Admission – General Information section of the catalog.
- UM students who have been absent less than 24 months and who have attended another institution in the interim do not need to reapply, but they must submit official transcript(s) from any post-secondary institution(s) they attended since the last term they enrolled at UM.

## International Admission

International applicants are non-U.S. citizens who do not hold U.S. permanent resident status ("green card") or a U.S. immigrant visa (<https://travel.state.gov/content/travel/en/us-visas/visa-information-resources/all-visa-categories.html>). International applicants must meet the following criteria to be eligible for admission to the University of Montana or Missoula College. U.S. applicants with education outside the U.S. must also meet the academic credential and evaluation report requirements for their international education.

### Application Deadlines:

Application deadlines for international applicants are set earlier than for U.S. applicants to provide sufficient time to complete the F1 visa application process.

### Priority Deadline:

The Office of Undergraduate Admissions will guarantee consideration of applications submitted by the priority application deadline.

- Autumn Semester: May 15
- Spring Semester: October 15

### Final Deadline:

Students who have been admitted have until the final international application deadline to submit all documentation required for I-20 consideration:

- Autumn Semester: June 15
- Spring Semester: November 15

## Academic Eligibility

International applicants will be considered for admission on the basis of their academic record and their English language proficiency. International applicants should identify their respective admission type (Freshman, Transfer, Post-Baccalaureate) and see the relevant section in

the Catalog for an explanation of the academic standards and admission requirements.

## International Credential Evaluation

- Any applicants who have completed education internationally through a non-U.S. institution must submit official transcripts for review and evaluation by an active member of the National Association of Credential Evaluation Services (NACES). (<https://www.naces.org/members/>)
- International credential evaluation includes verification of institutional accreditation and degree status, calculation of all grades on a standard U.S. scale, and conversion of all university-level credits to U.S. semester credits. The credential evaluation service will prepare a summary report which it will forward to the Office of Undergraduate Admissions on the applicant's behalf.
- Verified copies of educational credentials included in the credential evaluation summary report will meet official documentation requirements.
- The Office of Undergraduate Admissions will articulate credits recommended for transfer based on the international credential evaluation report. In most cases, credit approved for transfer will be articulated as elective credit. See the Transfer Credit Evaluation section for information on Transfer Course Evaluation, Re-evaluation and Credit Articulation.

## English Language Proficiency Requirements

University of Montana requires that all international students whose first language is not English establish English language proficiency before admission. Proficiency in English for study at the undergraduate level must be demonstrated through an approved exam or through specific exemption. English language test scores that are older than two years may not be accepted.

| Proficiency Examination                                                                    | Full Admission                                     | Conditional Admission |
|--------------------------------------------------------------------------------------------|----------------------------------------------------|-----------------------|
| TOEFL iBT and At-Home Edition (Including MyBest™ scores. University of Montana code: 4489) | 70                                                 | 52                    |
| TOEFL PBT                                                                                  | 525                                                | 470                   |
| IELTS Academic                                                                             | 6.0                                                | 5.0                   |
| Duolingo English Test                                                                      | 105                                                | 85                    |
| Cambridge English                                                                          | 180                                                | 165                   |
| iTEP                                                                                       | 3.8                                                | 3.4                   |
| PTE Academic                                                                               | 48                                                 | 41                    |
| TOEFL ITP                                                                                  | -                                                  | 470                   |
| EIKEN                                                                                      | Grade Pre-1                                        | -                     |
| UM English Language Institute                                                              | 525 TOEFL ITP or a recommendation from UM ELI      | -                     |
| ELS Language Center                                                                        | Successful completion of Program Level 112         | -                     |
| Kaplan International                                                                       | Successful completion of Higher Intermediate Level | -                     |
| English Language Centres                                                                   | Successful completion of Level 11                  | -                     |

## Exemptions

Applicants who are citizens of the following countries need not submit proof of English language proficiency unless English is not the applicant's native language:

- Australia,
- Canada (except Québec),
- Ireland,
- New Zealand,
- The United Kingdom,
- Commonwealth Caribbean,
- and South Africa.

Exemptions to the English language proficiency testing requirement may be considered for applicants who can demonstrate any one of the following:

- Native language is English
- Two or more years of attendance at an institution of higher education where English is the primary language of instruction
- Completed an English composition course with a grade of "C-" or better from a U.S. college or university (online courses are not accepted)
- Completed 3+ years of secondary school with full English-medium instruction and have achieved a C or higher on the IGCSE English exam OR on the A-level English language exam
- Achieved a score of 4 or higher on the IB HL Language A: English Language and Literature or IB Language A: English Literature exam
- Achieved a score of 3 or higher on the AP English Language and Composition exam
- Achieved a 25 or higher on the SAT (Writing & Language section)
- Achieved a 07 or higher on the ACT (Writing section)
- Achieved an 18 or higher on the ACT (English Language Assessment)
- Completed 3+ years of secondary school with English-medium instruction in the following countries AND who have achieved a B3 or higher on the West African Senior Secondary Certificate Examination or a B or higher on the national GCE examination:
  - Botswana
  - The Gambia
  - Ghana
  - Kenya
  - Liberia
  - Nigeria
  - Sierra Leone
  - Uganda
  - Zambia
  - Zimbabwe
- Students requesting one of the above exemptions must provide an official credential evaluation report, and where applicable, an official standardized exam score. The Office of Undergraduate Admissions reserves the right to request students submit additional proof of English language proficiency, even if they are eligible for an exemption.

## Emerging Proficiency

The score thresholds listed above represent the minimum proficiency needed to fully participate in undergraduate study at University of Montana. If a student's score only meets or minimally exceeds the threshold, the student is still considered to have emerging proficiency and is encouraged to seek additional academic support to ensure timely passage toward a program of study leading to degree.

## International Conditional Admission (Pathway Program)

- International applicants who meet general academic eligibility requirements but who do not yet meet the English language proficiency requirements for full admission will be considered for international conditional admission.
- Students who receive an international conditional admission decision can request an update to full admission without re-applying under the following conditions:
  - The student submits an English language proficiency test score that meets full admission requirements prior to the start of their first term or enrollment, or
  - the student enrolls at the UM English Language Institute and remains continuously enrolled until either:
    - the student qualifies for the UM ELI English language proficiency exemption, or
    - the student submits an updated English language proficiency test score that meets the requirement for Full Admission.
- Proof of English language proficiency must be submitted to the Office of Undergraduate Admissions at least one week before the start of the semester the update is requested.

## I-20 Certificate of Non-Immigrant Student Status

- The Office of Undergraduate Admissions manages issuance of the I-20 Certificate for new degree-seeking international undergraduates and pre-approved international non-degree students. The I-20 Certificate is necessary to obtain an entry visa to the U.S. for full-time undergraduate study.
- Financial documentation needed for the I-20 process is not required for admission but will be required once an admissions decision has been made. See Financial Documentation for the I-20 (<https://www.umt.edu/admissions/admission-requirements/international/financial-docs-i20.php>). In certain situations, an international applicant may already possess a non-immigrant visa that permits some level of U.S. degree study; in these cases, an applicant should contact the Office of Undergraduate Admissions for individual advice regarding admission procedures.

## How to Apply

### Required Documents:

#### 1. Admission Application:

- Complete and submit the online application (<https://umontana.edu/how-to-apply/process/undergraduate.php>) via the Office of Undergraduate Admissions website or from the Common App. Applicants unable to access the online application should contact the Office of Undergraduate Admissions.
- Ensure the application is fully completed, that you have selected the University of Montana in the application, and signed the application.

#### 2. Application Fee:

- A non-refundable fee of \$30 is required with your application.
- This fee is payable once at the undergraduate level if followed by enrollment.
- Payment records are kept on file for one year for those who do not enroll immediately.
- The application will not be processed until the fee is paid.

### 3. English Language Proficiency Score Report

- Applicants must provide an official English language proficiency score report that meets or exceeds the posted score requirement to qualify for full undergraduate admission.
- Applicants petitioning for an exemption to the English language proficiency test score requirement must submit required documentation prior to an admission decision.
- Test scores must be ordered directly from the testing center and sent to:

Office of Undergraduate Admissions

University of Montana

Gilkey Building, 950 Arthur Avenue  
Missoula, MT 59812 USA

### 4. Academic Records:

- **U.S. education records:** Applicants who have attended U.S. institutions must send an official transcript from each U.S. secondary- or tertiary-level institution attended directly to the Office of Undergraduate Admissions. Applicants who have completed university-level study in the U.S. after completing secondary school must submit official transcript(s) to receive an admission decision.
- **International education records:** Applicants who have attended non-U.S. secondary or tertiary institutions must request an international credential evaluation that includes review of each institution attended. Applicants may select any member of NACES to complete the evaluation. University of Montana has relationships with the following NACES-recognized credential evaluation services:
  - SpanTran (<https://spanside.my.salesforce-sites.com/SpantranApplication/?Id=6e84fd68-0048-4b8b-b0b0-5e3ff82e7f44>)
  - Educational Credential Evaluators (ECE) (<https://accounts.ece.org/TPO/UM/>)
  - World Education Services (WES) (<https://www.wes.org/credential-evaluations/>)
- See the Academic Records and Eligibility (<https://www.umt.edu/admissions/admission-requirements/international/academic-records.php>) section on the Admissions website for additional guidance on ordering an international credential evaluation report.

### 5. Immunization Records:

- All students except those registered as fully online must submit immunization records prior to the start of the first term of enrollment.
- The immunization record must be complete, accurate and validated by a health official.

### 6. Additional Documentation (if applicable):

- **Advanced Credit:** Upon admission, applicants should request that official scores for advanced exams (e.g. AP, IB, GAC, A-levels) be sent directly to the Office of Undergraduate Admissions. More information

on credit awards for advanced options and credit for prior learning is available on the Office of Undergraduate Admissions website.

## Financial Documentation for I-20

Citizenship identification and financial documentation is not required for admission but will be required once an admissions decision has been made. To obtain the Certificate of Eligibility for Non-Immigrant Student Status (I-20), international students must submit:

- I-20 Application (available from the admission portal after admission)
- Certificate of Financial Responsibility, indicating student's understanding of financial responsibilities
- Proof of available funds to cover costs of attendance
- Copy of student's passport

See Estimated Expenses for the I-20 ([https://www.umt.edu/admissions/admission-requirements/international/expenses\\_scholarships.php](https://www.umt.edu/admissions/admission-requirements/international/expenses_scholarships.php)) for more information.

## Non-Degree (Visiting Students) Admission

An applicant who wishes to pursue studies for professional interest or personal growth and does not wish to work toward a formal degree at the University of Montana-Missoula may apply as a non-degree student.

### Academic Eligibility

- Each applicant must certify on the application for admission that they have graduated from a high school that is fully accredited by its State department of education or has passed the HiSET or General Educational Development (GED) test.
- Students 21 and under with fewer than 12 completed university credits will only be eligible for non-degree status at Missoula College.
- This category is not open to students currently on academic suspension from the University of Montana.
- Applicants admitted as undergraduate non-degree students are not eligible for financial aid or for transfer course evaluation.

### Former Students:

Former students of UM should use the Readmission application process instead of applying as non-degree. The online readmission application is available from the UM Admissions website (<https://umontana.edu/how-to-apply/process/other-applicants.php>).

### International Students:

International students seeking a study abroad experience (one semester or one year) who are sponsored by a UM-recognized study abroad organization can apply for undergraduate non-degree status. For information on approved study abroad organizations, please contact the Global Engagement Office (<https://www.umt.edu/global-engagement/about/default.php>). Other international students should see the International Admission section for relevant information on admission.

## Change to Degree-Seeking Status

If a person is admitted as an undergraduate non-degree student and later wishes to change to a degree program, they will be required to submit a new undergraduate degree-seeking application, furnish the required supporting credentials, and meet the regular admissions standards for the intended program.

## How to Apply

### Required Documents:

#### 1. Admission Application:

- Complete and submit the online application. The application for non-degree admission can be accessed through the “Other Applicants” section on the UM Admissions website (<https://catalog.umt.edu/academics/undergraduate-admission/file:///C:/Users/troy.morgan/Downloads/UM%20Admissions%20website/>).

#### 2. Application Fee

- The fee is \$30.00. This non-refundable fee is payable by non-Montana residents once at the undergraduate level, provided payment is followed by enrollment.
- Record of payment will remain on file for one year for students who do not enroll. An application cannot be considered prior to payment of this fee.
- The Application Fee is waived for applicants who paid the application fee once and are continuing enrollment at UM.

#### 3. Immunization Form:

- All applicants are required to submit a completed Medical Requirement Form to the Curry Health Center two weeks prior to matriculation. The form must be complete, accurate, and validated by a health official.

#### 4. Unofficial College Transcript (Students 21 and under only)

- Students 21 and under who are seeking non-degree admission should submit an unofficial college transcript showing completion of a minimum of 12 semester-level credits

### Important Notes:

- Application deadlines are outlined in the Undergraduate Admission – General Information section.
- Non-degree students should contact the Undergraduate Advising Center upon admission to obtain a registration PIN.

## Admission Decision Notification

Applicants to the University of Montana can expect timely updates regarding their application status. Below are the key details on the decision timeline, methods of notification, and types of admissions outcomes.

### Timing of Decisions:

- Decisions are made as soon as an application and all required documentation has been received.
- Most decisions are reached within 10 business days of application and document submission. Decisions may be delayed if application information or documentation is incomplete.

### Method of Notification:

- All applicants will receive an electronic notification via the email address provided in their application.
- Additionally, applicants can check the status of their application by logging into the online Admission Status Portal.

## Types of Decisions:

- **Admitted to University of Montana:** UM applicants offered admission will receive an acceptance letter outlining the next steps, including information on housing, orientation, and registration.
- **Admitted to Missoula College:** Missoula College applicants offered admission will receive an acceptance letter outlining the next steps, including information on housing, orientation, and registration.
- **Admitted Conditionally to UM.** UM applicants who do not meet academic eligibility requirements but who have been identified as having the potential for initial success on the UM-Mountain campus may be admitted conditionally. They will receive an acceptance letter stating the conditions of their admission.
- **International Conditional Admission.** *For international students only.* International applicants who do not meet the minimum English language proficiency requirements for full-time undergraduate study but are otherwise academically eligible may be considered for international conditional admission. Students receiving international conditional admission will receive an acceptance letter for the English Language Institute (ELI)’s programs, including next steps.
- **Denied for UM, Admitted to Missoula College:** UM applicants who do not meet academic eligibility requirements for UM-Mountain campus and who have the potential to benefit from academic supports available at Missoula College will be offered admission at Missoula College. They will receive a letter outlining next steps, including information about the pathway to university.
- **Ineligible:** Applicants who do not meet the general admission requirements will receive a letter explaining their ineligibility. While this decision is final for the current application cycle, ineligible applicants are encouraged to reapply in the future once they meet general admission requirements.

## Appeal of Admission Decisions

Applicants who disagree with an admission decision or related evaluations, such as transfer credit acceptance or residency classification, have the opportunity to request a reconsideration or submit an appeal through the appropriate University channels. Below is an outline of the appeal processes available for various admission-related decisions.

Initial questions regarding admission decisions, transfer credit evaluations, and initial residency classification should be directed to the Office of Undergraduate Admissions. If an appeal is appropriate, information about the appeal process can be obtained from the Office of Undergraduate Admissions.

## Admissions Reconsideration and Appeal (University of Montana)

Admission decisions to University of Montana – Mountain Campus are automatically reconsidered upon submission of final official transcripts. If a student had been denied UM admission based on a self-reported GPA, but a final transcript or updated official score report provides evidence that the student has met admission requirements, the student will be offered admission to UM. Conversely, if the final transcript provides evidence that the student has not met admission requirements for UM, the student’s offer of admission to UM will be rescinded. They may be invited to start their educational journey at Missoula College.

The University’s admission policies comply with Montana State regulations and faculty-authorized requirements. It is the responsibility

of the Office of Undergraduate Admissions to apply these standards consistently and fairly. The faculty recognizes that exceptions should be granted occasionally for students in unusual situations. Students denied admission to University of Montana-Mountain Campus may appeal the decision. Appeals should be directed to the Office of Undergraduate Admissions and should contain significant and compelling new information, which may include extenuating circumstances, not contained in the original application. Since applications are already carefully reviewed, very few decisions are overturned upon appeal. Students who were denied admission to UM are encouraged to explore their educational options, including enrollment at Missoula College.

Any request for appeal must be submitted by the application deadline for the initial term of enrollment.

## Credit Transfer Reconsideration and Appeal

- Office of Undergraduate Admissions decisions regarding credit transfer from institutions with recognized accreditation (<https://mus.edu/borpol/bor300/301-5.pdf>) are final. Students wishing to seek exception for non-college level credits, credits earned at unaccredited institutions, or credits earned at institutions with accreditation that is not recognized by MUS Board of Regents can request review by the Provost, Registrar, and Director of Admissions (MUS BoR Policy 301.5, Section F.1 (<https://www.mus.edu/borpol/bor300/301-5.pdf>))
- Admissions decisions about the application of credits can be re-evaluated. Students wanting to update a transfer rule or to petition for General Education credit for transfer courses from institutions with MUS-recognized accreditation should start the re-evaluation process with the Office of Undergraduate Admissions. See Transfer Credit Evaluation.
- Course re-evaluation decisions for general Education credit are final with the exception of writing courses. Students wishing to appeal an admissions decision for an introductory or intermediate writing course can submit a course exemption petition through the faculty Writing Committee following the Transfer Credit Appeal Guidelines for Introductory and Intermediate Writing Courses. (202.50.5 (<https://www.umt.edu/faculty-senate/procedures/asrc-procedures-201/writing-exemption-appeal-202.50-11-3-21.pdf>))
- Students with approved Credit for Prior Learning (CPL) who wish to petition for General Education credit should follow the procedure listed in the General Education Transfer Appeal Guidelines (202.40.5 (<https://www.umt.edu/faculty-senate/procedures/202.40.5-genedtransferappealguidelines-3-23.pdf>))

## Residency Review and Appeal

Requests from students seeking reconsideration of Montana residency status for fee purposes are evaluated based upon the Montana Board of Regents Policy ([https://www.mus.edu/Prepare/College/Montana\\_Residency\\_Requirements.asp](https://www.mus.edu/Prepare/College/Montana_Residency_Requirements.asp)). All new and newly returning students should contact the Office of Undergraduate Admissions regarding the reconsideration process and submission of required documentation. Continuing students who wish to request reconsideration of residency classification should read the Student Guide to Montana's Residency Policy ([https://www.mus.edu/Prepare/College/Student\\_Guide\\_to\\_Residency\\_Pol.pdf](https://www.mus.edu/Prepare/College/Student_Guide_to_Residency_Pol.pdf)) and contact the Office of the Registrar with additional questions.

## Residency Review

The Office of Undergraduate Admissions will conduct a review of initial residency classification for any new or newly returning student classified as out-of-state at the point of admission. Students must initiate this process by contacting the Office of Undergraduate Admissions. Students requesting review will be asked to submit supporting documentation per MUS BoR Policy on Residency (940.1 (<https://www.mus.edu/borpol/bor900/940-1.pdf>)). The residency review decision is final for the Office of Undergraduate Admissions.

Students must go through the Residency Review process before they will be allowed to appeal to the campus Residency Classification Committee.

### Residency Review Deadline:

Requests for review of initial residency classification must be submitted to the Office of Undergraduate Admissions by the deadlines below to guarantee review and access to the appeal process. Requests for review submitted after these deadlines and before the 5<sup>th</sup> instructional day may be reviewed on a case-by-case basis.

- Autumn: One week before the start of classes
- Spring: One week before the start of classes
- Summer: One week before the start of the second 5-week summer session.

## Residency Appeal

- Students who are classified as out-of-state after Residency Review can submit an appeal to be heard by the campus Residency Classification Committee. New students and newly readmitted students must initiate this process with the Office of Undergraduate Admissions.
- The final deadline for submitting documentation for a Residency Appeal is the 5<sup>th</sup> instructional day of the semester for which a student is seeking an in-state residency classification.
- Newly enrolled students who do not meet the Residency Review or Appeal deadlines for the first term of enrollment have the opportunity to petition for re-classification in a future term through the Office of the Registrar.

# Academic Policies and Procedures

## Registration and Course Information

### Academic Calendar

The academic calendar for the current academic year, as well as past and future years, may be found on the Office of the Provost's academic calendar webpage (<https://www.umt.edu/provost/academiccalendar/>).

### Registration for Courses

Students who have no prior attendance at the University of Montana must apply for admission and be admitted before being eligible to register for courses. For additional information on admission to the University, see the following webpages:

- Undergraduate admissions catalog page (p. 12)
- Undergraduate admissions website (<https://www.umt.edu/admissions/>)
- Graduate policies catalog page (p. 440)

- Graduate admissions webpage (<https://www.umt.edu/grad/apply/default.php>)

Detailed instructions regarding registration and course offerings are available on the Office of the Registrar webpages for registration information (<https://www.umt.edu/registrar/registration/default.php>).

Course offerings may be found using UM's Course Search tool (<https://www.umt.edu/registrar/registration/browse.php>).

Students must complete course registration during the scheduled registration period or be subject to payment of a late registration fee if allowed to register. Registration is not complete nor is any academic credit awarded until all course tuition and fees for the semester have been paid.

## **Adding, Dropping, and Other Course Changes**

All guidelines and timelines that follow refer to the traditional autumn and spring semesters, which are generally 74-75 days in length. The timelines that apply to shorter sessions, including all summer sessions, are adjusted in proportion to the length of the session. Specific dates are listed on the Registrar's Office calendar web page (<http://www.umt.edu/registrar/calendar.php>). Please see the S (<http://www.umt.edu/business-services/Students/default.php>) Student Account Services website (<https://www.umt.edu/business-services/students/default.php>) for information regarding how fees are impacted by dropping/adding courses as well as the refund schedule for a complete withdrawal from the University of Montana.

### **Adding, Dropping, or Other Course Changes – First Through Fifth (1 – 5) Instructional Day of the Semester**

During this timeframe, students may use GrizPortal to add courses, drop courses, change grading options, and/or change variable credits. Access to GrizPortal for adding courses or changing sections ends after the fifth day of classes.

### **Adding, Dropping, or Other Course Changes – Sixth Through Fifteenth (6 – 15) Instructional Day of the Semester**

During this timeframe, with consent of the course instructor, students may add courses or change sections with an instructor-approved electronic override via GrizPortal. Fees are reassessed each night during this time period. Added courses and credits may result in additional fees.

Students may drop courses, change grading option (including audit), and/or change variable credits via GrizPortal through the fifteenth day.

### **Adding, Dropping, or Other Course Changes – Sixteenth Through Forty-fifth (16 – 45) Instructional Day of the Semester**

During this time frame, students must use the Course Add/Change/Drop link to collect permissions from both the course instructor and student's advisor to:

1. drop/add a course
2. perform changes to section, grading option, or variable credit loads

The ability to change to or from audit is no longer available at this time.

A \$20.00 processing fee is charged for each drop or add. Added courses and credits may result in additional fees. There are no refunds or reductions of fees for courses dropped after the 15th day (or equivalent).

Approved course drop requests must be received by the Registrar's Office no later than close of business on the forty-fifth instructional day of a semester. A grade of W (withdrawn) is recorded for each dropped course.

## **Adding, Dropping, or Other Course Changes – Forty-sixth Instructional Day of the Semester Through One Week Before the Last Regular Class Day Adds & Changes**

During this time frame, students must use the Course Add/Change/Drop link to collect permissions from both the course instructor and student's advisor to add a course, change the grade option, or change variable credits.

Changing to or from audit is not permitted during this time.

Not all requests for adds, changing grade options, or changing variable credits are approved. Advisors have the right to indicate they do not recommend approval of the request. However, it is the course instructor's decision to approve or deny the request to add/change a course.

Approved course add and course change requests must be received by the Registrar's Office no later than one week before the last day of regular classes. A \$20.00 processing fee is charged for each course add. Added courses and credits may result in additional fees.

## **Drops**

During this time frame, students may drop courses only by petition. Students must use the Course Add/Change/Drop link to collect permissions from the course instructor, student's advisor, and Dean of the student's major.

Note that not all petitions are approved and that documented justification is required. Some examples of documented circumstances that may merit approval are: accident or illness, family emergency, or other circumstances beyond the student's control. Instructors and advisors have the right to indicate they do not recommend the drop. However, it is the decision of the Dean of the student's major to approve or deny the request to drop courses.

Approved course drop requests must be received by the Registrar's Office no later than one week before the last day of regular classes. A \$20.00 processing fee is charged for each drop. There are no refunds or reductions of fees for courses dropped, and the instructor assigns a grade of WP (withdrawn/passing) if a student's course work has been passing or WF (withdrawn/failing) if failing. These grades do not affect grade averages but they are recorded on a student's transcript.

The opportunity to drop a course for the current term ends one week before the last day of instruction before scheduled final exams. Dropping a course taken in a previous term or altering grading option or audit status for such a course is not allowed. The only exceptions are for students who have received a grade of NF (never attended/fail).

Law School students - see the School of Law website (<https://www.umt.edu/law/>) add and drop deadlines for law courses.

## **Cancellation of Courses**

The University reserves the right to cancel any course.

## **Common Course Numbering - Montana University System**

All universities, 4-year and 2-year colleges that are part of the Montana University System are required to use the same course numbering for undergraduate courses. With common course numbering, transfer

students can be reassured that they will receive credit for undergraduate courses taken at another Montana institution as long as the admitting institution offers that same course. This transparency will make it easier for students to continue their higher education at any state-supported campus.

Effective Autumn Semester 2009, all units of the Montana University System (MUS) began to offer classes using new subject abbreviations and new numbers that are common across all MUS units. Subject areas and numbers continue to be renumbered as of the publication of this catalog. Information regarding Common Course Numbering at the University of Montana is available at the Common Course Numbering web page (<https://ccn.mus.edu/search/>).

## Withdrawal from the University

Students who withdraw from the University (withdrawing from all classes) while a semester is in progress must complete the Semester Withdrawal Form (<https://www.umt.edu/withdrawal/default.php>). Drop/add forms cannot be used to withdraw, and students are not allowed to drop all their courses via GrizPortal. International students must first contact a coordinator in the Global Engagement Office before withdrawing as visa status will be affected.

See the withdrawal website (<https://www.umt.edu/withdrawal/how-to.php>) for more information.

If a student receiving financial aid withdraws, they may have to repay aid received in the current semester, and it may affect eligibility in future semesters. If a student stops attending classes without formally withdrawing, they too may have to repay aid received in the current semester and may be ineligible for aid in future terms.

Students who reside in a University residence hall, University Villages, or Lewis & Clark Villages must notify the proper officials in the UM Housing Office (<http://www.umt.edu/housing/>) of the withdrawal.

Students who purchase health insurance (<https://www.umt.edu/curry-health-center/insurance/default.php>) with registration will receive a refund and lose coverage if withdrawn during the first fifteen instructional days unless a student is granted a withdrawal for medical reasons. Withdrawal after the fifteenth day will not result in a refund but coverage will continue through the remainder of the semester.

Students must electronically submit a Semester Withdrawal Form (<https://www.umt.edu/withdrawal/default.php>) to the Office of the Registrar by the final instructional day of the semester. No record of registration will appear on the transcript if a student withdraws within the first 15 instructional days (or the equivalent for irregular sessions). From instructional day 16 through the last regular class day, W's will be recorded for all registered courses. After the final instructional day of the semester, students may not withdraw from the University.

Upon semester withdrawal approval, eligible students may file a Mitigating Circumstances Appeal with the Dean of Students to be considered for a partial tuition refund. Mitigating circumstances are catastrophic, unanticipated, and life-altering events that are beyond a student's control. These circumstances prohibit the student from continuing to be enrolled and require the student to withdraw on or before the published withdrawal deadline. Mitigating Circumstances Appeals must be submitted **no later than 30 days following the final instructional day of the semester** during which the mitigating circumstances occurred. Such an appeal will only be granted to an individual student one time.

This appeal has no bearing on a student's financial aid appeal and is not the appropriate venue to resolve or appeal academic matters.

Further criteria for eligibility:

- The mitigating circumstances prevented the student from remaining enrolled in the semester, and the student has already submitted a semester withdrawal form.
- The mitigating circumstances took place after the 15<sup>th</sup> instructional day of the semester and before the final day of the semester.
- The student has not been granted a Mitigating Circumstances Appeal for any past semester.
- For all medical and health-related appeals, the student has supplied documentation on the medical provider's letterhead certifying that the student could not complete the semester and confirming the health-related mitigating circumstances with the dates that verify the onset and/or worsening of the condition(s).
- A Mitigating Circumstances Appeal has no bearing on a student's financial aid appeal. If applicable, a financial aid appeal must be filed separately with the Financial Aid Office.

Examples of eligible mitigating circumstances include, but are not limited to:

- A debilitating illness or injury, new or unanticipated, afflicting the student during the enrollment period;
- The death of a close family member;
- Unanticipated active-duty military service, including training.

## Prerequisites and Corequisites

"Prerequisite" indicates that the course(s) or requirement(s) described must have been satisfactorily completed with a grade of C- or better, unless otherwise specified in the course description in the catalog, before the student may take the course that requires the listed prerequisite.

Failure to complete the prerequisite with the requisite grade will result in the student being dropped from the course that requires the prerequisite. If credit for a prerequisite was earned via the Advanced Placement (AP) Examination Program, the AP score is recorded on a student's academic record with a grade of "CR\*" (prior to Autumn Semester 2012), or a score of AP3, AP4, or AP5 (Autumn Semester 2012 and thereafter).

"Corequisite" indicates a course (or courses) must be taken concurrently – in the same academic term – with the course described. In some cases a corequisite may be completed prior to the semester in which the course that requires the co-requisite is taken.

## Course Numbering System

- 001-099 Courses below college level. Credit not allowed toward a degree.
- 100-199 Primarily for freshmen.
- 200-299 Primarily for sophomores.
- 300-399 Primarily for juniors.
- 400-499 Primarily for seniors.
- 500-699 Primarily for graduate students.
- Senior (5th year) courses in Pharmacy are numbered 500 to 599.

## Undergraduates in Graduate Courses

Post-baccalaureate students and seniors holding a 3.0 or greater grade point average may, with consent of instructor, enroll in 500-level courses

for undergraduate credit. Variance from these requirements cannot be petitioned.

## Equivalent Courses

In certain cases, a course description indicates credit is not allowed for a particular course and for another course offered by a different department. These courses are very similar in content, although offered separately, and credit is not allowed toward a degree for both courses.

## Full-Time Student Defined

In most baccalaureate programs a student must earn at least 15 credits per semester to graduate in a four year period. One- and two-year programs usually require enrollment in between 15 and 19 credits per semester.

### Undergraduate Students

- Full Time: 12 or more enrolled credits
- 1/2 Time: 6 -11 enrolled credits
- <1/2 Time: 5 or fewer enrolled credits
- Not Enrolled: 0 enrolled credits (withdrawn/graduated, etc.)

### Graduate Students

- Full Time<sup>1</sup>: 9 or more enrolled credits
- 1/2 Time: 6 – 8 enrolled credits
- <1/2 Time: 5 or fewer enrolled credits.
- Not enrolled: 0 enrolled credits (withdrawn/graduated, etc.)

<sup>1</sup> One credit of PSYX 638 per semester is equivalent to full-time enrollment for students in the Clinical Psychology Ph.D. Program. One credit of PSYX 588 (equivalent to PSYX 638) per semester is equivalent to full-time enrollment for students in the School Psychology PhD Program.

## Maximum Credit Load

Generally, an undergraduate student should register for no more than 21 credits during a semester. The credit load would include physical education activity courses and also remedial courses (those numbered below 100), credits from which do not count toward a certificate or degree.

Permission to enroll for more than the maximum credit load may be approved by the student's academic advisor.

## Final Examinations

Final examinations for the semester are scheduled in two-hour segments, one for each course. The segments should be considered as class meetings to be treated by the instructor as they think is educationally appropriate. The time scheduled for final examinations is the only time period during which final examinations are to be given. If an instructor elects not to give a final examination during the designated week, under no circumstances are final examinations to be given during the week preceding the scheduled final examination days.

Students may seek relief from writing more than two examinations during the same day. Students who are scheduled for more than two examinations may contact the appropriate faculty to arrange an alternate testing time during the scheduled final examination period. If satisfactory arrangements cannot be made, the student should seek the assistance of the Dean of their major college.

## University Employee Registration

University employees who have applied and have been accepted for admission to the University may register with the approval of the employee's supervisor. Waivers of some tuition may be granted to qualifying faculty and staff members who are at least three-quarter-time salaried employees on the date of registration. Additional information and the necessary forms are available in the Office of Human Resource Services (<http://www.umn.edu/hrs/>).

## Grading and Academic Standing Information

### Grading System

The University uses two types of grading: traditional letter grades and credit/ no credit grades. At the option of the instructor, some courses are offered only on the traditional letter grade basis or only on the credit/ no credit basis. Other courses are open to either type of grading, at the option of the student. Courses offered on the A - F basis only or CR/NCR only will be indicated in the Course Search under Class Details.

The instructor has the first fifteen (15) class days of the semester to change the grading option for their course. If a change does occur from the original published grading option, the students in the class and the Registrar's office must be notified of the change not later than the fifteenth (15) class day.

### Traditional Letter Grading (A-F)

Traditional Letter Grades represent an assessment of the overall quality of work performed in a given course.

- A =Excellent;
- B = Good;
- C = Satisfactory;
- D = Poor;
- F = Failure

When assigning traditional letter grades, instructors may, at their discretion, utilize the symbols + or -. Use of the + or - will be limited to A-, B+, B-, C+, C-, D+, and D-.

Grades preceded by an R indicate remedial courses. Remedial courses do not count in credits earned, nor in grade point averages, nor do they count toward graduation.

Grades preceded by an E indicate academic forgiveness was granted.

Other grade symbols used are:

- I = Incomplete;
- N = work on the course may be continued in later semesters. When work is completed, the final grade assigned applies to all semesters of the course;
- NF = no record of academic performance/failing;
- W = withdrawal from a course or course dropped after the fifteenth instructional day;
- WP = course dropped after the forty-fifth instructional day with passing work;
- WF = course dropped after the forty-fifth instructional day with failing work;
- AUD = auditor registration.

### Course Audit

A grade of AUD is recorded for all students who register in courses as auditors, intending to listen to the courses without earning credit or being graded. Audited courses do not impact a student's grade point average. The same fees are assessed as when registering for credit.

Any attendance or participation expectations are established by the instructor of the course. If attendance expectations are not met, the instructor may request a notation be placed on the student's academic record indicating attendance was not satisfactory.

### Credit/No Credit Grading (CR/NCR)

Student Option: To encourage students to venture into courses where they might otherwise hesitate because of uncertainty regarding their aptitude or preparation, they may enroll in some courses on a credit/no credit basis. Freshmen and sophomores are discouraged from taking more than one course a semester on a credit/no credit basis.

No more than 18 CR credits may be counted toward graduation requirements at the baccalaureate level. Courses taken to satisfy General Education Requirements must be taken for traditional letter grade. Courses required for the student's major or minor must be taken for traditional letter grade.

A grade of CR is assigned for work deserving credit (A through D-) and a grade of NCR is assigned for work of failing quality (F). CR and NCR grades do not affect grade point averages. The grades of CR and NCR are not defined in terms of their relationship to traditional grades for graduate course work.

Election of the credit/no credit option must be indicated upon registration or within the first 15 class days in GrizPortal. Between the 16th day and the last day of instruction before finals week, a student may request a change from credit/no credit enrollment to an enrollment under the A-F grade system, or the reverse, by means of a Course Add/Change/Drop request. Please note that not all such requests are approved. See instructions above.

The University cautions students that many graduate and professional schools and some employers do not recognize non-traditional grades (i.e., those other than A through F) or may discriminate against students who use the credit/no credit option for many courses. Moreover, students are cautioned that some degree programs may have different requirements regarding CR/NCR credits, as stipulated in the catalog.

### No Credit Grading in Composition (NC)

Students enrolled in WRIT 095 and WRIT 101 are graded by the traditional letter grades of A through F or are given NC for no credit. The NC grade is awarded when exceptional progress has occurred but the student needs to repeat the course. The NC grade does not affect grade point average.

### Incomplete Grade Policy

It is assumed that students have the responsibility for completing the requirements of the courses in which they are enrolled within the time framework of the semester.

A grade of Incomplete (I) may be given when, in the opinion of the instructor, there is a reasonable probability that students can complete the course without retaking it. If an Incomplete is granted, the student should not re-register for the course as that is considered a course repeat.

The incomplete is not an option to be exercised at the discretion of a student. In all cases it is given at the discretion of the instructor within the following guidelines:

1. A mark of incomplete may be assigned students when:
  - The student has regularly attended and completed passing work for most of the semester, and
  - For reasons beyond the student's control and which are acceptable to the instructor, the student has been unable to complete the requirements of the course on time. Negligence and indifference are not acceptable reasons.
2. The instructor sets the conditions (including the deadline; maximum/default is one calendar year) for the completion of the course work.
3. When a student has met the conditions for making up the incomplete, the instructor will assign a grade based upon an evaluation of the total work done by the student in the course.
4. An incomplete which is not made up within one calendar year automatically will revert to the alternate grade which was assigned by the instructor at the time the incomplete was submitted.
5. Faculty are required to report both the alternate grade and the deadline for all incomplete work submission; this information is collected at the point of grade submission.
6. An incomplete remains on the permanent record and is accompanied by the final grade, for example, IA, IB, IC, etc.

### Faculty Options for Grading Mode

- A faculty member may elect to grade an entire class using the traditional letter grading option (A-F).
- A faculty member may elect to grade an entire class using the credit/no credit option (CR/NCR). This method of grading is used in courses where more precise grading is inappropriate.
- A faculty member may elect to grade an entire class with the open grade mode option which allows students to choose between traditional letter grading and credit/no credit grading. When a course is offered with the open grade mode option, then the default grading at the time of registration defaults to traditional letter grading. It is the student's responsibility to make the change to credit/no credit grading if this is their preference.
- Faculty members must choose the grade mode option for their courses at the time when courses are being proposed for a particular semester or within the first 15 instructional days of the semester.
- For the Spring semester of 2021 only, a faculty member may elect to add the open grading mode up until the 45th instructional day.
- Courses graded credit/no credit only and courses graded A-F only will be identified in the Course Search under Class Details.

### Credit Definition

Credit is defined in terms of semester hours. Credits for all coursework completed at the University of Montana is awarded in accordance with the Department of Education's regulations as set forth in 34 C.F.R. § 600.2 (<https://www.ecfr.gov/current/title-34/subtitle-B/chapter-VI/part-600/subpart-A/section-600.2/>) and defined in University of Montana Faculty Senate Procedure 201.35 (<https://www.umt.edu/faculty-senate/procedures/asrc-procedures-201/credit-hour-definitions-201.pdf>).

In general, in determining semester hour recommendations, the following guidelines are used:

1. One semester credit hour for each 15 hours of classroom contact plus 30 hours of outside preparation or the equivalent per semester; or
2. One semester credit hour for each 30 hours of laboratory work, practica, studio work, and similar activities, plus necessary outside preparation or its equivalent per semester, normally expected to be 15 hours; or
3. One semester credit hour for not less than 45 hours of internship work or shop instruction or the equivalent per semester.

## Class Standing

The undergraduate student is classified as a freshman, sophomore, junior, or senior based on the number of credits earned.

- Freshman = 0–29 credits
- Sophomore = 30–59 credits
- Junior = 60–89 credits
- Senior = 90 credits or more

Class standing for priority registration includes credits that are in progress for the current semester, but does not include credits for future semesters (e.g. summer credits when calculating for the following autumn.)

## Computation of Cumulative Grade Point Average

Quality points are assigned as follows:

- 4 quality points for each credit of A;
- 3.7 quality points for each credit of A-;
- 3.3 quality points for each credit of B+;
- 3 quality points for each credit of B;
- 2.7 quality points for each credit of B-;
- 2.3 quality points for each credit of C+;
- 2 quality points for each credit of C;
- 1.7 quality points for each credit of C-;
- 1.3 quality points for each credit of D+;
- 1 quality point for each credit of D;
- 0.7 quality points for each credit of D-.

The cumulative grade average is computed by dividing the total quality points earned by the total number of credits attempted, excluding courses assigned W, WF, WP, CR, NC, NCR, I, AUD, or N grades and courses numbered under 100 (grade is preceded by an R).

For repeated courses, excluding courses assigned W, WF, WP, NC, NCR, I, AUD, or N grades, only the last grade earned will count toward the cumulative grade average.

Grades for courses transferred from other colleges and universities are not included in the calculation of the grade point average.

## Repeating a Course

The repeat fee is covered when a student pays the \$25.00 student support fee as part of their semester registration bill.

Initial grades will be marked as repeated and remain on the transcript, but they will not be used in the GPA calculation. Grades of AUD, I, N, NC, NCR, NP, NF, W, WP, or WF may not be used to replace grades. An F grade will be used to replace grades. If the last grade received is an F, no credit is given for previous passing grades. All courses repeated remain on the permanent record but only the last grade received is used to determine credits earned. Only the last grade received is used in calculating the grade point average.

If students receiving federal financial aid repeat a course previously passed they can only receive financial aid to do so a second time. On a third attempt the course will not be counted in the enrollment status for determining aid eligibility.

If enrollment in a course is closed, a student who is repeating or auditing the course may be required by the instructor to drop the course. This rule grants enrollment preference to those students attempting to register for the course for the first time for credit. It is the responsibility of the student who is not allowed to remain in the course to formally drop the course to avoid a failing grade for that course.

Repeating a course in the School of Law is governed by a different policy. Law School students - see the School of Law website (<https://www.umd.edu/law/>) for course repeat information.

## Credit By Examination

Under certain circumstances, a currently registered student may receive credit by examination for a course in which he or she has not been regularly enrolled. The student must have a minimum cumulative grade average of 2.00 and an entering freshman must present a high school scholastic record equivalent to a 2.00 grade average to be eligible to earn credit by examination in any course.

Each school or department may determine those courses, if any, for which credit may be earned by examination. The Dean of the school or the Chair of the department must approve any arrangements prior to testing for such credit. On the successful completion of an examination, credits earned will be entered into the "Transfer Credit" portion of the student's transcript and will not count toward the credit load for the current semester. There are no fees for this type of credit by examination and grading may be credit/no credit or traditional letter grade.

## Undergraduate Academic Performance

The cumulative grade average is calculated by dividing the total quality points earned by the total number of credits attempted, excluding courses assigned W, WF, WP, CR, NC, NCR, I, AUD, or N grades and courses numbered under 100 (grade is preceded by an R). Grades for courses transferred from other colleges and universities are not included in the calculation of the grade point average.

## Dean's List

To qualify for the Dean's List, students must be undergraduates, must earn a semester grade average of 3.50 or higher, and receive grades of A or B in at least 9 credits. No grades of C+, C, C-, D+, D, D-, F, NC or NCR are allowed

## 4.0 President's List

To qualify for the 4.0 President's List, students must be undergraduates, must earn a semester grade average of 4.0, and receive a grade of A in at least 9 credits. No grades of NC or NCR are allowed

## Undergraduate Academic Warning

An undergraduate student will be placed on academic warning if at the end of any fall or spring semester their cumulative University of Montana grade average drops below 2.00. No student will be placed on academic warning following any summer semester enrollment. The effect of the academic warning is to serve notice to the student that the quality of their work is below an acceptable level and that continuation of unsatisfactory work during their next semester of enrollment will result in academic suspension. The academic warning status is recorded on the student's academic transcript and semester grades. Students placed on warning should contact their academic advisor immediately to seek assistance and direction.

## Undergraduate Academic Suspension

An undergraduate student will be placed on academic suspension at the end of any fall or spring semester if the student was on academic warning during their prior semester of attendance and the student's cumulative grade average remains below 2.00. No student will be placed on academic suspension following any summer semester enrollment.

Exceptions are made if the student earns at least a 2.00 grade average for the current semester without raising their cumulative grade average to the required minimum. In such cases, students remain on academic warning.

A student placed on academic suspension may not re-enroll at the University unless they have been reinstated. Reinstatement will require, at minimum, one full semester of non-enrollment at any campus of the Montana university system. Academic suspensions are noted on final grades and academic transcripts. Additional information can be found on the Office for Student Success Academic Standing web page ([http://www.umt.edu/oss/for\\_faculty\\_staff/acadstand.php](http://www.umt.edu/oss/for_faculty_staff/acadstand.php)).

## Reinstatement from Academic Suspension

As noted above, an undergraduate student will be academically suspended at the end of a semester if placed on academic warning during the previous semester of attendance and the student's cumulative University of Montana graduate point average (CGPA) remains below the 2.00 CGPA required for good academic standing.

Students who have been suspended for academic reasons and seek reinstatement must complete an Academic Reinstatement Plan with the reinstatement contact for the college or school in which they intend to enroll. Upon completion of the Academic Reinstatement Plan, the student must then receive the approval of the academic dean or the dean's designee. Academic reinstatement contacts on the Mountain Campus and at Missoula College can be found on the Office of the Registrar Academic Suspension and Reinstatement (<https://www.umt.edu/registrar/academic-standing/reinstatement.php>) website. It is strongly recommended that students complete the Academic Reinstatement Plan at least three business days prior to the start of the semester for which they intend to enroll.

Typically, retroactive grade changes, dropped courses, or withdrawals do not reverse the academic suspension status that is recorded on the transcript unless there was an error or grading mistake.

Academic reinstatement is not automatic. On the Academic Reinstatement Plan, the student must provide the reasons for previous poor academic performance along with a carefully prepared plan for improvement that is completed with the help of an academic advisor who serves as the reinstatement contact for their college or school. A student denied reinstatement may appeal the denial in writing to the President

of the University within ten days of receiving the notice of denial. The decision to deny reinstatement normally will not be reversed unless there is evidence the decision was made arbitrarily.

If a suspended and reinstated student has not attended UM for more than two years, the student must also complete an Application for Readmission through the Undergraduate Admissions Office. The readmission form re-activates the student's record and, along with the Academic Reinstatement Plan form, allows the student to register for courses.

## Appeal of Academic Suspension

Students may appeal a suspension in cases where there are compelling and documented circumstances. If the appeal is approved by the dean of the student's college, the student may return to the university without sitting out a semester. Appeals are considered where the student has otherwise demonstrated an ability to succeed at the university and the compelling circumstances that led to the poor performance have been resolved.

An appeal of academic suspension will only be granted one time, on the approval of the appropriate dean. See the Appeal of Suspension Form (<http://www.umt.edu/registrar/PDF/AppealofSuspension.pdf>), which details eligibility criteria and appropriate procedures.

## Academic Forgiveness

- A University of Montana-Missoula or Missoula College undergraduate, seeking their first undergraduate degree, who returns to the university after a minimum absence of three years and completes 30 credits of academic study with a minimum cumulative University of Montana GPA of 2.5 is eligible for Academic Forgiveness.
- Academic Forgiveness allows a student who has met the requirements above to select a prior semester or semesters they wish to have excluded from calculation in the cumulative University of Montana GPA. The semester(s) chosen must have occurred prior to the student's return to the university.
- Receiving Academic Forgiveness for a semester or semesters results in all credits and grades earned in the semester to be excluded from the student's GPA calculation. A student will not be allowed to select specific grades and credits to retain while excluding others earned within the same semester. The excluded courses and grades will remain on the transcript; however, they may not be used to fulfill any university requirements.
- Only University of Montana-Missoula or Missoula College grades and credits will be excluded.
- All excluded courses are still counted as attempted courses in determining if a student is meeting the pace standard of the financial aid satisfactory academic progress (SAP) policy. If the terms being forgiven include courses a student previously passed the result could be that the student would now be out of compliance with the SAP policy and would have to do a financial aid appeal to have aid eligibility reinstated.
- A student will be granted Academic Forgiveness only one time.
- Students who receive Academic Forgiveness will be bound by the University Catalog in effect at the time of their return to The University or any subsequent catalog in accordance with University policy.
- Students wishing to apply for Academic Forgiveness will contact the Registrar's Office for the appropriate form. The Registrar's Office will be responsible for verifying eligibility and notifying the student of approval.

- Other options exist for students who have not left the university, such as course repeat, withdrawals, and other mechanisms listed under academic policies in this catalog.

Students wishing to apply for Academic Forgiveness may obtain the form on the Registrar's website at: Academic Forgiveness web page (<https://www.umt.edu/registrar/students/academicforgivenesspolicy.php>).

## Transcript of Academic Record

An official transcript of a student's academic record may be obtained via secure online ordering through the National Student Clearinghouse or from the Registrar's Office in the sixth floor of Aber Hall Center upon the written and signed request of the student. In compliance with federal and state laws designed to protect student privacy, transcripts are not released without the student's authorizing signature. Copies ordered via National Student Clearinghouse can be delivered electronically, hard copy or direct electronic data exchange.

Transcripts are usually available within two to five working days after receipt of the signed request. There is a charge for each official transcript. Payment must be received before transcripts are released. Special handling requests require extra fees.

Additional information regarding ordering options and fees may be viewed via the Registrar's Website (<https://www.umt.edu/registrar/students/Transcripts%20and%20Verifications.php>).

Any student who enrolled after summer semester 1991 may view their academic record in the GrizPortal.

## Student Rights and Responsibilities

### Privacy and Release of Student Education Records (FERPA)

#### What is FERPA?

FERPA (Family Educational Rights and Privacy Act) was enacted in 1974. It is a set of regulations that applies to those institutions, such as the University of Montana, that receive funding from the Department of Education.

FERPA was written specifically for students and guarantees them the right to inspect and review their education records, the right to seek to amend education records, and the right to have some control over the disclosure of information from those education records.

#### Education Records

Under FERPA, education records are defined as records that are directly related to a student and are maintained by an education agency or institution or by a party acting for the agency or institution. Education records can exist in any medium, including: typed, computer generated, videotape, audiotape, film, microfilm, microfiche and email, among others.

#### Education records DO NOT INCLUDE such things as:

- Sole possession records such as records or notes in sole possession of the maker, used only as a personal memory aid and not revealed or accessible to any other person except a temporary substitute for the maker of the record. (This might include notes an instructor makes while providing career or professional guidance to a student.)
- Medical treatment records that include but are not limited to records maintained by physicians, psychiatrists and psychologists.
- Employment records when employment is not contingent on being a student, provided the record is used only in relation to the individual's employment.

- Records created and maintained by a law enforcement unit used only for only that purpose and revealed only to law enforcement agencies of the same jurisdiction, as long as the enforcement unit does not have access to education records.
- Post-attendance records such as information about a person obtained when the person was no longer a student (e.g., alumni records) and does not relate to the person as a student.

## Resources for Students

### Notification Regarding Release of Student Directory Information

The Family Educational Rights and Privacy Act (FERPA) of 1974 (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. "Education records" are "those records, files, documents, and other materials which 1) contain information directly related to a student; and 2) are maintained by an educational institution. (20 U.S.C. § 1232g(a)(4)(A); 34 CFR § 99.3). FERPA applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

Generally speaking, FERPA allows the University to disclose education records or personally identifiable information from education records in the following circumstances: with the written consent of the student, if the disclosure meets one of the regulatory exemptions, or if the disclosure is directory information and the student has not placed a hold on release of directory information.

The University defines the following information as directory information:

- Student's name
- Address (mailing, permanent and email)
- Telephone number
- Dates of attendance
- Degrees and honors received
- Major and minor field(s) of studies
- Class
- Participation in officially recognized activities and sports
- Most recent previous educational agency or institution attended by the student
- Weight and height, if student is a member of an intercollegiate athletic team

FERPA allows the University to release a student's directory information to anyone unless the student formally requests confidentiality by completing a form from the University Office of the Registrar.

### NO to Release of Directory Information

If you do not wish to authorize the release of directory information and do not want your directory information to appear in the University Student Directory, you must inform the Office of the Registrar of this by completing a *Request to Restrict Directory Information form* which can be obtained from the Registrar's Office Website (<http://umt.edu/registrar/>). You should allow at least three business days for processing.

### You should be aware ...

You should be aware that restricting the release of your directory information has other consequences. For instance, a FERPA restriction makes it difficult or impossible for potential employers to verify your enrollment, or to verify the fact that you have earned a degree from the University. The University cannot notify your home town paper about awards and honors you receive (e.g., Dean's list). For this reason alone, many students choose to remove their FERPA restriction.

## Change from NO to YES

At any time after restricting the release of your directory information, you may change your mind and choose to authorize the University to release directory information and for it to appear in the University Student Directory. You can grant such authorization at any time by going to the Registrar's Office in Aber Hall, Floor 6 with a valid photo identification or by completing a *Request to Rescind Restriction Directory Information form* which can be obtained from the Registrar's Office Website (<http://www.umt.edu/registrar/>).

## Notification of Students' Rights Under FERPA

FERPA also affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

To inspect and review their education records, a student should submit to the registrar, dean, head of the academic department, or other appropriate University official or office having custody of the particular record(s), a written request that identifies the record(s) the student wishes to inspect. The school official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the school official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. (*This process cannot be used to challenge a grade.*)

A student who wishes to ask the University to amend a record should write the appropriate University dean or director responsible for custody of the record, clearly identify the part of the record the student wants changed and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the University discloses personally identifiable information from the student's education records, except that the University may disclose the following information without a student's consent:
  - a. Disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including, but not limited to University Police Department personnel, and Curry Health staff). A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for the University.
  - b. A contractor, consultant, or other outside service provider retained to provide various institutional services and functions under contract or by statute instead of using University employees or officials (including, but not limited to an attorney, auditor, collection agent, information systems specialist, teaching affiliate, and clinical mentor);
  - c. The University's affiliated Foundation;

- d. A person serving on the Board of Regents, staff in the Office of the Commissioner of Higher Education, the Institutional Review Board, and any other University board, committee or council; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks.
- e. Compliance with a lawfully issued subpoena or judicial order.
- f. Requests in connection with a student's application for financial aid.
- g. Information submitted to accrediting organizations.
- h. To other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.
- i. Requests by federal and state authorities and authorized third parties designated by federal and state authorities to evaluate a federal or state supported education program; to researchers performing certain types of studies; in connection with statewide longitudinal data systems studies and tracking.
- j. In the case of emergencies, the University may release information to appropriate persons in connection with an emergency, if the knowledge of such information is necessary to protect the health or safety of a student or other persons.
- k. To the extent otherwise permitted by law, the results of a disciplinary proceeding or investigation conducted by the University to an alleged victim of a crime.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202-5901

## Student Rights

### Public Safety Report and Alcohol and Drug Guidelines

The health and safety of students, faculty, staff, and visitors are of paramount concern to The University of Montana. Each year the University publishes an annual report outlining on-campus security and safety information and crime statistics. The report provides important information for security awareness and crime prevention programs, emergency procedures and reporting crimes, plus law enforcement and safety services on campus.

Additionally, the booklet contains the University's policy on sexual assault and information about support services for victims of sexual assault.

The booklet also includes information about the University's drug and alcohol policy, programs and support services for substance abuse, and risk management guidelines for University-related events.

The booklet is available by writing or calling the Office of Public Safety (406) 342-6131 or the Office of the Vice President for Student Affairs (406) 243-5225, The University of Montana, Missoula, MT 59812. The information can also be accessed on the University of Montana Student Affairs website (<http://www.umt.edu/vpesa/>) and the University of Montana Public Safety website (<http://www.umt.edu/police/>).

### Student Concerns and Complaint Procedures

Students with concerns about academic policies at UM should contact their college Dean's Office (<https://www.umt.edu/provost/about/academic-officers-and-office-staff/academic-officers/default.php>).

If the nature of the concern is something that affects academic performance:

- First, attempt to resolve the issue directly with the instructor of record.
- If resolution is not possible or the instructor of record is unresponsive to requests within a week please contact the Chair of the Department.
- If the Chair is unable to resolve the matter or is unresponsive to requests within a few days please contact the Dean of the College or School.
- If the Dean is unable to resolve the matter or is unresponsive to request please contact the Office of the Provost at (406) 243-4689.

If the instructor of record, the Chair, the Dean, and the Provost's Office have not addressed the matter to satisfaction, then please contact the ASUM Student Resolution Officer (<https://www.umt.edu/asum/agencies/legal/resolution/default.php>) at (406) 243-6213 or message them at [asumlegal@mso.umt.edu](mailto:asumlegal@mso.umt.edu).

The student grievance procedure requires that such grievances be brought to the Student Resolution Officer within 30 days of the act or omission that caused the grievance or after the date that the student knew or should have known of such an act or omission (see CBA (<https://www.umt.edu/provost/faculty/CBAs/default.php>) Section 21.500). It is very helpful to chronologically organize all documentation of interactions between the student and the faculty, staff, and administrators contacted. In addition, we recommend students write a chronological summary of their experiences in trying to resolve the academic issue.

### Resources

- Formal Grievance Procedure (<https://www.umt.edu/provost/faculty/CBAs/default.php>)— Student complaints against faculty—except in the School of Law (<https://www.umt.edu/law/students/default.php>)—follow the procedures in accordance with CBA, Section 21.000. Complaints against an instructor who is not a member of the bargaining units or held to the procedures described in either CBA follow the same procedure per Policy 350. (<https://www.umt.edu/legal-counsel/policies-procedures/350-nontnr-appts.php>)
- Student Conduct Code (<http://www.umt.edu/vpesa/Dean%20of%20Students/default.php>)—Covers expectations and campus procedures for general conduct and academic conduct.
- Click to view the Non-Discrimination Statement. ([https://www.umt.edu/provost/students/concerns/non-discrimination-statement\\_website.docx.pdf](https://www.umt.edu/provost/students/concerns/non-discrimination-statement_website.docx.pdf))

### Notification of Montana University System Complaint Process

In October 2010, the United States Department of Education released new regulations known as the "Program Integrity" rules, which are intended to address concerns relating to the integrity of academic programs offered by postsecondary educational institutions and authorized under Title IV of the Higher Education Act (HEA), as amended.

As part of those new rules, each state must have in place a process for receiving, reviewing, and responding to complaints concerning post-secondary educational institutions delivering educational services in that state, and each institution must inform students how to initiate complaints in the state where the student receives instruction. This notification provides information on the complaint process available to students of the Montana University System.

Pursuant to Mont. Code Ann. § 20-25-201 and Title 20, Chapter 15 Mont. Code Ann., the designated units of the Montana University System, and the duly organized community college districts in the State of Montana are legally authorized to provide postsecondary education in the State of Montana. Together, these fourteen entities form the group of public postsecondary educational institutions in the State of Montana, all of which are under the authority and control of the Board of Regents of the Montana University System. Those institutions are as follows:

- Montana State University – Bozeman
- Montana State University – Billings
- Montana State University – Northern
- Montana State University – Great Falls College
- University of Montana – Missoula
- University of Montana – Missoula College
- University of Montana – Helena College
- Montana Tech of the University of Montana
- The University of Montana – Western
- Dawson Community College
- Flathead Valley Community College
- Miles Community College

These institutions are accredited by the Northwest Commission on Colleges and Universities (<https://www.nwccu.org/>), 8060 165th Avenue NE, Suite 100, Redmond, Washington 98052, (425) 558-4224.

- View Evidence of each institution's accreditation (<https://www.nwccu.org/member-institutions/directory/>).

### How To File A Complaint:

Students and prospective students of the Montana University System are encouraged to initially address complaints through the applicable institution's complaint or review procedures. At the University of Montana, please refer to the following.

- For concerns about academic performance, contact the Office of the Provost ([officeoftheprovoat@umontana.edu](mailto:officeoftheprovoat@umontana.edu)) at (406) 243-4689.
- For safety concerns, contact the UM Police (<http://www.umt.edu/publicsafety/>) at (406) 243-6131.
- For concerns about campus life, contact the Office of Student Affairs (<http://www.umt.edu/student-affairs/>) at (406) 243-5225.
- For concerns about student conduct and general assistance, contact John Nugent ([john.nugent@umontana.edu](mailto:john.nugent@umontana.edu)) at (406) 243-2611.
- For concerns about discrimination or protected-class harassment, contact the Title IX Coordinator/Office of Conflict, Resolution,

course through the GrizPortal to avoid receiving a failing grade. Students who know they will be absent should contact the instructor in advance.

Students are expected to attend all class meetings and complete all assignments for courses in which they are enrolled. Instructors are encouraged to notify advisors or the appropriate administrators regarding students with excessive unexcused absences. Instructors may excuse brief and occasional absences for reasons of illness, injury, family emergency, religious observance, cultural or ceremonial events, or participation in a University sponsored activity. (University sponsored activities include for example, field trips, ASUM service, music or drama performances, and intercollegiate athletics.) Instructors shall excuse absences for reasons of military service or mandatory public service.

Cultural or ceremonial leave allows excused absences for cultural, religious, and ceremonial purposes to meet the student's customs and traditions or to participate in related activities. To receive an authorized absence for a cultural, religious or ceremonial event the student or their advisor (proxy) must submit a formal written request to the instructor. This must include a brief description (with inclusive dates) of the cultural event or ceremony and the importance of the student's attendance or participation. Authorization for the absence is subject to approval by the instructor. Appeals may be made to the Chair, Dean or Provost. The excused absence or leave may not exceed five academic calendar days (not including weekends or holidays). Students remain responsible for completion or make-up of assignments as defined in the syllabus, at the discretion of the instructor.

Instructors may establish absence policies to conform to the educational goals and requirements of their courses with due consideration of the class's diversity. Such policies should be set out in the course syllabus and should include the procedures for giving timely notice of absences, explain how work missed because of an excused absence may be made up, and stipulate any penalty to be assessed for excessive or unexcused absences.

The UM Faculty Senate encourages the faculty to accommodate students incurring an excused absence by allowing them to make up missed work when this can be done in a manner consistent with the educational goals of their courses. Students expecting to incur excused absences should consult with their instructors early in the term to be sure that they understand the absence policies for each of their courses.

## Declaring a Major, Minor, or Certificate and Changing a Major, Minor, or Certificate

Students indicate on the application for admission the major or majors in which they are interested. Students undecided as to a field of interest may elect to be Undeclared while making program and career decisions. Students must declare a major in a degree granting program prior to completion of 45 credits or after three semesters, whichever occurs first.

Students must complete a major in order to earn a degree or certificate.

Students may change their majors or minors and declare certificates by contacting the academic advisor of the respective major, minor, or certificate program they wish to declare and requesting that they communicate this change to the Office of the Registrar. It is strongly advised that students meet with an advisor before changing their major or minor or declaring a certificate.

Students who wish to transfer between Missoula College and the University of Montana-Missoula programs must instead submit an Intra-Campus File Transfer form (<https://www.umt.edu/registrar/PDF/intra%20Campus%20transfer%20form.pdf>). Students transferring from Missoula College to University of Montana-Missoula must be evaluated by Undergraduate Admissions to ensure minimum admission requirements are met.

Forms and information are available on the Registrar's Office forms page (<https://www.umt.edu/registrar/Forms.php>).

## Graduate School Policies

Academic policies specific to the Graduate School can be found in the Graduate School Policies (p. 440) section of this catalog.

## Degree and Certificate Requirements for Graduation

### Catalog Governing Graduation

- Students may graduate fulfilling University and departmental major requirements in any single University of Montana-Missoula catalog under which the student has been enrolled during the six years prior to graduation. For example, the 2019-20 catalog can be used to graduate through summer 2026.
- The student must meet major requirements under the same catalog under which the student is meeting University requirements (general education requirements, credit requirements, and credit-residency requirements).
- Minor requirements may be satisfied under a different catalog within the six-year period.
- University or departmental requirements may change to comply with accreditation requirements, professional certification, and licensing requirements, etc.
- Students transferring to the University of Montana-Missoula may choose to graduate fulfilling requirements under the UM catalog in effect when they were enrolled at their original institution, provided the chosen catalog is not more than six years old at the time of graduation. Eligible students who choose an earlier catalog must notify the Admissions Office at the time of admission so their transfer work can be evaluated accordingly.

## Applying for Certificate and Degree Candidacy

To become a candidate for an undergraduate degree or certificate, the student must file a formal application with the Office of the Registrar at the beginning of the semester preceding the semester in which the student expects to graduate. Deadline dates are specified on the Registrar's Office website (<https://www.umt.edu/registrar/graduation/default.php>).

## Credit Requirements and Limitations Certificates

See individual college or school catalog sections for certificate course and credit requirements. Course and credit requirements vary by program, but most certificates require the completion of at least 12 credits.

## Associates of Applied Science

To receive an Associate of Applied Science (A.A.S.) degree, a student must fulfill the following criteria:

- Complete a minimum of 60 credits, of which 51% must be from the University of Montana. Please note that courses numbered below 100 do not count toward the 60 credit requirement, but do fulfill financial aid credit load requirements.
- Possess a minimum grade average of 2.00 in all work attempted at the University of Montana-Missoula and a minimum grade of C- in all classes that count toward program requirements.
- Complete the specialized program degree requirements including the following related subject area of core collegiate-level courses:
  - **Communication:** the ability to formulate and adapt messages to a variety of audiences through written, verbal, and nonverbal processes.
  - **Computation:** the ability to complete basic algebraic manipulations and achieve mathematical literacy.
  - **Human Relations:** the ability to analyze social problems and structure, ethical norms of professions and society, human behavior, or human values systems.
  - **Computer Literacy:** the ability to utilize a modern computing system including web applications and an office productivity suite to research, develop and produce information in a 21st century society.
  - **Professional Competency:** To ensure all graduates the opportunity to apply specialized skills in a professional environment, it is recommended student complete a program-related internship, field experience, clinical experience, capstone project, or professional certification activity.

## Associates of Arts and Associates of Science

A total of 60 credits is required for graduation with the Associate of Arts (A.A.) or Associate of Science (A.S.) degrees. The minimum grade average for graduation is 2.00 in courses taken on the traditional letter grade (A-F) basis. To receive the Associate of Arts or Associate of Science degrees, the student must successfully complete all of the lower-division general education requirements for a baccalaureate degree with the exception of the language requirement.

## Baccalaureate Degrees

A minimum of 120 credits is required for graduation with a baccalaureate degree in most academic programs offered at the University of Montana. A greater number is required in some specific programs; students should consult the appropriate catalog section for their program of interest and discuss their plans with an academic advisor.

Students may elect to earn more than one degree or major at the baccalaureate level. Available options include a double major or a dual degree:

- A **double major** is awarded as one degree with one diploma that may list two or more majors. The graduating student with multiple majors must fulfill the curricular requirements for two or more majors as well as all other requirements for graduation. The two majors must be within a single classification of baccalaureate degree (e.g. Bachelor of Science, Bachelor of Arts, Bachelor of Fine Arts, etc.). Students may also fulfill requirements for two majors across degree classes. In such cases the student must declare a primary major that determines the type of degree awarded that will be printed on the student's diploma and transcript. The secondary major shall be annotated on

the student transcript as completed; however, a second degree is not awarded.

- **Dual degrees** (or multiple degrees) are awarded as separate degrees with two (or multiple) diplomas (e.g. Bachelor Science and a Bachelor of Arts). The student must fulfill all of the program requirements for each of the separate baccalaureate degrees and must comply with the credit residency requirements for degrees and certificates (p. 38) for each degree. Multiple degrees may be earned concurrently or at different times, but all dual degree graduates must complete a minimum of 150 credits by completing an additional 30 credits for each subsequent baccalaureate degree. However, note that academic residency requirements apply differently for University of Montana graduates versus non-graduates seeking dual or subsequent degrees, so the requirements may differ.

General education requirements need only be met once for either a double major or dual degree.

All majors, minors, degrees, and certificates earned from the University of Montana-Missoula shall be clearly and specifically listed on official transcripts under a single degree or as separate dual/multiple degrees, as appropriate.

### Credits Required for a Major

Students in a bachelor degree program must complete a minimum of 30 credits in their major. Most majors require more.

Students may elect to earn a single degree with more than one major. Students may complete a double major (two majors) or any number of majors. All requirements for the majors must be completed even though students will receive a single degree such as a Bachelor of Arts with majors in Psychology and Sociology. It is only necessary to complete the total credit requirement for a single bachelor degree.

Courses completed to satisfy the requirements of a major also may be applied toward the General Education Requirements if they appear on the list of approved courses at the time they are taken.

### Credit Limitations in a Major

A maximum of 60 credits in the student's major may be counted toward the baccalaureate degree, except some options in Integrative Physiology and Education, majors in Computer Science, Journalism, Law and majors in the College of Business, College of the Arts and Media, College of Health Professions and Biomedical Sciences, and the College of Forestry and Conservation are allowed more. Students with combined majors, as opposed to two majors, are allowed to apply 75 credits in the major.

### Major Concentrations

Groups of courses have been identified which lead to a specialization within one major or between two or more majors. These specializations are called concentrations. The names of approved concentrations will be recorded on the permanent records of those students who have satisfactorily completed the requirements as given in the catalog governing their graduation. A student desiring a particular concentration must satisfy the requirements of the major offering it. If one concentration is offered within two or more majors, the student must satisfy the requirements of only one.

Only courses listed within the supporting major count toward the 60 credit limitation in the major. Courses in other fields do not count toward the maximum of 60 credits in the major even though they may be required or elected for the concentration.

If one major has two or more concentrations, a student may satisfy the requirements for more than one concentration so long as the maximum credit limitations are observed.

### Minor Requirements

Baccalaureate students may elect to complete one or more minors in fields outside their majors. Minors may be in fields unrelated to students' majors or they may be complementary or supportive of majors. A student may not take a minor in the same field of study as their major.

A student will not be required to satisfy the requirements of a minor in order to graduate unless that minor is required by the student's major department or school.

Courses completed to satisfy the requirements of a minor also may be applied toward the General Education Requirement if they appear on the list of approved courses at the time they are taken.

### Credits Required for a Minor

To complete a minor, students must earn at least 18 credits in an approved minor listed in this catalog and complete a baccalaureate degree.

Students possessing a baccalaureate degree from an accredited college or university may earn a minor if they have been accepted by the University as an undergraduate degree-seeking student and are earning an additional baccalaureate degree at the University of Montana-Missoula. In addition to meeting minor requirements, students must earn from the University of Montana-Missoula a minimum of 9 credits in the minor field and 15 credits overall.

### Upper-Division Credit Requirement

All students must complete a minimum of 39 credits in courses numbered 300 and above to meet graduation requirements for the first baccalaureate degree. At most, 19 of these 39 upper-division credits can be upper-division credits transferred from other four-year institutions.

Lower-division transfer courses accepted as substitutions for upper-division courses required for a particular major do not count toward the 39 upper-division credit requirement.

### Credit Residency Requirements for Degrees and Certificates

University of Montana credit is defined as credit earned in any course that has been approved to be listed in the University of Montana-Missoula catalog and has been approved for offering by the Department Chair and Dean of the school or college in which the course is taught. University of Montana-Missoula credit may be offered at any University of Montana campus location.

### Credit Residency Requirements for Certificates, Associates of Applied Science, and Associate of Science in Nursing Degrees

A minimum of 51% of the required number of credits must be earned from the University of Montana-Missoula.

### Credit Residency Requirements for the Associate of Arts and Associate of Science Degrees

A minimum of 30 credits of the required 60 credits must be earned from the University of Montana-Missoula.

### Credit Residency Requirements for the First Baccalaureate Degree

A first baccalaureate degree is defined as any baccalaureate degree earned by a student who has not previously earned a baccalaureate degree from the University of Montana-Missoula. The

requirements listed below also apply to any student who previously earned a baccalaureate degree at another institution and now is seeking a baccalaureate degree from the University of Montana-Missoula.

- A minimum of 30 credits of the required 120 (or more) credits must be earned from the University of Montana-Missoula.
- A minimum of 20 upper-division credits of the required 39 upper-division credits must be earned from the University of Montana-Missoula. Students attending elsewhere on a university-approved exchange may be exempt from this requirement with the prior written approval of their major department Chair or Dean.

### Credit Residency Requirements for Second and Subsequent Baccalaureate Degrees

In regard to residency requirements, a second baccalaureate degree is defined as any baccalaureate degree earned by a student who had previously earned a baccalaureate degree from the University of Montana-Missoula; they have met first degree residency requirements and need only do so once. Students seeking a second baccalaureate degree or dual degree from the University of Montana must complete all academic requirements for each degree (first and subsequent) and earn a minimum of 150 credits by completing an additional 30 credits for each subsequent baccalaureate degree. For students who have met first degree residency requirements, a minimum of 20 credits of the required additional 30 credits must be earned from the University of Montana-Missoula.

Students attending the University of Montana who are not University of Montana graduates, but already have a baccalaureate degree from another institution must meet University of Montana residency Requirements for the first baccalaureate degree (see above) for the subsequent degree that they are now seeking.

### Exception Regarding Experiential-Based Learning Credits

A maximum of 1/3 of the credits used to satisfy credit residency requirements for degrees and certificates can be earned through experiential-based learning credits. No experiential-based learning credits may be applied to upper-division credit residency requirements for the first baccalaureate degree. See Faculty Senate Procedure 203.30 (Credit for Prior Learning (CPL) Guidelines) for definitions and additional details.

### Credit Maximums

The amount of credit which may be counted toward the minimum credit requirements for the baccalaureate (B.A., B.S., B.F.A., etc.), Associate of Science (A.S.), and Associate of Arts (A.A.) degrees is limited in certain areas as follows:

| Category                                                                                                                                                                | For Bachelor Degree | For AA or AS Degree |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|---------------------|
| Career skills                                                                                                                                                           | 0                   | 0                   |
| Study skills courses<br>(e.g. AASC 101, C&I 160)                                                                                                                        | 2                   | 2                   |
| Activity/skills courses<br>(including physical education and esports,<br>e.g. DANC 325,<br>ACT 101-ACT 287,<br>ACTV, MSL 106 and<br>MSL 203, MART 100,<br>and MART 189) | 4                   | 4                   |

|                                                                                              |    |    |
|----------------------------------------------------------------------------------------------|----|----|
| Military Science Leadership Courses (contracted students may present 24 credits)             | 12 | 12 |
| Music performance (MUSI 102A, MUSI 123A, MUSI 135A, MUSI 136A, MUSI 235, MUSI 236, MUSI 218) | 6  | 6  |
| Ensemble music (MUSI 112A, MUSI 114A, MUSI 110A, MUSI 131A and MUSI 122A)                    | 8  | 8  |
| Credit/No Credit courses                                                                     | 18 | 18 |
| Internship credits in courses numbered 198/298/398/498                                       | 6  | 6  |

Credits attempted in these areas which are beyond the maximum applicable will remain on the student's permanent record, but cannot be used toward graduation.

## Minimum Grade Requirement

Courses taken to satisfy general education requirements, the requirements of a major or a minor, or the requirements for a certificate must be taken in the traditional (A-F) grade mode when available and completed with a grade of C- or better (or CR in cases where credit/no credit is the only available grade mode). Some programs may require higher grades for some or all required courses. Specific information regarding individual program requirements can be found in individual program entries (p. 563).

## Grade Point Average Requirement

A minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation.

## Graduation with Honors

Graduates may be awarded honors with their certificates, associates, and baccalaureate degrees based on their cumulative University of Montana-Missoula (UM) institutional grade point average (GPA).

Consistent with Board of Regents policy, the UM institutional GPA shall be computed by dividing the sum of grade points earned by the total credits carried, except that neither the credits nor the grade points shall be counted for:

- Non-credit, remedial, developmental, or other sub college-level courses as represented below the 100-level;
- Courses taken on a credit/no credit basis (pass/fail, etc.), or
- Transferred coursework.

To be eligible for graduation with honors, at least 50% of the credits required for the certificate or degree must be credits eligible to count towards the student's UM GPA.

### Graduation cum laude ( *with honors*), magna cum laude ( *high honors*) or summa cum laude ( *highest honors*):

Each semester the registrar shall distribute a list of graduation candidates with a UM GPA that meets or exceeds 3.40. Faculty Senate shall award honors as:

1. Cum laude (*Honors*): All undergraduate students shall graduate *cum laude (with honors)* when their cumulative UM GPA meets or exceeds 3.40.
2. Magna cum laude (*High Honors*): Departments and programs may stipulate additional requirements and then recommend students for graduation magna cum laude (*high honors*) when the cumulative UM GPA meets or exceeds 3.70.
3. Summa cum laude (*Highest Honors*): Departments and programs may stipulate additional requirements and then recommend students for graduation summa cum laude (*with highest honors*) when their UM GPA meets or exceeds 3.90.

## General Education Requirements

### Preamble

The University of Montana-Missoula's General Education Program provides a broad academic base that supports both undergraduate learning at the University of Montana-Missoula and continued learning following graduation. While the General Education Program offers students considerable flexibility in selecting courses, it has a set of common educational objectives for all students.

In accordance with the mission of the University of Montana-Missoula, these objectives are to develop competent and humane individuals who are informed, ethical, literate, and engaged citizens of local and global communities. Students should become acquainted with issues facing contemporary society, participate in the creative arts, develop an understanding of science and technology, cultivate an appreciation of the humanities, and examine the history of different American and global cultures. Upon completion of the general education requirements students should be able to articulate ideas orally and in writing, understand and critically evaluate tangible and abstract concepts, and employ mathematical and other related skills appropriate to a technologically focused society.

In summary, the General Education Program is designed to provide a high quality intellectual foundation that accommodates all UM students whether in liberal arts or professional programs. This foundation will be reinforced, expanded, and refined as students continue through their course of study. Students are encouraged to prepare for productive roles in their chosen fields by cultivating civic awareness vital to the greater community and a democratic society. The acquired skills will allow students to examine critically the human experience and achieve genuine confidence in their knowledge and abilities. For the General Education Program to accomplish its goals, students must assume primary responsibility for their growth and education.

### Overview

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the following General Education Requirements (GERs).

All General Education courses must be at least 3 credits, must be introductory and foundational, and have no more than one pre-requisite. The General Education Committee may allow exceptions for upper-

division courses, courses fewer than three credits, and for courses with more than one prerequisite if the proposing unit can justify such an exception.

Some courses may satisfy both the Writing Across the Curriculum requirement (1.2) and one of the Groups IV through XI. Some courses may satisfy both Group IX and one of the Groups IV through VIII. Some courses may satisfy both Group X and one of the Groups IV through VIII.

Many of the general education courses listed below require prerequisites be met before registration. Prerequisites are listed in individual course descriptions (p. 575).

**NOTE: All courses taken to satisfy General Education Requirements must be taken for a traditional letter grade and must be passed with a grade of C- or better.**

Students are cautioned that approved courses may change from year to year. To be used for General Education credit, a course must be listed as approved in the academic catalog for the academic year during which the course was taken.

| Group Letter and Description                                                                  | Credits |
|-----------------------------------------------------------------------------------------------|---------|
| Group I: English Writing Skills                                                               |         |
| 1. Introductory Writing (WRIT 101 3 or 201)                                                   |         |
| 2. Writing Across the Curriculum                                                              | 3       |
| 3. Writing in the Disciplines (as specified by major department)                              | 3       |
| Group II: Mathematics                                                                         | 3       |
| Group III: Modern and Classical Languages                                                     | 0-11    |
| Group IV: Expressive Arts                                                                     | 3       |
| Group V: Literary and Artistic Studies                                                        | 3       |
| Group VI: Historical Studies                                                                  | 3       |
| Group VII: Social Sciences                                                                    | 3       |
| Group VIII: Ethics and Human Values                                                           | 3       |
| Group IX: Democracy and Citizenship                                                           | 3       |
| Group X: Cultural & International Diversity                                                   | 3       |
| Group XI: Natural Sciences - One Natural Science course must include a laboratory experience. | 6       |

<sup>1</sup> Some courses satisfy more than one group. See the list in the next section.

## Courses that Satisfy More than One Group

The following courses satisfy more than one general education group.

| Title                                       | General Education Groups                             |
|---------------------------------------------|------------------------------------------------------|
| AAST 141H Black: From Africa to Hip-Hop     | Historical Studies, Cultural International Diversity |
| ANTY 101H Anthropology the Human Experience | Historical Studies, Cultural International Diversity |

|                                                   |                                                                 |
|---------------------------------------------------|-----------------------------------------------------------------|
| ANTY 102H Intro to South S. East Asia             | Historical Studies, Cultural International Diversity            |
| ANTY 103H Intro Latin American Studies            | Historical Studies, Cultural International Diversity            |
| ANTY 122S Race and Minorities                     | Social Sciences, Democracy and Citizenship                      |

## Group I: English Writing Skills

Students must satisfy the following three requirements:

1. Introductory College Writing
2. Writing Across the Curriculum
3. Writing in the Disciplines

### Introductory College Writing

Students must complete WRIT 101, WRIT 201, or an equivalent composition course with a grade of C- or better. Students with Language and Composition AP scores of 4 or better are exempted from this requirement.

Entering students who are placed into WRIT 095, based on their standardized test scores, must successfully complete WRIT 095 prior to enrolling in WRIT 101 or WRIT 201 or enroll in a section of WRIT 101 with co-requisite support. Students may challenge their placement

with specific scores from the University Writing Assessment. Entering students who place into WRIT 201 may choose to take WRIT 101 instead.

## Writing Across the Curriculum and Writing in the Disciplines

To fulfill the General Education requirements for college writing students must pass one Writing Across the Curriculum course with a grade of C- or better and also one Writing in the Disciplines course with a grade of C- or better (in this order, if possible).

Upon completing the Writing Across the Curriculum course, students should be able to demonstrate the following learning outcomes:

- Use writing to learn and synthesize new concepts.
- Formulate and express written opinions and ideas that are developed, logical, and organized.
- Compose written documents that are appropriate for a given audience, purpose, and context.
- Revise written work based on comments from the instructor.
- Find, evaluate, and use information effectively and ethically.

Students may not use the same writing course to meet both the Writing Across the Curriculum and the Writing in the Disciplines requirements. The courses satisfying the Writing in the Disciplines requirement differ according to the student's major.

Upon completing the Writing in the Disciplines requirement, students should be able to demonstrate the following learning outcomes:

- Identify and pursue sophisticated questions for academic inquiry.
- Find, evaluate, analyze, and synthesize information effectively from diverse sources.
- Manage multiple perspectives as appropriate.
- Recognize the purposes and needs of discipline-specific audiences and adopt the academic voice necessary for the chosen discipline.
- Use multiple drafts, revision, and editing in conducting inquiry and preparing written work.
- Follow the conventions of citation, documentation, and formal presentation that are appropriate to the discipline.
- Develop competence in information technology and digital literacy.

Students should examine the course catalog for the specific courses that fulfill the writing requirements and consult with their advisor. The courses satisfying either the Writing Across the Curriculum or the Writing in the Disciplines requirements are listed in separate tables below.

## Writing Across the Curriculum Courses

The following courses are designated as Writing Across the Curriculum courses for this catalog year. Students are cautioned that courses may change from year to year. To be used to fulfill the General Education Requirement, a course must be listed as a Writing Across the Curriculum course in the catalog and in the class schedule for the semester a student registers for it.

| Code      | Title                                   | Hours |
|-----------|-----------------------------------------|-------|
| ANTY 254X | Archaeological Wonders of the World     | 3     |
| ANTY 310  | Human Variation                         | 3     |
| ARTH 250L | Introduction to Art Criticism           | 3     |
| BIOB 210N | Communicating Biology                   | 3     |
| CLAS 180H | Environment & Nature in Classical World | 3     |

|           |                                                              |   |
|-----------|--------------------------------------------------------------|---|
| CLAS 251L | The Epic                                                     | 3 |
| CLAS 252L | Greek Drama: Politics on Stage                               | 3 |
| CSCI 215E | Social & Ethical Issues in CS                                | 3 |
| CSD 301   | Foundations of Scientific Writing                            | 3 |
| ENST 201  | Environmental Info Resources                                 | 3 |
| ENST 231H | Nature and Society                                           | 3 |
| FILM 320  | Shakespeare and Film                                         | 3 |
| GH 151L   | Introduction to Western Humanities: Antiquity                | 3 |
| GH 152    | Introduction to the Humanities Medieval to Modern            | 3 |
| HONR 121L | Ways of Knowing                                              | 3 |
| HSTA 315  | Early American Republic                                      | 3 |
| HSTA 326  | Digital Worlds of Early America                              | 3 |
| HSTA 347  | Voodoo, Muslim, Church: Black Religion                       | 3 |
| HSTA 373  | The History of American Thought to 1865                      | 3 |
| HSTA 385  | Families & Children in America                               | 3 |
| HSTR 300  | Writing For History                                          | 3 |
| HSTR 334  | Latin America: Reform & Revolution                           | 3 |
| HSTR 401  | The Great Historians                                         | 3 |
| IRSH 380  | Topics in Irish Studies                                      | 3 |
| IRSH 381  | Contemporary Irish Women's Writing                           | 3 |
| IRSH 382  | Rockin' Rebels: Popular Irish Music from Traditional to Punk | 3 |
| JRNL 270  | Reporting the News                                           | 3 |
| LING 375X | Linguistic Ecology and Language Endangerment                 | 3 |
| LIT 110L  | Introduction to Literature                                   | 3 |
| LIT 120L  | Poetry                                                       | 3 |
| LIT 236L  | Literary Histories                                           | 3 |
| LIT 246L  | Genres, Themes, Approaches                                   | 3 |
| MART 300  | Visions of Film                                              | 3 |
| MUSI 302H | Music History II                                             | 3 |
| NASX 235X | Oral and Written Traditions of Native Americans              | 3 |
| NASX 280  | Native American Studies Research Theories and Methods        | 3 |
| PHL 210E  | Moral Philosophy                                             | 3 |
| SOCI 306  | Sociology of Work                                            | 3 |
| THTR 330H | Theatre History I                                            | 3 |
| WGSS 263S | Social and Political Perspectives on Gender and Sexuality    | 3 |
| WRIT 121  | Introduction to Technical Writing                            | 3 |
| WRIT 201  | College Writing II                                           | 3 |
| WRIT 203  | Beyond the Bar: Rhetorics of Pub/Public Culture              | 3 |
| WRIT 206  | Mouse Rhetorics: Writing and Reading Disney                  | 3 |
| WRIT 325  | Science Writing                                              | 3 |

## Writing in the Disciplines Courses

The following courses are designated as Writing in the Disciplines courses for this catalog year. Students should consult with their advisor regarding the requirement specified by their major.

| Code      | Title                                                   | Hours |
|-----------|---------------------------------------------------------|-------|
| ANTY 430  | Social Anthropology                                     | 3     |
| ANTY 431  | Ethnographic Field Methods                              | 3     |
| ANTY 450  | Archaeological Theory                                   | 3     |
| ANTY 455  | Artifact Analysis                                       | 3     |
| ARTH 350  | Contemporary Art and Art Criticism                      | 3     |
| BGEN 499  | Strategic Management                                    | 3     |
| BIOH 462  | Principles of Medical Physiology                        | 3     |
| BIOM 420  | Host-Microbe Interactions                               | 3     |
| BMIS 474  | Cybersecurity Operation Center                          | 3     |
| CLAS 399  | Capstone                                                | 3     |
| COMX 347  | Rhetoric, Nature, and Environmentalism                  | 3     |
| COMX 414  | Communication in Personal Relationships                 | 3     |
| COMX 421  | Communication in Nonprofit Organizations                | 3     |
| COMX 422  | Communication and Technology                            | 3     |
| COMX 445  | Rhetorical Criticism and Theory                         | 3     |
| COMX 486  | Health and Family Communication                         | 3     |
| CSCI 315E | Computers, Ethics, and Society                          | 3     |
| CSCI 499  | Senior Thesis/Capstone                                  | 1-6   |
| CSD 430   | Senior Capstone                                         | 3     |
| DANC 494  | Professional Development Dance Seminar                  | 3     |
| ECNS 481  | Communicating Economics                                 | 3     |
| ECNS 499  | Senior Thesis/Capstone                                  | 2     |
| EDU 339   | Teaching Assessment in PK-8 Language Arts               | 3     |
| ENST 335L | Literature of the Earth                                 | 3     |
| ENST 367  | Environmental Politics & Policies                       | 3     |
| ENST 382  | Environmental Law                                       | 3     |
| ENST 487  | Globalization, Justice & Environment                    | 3     |
| ERTH 406  | Global Water Crises                                     | 3     |
| GEO 499   | Senior Thesis/Capstone                                  | 3-10  |
| GPHY 335  | Water and Sustainability                                | 3     |
| GPHY 433  | Community Resilience                                    | 3     |
| GPHY 499  | Senior Thesis                                           | 3     |
| GRMN 351H | German Culture: Beginnings to Romanticism               | 3     |
| GRMN 352H | Germ Culture: Romanticism to the Present                | 3     |
| HEE 301   | Methods of Secondary Health Education                   | 3     |
| HSTA 405  | Public Problems & United States Democracy               | 3     |
| HSTA 415  | The Black Radical Tradition                             | 3     |
| HSTA 417  | Prayer & Civil Rights                                   | 3     |
| HSTA 427  | Freedom, Slavery, Equality: Early American Perspectives | 3     |
| HSTA 461  | Research in Montana History                             | 3     |
| HSTA 463  | Research in 19th-20th Century Native American History   | 3     |
| HSTA 471  | Writing Women's Lives                                   | 3     |
| HSTR 400  | Historical Research Seminar                             | 3     |
| HSTR 437  | US-Latin America Relations                              | 3     |

| SPNS 315  | Topics in Hispanic Culture                       | 3    |
| THTR 331  | Theatre History II                               | 3    |
| WGSS 363  | Feminist and Queer Theories and Methods          | 3    |

## Group II: Mathematics

Mathematical literacy implies an appreciation of the beauty of mathematics, an ability to apply mathematical reasoning, and an understanding of how mathematics and statistics are used in many arenas. Mathematical literacy may be attained through the study of the properties of numbers, mathematical modeling, geometry, data analysis

and probability, with the overarching goal of learning mathematical reasoning and problem solving.

Mathematical literacy cannot be achieved in a single course. However, for the purposes of general education, the mathematical literacy requirement can be met by any one of the following:

1. achieving a grade of C- or better in one of the following courses which address different aspects of mathematical literacy:

| Code     | Title                                                 | Hours |
|----------|-------------------------------------------------------|-------|
| M 104    |                                                       |       |
| M 105    | Contemporary Mathematics                              | 3     |
| M 115    | Probability and Linear Mathematics                    | 3     |
| M 118    | Mathematics for Music Enthusiasts                     | 3     |
| M 121    | College Algebra                                       | 3     |
| M 122    | College Trigonometry                                  | 3     |
| M 132    | Numbers and Operations for Elementary School Teachers | 3     |
| M 151    | Precalculus                                           | 4     |
| M 162    | Applied Calculus                                      | 4     |
| M 171    | Calculus I                                            | 4     |
| M 181    |                                                       | 4     |
| STAT 216 | Introduction to Statistics                            | 4     |

or a mathematics course of 3 or more credits for which one of these is a prerequisite.

2. Achieving a score of 50 or better on the CLEP College Algebra Test, the CLEP College Precalculus Test, or the CLEP College Mathematics Test.
3. Passing the Mathematical Literacy Examination administered by the Department of Mathematical Sciences. To qualify to take the Mathematical Literacy Examination, a student must have achieved a score of 630 or better on the SAT Math exam or a score of 28 or better on the ACT Math exam. A student may take the Mathematical Literacy Examination only once. Further details are available from the Department of Mathematical Sciences.

Students must complete the mathematical literacy requirement by the time they have earned 30 credits; if not, they must register for a mathematical sciences course every semester until they have completed the requirement. Because many other courses at the university assume some mathematical literacy, it is strongly recommended that all students complete their mathematical literacy requirement as soon as possible.

Upon completion of the mathematical literacy requirement, a student will be able to effectively apply mathematical or statistical reasoning to a variety of applied or theoretical problems.

## Group III: Modern and Classical Languages

The study of language is a core component of a liberal arts education. Students must complete the first-year sequence of a language or demonstrate comparable proficiency to fulfill the General Education language requirement (test-out provisions apply).

The language requirement can be met in any of the following ways:

1. by achieving a C- or better in a second-semester language course offered at the University of Montana (see list of courses below);
2. by achieving a grade of C- or better in a language course numbered 201 or above at the University of Montana (see list of courses below);
3. by presenting a transcript record of completion with a grade of C- or better of a second- semester (or more advanced) language course at an accredited college or university;
4. by achieving an appropriate score on a placement exam administered by the offering department;
5. by receiving verification of an appropriate level of proficiency in any other natural language in collaboration with the department of World Languages and Cultures. Note that the student's native language, if it is not English, can be used to fulfill this requirement.

Upon completion of the Modern and Classical Languages requirement, the student will have a basic functional knowledge of a second natural language sufficient to:

- read and write if the language is classical, such as Latin or classical Greek;
- speak and aurally comprehend, if the language does not have a written tradition, such as Salish;
- perform all four skills (speaking, aural comprehension, reading, and writing) if the language is modern and has a written tradition, such as Japanese or French;
- demonstrate both receptive (visual comprehension) and expressive (manual production) proficiency if the language is American Sign Language.

The courses listed below require prerequisites be met before registration. The prerequisites for the following courses are listed in the individual course descriptions.

| Code                           | Title                                        | Hours |
|--------------------------------|----------------------------------------------|-------|
| <b>ARABIC</b>                  |                                              |       |
| Complete one of the following: |                                              |       |
| ARAB 102                       | Elementary Modern Standard Arabic II         |       |
| ARAB 201                       | Intermediate Modern Standard Arabic I        |       |
| ARAB 202                       | Intermediate Modern Standard Arabic II       |       |
| ARAB 301                       | Advanced Modern Standard Arabic I            |       |
| ARAB 302                       | Advanced Modern Standard Arabic II           |       |
| <b>CHINESE</b>                 |                                              |       |
| Complete one of the following: |                                              |       |
| CHIN 102                       | Elementary Chinese II                        |       |
| CHIN 201                       | Intermediate Chinese I                       |       |
| CHIN 202                       | Intermediate Chinese II                      |       |
| CHIN 301                       | Advanced Chinese I                           |       |
| <b>FRENCH</b>                  |                                              |       |
| Complete one of the following: |                                              |       |
| FRCH 102                       | Elementary French II                         |       |
| FRCH 201                       | Intermediate French I                        |       |
| FRCH 202                       | Intermediate French II                       |       |
| FRCH 301                       | Advanced Grammar/Oral and Written Expression |       |
| <b>GERMAN</b>                  |                                              |       |

Complete one of the following:

|          |                                                   |
|----------|---------------------------------------------------|
| GRMN 102 | Elementary German II                              |
| GRMN 201 | Intermediate German I                             |
| GRMN 202 | Intermediate German II                            |
| GRMN 301 | Studies in German Language, Media, and Culture I  |
| GRMN 302 | Studies in German Language, Media, and Culture II |

#### GREEK

Complete one of the following:

|         |                       |
|---------|-----------------------|
| GRK 102 | Elementary Greek II   |
| GRK 201 | Intermediate Greek I  |
| GRK 202 | Intermediate Greek II |

#### IRISH

Complete one of the following:

|          |                       |
|----------|-----------------------|
| IRSH 102 | Elementary Irish II   |
| IRSH 201 | Intermediate Irish I  |
| IRSH 202 | Intermediate Irish II |

#### ITALIAN

Complete one of the following:

|          |                       |
|----------|-----------------------|
| ITLN 102 | Elementary Italian II |
|----------|-----------------------|

#### JAPANESE

Complete one of the following:

|          |                          |
|----------|--------------------------|
| JPNS 102 | Elementary Japanese II   |
| JPNS 201 | Intermediate Japanese I  |
| JPNS 202 | Intermediate Japanese II |
| JPNS 301 | Advanced Japanese        |
| JPNS 302 | Advanced Japanese        |

#### LATIN

Complete one of the following:

|          |                       |
|----------|-----------------------|
| LATN 102 | Elementary Latin II   |
| LATN 201 | Intermediate Latin I  |
| LATN 202 | Intermediate Latin II |

#### BLACKFOOT

|          |                         |
|----------|-------------------------|
| NASX 142 | Elementary Blackfoot II |
|----------|-------------------------|

#### RUSSIAN

Complete one of the following:

|          |                                         |
|----------|-----------------------------------------|
| RUSS 102 | Elementary Russian II                   |
| RUSS 201 | Intermediate Russian I                  |
| RUSS 202 | Intermediate Russian II                 |
| RUSS 301 | Russian: Oral & Written Expression I    |
| RUSS 302 | Russian: Oral and Written Expression II |

#### SPANISH

Complete one of the following:

|          |                                      |
|----------|--------------------------------------|
| SPNS 102 | Elementary Spanish II                |
| SPNS 201 | Intermediate Spanish I               |
| SPNS 202 | Intermediate Spanish II              |
| SPNS 301 | Spanish: Oral and Written Expression |

- Students may satisfy the requirement by demonstrating equivalent skill in any of these or other languages in testing administered by the Department of World Languages and Cultures.

- International students from non-English-speaking countries may satisfy this requirement by presenting a TOEFL score of 580 or greater.

## Exceptions to the Modern and Classical Language Requirement

The extended majors listed below have been granted exceptions to the Modern and Classical Language requirement. Students graduating in any one of these majors are not required to complete the Modern and Classical Language requirement. Students graduating with an Associate of Arts degree have also been granted an exception to the Group III requirements. Missoula College students who continue to Mountain Campus without graduating will need to complete Group III unless their declared four-year major has been granted an exception.

- Accounting
- Art (Bachelor of Fine Arts only; BA students must complete the language requirement)
- Bachelor of Applied Arts and Sciences
- Bachelor of Music in Composition
- Bachelor of Music in Performance
- Bachelor of Music Education
- Biochemistry
- Biology
- Business Management
- Chemistry
- Computer Science
- Computational Biochemistry
- Cybersecurity
- Early Childhood Education
- Elementary Education
- Environmental Science and Sustainability
- Finance
- Forestry
- Game Design and Interactive Media
- Geosciences
- Human Biology and Biomedical Sciences
- Integrative Physiology
- Management Information Systems
- Marketing
- Mathematics
- Mathematics/Computer Science and Computer Science/ Mathematics combined majors
- Media Arts (Bachelor of Fine Arts only; BA students must complete the language requirement),
- Medical Laboratory Science
- Microbiology, Immunology, and Infectious Disease
- Neuroscience
- Pharmaceutical Sciences
- Parks, Tourism and Recreation Management
- Physics
- Theatre (Bachelor of Fine Arts only; BA students must complete the language requirement)
- Wildlife Biology

## Group IV: Expressive Arts

Expressive Arts courses are activity-based and emphasize the value of learning by doing in an artistic context. Upon completion of an Expressive Arts course, students will be able to express themselves in the making of an original work or creative performance; understand the genres and/or forms that have shaped the medium; and critique the quality of their own work and that of others.

| Code      | Title                                                        | Hours |
|-----------|--------------------------------------------------------------|-------|

## Group V: Literary and Artistic Studies

In these courses, students develop familiarity with significant works of artistic representation, including literature, music, visual art, and/or performing arts. Through this experience, students enhance their analytical skills and explore the historical, aesthetic, philosophical, and cultural features of these works.

Upon completion of a Literary and Artistic Studies course, students will be able to:

1. analyze works of art with respect to structure and significance within literary and artistic traditions, including emergent movements and forms; and
2. develop coherent arguments that critique these works from a variety of approaches, such as historical, aesthetic, cultural, psychological, political, and philosophical.

| Code      | Title                                                            | Hours |

## Group VI: Historical Studies

The primary purpose of courses in this perspective is to explore the historical contexts and narratives of human behavior, ideas, institutions, and societies through an analysis of their patterns of development or differentiation in the past. These courses are wide-ranging in chronological, geographical, or topical focus. They introduce students to methods of inquiry that enable them to understand and evaluate the causes and significance of events, texts, or artifacts.

Upon completion of a course in this group, a student will be able to:

1. Critically analyze and evaluate primary sources – such as texts, pictorial evidence, oral histories, music, and artifacts- within their respective historical contexts.
2. Synthesize ideas and information in order to understand the problems, causes, and consequences of historical developments and events.

## Group VII: Social Sciences

Social science courses describe and analyze human social organization and interaction, employing social data at a broad scale with statistical relevance, experimental data on individuals or groups, or qualitative data based on observation and discourse.

Upon completion of a Social Sciences course, students will be able to:

1. Describe the nature, structure, and historical development of human behavior, organizations, social phenomena, and/or relationships;
2. Use theory in explaining these individual, group, or social phenomena; and/or
3. Understand, assess, and evaluate how conclusions and generalizations are justified based on data.

## Group VIII: Ethics and Human Values

Ethics and Human Values courses familiarize students with one or more traditions of ethical thought. These courses rigorously present the basic concepts and forms of reasoning that define and distinguish each tradition. The focus of these courses may be on one or more of these traditions, or on a concept such as justice or the good life as conceptualized within one or more of these traditions, or on a professional practice within a particular tradition.

Upon completion of an Ethics and Human Values course, students will be able to:

1. Correctly apply the basic concepts and forms of reasoning from the tradition or professional practice they studied to ethical issues that arise within those traditions or practices;
2. Analyze and critically evaluate the basic concepts and forms of reasoning from the tradition or professional practice they studied.

## Group IX: Democracy and Citizenship

These courses ground students in the ideas, institutions, and practices of democratic societies and their historical antecedents. Knowledge gained through courses in the Democracy and Citizenship perspective prepares students to understand the rights and responsibilities of engaged citizenship and to assess the characteristics, contributions, and contradictions of democratic systems.

Upon completion of a Democracy and Citizenship course, students will be able to:

1. Demonstrate informed and reasoned understanding of democratic ideas, institutions and practices, from historical and/or contemporary perspectives;
2. Analyze and evaluate the significance and complexities of engaged citizenship; and
3. Articulate the causes and consequences of key historical and/or contemporary struggles within democratic systems or their antecedents, including but not limited to those pertaining to issues of diversity, equity, and justice.

## Group X: Cultural & International Diversity

These courses foster an appreciation for diverse cultures, their histories and values, and their struggles both to maintain their ways of life and to gain equal positions in world spheres of power and change. This includes knowledge of diverse cultures in comparative and thematic frameworks. Knowledge gained through courses in the Cultural & International Diversity perspective prepares students to cultivate ways of thinking that foster an understanding of the complexities of indigenous or international cultures and global issues, past and present.

Upon completion of a course in this group, students will be able to:

1. Demonstrate an understanding of the diverse ways humans structure their social, political, and cultural lives;
2. Interpret human activities, ideas, and institutions with reference to diverse cultural, historical and geo-political perspectives and physical environments; and
3. Recognize the complexities of inter-cultural and international communications and collaborative endeavors, and relate this to the complex challenges of the 21st century.

## Group XI: Natural Sciences

These courses present scientific conclusions about the structure and function of the natural world, and demonstrate or exemplify scientific questioning and validation of findings.

Upon completion of a Natural Science course, a student will be able to:

1. understand the general principles associated with the discipline(s) studied;

2. understand the methodology and activities scientists use to gather, validate and interpret data related to natural processes;
3. detect patterns, draw conclusions, develop conjectures and hypotheses, and test them by appropriate means and experiments;
4. understand how scientific laws and theories are verified by quantitative measurement, scientific observation, and logical/critical reasoning;
5. and understand the means by which analytic uncertainty is quantified and expressed in the natural sciences.

To fulfill the Natural Sciences General Education Requirement, a student must complete at least one Natural Science designated course with a laboratory experience.

## All Natural Science Courses

| PHSX 218N | Physics Laboratory II with Calculus                                            | 1 |

## Academic Advising & Academic Support Services

Academic advising is critical to student success at University of Montana (UM). All undergraduate students are required to meet with their advisor at least once each semester to review educational progress, discuss future plans, and secure schedule approval prior to registration. Students are encouraged to schedule additional meetings for information and guidance on dropping and/or adding courses, changing/declaring majors/other academic pursuits, exploring available resources, and ensuring that graduation requirements are met.

The UM catalog is the official source of information on the UM General Education Requirements (GERs), requirements of individual academic programs, and graduation-related policies. The Advising Manual is a comprehensive policy and procedural guide for faculty and staff advisors at UM.

## Advising Expectations

Academic Advising is a partnership between a student and their academic advisor. Advisors will work to empower students to take initiative in their educational experience and make education-related decisions. No two advising sessions are ever the same; however, there are expectations that apply to all interactions between an advisor and advisee.

### The student will...

- Build and maintain a collaborative relationship with advisor and faculty mentor (upon being assigned one).
- Maintain respectful and inclusive advising environment.
- Schedule regular appointments and/or make regular contacts with advisor during each semester.
- Understand and fulfill curriculum, graduation requirements, and University policies and procedures.
- Come prepared to each appointment with materials and questions for discussion.
- Take a proactive role in their education, document their academic record, and embrace responsibility for academic decisions.

### The advisor will...

- Build and maintain a collaborative relationship with student.
- Foster a respectful and inclusive environment for student.
- Encourage an open dialogue, maintain confidentiality, and follow FERPA (Family Educational Rights and Privacy Act) guidelines
- Remain up-to-date on professional development and advising trends.
- Reference a student's current academic records in preparation for and during an advising appointment.

- Follow development approaches in advising and support students in exploring personal and professional goals, skills, and abilities.
- Communicate major, minor, certificate, GER curriculum, graduation requirements, and University policies and procedures.
- Understand and train students to utilize University technologies, services, and resources.

## How to Prepare for an Appointment

Although academic advising is a partnership of shared responsibility between the advisor and the student, it is important for students to know that the ultimate responsibility for meeting all graduation requirements is their own. Students improve their academic planning and success by learning about the academic requirements of their academic program(s), UM policies on registration and graduation, and by using available advising services. To prepare for advising appointments, student should:

- Develop a plan of courses for the upcoming semester registration and be prepared to discuss long-term academic, personal, and professional goals.
- Login to the GrizPortal student profile to check for registration preventing holds. If holds are present, try to clear them before the advising appointment. You can also view holds on Navigate.
- Research beyond-the-classroom opportunities of interest to discuss during your advising appointment (internships, undergraduate research, volunteer opportunities, etc.)
- Be honest with your advisor about issues affecting your ability to be successful. Advisors can only help with issues or situations they are aware of. This requires open and effective communication with your advisor.

## Minimum Expectations for Advising Appointments

At minimum, the advisor and student will discuss the following points during an advising appointment:

- Checking in with the student on how the student is doing and how their semester is going. Are they enjoying their classes? Are they facing any challenges?
- Is the student's major a good fit? Are there additional majors, minors, or certificates that might help the student achieve their educational goal.
- Review of Degree Works and a comprehensive evaluation to inform the student of progress towards degree completion (major requirements, GERs, Upper-Division credits, and general electives to meet the 120-credit requirement).
- The student's plans following graduation and brainstorming opportunities for the student to reach their goals (internships, service learning, undergraduate research, education abroad, national student exchange, etc.)
- *If during priority advising*, checking to see if the student has any registration preventing and/or others holds and the priority registration timetable so the student knows when they can register for classes. Students will also receive their advising PIN so they can register for classes during priority registration. Advising PINs are unique 6-digit numbers that unlock a student's registration for the upcoming semester. Advising PINs change from semester-to-semester, which is why it is required that students meet with their advisor at least once per semester.
- Referral to any relevant resources based on the discussion (Financial Aid, Curry Health Center, Tutoring Services, TriO Student Support Services, Office of Disability Equity, etc.)

- At the end of the appointment, a summary of the main issues that surfaced and outlining next steps/tasks as relevant.
- The academic advisor will submit an appointment summary in Navigate to document the advising appointment.

## The Complementary Roles of Professional Academic Advisors and Faculty Mentors in Student Success

Professional academic advisors and faculty mentors play distinct yet complementary roles in fostering student success throughout a student's college journey. Together, they guide students toward achieving academic, career, and personal growth by leveraging their unique expertise and approaches.

While the timing of student assignment to faculty mentors varies across campus, in general, students meet primarily with their professional advisor through their first two years of study and meet more regularly with their faculty mentor through their junior and senior years. Some of the differences between the roles of professional advisors and faculty mentors are as follows:

### Professional Academic Advisors

Professional academic advisors are often the first point of contact for students. Their primary focus is on helping students navigate academic requirements and campus resources while building a strong foundation for long-term success.

Key responsibilities of academic advisors include:

- Assisting with course selection, degree planning, and meeting general education and major requirements.
- Providing onboarding support, including introducing students to essential tools like Canvas, GrizPortal, Navigate, and Degree Works.
- Guiding students through processes such as registration, academic petitions, and transfer adjustments.
- Offering advice on selecting or changing majors, identifying interests, and setting short- and long-term goals.
- Connecting students with campus resources like tutoring, wellness services, financial aid and financial education support, and career coaching.
- Supporting students on academic warning or suspension by helping develop reinstatement plans.
- Providing guidance on study abroad or national exchange programs to align with academic requirements.

Advisors are instrumental in ensuring students stay on track academically while supporting them through life's challenges, from adjusting to college to navigating unexpected hurdles.

### Faculty Mentors

Faculty mentors typically become more prominent in a student's academic journey during the junior and senior years. Their expertise in academic disciplines and career pathways allows them to guide students toward deeper engagement in their fields.

Faculty mentors contribute to student success by:

- Counseling students on career preparation and post-graduation opportunities, including graduate school.
- Advising on upper-division coursework, and specialized program requirements, with support from professional advisors.
- Engaging students in undergraduate research, creative scholarship, and experiential learning opportunities.

- Extending learning beyond the classroom by discussing subfields, new research, and potential academic directions.
- Connecting students with professional networks, internships, and opportunities to present at conferences.
- Advising on career development opportunities, including internships, clubs, and professional networks.
- Fostering personal growth by helping students build confidence, resilience, and life skills.

Faculty mentors play a vital role in nurturing students' intellectual curiosity and academic ambitions while equipping them with tools for lifelong success.

### A Collaborative Model for Student Success

The collaboration between professional academic advisors and faculty mentors ensures that students receive holistic support at every stage of their academic journey. Advisors focus on building a solid foundation and addressing logistical and practical concerns, while faculty mentors guide students through advanced exploration of their academic interests and career pathways.

This model not only supports retention and degree completion but also fosters meaningful connections between students and faculty, particularly benefiting underrepresented student populations. Together, advisors and mentors provide a network of care, challenge students to achieve their full potential, and prepare them for success both within and beyond the university.

## Academic Advising and Support Mountain Campus (UM-Missoula) Students

When students indicate a major on their application form, it becomes their initial declared major.

Advisor information and assignment is done through the student's major department. If the student is undeclared, is pursuing the following pre-health professions - Pre-Medical Sciences, Pre-Nursing, Pre-Physical Therapy - or is an undergraduate Non-degree seeking student, they are assigned to a professional advisor at the Undergraduate Advising Center (<http://www.umt.edu/undergrad-advising-center/>).

To change a major, a student must contact the advisor of the major they wish to declare or their current major's advisor.

Students with academic advising questions or concerns can find their assigned academic advisor in GrizPortal or Navigate, or use the advising directory (<https://www.umt.edu/undergrad-advising-center/advisingdirectory.php>) to locate advising contacts by major.

Students may also contact the Undergraduate Advising Center (<http://www.umt.edu/undergrad-advising-center/>):

Aber Hall 4th Floor

Phone: (406) 243-2835

Email: [OfficeForStudentSuccess@umontana.edu](mailto:OfficeForStudentSuccess@umontana.edu)

## Missoula College Students

Students are assigned an academic advisor in their major program upon acceptance to the Missoula College. For a listing of Missoula College academic advisors, please see the Missoula College Advising Directory

(<https://www.umt.edu/missoula-college-academic-advising-center/advising/who.php>).

Academic programs are identified by the major the student declared on their application for admission or by an official change of major communicated to the Registrar's Office by the program advisor.

For questions regarding assigned advisors or to change advisors, students can contact the Missoula College Academic Advising Center (<https://www.umt.edu/missoula-college-academic-advising-center/>):

Missoula College UM, Room 202

Phone: (406) 243-7925

Email: [academicadvisingcenter@umontana.edu](mailto:academicadvisingcenter@umontana.edu)

## Academic Support Services

Tutoring programs are available to all students through the Office for Student Success ([http://www.umt.edu/oss/for\\_students/tutoring.php](http://www.umt.edu/oss/for_students/tutoring.php)). Study Jam (<https://www.umt.edu/study-jam/>) provides early evening group study tables for selected courses (e.g., Chemistry, Biology, Physics, Spanish, Economics, and Statistics). The Writing and Public Speaking Center (<http://www.umt.edu/writingcenter/>) supports students in becoming more effective writers and provides tutoring at several locations across campus. The Math Learning Center (<https://www.umt.edu/math/undergraduate/all-students/free-tutoring.php>) provides tutoring in all developmental and 100-level math courses. Missoula College students may receive tutoring in math, writing and a variety of other subjects through the Learning Center. The Curry Health Center Counseling Center (<https://www.umt.edu/curry-health-center/counseling/>) and Curry Health Wellness Team offers workshops on a variety of topics designed to enhance student academic performance.

## TRIO Student Support Services (SSS)

TRIO SSS (<https://www.umt.edu/triosss/>) is a federally funded program offering support services to students who are first-generation (neither parent or guardian completed a four-year degree prior to the student's 18th birthday), low-income or receiving a Pell grant, or a student with disabilities. TRIO's mission is to provide all-around support such as advising, study skills class, career and college success class, peer mentoring, tutoring, book loan program, and more. See eligibility requirements and the application here (<https://www.umt.edu/triosss/eligibility-application/default.php>).

For more information, visit TRIO SSS at Aber Hall, 3rd Floor, call 406-243-5032, or visit the TRIO website (<http://www.umt.edu/triosss/>).

## Office for Disability Equity

The Office for Disability Equity (ODE) is the campus resource for disability-related information. ODE provides consultation, training, and academic services to advance accessibility and inclusion by taking an intersectional approach to disability. ODE facilitates access and accommodations for students connected with the office. For details and to connect with ODE, visit the ODE website (<http://www.umt.edu/disability/>), email at [ode@umontana.edu](mailto:ode@umontana.edu), or call 406-243-2243.

## Montana 10

Montana 10 is a Montana University System scholarship and program at the University of Montana and Missoula College. The program offers academic, social, and financial supports designed to help students succeed in college.

Students who become Montana 10 Scholars will be part of a unique group of students across Montana leading the way in a new way of doing college—a kind of college where students have the financial support they need, a community that knows them and supports them as individuals, and the specialized academic support that will help them to achieve their education goals and successfully launch their careers.

## Missoula College Learning Center

The Missoula College Learning Center (<https://www.umt.edu/missoula-college-learning-center/>) offers a variety of services to facilitate students' academic success. The Learning Center (LC) hosts tutoring for writing, math, accounting, computers, anatomy, and other subjects. Skills assessments, accommodated test services and make-up testing are also offered. Students can receive help with various online student services such as email, online labs, and GrizPortal. For information related to these services, contact the Learning Center at 406-243-7826 or [MCLearningCenter@mso.umt.edu](mailto:MCLearningCenter@mso.umt.edu), or visit the Learning Center website. (<http://mc.umt.edu/learning-center/>)

## Career Support Services

Career Coaches and Advisors provide support in major/career exploration to help students identify how to align their interests with career goals, guidance on navigating an effective job search, and application support for graduate programs, research, and employment opportunities. Career Coaches/Advisors help students connect with experiential learning opportunities locally and globally, such as domestic and international internships, volunteering, undergraduate research, and National Student Exchange.

- College of Business Career Development Program (<https://www.umt.edu/business-career-development/default.php>)
- College of Humanities and Sciences Career Planning Center (<https://www.umt.edu/humanities-sciences/career-planning-center/default.php>)
- Experiential Learning and Career Success (ELCS) (<https://www.umt.edu/experiential-learning-career-success/>)

## Office for Student Success

The Office for Student Success (<http://www.umt.edu/oss/>) (OSS) helps students to meet three goals:

1. Transition smoothly to college
2. Remain enrolled and progress in a program of study
3. Graduate in a timely manner

We do this by supporting students directly and by collaborating with academic departments and university offices to provide programs and services that support students' academic growth and personal development.

Administratively situated under the Vice Provost for Student Success, our programs guide students in clarifying academic goals and exploring majors. As the hub of academic support services on campus, we are a student's partner in academic success. OSS also coordinates several campus-wide efforts to encourage high impact learning opportunities. These efforts include supporting and promoting student goals toward degree completion and developing proactive retention interventions that foster student success.

The programs and services listed below are administratively situated within OSS. The main OSS reception area is located on the 4th floor of Aber Hall.

## Undergraduate Advising Center

The Undergraduate Advising Center (<http://umt.edu/uac/>) (UAC) is an academic support unit within the Office for Student Success (OSS). Located in Aber Hall on the 4th floor, the UAC is the academic advising home for all Undeclared, Pre-Nursing, undergraduate non-degree, and first-year Pre-Medical Sciences and Pre-Physical Therapy students whose primary majors are Undeclared. The UAC's Pre-Health Professions Advising website (<https://www.umt.edu/undergrad-advising-center/pre-health-professions-advising/default.php>) provides helpful information for students interested in pursuing a career in the health professions. The UAC houses the Exploratory Studies Program (<https://www.umt.edu/exploratory-studies-program/>) and the Four Bear Four Year Graduation Plan Program (<https://www.umt.edu/oss-four-bear/>).

The UAC also provides assistance to students campus-wide regarding general education requirements, registration support, major identification and declaration, academic petitions, and graduation applications. The UAC strives to connect students to beneficial campus services and resources, in addition to co-curricular opportunities available at UM and in the Missoula community.

Collaboration with our campus partners is a core strength of the UAC and OSS. The UAC and OSS collectively serve as the hub of campus advising services, acting as a central resource for faculty and department-based advisors, and working collaboratively with recruitment, orientation, and retention-based programs and services on campus.

## The Writing and Public Speaking Center

The Writing and Public Speaking Center (<http://umt.edu/writingcenter/>) supports University of Montana students, alumni, faculty, and staff as they become more versatile, deliberate, and effective communicators. We provide a respectful, interdisciplinary, collaborative and safe learning environment for all members of our community to grow as they work on a wide variety of academic, professional, and creative communication tasks.

Our administrative offices are on the third floor of Aber Hall, but our in-person tutoring takes place primarily at our tutoring center in the Mansfield Library (room 322). During the academic year we offer drop-in hours twice-weekly at the Branch Center (<https://www.umt.edu/uc/branchcenter/>) and the Payne Family Native American Center (<https://www.umt.edu/native-american-studies/tpfnac.php>), as well as scheduled appointment hours at the Learning Center at Missoula College (<https://www.umt.edu/missoula-college-learning-center/>). With all scheduled appointments, students have the option to attend online.

## Financial Education Program

The Financial Education Program (<https://www.umt.edu/financial-education/>) (FEP) empowers the UM community and beyond to make informed financial choices and to take action to improve present and long-term financial well-being.

The FEP serves current UM, Missoula College, and Bitterroot College students, prospective students, employees, and alumni. We provide free workshops and one-on-one appointments to help students finance higher education. We promote student success by assisting with critical areas of student financial wellness, including increasing personal finance

and budgeting skills, understanding the FAFSA and maintaining federal student aid eligibility, navigating loan repayment, and exploring student loan forgiveness options.

The FEP is located on the 4th floor of Aber Hall.

## First Year Experience

This First-Year Experience workshop (COLS 194: You at UM: Curiosity and Life Design) teaches the research-based skills and mindsets of Design Thinking (innovative problem-solving strategies) and how to apply this toolkit to search for clear academic, personal, and career goals. Students develop failure resilient and exploratory mindsets and ask probing questions: Why am I here? Who and what do I want to be? Where am I going?

Students work with each other, peer educators and instructional faculty to understand campus resources and apply services to individualize situations. Design Thinking is rooted in the idea that life is messy and non-linear, but can be better designed with the right tools and attitude.

The COLS 194 FYE program supports a maximum of 220 first semester students and provides a leadership opportunity for a maximum of 22 upper division peer educators through a 10-week for-credit academic workshop in the fall focused on academic pathways, meta-majors, and navigating the UM campus. Students utilize design thinking principles to consider and design their trajectories at UM and how they might integrate extracurricular programming and opportunities into degree attainment and career readiness.

## GEAR UP First Year Services Program

Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) provides free services, resources, and assistance to students and their families to help them successful transition from high school to college. The U.S. Department of Education funds GEAR UP to provide support to students and schools to increase students' college and career readiness through academic preparedness, postsecondary planning, and financial aid knowledge so that they may succeed in their higher education endeavors.

The GEAR UP First Year Services Program (<https://www.umt.edu/gear-up/default.php>) collaborates closely with various student support units across campus to support students' well-being and academic success throughout their first year of study and beyond. GEAR UP First Year Services is located on the 3rd floor of Aber Hall.

## KPCN: The Peer Connection Network

KPCN: The Peer Connection Network (<https://www.umt.edu/kpcn/>) is a nationally recognized, student multimedia production team. Founded in 2010, KPCN strives to provide a visually engaging, articulate form of communication between the campus community. Collaboration between students of several different majors provides a dynamic group adamant about increasing the success rate and overall UM experience of their fellow students.

## Math Learning Center

Located in the basement of the Math Building, tutors at the Math Learning Center (<https://www.umt.edu/math/undergraduate/all-students/free-tutoring.php>) help with a wide range of courses, including developmental studies, Contemporary Math, College Algebra,

Trigonometry, Calculus 1 and 2, Probability, Statistics, and Math for Elementary Teachers.

## Study Jam Group Tutoring

Study Jam (<https://www.umt.edu/study-jam/default.php>) group tutoring supports undergraduate students' progress toward degree completion through no-cost-to-students, peer-led, group tutoring.

Study Jam is a key part of the OSS tutoring and placement success network. Faculty-recommended tutors work with students enrolled in 43 sentinel courses in 11 academic disciplines. In an open environment for students of all backgrounds and academic abilities, students partner with their peers to expand learning.

## TRIO Student Support Services

TRIO Student Support Services (<https://www.umt.edu/triosss/default.php>) is a federally-funded TRIO grant program that has been serving University of Montana students since 1976. Each year, UM's TRIO SSS Program assists 375 students in accordance with the U.S. Department of Education's guidelines. All participants must meet the qualifying criteria of being first generation, income eligible, or having a documented physical or learning disability.

TRIO staff provide comprehensive planning and support to program participants in academic, financial, and personal areas as students' progress to graduation. Students participate in TRIO SSS throughout their enrollment at UM. TRIO SSS is located on the 3rd floor of Aber Hall.

## TRIO Upward Bound

TRIO Upward Bound (<https://www.umt.edu/trio-upward-bound/>) is funded by the U.S. Department of Education to provide the requisite academic skills and motivation that qualifying students will need for success in post-secondary education. TRIO Upward Bound, located on the 3rd floor of Aber Hall, has been housed on the UM campus since it was first awarded funding in 1966.

Throughout the school year, TRIO Upward Bound offers after school tutoring in each of our target high schools, volunteer opportunities, monthly workshops in topics related to high school success and post-secondary enrollment, and tours of area colleges during fall or spring breaks. The program is currently funded to serve 77 students who attend the following high schools: Big Sky, Hellgate, and Sentinel (Missoula) and Browning and Heart Butte (Blackfeet Reservation). Summer programming comes in the form of our signature six-week residential program. During this program students live on campus, take courses to prepare them for the upcoming school year, and participate in a variety of fun activities.

## Expenses

### General

The student expense information provided in this catalog is based upon the rates for the 2025-26 academic year as submitted to and approved by The Montana Board of Regents of the Montana University System. The Board of Regents reserves the right to adjust fees at any time. Current information may be obtained by contacting Student Account Services.

Student Account Services

Aber Hall 5th Floor

32 Campus Drive

Missoula, Montana 59812

Phone: 406-243-2223

Website: Student Account Services website (<https://www.umt.edu/business-services/students/>)

### Paying the Registration Bill

A student's registration is not complete until it is "paid." Paying the registration bill confirms registration of the courses listed on the registration bill and the student's acceptance of the associated tuition and fee charges. **Even if financial aid and/or scholarships cover the full cost of the registration bill, all students are required to complete their registration by clicking the "Pay Registration Bill" button in GrizPortal. FAILURE TO PAY THE REGISTRATION BILL WILL RESULT IN THE CANCELLATION OF CLASSES FOR THE SEMESTER.** Please see the published payment deadlines on the Registrar's Calendar web page (<http://www.umt.edu/registrar/calendar.php>).

Foreign and Canadian checks are not accepted. Credit card payment is accepted using VISA and MasterCard. Payment may be completed electronically via the student's GrizPortal account. Payments can be made online via GrizPortal:

- E-check
- Credit or debit card

Payment may be mailed to:

University of Montana

Student Account Services

5th Floor Aber Hall

32 Campus Drive

Missoula, MT 59812

All payments received in the mail should include the student's UM ID number and must be received on or before the published payment deadlines which can be found at the Registrar's Calendar web page (<http://www.umt.edu/registrar/calendar.php>).

### Tuition and Mandatory Fee Schedules

The tuition and mandatory fee schedules are posted on the Business Services Tuition and Fees web page (<http://www.umt.edu/business-services/Students/>). Different fee schedules apply to each type of student:

- Undergraduate and Post-Baccalaureate,
- Missoula College,
- Graduate,
- Graduate TA/RA,
- Law Fall & Spring,
- WUE Undergraduate,
- Online Undergraduate and Post-Baccalaureate,
- Online Missoula College,
- Online Graduate.

The full schedule of fees and fee definitions are available at Business Services Tuition and Fees web page (<http://www.umt.edu/business-services/Students/>) or by calling Business Services at 406-243-2223. Students enrolled at 12 or more credits are assessed at the same rate. Students who are enrolled less than 12 credits are assessed per credit. Students enrolled for 6 credits or fewer have the option of paying an additional amount to cover the ASUM activity fee, campus recreation fee, health service fee, and athletic fee.

An online learning fee is assessed on all online courses to partially defray costs associated with courses delivered online over the World Wide Web. Online courses are assessed an additional fee of \$48.00 per credit. If a student is registered for all online classes, they have the option to request a change to a distance only student. Students enrolled in all online courses for a term are not assessed some of the mandatory fees that apply to students enrolled in face-to-face courses. The student needs to complete the Distance Only Change of Status form which can be found on the UM Online website ([http://umonline.umt.edu/distance\\_form.php](http://umonline.umt.edu/distance_form.php)).

Montana resident high school eligible students may enroll in Early to College courses through the UM-Missoula College campus. The tuition rate is 50% of the resident Missoula College two-year tuition rate. Mandatory and non-mandatory fees are not assessed except for applicable course fees. Early to College students are not eligible to elect campus services such as the student insurance, Campus Recreation Center, Athletic fee, AUSM fee, and Campus Health Service (may not be all-inclusive).

Audited courses are assessed at the same tuition and fees as courses taken for credit or no-credit.

### Delivery of Student Credit Balance Refunds

The University of Montana processes all student credit balance refunds. Refunds are delivered based on the option the student has selected as explained at the Business Services Refund web page (<http://www.umt.edu/business-services/Students/>). The student needs to select an option only once unless they change or close their bank account or wish to change their option. If the student does not select an option, a check will be sent to their current mailing address. Even if a student does not expect to receive refunds due to financial aid, it is still important to

select an option. For instance, a student may have a credit balance if classes are dropped or they withdraw within the first 15 class days, that would create a credit balance refund.

## Additional Course Fees

The Board of Regents may approve additional course fees at any time. Additional course fees frequently are assessed for selected courses in subjects such as: Accounting Technology, Art, Biology, Biochemistry, Building Maintenance Engineering, Business, Chemistry, Computer Technology, Culinary Arts, Curriculum and Instruction, Dance, Diesel Equipment Technology, Drama, Educational Leadership, Electronics Technology, Forestry, Geology, Health and Human Performance, Heavy Equipment Operation, Journalism, Legal Studies, Mathematics, Metals Processes, Microbiology, Military Science, Music, Nursing, Pharmacy, Physical Therapy, Resource Conservation, Respiratory Therapy, Science, Secretarial Technology, Small Engines, Surgical Technology, Truck, Welding, and Wildlife Biology. This listing may not be all-inclusive and does not preclude a specific fee from being assessed. The current report on Non-Mandatory Fees can be found on the Business Services Tuition and Fees web page (<http://www.umt.edu/business-services/Students/>).

Special fees are assessed for extended field trips in various departments.

- An Educational Service Fee is charged for the off-campus M.B.A. and M.P.A. programs.
- A fee is charged for cooperative education internships.
- Purchase of supplies, equipment, or tools may be required by certain programs.

Certain programs will also have an additional program tuition added based on the major in which a student is admitted. The programs listed may not be all inclusive and they are Foreign and Conservation Program, Law Program, Masters in Athletic Training Program, Medical Technology Internship Program, Pharmacy Program, Physical Therapy Program, Public Health Program, School of Business Program, Social Work Program and Wildlife Biology Program.

## Law School Fees

The proposed 2014-15 School of Law fees for 15 credits are approximately \$3,237 for autumn and \$3,212 for spring for an in-state student and \$11,175 for autumn and \$11,150 for spring for an out-of-state student. The Health Service fee is included. Health insurance coverage is available to students for an additional charge.

## Law Special Fees

All persons who apply for admission to the School of Law must pay an acceptance fee of \$300.00 (\$150.00 is refundable if written notice is received by the due date if student does not want to attend), which is applied toward payment of fees upon entering and attending the School of Law in the semester for which the application was made.

In addition to the above fees, Law School students must pay an additional \$145.00 per credit per semester. The amount is applied to instructional costs.

All law students are assessed a \$25.00 law activity fee during autumn. An additional Academic Facilities fee of \$50 per semester plus \$1.25 per credit hour is also assessed.

## School of Extended and Life Long Learning (SELL)

Fees, room and board costs for SELL summer programs, and fees for registration in SELL continuing education are contained in separate

publications. These publications can be obtained by contacting the School of Extended and Lifelong Learning and Summer Programs

- by phone at 406-243-2900;
- by mail at University of Montana-Missoula, Missoula, MT 59812; or
- by visiting the School for Extended and Lifelong Learning website (<http://www.umt.edu/sell/>).

## Refund Policy

### Refund for Dropped Classes

Students who have paid their registration bill may drop classes through the first fifteen days of the Fall and Spring semesters. Adjustments of the associated tuition & fees and financial aid will be made to their student account during that time. **Beginning with the sixteenth class day, there is no refund for classes dropped, and there is a \$10 fee for each class dropped.** Students who finalized with financial aid should always check with the Financial Aid Office and Business Services before dropping classes to make sure they fully understand the financial impacts of dropping classes as that may result in the student having to immediately repay grant aid they received or make them ineligible to receive aid that has not been disbursed yet.

### Refund for Withdrawal from the University

If a student decides to withdraw from classes or has ceased to attend classes after paying their registration bill, the student should contact the University of Montana Registrar's Office located on the sixth floor of Aber Hall, and complete an Official Withdrawal form to begin the official withdrawal process. This procedure will enable the University to prorate the tuition and fees assessed based upon the date of withdrawal. A percentage-based refund of tuition and fees does occur when a student officially withdraws before the first day of classes or within the first 15 class days of each term. Students ceasing to attend classes who do not complete an Official Withdrawal form and as a result do not receive any passing grades for the semester will be considered an unofficial withdrawal and will not receive any consideration for refund of tuition and fees.

*Students who desire to continue the Blue Cross Health Insurance must contact the Curry Health Center prior to withdrawal within the first 15 class days. Otherwise, the insurance premiums will automatically be refunded and coverage will be lost upon the date of their withdrawal.*

For students receiving federal financial aid, they must be attending classes to remain eligible for the federal financial aid they have received or could be eligible to receive. If a student drops courses, stops attending classes (Unofficial Withdrawal), never starts attending a class, or officially withdraws from the University of Montana by completing and submitting the Official Withdrawal form, the University may be required to return federal funds awarded to the student. **It is very important for students receiving federal financial aid to contact Business Services at (406) 243-2223 PRIOR to completing the official withdrawal process or if they are not going to continue to attend their classes.** If a student officially withdraws during the first fifteen days of class, the tuition and fees will be re-assessed for the semester based upon the official date of withdrawal. If a student does not complete the Official Withdrawal form and ceases attending and receives no passing grades for the semester the student is an Unofficial Withdrawal.

Students who withdraw from the University after paying their registration bill will receive pro-rated assessment of tuition and fees according to the following schedule. The Summer term is also subject to a pro-

rated assessment of tuition and fees based on the length of each of the sessions within a Summer term.

## Refund for Fall and Spring:

|                               | Before<br>Classes<br>Begin | 1st Week | 2nd Week | 3rd Week | 4th Week<br>or Later |
|-------------------------------|----------------------------|----------|----------|----------|----------------------|
| <b>Registration</b>           | none                       | none     | none     | none     | none                 |
| <b>Tuition/<br/>Fees</b>      | 100%                       | 90%      | 75%      | 50%      | none                 |
| <b>Blue Cross<br/>Ins. **</b> | 100%                       | 100%     | 100%     | 100%     | none                 |
| <b>Other Fees</b>             | varies                     | varies   | varies   | varies   | varies               |

Charges for room and board will be re-assessed on a pro-rated basis. During the final two weeks of the semester, room charges will not be re-assessed. Student who do not formally and completely withdraw are not eligible for a refund. The student will need to contact both the Residence Life Office located at 101 Turner Hall and UM Dining located in room 114 of the Lommasson Center.

The University of Montana will reassess the tuition and fees for students using the Deferred Payment Plan if the student officially withdraws during the first fifteen days of a semester. The student may still owe a balance to the University.

A student who has officially withdrawn from the term may petition for Hardship consideration if a student meets one of the following conditions or events:

- experiences a catastrophic or life threatening condition or event AFTER THE 15<sup>TH</sup> CLASS DAY of the semester that prevents the student from completing the term;
- has unexpectedly been called to Active Military Duty/Training and cannot complete the term; OR
- cannot complete the term because of an institutional caused circumstance or event.

Appropriate documentation is required to support the Hardship. Hardship Petitions will need to be filed within 30 days of the end of term for which the Hardship is being requested unless there are substantial mitigating circumstances preventing the timely submission of the Hardship Petition.

The Hardship Petition can be obtained by contacting Business Services at (406) 243-2223 during normal business hours, Monday – Friday, 8:00 a.m. – 5:00 p.m. and excluding office closures for holidays.

## Return of Title IV Funds (Federal Financial Aid)

The University of Montana Refund Policy exists for calculating the amount of the federal financial aid that is subject to return when a student officially or unofficially withdraws on or before the 60% point of the term for which the aid was or could have been disbursed. The federal "Return of Title IV Funds" formula dictates the amount of Federal Title IV aid that must be returned to the federal government by the University and the student. The federal formula is applicable to a student receiving Title IV Funds if that student officially or unofficially withdraws. The University of Montana is required to return the Title IV funds to the federal government, U.S. Department of Education, within 45 days of determining the student is no longer attending. A student's official or unofficial withdrawal date is determined by:

- the date the student began the institution's withdrawal process or officially notified the institution of intent to withdraw;

- the midpoint of the period for a student who leaves without notifying the institution (unofficial);
- or, the last date of attendance by the student at a documented academically related activity.

The federal formula requires a return of Title IV aid if the student received federal financial assistance in the form of a Federal Pell Grant, TEACH Grant, Iraq/Afghanistan Service Grant, Federal Supplemental Educational Opportunity Grant (SEOG), Federal Perkins Loan, Federal Direct Loan (subsidized or unsubsidized), or Federal Parent or Graduate PLUS loans for students who officially or unofficially withdraw on or before completing 60% of the semester. The percentage of Title IV aid to be returned is equal to the number of calendar days remaining in the semester (based on the official withdrawal date) divided by the number of calendar days in the semester (scheduled academic breaks of five consecutive days or more are excluded). After all Title IV aid return requirements have been satisfied, any credit balances on a student's account will be first applied to satisfy outstanding University tuition, fees, and institutional charges, then to any Grant overpayments and finally any remaining credit balances will then be refunded to the student.

*If you officially or unofficially withdraw from the University of Montana before completing 60% of the semester, you may have to repay any unearned financial aid funds that were already disbursed to you. A post-withdrawal disbursement may be made if a student shows eligibility for Title IV aid. Please contact staff in The University's Business Services, located in Griz Central or call 406-243-2223, if you have any questions about refund of tuition and fees or the calculation of the return of federal financial aid PRIOR TO WITHDRAWING OR CEASING TO ATTEND.*

## Distribution Priority for Return of Title IV Funds

1. Federal Unsubsidized Stafford Loan
2. Federal Subsidized Stafford Loan
3. Federal Perkins Loan
4. Federal Graduate PLUS Loan
5. Federal Parent PLUS Loan
6. Federal Pell Grant Program
7. Federal SEOG Program
8. Federal TEACH Grant
9. Federal Iraq/Afghanistan Service Grant
10. State, Private, or Institutional Aid
11. The Student

## Other Costs and Policies

### Late Registration

A student who does not complete registration, including payment of tuition & fees, by the seventh class day is assessed a late registration fee of \$80.00. An additional late registration fee is assessed on the 16th class day if the registration bill is not paid. After the fifteenth class day, a petition is required to register and, if approved, the total late registration fee of \$160.00 is assessed.

### Returned Checks

A charge of \$25.00 will be assessed on checks (paper or electronic) returned from the bank. Any paper or electronic check tendered in payment of registration fees and not honored by the bank upon which it is drawn may result in cancellation of a student's registration. If the student's registration is cancelled, the student will be required to re-

register and may be subject to the late registration fees in addition to the \$25.00 service charge.

## Fee Policy on Drop/Add

Students must pay for all courses for which they are enrolled upon assessment of their registration bill. However, within the first fifteen class days, they may drop or add courses. The courses for which students are enrolled on the fifteenth class day will determine any fee adjustments (see fee schedule) or financial aid adjustments. Beginning the sixteenth class day, courses dropped will not result in a reduction of fees but courses added that increase credit hour enrollment may result in additional tuition and fees charges. Payment is due within 10 days of the day courses are added.

***GrizPortal will not allow a student to drop all courses. Dropping all courses is considered a withdrawal from the University. Please refer to the Withdrawal Policy (p. 25) section in the catalog for information on how to withdraw and the associated Refund Policy.***

## Drop/Add Processing Fee

A \$10.00 processing fee will be charged for each course that is added or dropped after the fifteenth instructional day. See the summer class schedule (<http://www.umt.edu/registrar/calendar.php>) for summer session deadlines.

## Deferred Payment Plan

The University of Montana offers a payment plan to help students and their families pay their tuition, mandatory fees, and room and board. Eligibility is based on the following criteria:

- Making payments as scheduled.
- Existing credit history with the University.
- Full completion, approval and signing all required documents.

The plan provides for the payment of at least one fourth of the total fees along with a \$30.00 administrative charge at the time of the registration bill assessment.

The remaining three payments are due as follows:

Fall Term – October 1, November 1 and December 1

Spring Term – March 1, April 1 and May 1

If the first falls on a weekend or a holiday, the payment is due on the next business day. A \$15.50 fee will be assessed each time a payment is late.

Registration, tuition and mandatory fees less any Financial Aid may be deferred. Student insurance and non-mandatory/course fees may not be deferred. A \$15.00 fee will be assessed each time a payment is late.

Deferred Payment Plan (DPP) applications are to be submitted via GrizPortal. The instructions (at right) will lead you to the DPP application. Be prepared to fill out the necessary application forms including parent and spouse information and two references. Your application will be reviewed by Business Services within three (3) business days and you will be notified via your UM email on the status of your application.

The signing and adherence to the terms and conditions of a promissory note will be required. Any person who is receiving financial aid that fully covers their tuition, mandatory fees and room and board; who owes the University any fees, fines, loans or other charges; or who has previously been approved for the Deferred Payment Plan and failed to make timely

payments may be determined to be ineligible to use the Deferred Payment Plan.

This plan is not available for the summer session.

## Monthly Bill Statements

Monthly bill statements are mailed on accounts that do not have an active UM email. An electronic notification will be e-mailed to the student's official University of Montana e-mail account. It is the student's responsibility to check their mail and official University of Montana e-mail account for these statements and notices. Payments for billed amounts are due by the due date indicated on the statements and electronic message. Failure to make timely payments will result in an interest charge not to exceed ten percent (10%) per annum assessed on balances not paid in full by the following monthly billing. Payments can be made

1. online in GrizPortal (<https://cyberbear.umt.edu/>);
2. at the cashiers station located in Griz Central (2nd floor Lommasson Center); or
3. by mailing payments to

Student Accounts  
Business Services  
The University of Montana  
32 Campus Drive #2304  
Missoula, MT 59812-2304.

## Non Payment

A student who owes regular fees and charges including room and board or has an overdue debt owed to the University for any fees, fines, or other charges will not be able to register, secure any transcript or record, or access any University facilities or services until the full amount due has been paid or satisfactorily resolved with Business Services. Interest may be charged at the rate of ten percent (10%) per annum (.027% per day) on the balance due from the day after the due date until the full amount has been paid. student may also be subject to any attorney's fees or other costs or charges necessary for the collection of the amount owed may and this amount may be added to the balance due. The University of Montana also reserves the right to use the Montana State Department of Revenue to offset and receive any funds that may be refunded by the State of Montana to the student. The University of Montana reserves the right to refer unpaid accounts to third-party collection agents under contract with the University of Montana.

## Determination of In-State Fee Status

Please see the Residency Information website (<http://www.umt.edu/registrar/students/residencyinfo.php>).

## Costs of On-Campus Services Housing and Dining Services

Students living in UM Housing are required to contract for a meal plan with UM Dining. Room and board rates are the same for in-state and out-of-state students. Occupants may select any meal plan to obtain the number of meals preferred and choose from a variety of room options.

Students who are approved to move out of the residence halls and terminate their meal plan contract will receive a prorated refund based upon the days remaining in the semester less the cancellation fee. For more information and charges, see the UM Housing Office website

(<http://www.umt.edu/residencelife/>) and UM Dining website (<http://www.umt.edu/dining/>).

## Vehicle Registration Fee

All vehicles parking on campus must display current campus vehicle registration between the hours of 7:00 a.m. and 5:00 p.m. Monday through Friday year round. Students, staff or faculty may purchase window or hanger decals.

More information can be found at the UM Police parking web page (<http://www.umt.edu/police/Parking/>).

## Veterans' Benefits for Education Assistance Under Public Law 95-202 and Public Law 815

For Veteran information visit the UM Veterans website (<http://www.umt.edu/veterans/>).

## Financial Aid

The Financial Aid Office at the University of Montana administers federal, state, and institutional aid programs designed to help eligible students pay for their educational expenses. Amounts of awards vary and depend upon the student's financial need as well as the amount of funds available for distribution.

To apply for financial aid, students and parents of dependent students must file the Free Application for Federal Student Aid (FAFSA) each year. The FAFSA can be filed electronically at <https://studentaid.gov/h/apply-for-aid/fafsa> (<https://nam04.safelinks.protection.outlook.com/?url=https%3A%2F%2Fstudentaid.gov%2Fh%2Fapply-for-aid%2Ffafsa&data=05%7C02%7Ctroy.morgan%40mso.umt.edu%7C0f5258ca3b9f43a14e5908ddccbcf376%7C68407ce503da49ffaf0a724be4d37c0%7C0%7C0%7C638891834091677736%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIlwLjAuMDAwMCIsIl9kaW42ImkiOiJhbnR1bCIsIl9ldUljoyfQ%3D%3D%7C0%7C%7C%7C%7C&sdata=wXuWr27W9mQXeuGSSpPVRphRh4QBBNcS5rskrvKmnE%3D&reserved=0>).

To be eligible for financial aid, an individual must be a citizen or permanent resident of the United States and have applied for admission to the University as a degree-seeking student.

Students applying for financial assistance are considered for all aid programs for which they are eligible. Assistance is offered in the form of grants, scholarships, tuition waivers, student and parent loans, and work opportunities.

Publications describing the different programs, eligibility criteria, satisfactory progress, and application procedures are available via the UM Financial Aid website (<https://www.umt.edu/finaid/>), at the Financial Aid Office, Aber Hall 5th Floor, 32 Campus Drive, Missoula, MT 59812, or telephone at (406) 243-5373.

Both undergraduate and graduate students may apply for aid. Assistance to graduate students is generally limited to long-term loans and work opportunities. Information on graduate fellowships, scholarships, and assistantships may be obtained from The Graduate School.

Although student expenses will vary according to differences in courses of study, residency status, housing arrangements, transportation costs, and other factors, the table of estimated expenses may be used to determine the projected cost of education for a school year (two

semesters). In estimating costs, between-semester expenses should not be overlooked.

Please remember that policies and procedures governing financial assistance at UM are subject to change at any time, without prior notification or publication, due to changes in university, state, and/or federal guidelines and regulations.

The Financial Aid Office is open Monday through Friday from 8:00 AM to 5:00 PM or as otherwise posted.

## Organizations

### Alumni Association

The University of Montana Alumni Association was founded in 1901 by Eloise Knowles and originally served 24 alumni. Today, the serve thousands of alumni and friends across the globe, helping them stay connected to the University of Montana. They support events like Homecoming and class reunions, manage communications including the Alumni Insider Newsletter and the Montanan magazine, and facilitate opportunities such as career services, alumni mentoring and travel. They fund scholarships for students and assist the University's legislative advocacy efforts through board-driven volunteer efforts to gain support for higher education throughout the state.

The University of Montana Alumni Association is committed to providing meaningful programming and services for our alumni wherever they are. They are a lifelong connection back to the University of Montana. For more information, refer to the Alumni website (<https://www.grizalum.org/>).

### Associated Students of the University of Montana (ASUM)

The Associated Students of the University of Montana enhances the student experience through providing services, advocating for the rights of all University of Montana students as a diverse, unified body, and models trust and transparency among students, faculty, and staff. Additional information about ASUM activities and services can be found on the ASUM website (<https://www.umt.edu/asum/>).

### KBGA Radio

KBGA College Radio, 89.9 FM, is the student-run, college radio station for The University of Montana. Also available streaming online on the KBGA Radio website (<http://kbga.org/>), they provide a diverse format of music and talk programming 24 hours a day. They are a non-commercial, educational station, so everyone is welcome to become a DJ. For more information, see the KBGA Radio website (<http://kbga.org/>).

### Montana Kaimin

The Montana Kaimin (<https://www.montanakaimin.com/#http://www.montanakaimin.com>) is the student-run daily of the University of Montana dedicated to telling the stories of the campus and its students. The Kaimin publishes daily online and, as of 2015, in a weekly printed edition that focuses on feature writing.

### Fraternities and Sororities

Fraternities and sororities are an established tradition on the University of Montana campus, dating back over 110 years. Our community is home to four fraternities and three Panhellenic sororities. These organizations

strive to develop leadership skills, social responsibility, and academic excellence in each of our members. Additional information can be found on the Fraternity and Sorority Involvement website (<https://www.umt.edu/fsi/>).

## Maureen and Mike Mansfield Center

The Maureen and Mike Mansfield Center (<https://www.umt.edu/mansfield/>) was established in 1986 to pay tribute to Maureen and Mike Mansfield and to recognize their important contributions to U.S. Asian relations and public policy. The Center is an academic unit within the University of Montana and receives core funding from an endowment managed by the Maureen and Mike Mansfield Foundation. Mansfield Center faculty offer classroom instruction, conduct research, provide training for Asian and U.S. government personnel, and organize various types of conferences, all with a focus on East Asia. The Center faculty collaborate with the University's Asian studies programs and several other campus units.

The Mansfield Center's Ethics and Public Affairs Program (formerly known as the Center for Ethics) focuses upon the relationship of values to public institutions and affairs. Its courses, seminars, lectures, conferences, and internships examine the role that ethical values can and should play in public life, moral quandaries faced by those who govern philosophical and practical dimensions of political ethics, and issues of leadership and character in public service.

## Peace Corps

The Peace Corps is a service opportunity for motivated changemakers to immerse themselves in a community abroad, working side by side with local leaders to tackle the most pressing challenges of our generation. It was established in March 1961 by an executive order (10924) of President John F. Kennedy and authorized by Congress the following September by the Peace Corps Act.

The Peace Corps' mission is to assist developing countries by providing skilled workers in fields such as education, health, entrepreneurship, women's empowerment, and community development. Peace Corps volunteers must be U.S. citizens or on a pathway to citizenship and at least 18 years of age. Volunteers typically have a college degree (making this a perfect gap year opportunity) and are assigned to specific projects in certain countries based on their qualifications and experience. Following three months of technical training, Peace Corps members are expected to serve at least two years in their host country, after which they may request an extension of service if desired. Volunteers are strongly encouraged to respect local customs, learn the prevailing language, and live in comparable conditions.

More information can be found on the UM Peace Corp website (<https://www.umt.edu/peace-corps/>).

## Services

- Community Services (p. 62)
- Student Services (p. 63)

## Community Services

### Bureau of Business and Economic Research

The Bureau of Business and Economic Research is a research department within the College of Business at the University of Montana, Missoula. They produce a variety of economic and industry data including annual economic forecasts for the United States as well as Montana, its industries, and counties. More information can be found on the Bureau of Business and Economic Research website (<https://www.bber.umt.edu/>).

### Montana Cooperative Wildlife Research Unit

The Cooperative Research Unit is a unique collaborative relationship between States, Universities, the Federal government and a non-profit organization. Coop Units conduct research on renewable natural resource questions, participate in the education of graduate students destined to join the natural resource profession, provide technical assistance and consultation to parties who have interests in natural resource issues, and provide various forms of continuing education for natural resource professionals. More information can be found on the Montana Cooperative Wildlife Research Unit website (<https://www.umt.edu/coop-unit/>).

### Montana Campus Compact

Established in 1993, Montana Campus Compact aims to integrate civic work and learning into the curriculum and operations of its diverse network of colleges and universities, so students graduate with the determination and capacity to contribute to the public good throughout their lives. They also work to make higher education institutions fully engaged with their communities, working together to educate citizens, solve problems, and build a strong democracy. More information is available on the Montana Campus Compact website (<https://mtcompact.org/>).

### The Clinical Psychology Center

The CPC is a training clinic, staffed by doctoral students in Clinical Psychology and School Psychology.

Located on the University of Montana campus, the CPC serves the entire Missoula community. Services are provided by student clinicians under direct supervision of senior clinicians from the Department of Psychology faculty. Student clinicians carry small caseloads (typically 3-5 clients) so that they can be closely supervised and provide optimal care. The clinic facilities include private counseling/consultation rooms, observation rooms, a group services room, and seminar rooms. More information can be found on the Clinical Psychology Center website (<http://hs.umt.edu/psychology/>).

### The University of Montana Physical Therapy Clinic

The University of Montana Physical Therapy Clinic (UMPT Clinic) provides quality, patient-centered physical therapy care while serving as a teaching facility for graduate physical therapy students. Care is provided by a licensed physical therapist, along with graduate physical therapy interns.

More information can be found on the UMPT Clinic website (<https://www.umt.edu/physical-therapy-clinic/>).

## Student Services

### The Maureen and Mike Mansfield Library

The Maureen and Mike Mansfield Library (<https://www.lib.umt.edu/>) at the University of Montana provides an array of information resources and services in support of the teaching, learning, and research programs of the University. These resources include print collections and access to networked research databases, electronic journals e-books, media materials, and a web-based integrated library cataloging and discovery platform. Library services include in-depth research and reference assistance, an extensive instruction program integrated into the university curriculum, and full-service computing and media facilities. Extensive services for online education students and faculty are available to provide an equitable educational experience.

The Maureen and Mike Mansfield Library comprises the heart of UM's library system. Collections exceed 1.75 million volumes, more than 800,000 electronic books, access to over 75,000 print and electronic journals, an expanding array of electronic databases, over 72,000 media, a federal government depository collection and an Archives and Special Collections. These resources are supplemented by an active interlibrary loan service through which items from other libraries can be loaned to UM students and faculty. The Mansfield Library is open seven days a week for 111 hours per week during the academic semesters.

Over 130 computers available for student use and wireless access throughout the building provides fast and stable internet connectivity in support of access to electronic resources and access to other networked information. Three state-of-the-art instructional classrooms underscore the goal of the library as a learning library in which students learn how to access and evaluate information in support of their advancing academic careers. Study carrels, group study rooms, study tables, and soft seating on all floors of the library provide a variety of study environments.

The Mansfield Library at Missoula College UM (located on the East Campus) supports its curricular programs. Students and faculty at both campuses have access to all library resources and services. Students at Bitterroot College UM, in Hamilton, also have full access to the Mansfield Library's resources and services. The library collections at the affiliated UM campuses are located in Butte at Montana Tech, and Highlands College of Montana Tech; in Dillon at The Carson Library of the University of Montana-Western; and in Helena at Helena College the University of Montana.

## UM Housing

UM Housing provides safe, clean, healthy, and affordable living and learning facilities that foster an inclusive community living environment for students, staff, faculty, and guests. Services provided in these facilities support and nurture educational experiences and personal development at the University of Montana. Additional information about housing at the University of Montana can be found on the UM Housing website (<https://www.umt.edu/housing/>).

## UM Campus Dining

Information about UM Campus Dining services can be found on the UM Campus Dining website (<https://www.umt.edu/dining/default.php>).

## Experiential Learning and Career Success (ELCS)

Experiential Learning & Career Success (ELCS) is dedicated to supporting students from their first day on campus to their first day on the job and beyond. ELCS helps students tie their unique passion, personality, potential, and academic plans together to connect experiences, grow, and learn as a whole person. UM's signature career readiness program, ElevateU, is built to enhance your career readiness and marketability so students graduate with a degree in hand, broadly educated and specifically skilled. Additional information can be found on the ELCS website (<https://www.umt.edu/experiential-learning-career-success/>).

## Testing Services

Testing Services at the University of Montana provides academic and professional testing opportunities for the purpose of enhancing educational, career and professional goals. Testing Services adheres to the National College Testing Association Professional Standards and Guidelines. Additional information can be found on the Testing Services website (<https://www.umt.edu/testing-services/>).

## Office for Disability Equity

Students with disabilities can expect access at the University of Montana-Missoula. Wherever possible, the University exceeds mere compliance with the civil rights laws of Section 504 of the Rehabilitation Act, the Americans with Disabilities Act, and the Montana Human Rights Act. The University's programs are readily accessible to and usable by people with disabilities. The campus assures Program access is delivered to the maximum extent feasible and in the most integrated manner possible.

The Office for Disability Equity (ODE), a student affairs office, leads the University's program access efforts for students. ODE provides and coordinates reasonable modifications and advocates for an accessible and hospitable learning environment. We encourage self-determination and self-reliance by students with disabilities. Examples of services include priority registration, physical accessibility arrangements, academic adjustments, auxiliary aids (readers, scribes, sign language interpreters, etc.), alternative testing, conversion of print textbooks to e-text, assistive technology assistance, and other reasonable modifications. To achieve equal access, ODE vigorously pursues the removal of informational, physical, and attitudinal barriers to all University programs.

Students with disabilities should plan ahead and get in touch with ODE prior to arriving on campus. For additional information, contact ODE in Aber Hall, Level 1, by phone at (406) 243-2243 (Voice/Text), by video phone at (406) 203-0591, or by email at [ode@umontana.edu](mailto:ode@umontana.edu). Please visit the Office for Disability Equity website (<https://www.umt.edu/disability/default.php>) to find details on our services.

## Military and Veteran Services Office (MVSO)

The University of Montana Military and Veteran Services Office (MVSO) is located on the Southeast corner of the Mountain Campus at 1000 E. Beckwith Avenue, where Beckwith Ave. becomes Campus Drive. The

Military and Veteran Services Office assists all military-affiliated students with education benefits and resources necessary to succeed at UM, including those attending the Missoula College.

The Military and Veteran Services Office complies with the Veterans Benefits and Transition Act of 2018 (38 USC 3679(e)). The Act states that we will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

## International Students and Scholars

The office of International Students and Scholars (ISS) assumes responsibility for the general welfare of foreign students at the University of Montana from admission to gradation and practical training. It provides direct support services, consultation, and liaison. The office assists in the reception and orientation of foreign students and helps with their integration into the University and community. It interprets immigration regulations and laws and assists students in maintaining legal status and obtaining benefits related to their visa status. Staff members provide advising for academic and personal concerns, cultural adjustment, financial problems, and other concerns that arise.

The staff works with the International Student Association and other student groups, as well as the Missoula International Friendship Program to sponsor cultural activities, a speaker's bureau, a community hospitality program for students, leadership opportunities for students, and the annual International Culture and Food Festival. ISS coordinates the UM Global Partner Program, a campus peer-mentoring program. It offers educational fields trips; winter and summer break activities, as well as initial and on-going orientation and educational programs on relevant topics. ISS manages the campus' International House, an activity center for inter-cultural events.

International Students and Scholars works closely with other service and advising offices on campus to optimize those services and their visibility to foreign students.

International Students and Scholars prepares certificates or petitions for the Exchange visitor J-1 visa and advises foreign scholars who need to change or extend their visa status, travel temporarily out of the United States or bring dependents to this country. Finally, the office serves as liaison to federal agencies dealing with foreign student and scholar concerns, such as the US Citizenship and Immigration Service, Department of Labor, Department of State, Internal Revenue Service and Social Security Administration. For more information visit the International Student and Scholars website (<http://www.umt.edu/global-engagement/international-student-scholars/default.php>) or contact us at [global.engagement@umontana.edu](mailto:global.engagement@umontana.edu).

## Global Engagement Office

The Global Engagement Office promotes and provides international life-changing experiences and related educational opportunities, serving as a resource that contributes to the culture of a globally-minded community through its several different sections. The GEO is responsible for the recruitment of all international students to UM through a variety of programs including Study Abroad, Partner Programs, English Language Institute, Undergraduate Pathway (UP) Program, and Full Admissions. The GEO works with its partners to receive sponsored international students and administer their programs. The English Language Institute (ELI) department of the GEO serves international students who wish to improve their English language and academic skills in order to pursue studies at UM or another higher education institution. The GEO also offers students the exciting opportunity to study abroad in one of over 50 countries through three different UM sponsored programs: Faculty-Directed Programs, Partner Universities, and International Student Exchange Programs (ISEP). Global Gateway, an innovative educational service portal within the GEO, develops partnerships with the UM campus, local schools, and community organizations that promote cultural awareness and sharing foreign cultures, traditions, and customs. For additional information, visit GEO in the International Center, call (406) 243-2288, email [global.engagement@umontana.edu](mailto:global.engagement@umontana.edu).

## English Language Institute

UM offers an intensive English program through the English Language Institute. Students are enrolled in 20 hours of class each week. ELI's curriculum addresses the needs of international students whose scores are below UM language requirement scores of 525 ITP/ 70iBT. ELI courses also address the needs of students who want to raise their English language proficiency in order to gain admission to a university or college where English is the language of instruction. Through this program, ELI students can begin their university studies at UM in several ways. They can successfully participate in the ELI/UM Bridge Program, show their academic readiness through ELI coursework, or meet the TOEFL requirements. For more information, visit the English Language Institute website (<http://www.umt.edu/global-engagement/>).

## Curry Health Center

Curry Health Center provides affordable, accessible, high quality, student-centered health services to University of Montana students to enhance student learning, promote personal health and development and teach important life skills.

The Curry Health Fee is paid at registration by students who enroll for seven credits or more (excluding distance only students). Students taking less than seven credits per semester may elect to pay the Health Fee at any time during the semester. The Curry Health Center provides a wide range of primary health care and health promotion services at discounted rates well below what students would generally find in the Missoula community.

Services in Wellness and Student Advocacy Resource Center (SARC) are available to all students. Services in Medical, Counseling and Dental are available only to students who pay the Curry Health Fee.

Additional information about Curry Health Center services can be found on the Curry Health Center website (<https://www.umt.edu/curry-health-center/>).

## UM Police Department

The University of Montana Police Department (UMPD) serves and protects the students, staff, faculty, and all people and property within the University of Montana campus and properties.

Both Police Dispatchers and Officers are on duty 24 hours a day, every day of the year. Our Police Officers and Dispatchers are certified and trained by the Montana Law Enforcement Academy (MLEA). UM Police Officers have the exclusive responsibility to act upon law-enforcement matters and perform police functions for the UM Main Campus and the Missoula College. UM Police Officers investigate all crimes and enforce federal, state, and local laws as well as University of Montana policies.

All sworn UMPD officers have successfully completed training at the Montana Law Enforcement Academy (MLEA) or equivalent training recognized by the Montana Peace Officer Standards and Training Council. Our officers have the same authority and powers of arrest as any officer in the state. In addition to the MLEA training, UMPD officers receive additional training throughout the year.

For additional information, see the UM Police website (<https://www.umt.edu/police/>).

## UM Transportation and Parking Services

University of Montana Transportation and Parking Services (TAPS) is comprised of the UM Parking Department and ASUM Transportation. Information can be found on the UM Transportation and Parking Services website (<https://www.umt.edu/transportation-parking-services/about/default.php>).

## University Center

The University Center enriches campus life by providing student-focused opportunities, programs, services, and space.

The UC is your student union. It is a place for you to study, discover diversity, enjoy entertainment and feel at home away from home. Additional information can be found on the University Center website (<https://www.umt.edu/uc/>).

## Sports and Recreation

Organized sports and recreational activities are an important part of academic and leisure life at the University.

### Intercollegiate Athletics

The University of Montana-Missoula is a Division I member of the National Collegiate Athletic Association and the Big Sky Conference. The athletic program consists of 15 varsity teams. The men's program includes competition in basketball, cross country, football (Football Championship Subdivision), indoor and outdoor track, and tennis. The women's program offers competition in basketball, cross country, tennis, indoor and outdoor track, volleyball, golf, softball, and soccer. Athletic scholarships are offered in all sports. Additional information can be found on the Athletics website (<https://www.umt.edu/athletics/>).

### Campus Recreation

Campus Recreation enriches the academic experiences of University of Montana students and provides all members with exceptional health, fitness and recreational opportunities. In addition to helpful staff ([https://www.umt.edu/crec/\\_archive/directory/default.php](https://www.umt.edu/crec/_archive/directory/default.php)) and state-of-the-art facilities (<https://www.umt.edu/crec/about/facilities/default.php>), Campus Recreation offers services, events and innovative programs.

Program areas include aquatics, fitness programs, golf, intramural sports, outdoor programs and youth camps. Extending positive, lasting impacts to the broader community, Campus Recreation also co-hosts collaborative events and provides public access to the Grizzly Pool, University of Montana Golf Course and Youth Camps. Information can be found on the UM Campus Recreation website (<https://www.umt.edu/crec/>).

## AFFILIATED CAMPUSES

- Helena College University of Montana (p. 66)
- Montana Technological University (p. 66)
- The University of Montana Western (p. 66)

### Helena College University of Montana

Helena College offers two-year programs in business, trades, technical, and health occupations designed to meet the state's business and industry needs for technologically-skilled workers. All of the curricula are industry-approved and emphasize learning in a hands-on environment. In addition, the college offers an Associate of Science degree and Associate of Arts degree designed to transfer to four-year institutions. The college, founded in 1939, is fully accredited by the Northwest Commission on Colleges and Universities (NWCCU), approved by the Montana State Board of Nursing, certified and licensed by the Federal Aviation Administration, and certified by the National Institute for Automotive Service Excellence.

Helena College students take a full complement of courses in mathematics, communications, computer literacy, and career development. Located in Helena, Montana's beautiful capitol city, Helena College offers its programs in modern classrooms, shops, and labs, both near the Capitol building and at the Helena airport. For more information, see the Helen College website (<https://helenacollege.edu/>).

### Montana Technological University

Originally chartered as The Montana State School of Mines, Montana Technological University (Montana Tech) has evolved into a dynamic institution which connects focused students to a network of people, opportunities, and experiences that empower them to change the world.

Along with world-class offerings in resource engineering, Montana Tech offers programs in other areas of engineering, the sciences, mathematics, computation, health, business. We offer certificate programs, associate, bachelor, and master's degrees along with doctoral degrees in Materials Science and Earth Science & Engineering.

Montana Tech's commitment to research has resulted in significant funding for compelling projects that will help transform tomorrow. Undergraduate and graduate students alike are frequently involved with faculty and staff in these important research programs.

Additional information can be found on the Montana Tech website (<http://www.mtech.edu/>).

### The University of Montana Western

The unique mission of the University of Montana Western emphasizes experiential learning combining theory and practice through projects and field experiences. Montana Western students learn by doing, collaborating directly with their professors and fellow students in a mentorship environment.

In order to better facilitate this type of learning, UMW adopted a course scheduling system, named Experience One (X1). Under X1, students take a single course at a time for 18 days for three hours per day. Montana

Western is the first and only public four-year university in the country to fully adopt this system.

Montana Western embraces the privilege and obligations associated with its mission as a higher education institution within the beautiful landscape of southwest Montana. This mission infuses the University's curriculum:

- in its century-long tradition for excellence in professional programs in teacher education, business and technology;
- in its strong interdisciplinary arts and science programs; and
- in its two-year associate degree programs responding to regional needs.

Montana Western offers the Bachelor of Science degree in:

- Elementary Education, Secondary Education with options in traditional subject areas,
- Biology,
- Business Administration,
- Early Childhood Education,
- Environmental Interpretation,
- Environmental Science,
- Health & Human Performance,
- Mathematics, and
- Natural Horsemanship.

In addition, Montana Western offers Bachelor of Arts (BA) and Bachelor of Applied Science (BAS) degrees. Bachelor of Arts options include English, Interdisciplinary Social Science, and Visual Arts. Bachelor of Applied Science students may use an Associate of Applied Science (AAS) degree as a base for the BAS degree with most of the credits from the two-year degree transferring into the BAS at Montana Western. Montana Western also offers Associate of Arts and Associate of Science degrees for those who want to obtain their general education before transferring to another campus; Associate of Applied Science degrees for those needing entry-level job skills in Business, Early Childhood Education, Education Studies, Equine Studies, Natural Horsemanship, and Tourism & Recreation; and certificate programs in Early Childhood Technology, and Information Technology & Network Administration.

Individualized education has been a campus hallmark for over 100 years. Approximately 1,400 students enroll at Montana Western each fall. Class sizes are kept small (average class size is 18 students). The faculty is nationally recognized for its excellence, creativity, and genuine concern for maintaining the Montana Western tradition of high quality academic and personal experience.

In addition to fulfilling academic life, Montana Western offers National Association of Intercollegiate Athletics Frontier Conference sports in football, volleyball, men's and women's basketball, men's and women's National Intercollegiate Rodeo Association teams, and Equestrian team competition. A varied sports program is also available for students seeking intramural activities.

With close proximity to Yellowstone, Grand Teton, and Glacier national parks, Montana Western's geographic location makes an ideal setting for individuals who enjoy the rugged outdoors. With a friendly, small town atmosphere, Dillon offers many of the amenities of a much larger community. Ranching, mining and tourism are the chief industries of the area. Montana Western's picturesque 34-acre campus and friendly atmosphere enhance the community and area. For more

information visit the University of Montana Western website (<https://www.umwestern.edu/>).

# UNDERGRADUATE PROGRAMS

- College of the Arts and Media (p. 75)

- ESL Education Minor (p. 148)
- Ethics Minor (p. 255)

- European Studies Minor (p. 292)
- Exercise is Medicine Certificate (p. 182)

## F

- Finance B.S. in Business Administration (p. 127)
- Finance Data Analytics Certificate (<https://catalog.umt.edu/colleges-schools-programs/business/accounting-finance/cert-finance-data-analytics/>)
- Fire Sciences and Management Minor (p. 169)
- Food Service Entrepreneurship and Hospitality A.A.S. (p. 401)
- Forensic Studies Certificate (p. 207)
- Forestry B.S. (p. 158)
- French B.A. (p. 293)
- French B.A. - French Language Education (p. 294)
- French Language Education Minor (p. 295)
- French Minor (p. 295)

## G

- Game Design & Interactive Media B.F.A. (p. 117)
- Game Design Certificate (p. 122)
- General Studies Certificate (p. 394)
- Geographic Information Systems Certificate (p. 174)
- Geography Education Minor (p. 170)
- Geography Minor (p. 170)
- Geosciences B.S. (p. 160)
- Geosciences B.S. - Earth Science Education (p. 162)
- Geosciences Minor (p. 171)
- German B.A. (p. 296)
- German B.A. - German Language Education (p. 297)
- German Language Education Minor (p. 298)
- German Minor (p. 298)
- Gerontology Minor (p. 186)
- Global Leadership Certificate (p. 432)
- Global Public Health Minor (p. 184)
- Green Building C.T.S. (p. 422)

## H

- Health Communication (p. 215)
- Heavy Equipment Operation C.A.S. (p. 423)
- Historic Preservation Certificate (p. 208)
- History B.A. (p. 232)
- History B.A. - History Education (p. 234)
- History Education Minor (p. 239)
- History Minor (p. 238)
- History of Religions Certificate (p. 240)
- History-Political Science B.A. (p. 236)
- Human and Family Development Minor (p. 273)
- Human Biology and Biomedical Sciences B.S. (p. 324)

## I

- Indigenous Knowledge and Environmental Sustainability Certificate (p. 175)
- Information and Control Assurance Certificate (p. 129)

- Information Technology & Cybersecurity A.A.S. (p. 402)
- Integrative Microbiology B.A. (p. 330)
- Integrative Physiology B.S. - Health and Exercise Science (p. 178)
- Integrative Physiology B.S. - Health Enhancement (p. 180)
- Interactive Art & Media Certificate (p. 122)
- Interdisciplinary Biology B.A. (p. 316)
- International Business B.S. in Business Administration (p. 133)
- International Development Studies Minor (p. 427)
- Irish Studies Minor (p. 231)

## J

- Japanese B.A. (p. 299)
- Japanese Minor (p. 300)
- Jazz Studies Certificate (p. 92)
- Journalism B.A. (p. 77)
- Journalism Minor (p. 78)

## L

- Language Rejuvenation and Maintenance Certificate (p. 247)
- Language, Regional Expertise, and Culture Certificate (p. 434)
- Latin American Studies Minor (p. 301)
- Latin Language Education Minor (p. 302)
- Latin Minor (p. 301)
- Legal Studies C.A.S. (p. 403)
- LGBTQ+ Studies Certificate (p. 285)
- Linguistics B.A. (p. 242)
- Linguistics Minor (p. 243)
- Logistics & Supply Chain Management Certificate (p. 135)

## M

- Management Information Systems B.S. in Business Administration (p. 138)
- Marketing B.S. in Business Administration (p. 136)
- Mathematical Sciences-Computer Science B.S. (Combined Major) (p. 356)
- Mathematics B.A. (p. 358)
- Mathematics B.A. - Applied Mathematics (p. 360)
- Mathematics B.A. - Combinatorics and Optimization (p. 362)
- Mathematics B.A. - Mathematics Education (p. 363)
- Mathematics B.A. - Pure Mathematics (p. 365)
- Mathematics B.A. - Statistics and Data Science (p. 366)
- Mathematics Education Minor (p. 367)
- Mathematics Minor (p. 368)
- Media Arts B.A. (p. 114)
- Media Arts B.F.A. (p. 115)
- Media Arts Minor (p. 119)
- Medical Assisting A.A.S. (p. 406)
- Medical Claims Specialist C.T.S. (p. 407)
- Medical Information Technology A.A.S. - Health Information Coding Specialty (p. 408)
- Medical Information Technology A.A.S. - Medical Administrative Assisting (p. 409)
- Medical Laboratory Science B.S. (p. 332)

- Medical Reception C.A.S. (p. 410)
- Microbiology Minor (p. 339)
- Microbiology, Immunology, & Infectious Disease B.S. (p. 328)
- Migration Studies Certificate (p. 268)
- Military Studies Minor (p. 429)
- Mountain Studies Minor (p. 171)
- Multidisciplinary Studies B.A. (p. 244)
- Music B.A. (p. 79)
- Music B.A. - Instrumental Jazz Studies (p. 84)
- Music Minor (p. 93)
- Musical Theatre Performance Minor (p. 107)

## N

- Native American Studies B.A. (p. 245)
- Native American Studies Certificate (p. 247)
- Native American Studies Minor (p. 246)
- Neurodivergence Inclusion and Supports Certificate (p. 189)
- Neuroscience B.S. - Cellular and Molecular Neuroscience (p. 334)
- Neuroscience B.S. - Cognitive Neuroscience (p. 336)
- Neuroscience Minor (p. 340)
- Nonprofit Administration Certificate (p. 431)
- Nonprofit Administration Minor (p. 430)
- Northern Rockies Outdoor Leadership Certificate (p. 175)

## P

- Paramedicine A.A.S. (p. 411)
- Parks, Tourism, and Recreation Management B.S. (p. 162)
- Performance B.M. - Instrumental (p. 89)
- Performance B.M. - Keyboard (p. 90)
- Performance B.M. - Voice (p. 91)

## College of the Arts and Media

The College of the Arts and Media is comprised of three professionally accredited schools:

- Journalism (<http://jour.umt.edu/>)
- Music (<http://www.umt.edu/music/>)
- Theatre and Dance (<http://www.umt.edu/umarts/theatredance/>)
- Visual and Media Arts (<https://www.umt.edu/svma/>)

The College of the Arts and Media is committed to leadership in pedagogy, creative scholarship, professional performance, artistic exhibition, and journalistic inquiry. The College prides itself on its high achieving faculty, successful alumni, and talented students who work hard to ensure that the University of Montana serves as the heart of culture and media for the state and region. Each program in the College is designed to:

- Teach students with rigor and devotion by offering in-depth experiential learning that enables them to perform, create, and interrogate big questions of art, culture, and society with specificity and maturity, remaining open to diverse perspective.
- Serve the University, the community, state, region, and nation by presenting high quality concerts, productions, exhibitions, and journalism

- Offer scholarly research opportunities for all disciplines to engage students in theoretical explorations of all forms of arts and media.
- Provide leadership in the arts and media by enhancing the excellence of traditional curricula, instruction, and research with innovative and imaginative programs that utilize new technologies, incorporate various media, and enhance cultural and intellectual environments.
- Inspire students to pursue excellence in their creative and investigative activities and uphold the free expression of complex ideas.

For more information visit the College of the Arts and Media website (<http://www.umt.edu/umarts/>).

- Web Design Certificate (p. 125)

## School of Journalism

Courses in the School of Journalism examine the news media – emphasizing their history, privileges and ethical responsibilities – and provide instruction in skills required for a wide array of careers that require gathering, verifying and disseminating news and information in the Digital Age. The School of Journalism offers a Bachelor of Arts in Journalism and a minor in Journalism.

Students select courses in writing, reporting, producing, directing, editing and still and video photography. They train to work across multiple platforms including online, audio, video, newspaper and magazine.

A quality education in journalism is built on a strong liberal arts foundation. Students must complete 72 credits outside of journalism, including the University's general education requirements.

For further information about the school's Master of Arts program in Environmental Science and Natural Resource Journalism, contact the

Director of Graduate Studies in Journalism, Nadia White  
 School of Journalism  
 University of Montana  
 Missoula, MT 59812  
 or (406) 243-2227.

## Lower-Division Core

In the first three or four semesters of study students take courses in the major and in the liberal arts and sciences. Journalism courses must be taken at University of Montana-Missoula, though the directors may occasionally accept substitutes taught at another school with programs accredited by the Accrediting Council for Education in Journalism and Mass Communication. All non-journalism courses in the curriculum may be completed at any college or university if transfer credits are accepted by UM. Students may enter during either autumn or spring semester.

## Upper-Division Core

Students may begin taking upper division courses after they complete the lower division prerequisites for those courses.

## Academic Progression

The general University academic standing requirements are listed separately in this catalog. See index.

Journalism majors must maintain satisfactory academic progress. Any student whose GPA falls below a 2.5 must meet with their advisor to

discuss the student's progress before classes resume the following semester.

- Journalism B.A. (p. 77)
- Journalism Minor (p. 78)
- Social Media and Audience Engagement Certificate (p. 78)

## Journalism B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Journalism

- This major requires a cumulative institutional GPA of 2.5.
- Students must complete at least 42 and no more than 48 JRNL credits.
- Students must complete at least 72 total credits outside of Journalism.
- The school strongly recommends students complete the first-year sequence of an approved language course or equivalent by exam before applying to the professional program.

Journalism Minor  
General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Social Media and Audience  
Engagement Certificate

General Certificate Requirements

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Online Program Option

This program may be completed in an online format (<https://catalog.umat.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umat.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

Post-Secondary Certificate - Social Media and Audience Engagement

## School of Music

The School of Music offers students who have demonstrated talent in music the opportunity to continue further study either for a profession or an avocation and at the same time acquire a broad general education. Complete sequences of courses are given to prepare a student for a career as a teacher or supervisor of music in the elementary/secondary schools; for a career directed toward composition, the music technology industry, private teaching, or concert work; or, for a thorough training in music within the structure of a broad liberal arts curriculum.

The University of Montana-Missoula is an accredited institutional member of the National Association of Schools of Music.

In general, admission as a major in the School of Music is by certificate from the high school from which the student graduates. The faculty of the School of Music is more concerned with evidence of talent, conspicuous achievement in music, promise of development, and scholarship in general than it is in the precise content of the program which the prospective music student has followed prior to admission to the University.

The School of Music welcomes the opportunity for prospective students and parents to consult with faculty and administration. Every student wishing to become a music major or minor must take the Music Theory Assessment Examination and a Piano Proficiency Evaluation during orientation and also must audition and be accepted officially into the applied studio of a music faculty member prior to confirmation as a fully-admitted major or minor in music. Students may be admitted provisionally for one semester, and at the end of that semester students must re-audition to gain full admittance into a music major degree program.

- Music B.A. (p. 79)
- Music B.A. - Instrumental Jazz Studies (p. 84)

- Music B.M.E. (p. 85)
- Composition B.M. - Contemporary Classical (p. 86)
- Composition B.M. - Pop and Commercial (p. 88)
- Performance B.M. - Instrumental (p. 89)
- Performance B.M. - Keyboard (p. 90)
- Performance B.M. - Voice (p. 91)
- Jazz Studies Certificate (p. 92)
- Music Minor (p. 93)

## Music B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Music

- This major has a minimum cumulative institutional GPA requirement of 2.75.
- Students must complete 51 Credits of non-music (MUSI, MUSE, MUST) courses.

| MUSI 240                               | Aural Perception III | 2     |
| <b>Keyboard Skills</b>                 |                      |       |

Complete all of the following courses:

|           |                    |   |
|-----------|--------------------|---|
| MUSI 135A | Keyboard Skills I  | 1 |
| MUSI 136A | Keyboard Skills II | 1 |

Ensembles Requirement

Students must enroll in a minimum of one qualifying ensemble each semester while registered as a full-time student, resulting in at least 8 semesters of ensemble participation to satisfy degree requirements. Qualifying ensembles are determined by a student’s auditioned principal instrument in consultation with their faculty mentor and academic advisor.

Lower-Division

Complete 4 credits from the following courses: 4

|           |                       |
|-----------|-----------------------|
| MUSI 108A | Orchestra: UMSO       |
| MUSI 112A | Choir                 |
| MUSI 114A | Band: UM Concert Band |
| MUSI 162A | Chamber Ensembles I   |

Upper-Division

Complete 4 credits from the following courses: 4

|          |                           |
|----------|---------------------------|
| MUSI 308 | Orchestras II: UM         |
| MUSI 310 | Opera Theatre II          |
| MUSI 312 | Choir III                 |
| MUSI 314 | Band III: UM Concert Band |
| MUSI 331 | Jazz Ensemble II: UM      |
| MUSI 362 | Chamber Ensemble III: UM  |

Assessment

Complete the following assessment, which is required to advance to upper-division study:

|          |                                     |   |
|----------|-------------------------------------|---|
| MUSI 296 | Upper-Division Required Performance | 0 |
|----------|-------------------------------------|---|

History and Culture

Complete the following course:

|           |                  |   |
|-----------|------------------|---|
| MUSI 302H | Music History II | 3 |
|-----------|------------------|---|

Writing in the Disciplines Requirement

Complete one of the following courses: 3

|          |                               |
|----------|-------------------------------|
| MUSI 415 | Music 20th Century to Present |
| MUSI 416 | Topics in Music History       |
| MUSI 417 | Cultural Studies in Music     |

Concert Attendance

All students majoring in Music are required to attend a minimum of 100 approved recitals/concerts prior to graduation. Upon completion of this requirement, students should register for the following course, which is typically taken in their final semester before graduation.

|          |                       |   |
|----------|-----------------------|---|
| MUSI 388 | Concert Attendance UM | 0 |
|----------|-----------------------|---|

Upper-Division Music Electives

Complete 13 credits of courses in the following subject areas at the 300- or 400-level: 13

|                         |
|-------------------------|
| Music (MUSI)            |
| Music Education (MUSE)  |
| Music Technology (MUST) |

|             |    |

*Last updated Autumn 2024*

<sup>1</sup> All music students must complete MUSI 296 to proceed to 300-level courses and above.

<sup>2</sup> All music students must attend 100 concerts or recitals to complete MUSI 388

## Music B.A. - Instrumental Jazz Studies

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Bachelor of Arts - Music; Instrumental Jazz Studies Concentration

- This major has a minimum cumulative institutional GPA requirement of 2.75.
- Students must complete 51 Credits of non-music (MUSI, MUSE, MUST) courses.

#### Course Requirements

| Code                           | Title   | Hours |
|--------------------------------|---------|-------|
| <b>First Year Seminar</b>      |         |       |
| Complete the following course: |         |       |
| MUSI 194                       | Seminar | 1     |

#### Applied

Complete all of the following courses:

|          |                  |   |
|----------|------------------|---|
| MUSI 195 | Applied Study I  | 2 |
| MUSI 295 | Applied Study II | 2 |

#### Music Theory

Complete all of the following courses:

|          |                  |   |
|----------|------------------|---|
| MUSI 105 | Music Theory I   | 2 |
| MUSI 106 | Music Theory II  | 2 |
| MUSI 205 | Music Theory III | 2 |

#### Aural Perception

Complete all of the following courses:

|          |                      |   |
|----------|----------------------|---|
| MUSI 140 | Aural Perception I   | 2 |
| MUSI 141 | Aural Perception II  | 2 |
| MUSI 240 | Aural Perception III | 2 |

#### Keyboard Skills

|           |                    |   |
|-----------|--------------------|---|
| MUSI 135A | Keyboard Skills I  | 1 |
| MUSI 136A | Keyboard Skills II | 1 |

#### Assessment

Complete the following assessment, which is required to advance to upper-division study:

|          |                                     |   |
|----------|-------------------------------------|---|
| MUSI 296 | Upper-Division Required Performance | 0 |
|----------|-------------------------------------|---|

#### Literature, Form, Analysis

Complete the following course:

|           |                 |   |
|-----------|-----------------|---|
| MUSI 130L | History of Jazz | 3 |
|-----------|-----------------|---|

#### Ensembles Requirement

Students must enroll in a minimum of one qualifying ensemble each semester while registered as a full-time student, resulting in at least 8 semesters of ensemble participation to satisfy degree requirements. Qualifying ensembles are determined by a student's auditioned principal instrument in consultation with their faculty mentor and academic advisor.

##### Lower-Division

|                                                |                       |   |
|------------------------------------------------|-----------------------|---|
| Complete 4 credits from the following courses: |                       | 4 |
| MUSI 108A                                      | Orchestra: UMSO       |   |
| MUSI 112A                                      | Choir                 |   |
| MUSI 114A                                      | Band: UM Concert Band |   |
| MUSI 162A                                      | Chamber Ensembles I   |   |

##### Upper-Division

|                                             |                           |   |
|---------------------------------------------|---------------------------|---|
| Complete 4 credits of the following course: |                           | 4 |
| MUSI 331                                    | Jazz Ensembles: Big Bands |   |

#### History and Culture

Complete the following course:

|           |                  |   |
|-----------|------------------|---|
| MUSI 302H | Music History II | 3 |
|-----------|------------------|---|

#### Writing in the Disciplines Requirement

Complete one of the following courses:

|          |                               |  |
|----------|-------------------------------|--|
| MUSI 415 | Music 20th Century to Present |  |
| MUSI 416 | Topics in Music History       |  |
| MUSI 417 | Cultural Studies in Music     |  |

#### Jazz Core Requirements

Complete all of the following courses:

|           |                                                   |   |
|-----------|---------------------------------------------------|---|
| MUSI 162A | Chamber Ensembles I                               | 2 |
| MUSI 360  | Jazz Theory & Improvisation I (equivalent to 225) | 2 |
| MUSI 362  | Chamber Ensemble III: UM (Jazz)                   | 1 |

|                                                                                                                                                                                                                                                                                    |                                 |           |

## Bachelor of Music Education

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the Teacher Education Program through the Department of Teaching and Learning. Individuals must complete the teaching track within that degree program, which may contain different course requirements than the non-teaching track since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

- Secondary Education Licensure Program (<https://www.umt.edu/education/departments/teaching-and-learning/tep/default.php>)
- Licensure Degree Requirements (p. 151)

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Music Education

- This major has a minimum cumulative institutional GPA requirement of 2.75.
- All majors seeking an undergraduate degree in music and who are registered for 5 or more credits must participate in an ensemble specified by their degree curriculum each autumn and spring semester of residence. One credit must be taken each semester for two credits each year.

**Applied Study**

Complete all of the following courses:

|          |                                                                                   |   |
|----------|-----------------------------------------------------------------------------------|---|
| MUSI 195 | Applied Study I (1 credit each semester in the first year of study)               | 2 |
| MUSI 295 | Applied Study II (1 credit each semester in the second year of study)             | 2 |
| MUSI 395 | Applied Study III (taken in fall of the third year)                               | 1 |
| MUSI 296 | Upper-Division Required Performance (required to advance to upper-division study) | 0 |

**Concert Attendance**

All students majoring in Music are required to attend in a minimum of 100 approved recitals/concerts prior to graduation. During the 4th year in an undergraduate degree program and upon completion of this requirement, students should register for the following course:

|          |                       |   |
|----------|-----------------------|---|
| MUSI 388 | Concert Attendance UM | 0 |
|----------|-----------------------|---|

**Ensembles**

Students must enroll in a minimum of one qualifying ensemble each semester while registered as a full-time student prior to student teaching, resulting in at least 7 semesters of ensemble participation to satisfy degree requirements. Qualifying ensembles are determined by a student's auditioned principal instrument in consultation with their faculty mentor and academic advisor.

**Lower-Division Ensemble Requirement**

Complete 4 credits over four semesters in one of the following courses:

|           |                                                   |
|-----------|---------------------------------------------------|
| MUSI 108A | Orchestra: UMSO (String principals)               |
| MUSI 110A | Opera Theatre I (Voice principals)                |
|           | or MUSI 112 Choir                                 |
| MUSI 114A | Band: UM Concert Band (Instrumental principals)   |
| MUSI 162A | Chamber Ensembles I (Piano and guitar principals) |

**Upper-Division Ensemble Requirement <sup>2</sup>**

Complete 3 credits over three semesters in the following courses:

|          |                                                        |
|----------|--------------------------------------------------------|
| MUSI 308 | Orchestras II: UM (String principals)                  |
| MUSI 310 | Opera Theatre II (Voice principals)                    |
|          | or MUSI 312 Choir III                                  |
| MUSI 314 | Band III: UM Concert Band (Instrumental principals)    |
| MUSI 331 | Jazz Ensembles: Big Bands                              |
| MUSI 362 | Chamber Ensemble III: UM (Piano and guitar principals) |

**Advanced Writing Requirement**

Complete one of the following courses:

|          |                               |
|----------|-------------------------------|
| MUSI 415 | Music 20th Century to Present |
| MUSI 416 | Topics in Music History       |
| MUSI 417 | Cultural Studies in Music     |

**Techniques Courses**

Complete all of the following courses. Students are waived from taking techniques courses in their primary area.

|          |                                                      |   |
|----------|------------------------------------------------------|---|
| MUSE 120 | Techniques: String Instruments in Classical Music I  | 1 |
| MUSE 121 | Techniques: String Instruments in Classical Music II | 1 |
| MUSE 123 | Techniques: Voice                                    | 1 |
| MUSE 126 | Techniques: Percussion Instruments I                 | 1 |
| MUSE 127 | Techniques: Percussion Instruments II                | 1 |
| MUSE 274 | Techniques: Upper Brass                              | 1 |
| MUSE 275 | Techniques: Lower Brass                              | 1 |
| MUSE 280 | Techniques: Woodwinds – Clarinet and Saxophone       | 1 |
| MUSE 281 | Techniques: Woodwinds - Double Reed and Flute        | 1 |

**Total Hours** **69-72**

<sup>1</sup> String, Voice, and Keyboard principals are required to take only 1 credit of MUSI 155A. Wind and percussion principals must take 2.

<sup>2</sup> These are to be taken for 1 credit each semester for a total of two credits during the the third year and for 1 credit during the Fall semester of the 4th year.

**Secondary Teaching Licensure**

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umt.edu/education/departments/currinst/default.php>).

**Composition B.M. - Contemporary Classical****General Degree Requirements**

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

**Bachelor of Music - Composition; Concentration in Contemporary Classical Music**

- This major has a minimum cumulative institutional GPA requirement of 2.75.

| Students must enroll in a minimum of one qualifying ensemble each semester while registered as a full-time student, resulting in at least 7 semesters of ensemble participation to satisfy degree requirements. Qualifying ensembles are determined by a student's auditioned principal instrument in consultation with their faculty mentor and academic advisor. |                                                                                   |       |

# Composition B.M. - Pop and Commercial

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Music - Composition; Concentration in Pop and Commercial Music

- This major has a minimum cumulative institutional GPA requirement of 2.75.

### Course Requirements

### Upper-Division Required Performance

Complete the following course:

|          |                                                                                   |   |
|----------|-----------------------------------------------------------------------------------|---|
| MUSI 296 | Upper-Division Required Performance (required to advance to upper-division study) | 0 |
|----------|-----------------------------------------------------------------------------------|---|

### Ensembles

Students must enroll in a minimum of one qualifying ensemble each semester while registered as a full-time student, resulting in at least 7 semesters of ensemble participation to satisfy degree requirements. Qualifying ensembles are determined by a student's auditioned principal instrument in consultation with their faculty mentor and academic advisor.

#### Lower Division

Complete 4 credits over four semesters in the following courses: 4

|           |                                                   |
|-----------|---------------------------------------------------|
| MUSI 108A | Orchestra: UMSO (String principals)               |
| MUSI 112A | Choir (Voice principals)                          |
| MUSI 114A | Band: UM Concert Band (Instrumental principals)   |
| MUSI 162A | Chamber Ensembles I (Piano and guitar principals) |

#### Upper Division

Complete 3 credits over three semesters of the following courses: 3

|                       |                                                        |
|-----------------------|--------------------------------------------------------|
| MUSI 308              | Orchestras II: UM (String principals)                  |
| MUSI 310              | Opera Theatre II (Voice principals)                    |
| or MUSI 312 Choir III |                                                        |
| MUSI 314              | Band III: UM Concert Band (Instrumental principals)    |
| MUSI 331              | Jazz Ensembles: Big Bands (Jazz principals)            |
| MUSI 362              | Chamber Ensemble III: UM (Piano and guitar principals) |

### Concert Attendance

All students majoring in music are required to attend in a minimum of 100 approved recitals/concerts prior to graduation. During the 4th year in an undergraduate degree program and upon completion of this requirement, students should register for the following course:

|          |                       |   |
|----------|-----------------------|---|
| MUSI 388 | Concert Attendance UM | 0 |
|----------|-----------------------|---|

### Capstone

Complete the following course:

|          |                                 |   |
|----------|---------------------------------|---|
| MUSI 499 | Senior Recital/Capstone Project | 2 |
|----------|---------------------------------|---|

### Composition

Complete all of the following courses:

|          |                                   |   |
|----------|-----------------------------------|---|
| MUSI 180 | Composition I                     | 2 |
| MUSI 280 | Composition II                    | 2 |
| MUSI 317 | Songwriting                       | 2 |
| MUSI 480 | Composition IV (over 3 semesters) | 6 |
| MUSI 407 | Counterpoint I                    | 3 |
| MUSI 440 | Orchestration                     | 2 |

### Applied Study

Complete all of the following courses:

|          |                                     |   |
|----------|-------------------------------------|---|
| MUSI 195 | Applied Study I (over 2 semesters)  | 2 |
| MUSI 295 | Applied Study II (over 2 semesters) | 2 |
| MUSI 395 | Applied Study III                   | 1 |

#### Music Technology

Complete all of the following courses:

|             |                                             |   |
|-------------|---------------------------------------------|---|
| MUST 110    | Digital Audio & Multitracking               | 2 |
| or MART 245 | Sound Production & Design Fundamentals      |   |
| MUST 210    | Sequencing, Synthesis, and Sampling         | 2 |
| MUST 310    | Interactivity and Digital Signal Processing | 2 |
| MUST 410    | Designing the Show                          | 2 |

#### Topics in Music History

|                                        |                           |   |
|----------------------------------------|---------------------------|---|
| Complete one of the following courses: |                           | 3 |
| MUSI 416                               | Topics in Music History   |   |
| MUSI 417                               | Cultural Studies in Music |   |

#### Theory and Analysis

Complete the following course:

|          |                                 |   |
|----------|---------------------------------|---|
| MUSI 418 | Advanced Topics in Music Theory | 2 |
|----------|---------------------------------|---|

#### Media Design and Marketing

Complete all of the following courses:

|          |                                 |   |
|----------|---------------------------------|---|
| BMKT 420 | Integrated Online Marketing     | 3 |
| MART 340 | Principles of Interactive Media | 3 |

#### General Music Elective(s)

|                                                        |  |   |
|--------------------------------------------------------|--|---|
| Complete 2 credits of any upper-division music course. |  | 2 |
|--------------------------------------------------------|--|---|

**Total Hours** **82**

## Performance B.M. - Instrumental General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Music - Performance; Concentration in Instrumental Performance

- This major has a minimum cumulative institutional GPA requirement of 2.75.

| Students must enroll in a minimum of one qualifying ensemble each semester while registered as a full-time student, resulting in at least 8 semesters of ensemble participation to satisfy degree requirements. Qualifying ensembles are determined by a student's auditioned principal instrument in consultation with their faculty mentor and academic advisor. |                                                                                   |       |

## Performance B.M. - Keyboard

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic

Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Music - Performance; Concentration in Keyboard Performance

- This major has a minimum cumulative institutional GPA requirement of 2.75.

### Ensembles

Students must enroll in a minimum of one qualifying ensemble each semester while registered as a full-time student, resulting in at least 8 semesters of ensemble participation to satisfy degree requirements. Qualifying ensembles are determined by a student's auditioned principal instrument in consultation with their faculty mentor and academic advisor.

#### Lower Division

Complete 4 credits over four semesters in the following courses: 4

|           |                                                   |
|-----------|---------------------------------------------------|
| MUSI 108A | Orchestra: UMSO (String principals)               |
| MUSI 112A | Choir (Voice principals)                          |
| MUSI 114A | Band: UM Concert Band (Instrumental principals)   |
| MUSI 162A | Chamber Ensembles I (Piano and guitar principals) |

#### Upper Division

Complete 4 credits over four semesters in the following courses: 4

|          |                                                              |
|----------|--------------------------------------------------------------|
| MUSI 308 | Orchestras II: UM (String principals)                        |
| MUSI 310 | Opera Theatre II (Voice principals)<br>or MUSI 312 Choir III |
| MUSI 314 | Band III: UM Concert Band (Instrumental principals)          |
| MUSI 331 | Jazz Ensembles: Big Bands (Jazz principals)                  |
| MUSI 362 | Chamber Ensemble III: UM (Piano and guitar principals)       |

#### Concert Attendance

All students majoring in music are required to attend in a minimum of 100 approved recitals/concerts prior to graduation. During the 4th year in an undergraduate degree program and upon completion of this requirement, students should register for the following course:

|          |                       |   |
|----------|-----------------------|---|
| MUSI 388 | Concert Attendance UM | 0 |
|----------|-----------------------|---|

#### Senior Recital/Professional Project

Complete the following course:

|          |                                 |   |
|----------|---------------------------------|---|
| MUSI 499 | Senior Recital/Capstone Project | 1 |
|----------|---------------------------------|---|

#### Writing in the Disciplines Requirement

Complete one of the following courses: 3

|          |                               |
|----------|-------------------------------|
| MUSI 415 | Music 20th Century to Present |
| MUSI 416 | Topics in Music History       |
| MUSI 417 | Cultural Studies in Music     |

#### Keyboard Concentration Requirements

Complete all of the following courses:

|             |                           |   |
|-------------|---------------------------|---|
| MUSI 102A   | Performance Study         | 2 |
| MUSI 162A   | Chamber Ensembles I       | 2 |
| MUSI 195    | Applied Study I           | 4 |
| MUSI 295    | Applied Study II          | 4 |
| MUSI 395    | Applied Study III         | 4 |
| MUSI 495    | Applied Study IV          | 4 |
| MUSI 332    | Advanced Functional Piano | 1 |
| MUSI 335    | Instrumental Conducting   | 2 |
| or MUSI 336 | Choral Conducting         |   |
| MUSI 432    | Keyboard Literature       | 3 |

|                    |                              |              |
|--------------------|------------------------------|--------------|
| MUSI 433           | Keyboard Literature II       | 3            |
| MUSI 435           | Piano Methods & Materials I  | 3            |
| MUSI 436           | Piano Methods & Materials II | 3            |
| <b>Total Hours</b> |                              | <b>79-80</b> |

## Performance B.M. - Voice

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Music - Performance; Concentration in Voice Performance

- This major has a minimum cumulative institutional GPA requirement of 2.75.

### Course Requirements

| Code                                   | Title                | Hours |
|----------------------------------------|----------------------|-------|
| <b>Freshman Seminar</b>                |                      |       |
| Complete the following course:         |                      |       |
| MUSI 194                               | Seminar              | 1     |

| MUSI 241                               | Aural Perception IV  | 2     |
| <b>Keyboard Skills</b>                 |                      |       |
| Complete all of the following courses: |                      |       |
| MUSI 135A                              | Keyboard Skills I    | 1     |
| MUSI 136A                              | Keyboard Skills II   | 1     |
| MUSI 235                               | Keyboard Skills III  | 1     |
| MUSI 236                               | Keyboard Skills IV   | 1     |
| <b>Music History and Culture</b>       |                      |       |

Complete all of the following courses:

|           |                            |   |
|-----------|----------------------------|---|
| MUSI 207X | World Music (equiv to 307) | 3 |
| MUSI 301H | Music History I            | 3 |
| MUSI 302H | Music History II           | 3 |

#### Assessment

Complete the following course:

|          |                                                                                      |   |
|----------|--------------------------------------------------------------------------------------|---|
| MUSI 296 | Upper-Division Required Performance<br>(required to advance to upper-division study) | 0 |
|----------|--------------------------------------------------------------------------------------|---|

#### Literature, Form, and Analysis

Complete one of the following courses: 2-3

|          |                                 |  |
|----------|---------------------------------|--|
| MUSI 356 | Form & Analysis                 |  |
| MUSI 418 | Advanced Topics in Music Theory |  |
| MUSI 460 | Jazz Theory & Improvisation II  |  |

#### Ensembles

Students must enroll in a minimum of one qualifying ensemble each semester while registered as a full-time student, resulting in at least 8 semesters of ensemble participation to satisfy degree requirements. Qualifying ensembles are determined by a student's auditioned principal instrument in consultation with their faculty mentor and academic advisor.

##### Lower Division

Complete 4 credits over four semesters in the following courses: 4

|           |                                                   |  |
|-----------|---------------------------------------------------|--|
| MUSI 108A | Orchestra: UMSO (String principals)               |  |
| MUSI 112A | Choir (Voice principals)                          |  |
| MUSI 114A | Band: UM Concert Band (Instrumental principals)   |  |
| MUSI 162A | Chamber Ensembles I (Piano and guitar principals) |  |

##### Upper Division

Complete 4 credits over four semesters of the following courses: 4

|          |                                                              |  |
|----------|--------------------------------------------------------------|--|
| MUSI 308 | Orchestras II: UM (String principals)                        |  |
| MUSI 310 | Opera Theatre II (Voice principals)<br>or MUSI 312 Choir III |  |
| MUSI 314 | Band III: UM Concert Band (Instrumental principals)          |  |
| MUSI 331 | Jazz Ensembles: Big Bands (Jazz principals)                  |  |
| MUSI 362 | Chamber Ensemble III: UM (Piano and guitar principals)       |  |

#### Concert Attendance

All students majoring in music are required to attend in a minimum of 100 approved recitals/concerts prior to graduation. During the 4th year in an undergraduate degree program and upon completion of this requirement, students should register for the following course:

|          |                       |   |
|----------|-----------------------|---|
| MUSI 388 | Concert Attendance UM | 0 |
|----------|-----------------------|---|

#### Senior Recital/Professional Project

Complete the following course:

|          |                                 |   |
|----------|---------------------------------|---|
| MUSI 499 | Senior Recital/Capstone Project | 1 |
|----------|---------------------------------|---|

#### Writing in the Disciplines Requirement

Complete one of the following courses: 3

|          |                               |  |
|----------|-------------------------------|--|

## Jazz Studies Certificate

The Jazz Studies Certificate offers students with fundamental skills on a musical instrument the opportunity to develop further in the areas of jazz performance, theory, and improvisation.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Jazz Studies

Course Requirements

MUSI 131A/MUSI 331 (UM Jazz Bands) and MUSI 162A/MUSI 362 (Chamber Ensembles - Jazz) are repeatable.

## Music Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Minor - Music

- This minor has a minimum cumulative institutional GPA requirement of 2.75.
- Electives are to allow for emphasis in a particular area of Music study and must include coursework at the upper-division level.
- Upper-division course work normally requires a prerequisite. Please see the University general catalog for details. Consent of instructor will be required if all prerequisites have not been met.

#### Elective Options

Complete one of the following minor option tracks. 12

##### Performance

Complete all of the following courses: <sup>2</sup>

MUSI 295 Applied Study II

MUSI 395 Applied Study III

Complete 4 credits in the following courses: <sup>3</sup>

MUSI 308 Orchestras II: UM

MUSI 310 Opera Theatre II

MUSI 312 Choir III

MUSI 314 Band III: UM Concert Band

MUSI 362 Chamber Ensemble III: UM

Complete 4 credits in the following courses:

MUSI 205 Music Theory III

MUSI 206 Music Theory IV

MUSI 301H Music History I

MUSI 302H Music History II

##### Music Theory

Complete all of the following courses:

MUSI 205 Music Theory III

MUSI 206 Music Theory IV

MUSI 240 Aural Perception III

MUSI 241 Aural Perception IV

MUSI 356 Form & Analysis

##### Music History

Complete all of the following courses:

MUSI 205 Music Theory III

MUSI 206 Music Theory IV

MUSI 301H Music History I

Complete 2 of the following courses:

MUSI 415 Music 20th Century to Present

MUSI 416 Topics in Music History

MUSI 417 Cultural Studies in Music

##### Composition

MUSI 135A Keyboard Skills I

MUSI 180 Composition I (taken for 1 credit per semester for a total of 4 credits)

MUSI 207X World Music (equiv to 307)

MUSI 280 Composition II (taken for 1 credit per semester for a total of 4 credits)

##### Music Technology

Complete all of the following courses:

MUSI 207X World Music (equiv to 307)

MUST 110 Digital Audio & Multitracking

MUST 210 Sequencing, Synthesis, and Sampling

MUST 310 Interactivity and Digital Signal Processing

MUST 410 Designing the Show

**Total Hours**

**27**

- <sup>1</sup> Ensembles must be taken concurrently with MUSI 195. MUSI 195 is taken for 1 credit each semester for a total of 2 credits for the year.
- <sup>2</sup> MUSI 295 and MUSI 395 1 credit each semester for a year total of 2 credits. Two year total of 4 credits in these Applied Studies.
- <sup>3</sup> Ensembles for four credits must be taken concurrently with MUSI 295 and MUSI 395.

## School of Theatre and Dance

The School of Theatre and Dance is accredited by the National Association of Schools of Theatre (NAST) and is a member of the Association for Theatre in Higher Education (ATHE). The school is housed in the Performing Arts and Radio/Television Center, which includes three theatre/dance performance spaces. The program is production-oriented with approximately ten major productions presented each year including contemporary, historical, period, musical, and experimental plays, as well as dance showcases and concerts. The Montana Repertory Theatre, a professional touring company based at UM, often involves students both on and off stage. The faculty is strong, possessing a diversity of educational and professional theatre and dance backgrounds.

The Bachelor of Arts with a major in Dance allows the student who plans to enter a dance career to select another major to complement that objective.

The Bachelor of Arts with a major in Dance and a concentration in Pre-Dance Therapy focuses on psychology and therapeutic performing-arts curricula.

The Bachelor of Arts with a major in Theatre provides the student with a broad liberal arts education and a general focus in theatre. The degree allows the student to complete an additional major and may form the basis for further training at the graduate level.

The Bachelor of Arts with a major in Theatre and a concentration in Theatre Education is designed for the student seeking a teaching endorsement in the field of theatre.

The Bachelor of Fine Arts with a major in Theatre is a professionally oriented degree designed for the student who plans to pursue a career in theatre or a related field. Students are invited into the BFA after an audition/interview process.

For more information about academic programs and School of Theatre and Dance productions, visit the School of Theatre and Dance website (<https://www.umt.edu/umarts/theatredance/>).

## Auditions and Portfolio Reviews

Actors, dancers, designers, musical theatre students, and technicians undergo periodic review in the form of auditions or portfolio presentations. These ongoing evaluations provide each student with the opportunity and challenge of individualized critiques from faculty and professional staff.

## Senior Project

A senior project is required of all students. The senior project is usually production related and has both practical and written components. Requirements for the project vary and are outlined in the School of Theatre and Dance Student Handbook. (<https://www.umt.edu/umarts/theatredance/handbook.php>)

- Dance B.A. (p. 94)
- Dance B.A. - Pre-Dance Therapy (p. 96)
- Dance Minor (p. 97)
- Dance Wellness Certificate (p. 98)
- Theatre B.A. (p. 99)
- Theatre B.A. - Theatre Education (p. 100)
- Theatre B.F.A. - Acting for Film & Theatre (p. 101)
- Theatre B.F.A. - Design & Technology (p. 103)
- Theatre B.F.A. - Musical Theatre Performance (p. 105)
- Musical Theatre Performance Minor (p. 107)
- Theatre Education Minor (p. 107)
- Theatre Minor (p. 108)

## Dance B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Dance

- Prospective majors must pass an admission audition during the first year to continue in the program.

*Last updated Autumn 2024*

<sup>1</sup> Students must register for a minimum of one technique course per semester.

## Dance B.A. - Pre-Dance Therapy General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Dance; Pre-Dance Therapy Concentration

- Prospective majors must pass an admission audition during the first year to continue in the program.

### Course Requirements

| Code                                   | Title                | Hours |
|----------------------------------------|----------------------|-------|
| <b>Lower-Division Required Courses</b> |                      |       |
| Complete all of the following courses: |                      |       |
| DANC 165A                              | Dance Forms: African | 3     |
| DANC 194                               | Seminar: First Year  | 1     |

|           |                                                        |   |
|-----------|--------------------------------------------------------|---|
| DANC 200A | Contemporary Modern II (Course must be repeated once.) | 4 |
| DANC 220  | Creative Practice I                                    | 2 |
| DANC 295  | Student Teaching: Childrens Dance                      | 1 |

### Modern Experience I

Complete 5-6 credits in the following courses (two semesters):

|           |                                                                             |  |
|-----------|-----------------------------------------------------------------------------|--|
| DANC 200A | Contemporary Modern II (may be taken only once to fulfill this subcategory) |  |
| DANC 300  | Contemporary Modern III                                                     |  |
| DANC 400  | Contemporary Modern IV                                                      |  |

### Ballet Experience I

Complete 4-5 credits in the following courses (three semesters):

|           |                                                                             |  |
|-----------|-----------------------------------------------------------------------------|--|
| DANC 110A | Introduction to Ballet (may be taken only once to fulfill this subcategory) |  |
| DANC 210A | Ballet II                                                                   |  |
| DANC 310  | Ballet III                                                                  |  |
| DANC 410  | Ballet IV                                                                   |  |

### Jazz Experience I

Complete 4-5 credits in the following courses (two semesters):

|           |                                                                                 |  |
|-----------|---------------------------------------------------------------------------------|--|
| DANC 115A | Introduction to Jazz Dance (may be taken only once to fulfill this subcategory) |  |
| DANC 215A | Jazz Dance II                                                                   |  |
| DANC 315  | Jazz III                                                                        |  |

### Upper-Division Required Courses

Complete all of the following courses:

|          |                                        |   |
|----------|----------------------------------------|---|
| DANC 334 | Dance History                          | 3 |
| DANC 494 | Professional Development Dance Seminar | 3 |

### Junior Project <sup>1</sup>

Complete the following course:

|          |                                  |   |
|----------|----------------------------------|---|
| DANC 399 | Junior Creative Research Project | 1 |
|----------|----------------------------------|---|

### Senior Project

Complete the following course:

|          |                                |   |
|----------|--------------------------------|---|
| DANC 499 | Senior Thesis/Creative Project | 1 |
|----------|--------------------------------|---|

### Pre-Dance Therapy Concentration Psychology Requirements

Complete all of the following courses:

|           |                         |   |
|-----------|-------------------------|---|
| PSYX 100S | Intro to Psychology     | 3 |
| PSYX 330  | Child Development       | 3 |
| PSYX 340  | Psychological Disorders | 3 |

Complete one of the following courses:

|           |                                                |  |
|-----------|------------------------------------------------|--|
| PSYX 120  | Introduction to Psychological Research Methods |  |
| PSYX 233  | Fundamentals of Psychology of Aging            |  |
| PSYX 250N | Fundamentals of Biological Psychology          |  |

*Last updated Autumn 2024*

<sup>1</sup> Students must register for a minimum of one technique course each semester.

## Dance Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Dance Course Requirements

| Code                                                              | Title                                                       | Hours |

## Dance Wellness Certificate General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Dance Wellness Course Requirements

| Code                                                             | Title                        | Hours |

## Theatre B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Theatre B.A. - Theatre Education

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Bachelor of Arts - Theatre; Theatre Education Concentration

- This education concentration contains different/additional course requirements designed to meet state standards. Those interested in teaching in K-12 schools must complete the teaching concentration of a major in a teaching content area plus the Teacher Education Program through the Department of Teaching and Learning. Additional teaching areas can be added through completion of the teaching concentration of a major or the teaching/education minor in that content area.
  - Secondary Education Licensure Program (<https://www.umt.edu/education/departments/teaching-and-learning/tep/default.php>)
  - Licensure Degree Requirements (p. 151)
- To complete this concentration, you need to contact the Teaching and Learning Department. Approvals for this concentration must come from the Teaching and Learning Department.
- This major does not qualify as a single field endorsement. Individuals must complete the teaching track of a second major or minor in another teaching content area. The demand in Montana high schools for teaching of courses in this field is limited. The required second endorsement should be in a field in high demand.

### Course Requirements

<sup>1</sup> Students may select sections in the Scene Shop, Costume Shop, or Light Shop.

### Secondary Teaching Licensure

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umt.edu/education/departments/currinst/default.php>).

### Four Year Plan

This teaching track contains different/additional course requirements designed to meet state standards. Those interested in teaching in K-12 schools must complete the teaching track of a major in a teaching content area plus the Teacher Education Program through the Department of Teaching and Learning. Additional teaching areas can be

added through completion of the teaching track of a major or minor in that content area.

| Course                                                            | Title                                            | Hours        |
|-------------------------------------------------------------------|--------------------------------------------------|--------------|

## Theatre B.F.A. - Acting for Film & Theatre

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Fine Arts - Theatre: Acting for Film and Theatre Concentration

Students who intend to pursue the Acting for Film and Theatre concentration will normally enter the University as Bachelor of Arts students in Theatre with a focus in pre-Acting. They should then declare intent to pursue the BFA degree no later than the middle of the second semester of a four-year program. Admission is granted by audition at the end of the first year.

### Course Requirements

| Code                                   | Title                                   | Hours |
|----------------------------------------|-----------------------------------------|-------|
| <b>Lower-Division Required Courses</b> |                                         |       |
| Complete all of the following courses: |                                         |       |
| THTR 103                               | Introduction to House Management        | 1     |

| THTR 315  | Movement for the Actor I             | 3 |
| THTR 320  | Acting III                           | 3 |
| THTR 323  | Auditioning                          | 1 |
| THTR 415  | Stage Combat                         | 3 |
| THTR 484  | Advanced Acting: Professional Skills | 1 |

**Senior Project**

Complete the following course:

|          |                                                        |   |
|----------|--------------------------------------------------------|---|
| THTR 499 | Senior Project (taken during student's final semester) | 1 |
|----------|--------------------------------------------------------|---|

**Voice Course**

Complete three credits from the following courses: 3

|           |                                      |  |
|-----------|--------------------------------------|--|
| THTR 310  | Voice and Speech III                 |  |
| THTR 311  | Voice and Speech IV: Poetic Language |  |
| MUSI 102A | Performance Study                    |  |
| MUSI 110A | Opera Theatre I                      |  |
| MUSI 111A | Group Voice Class                    |  |
| MUSI 112A | Choir                                |  |
| MUSI 162A | Chamber Ensembles I                  |  |
| MUSI 195  | Applied Study I                      |  |
| MUSI 295  | Applied Study II                     |  |
| MUSI 310  | Opera Theatre II                     |  |
| MUSI 362  | Chamber Ensemble III: UM             |  |
| MUSI 395  | Applied Study III                    |  |
| MUSI 495  | Applied Study IV                     |  |

**Advanced Acting Experience**

Complete three of the following courses: 9

|          |                                 |  |
|----------|---------------------------------|--|
| THTR 321 | Advanced Acting: Practitioners  |  |
| THTR 420 | Advanced Acting: Comedy Styles  |  |
| THTR 421 | Advanced Acting: Classics       |  |
| THTR 425 | Advanced Acting: Devising       |  |
| THTR 426 | Advanced Acting: Special Skills |  |

**Staging Experience**

Complete one of the following courses: 3

|          |                    |  |
|----------|--------------------|--|
| THTR 370 | Stage Management I |  |
| THTR 375 | Directing I        |  |

**Production Experience<sup>2</sup>**

Complete the following course:

|          |           |   |
|----------|-----------|---|
| THTR 395 | Practicum | 1 |
|----------|-----------|---|

**Upper-Division Enrichment Electives**

Complete 6 credits in the following areas: 6

|                             |  |
|-----------------------------|--|
| Art (ARTZ)                  |  |
| Art History (ARTH)          |  |
| Creative Writing (CRWR)     |  |
| Dance (DANC)                |  |
| Global Leadership (GBLD)    |  |
| Honors (HONR)               |  |
| Literature (LIT)            |  |
| Media Arts (MART)           |  |
| Music (MUSI, MUSE, or MUST) |  |
| Theatre (THTR)              |  |

**Total Hours** 79<sup>1</sup> Students may select sections in the Scene Shop, Costume Shop, or Light Shop.<sup>2</sup> Registration is based on casting for Theatre & Dance productions.

## Four Year Plan

| Course                        | Title                                                    | Hours        |

## Theatre B.F.A. - Design & Technology General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Fine Arts - Theatre; Design and Technology Concentration

Students who intend to pursue the Design & Technology concentration will normally enter the University as Bachelor of Arts students in Theatre with a focus in pre-Design & Technology. They should then declare intent to pursue the BFA degree no later than the middle of the second semester of a four-year program. Students wishing to pursue a BFA in Theatre in the Design & Technology concentration must:

- Complete a one-year residency at the UM-Missoula campus which includes a minimum of 12 credits in Design & Technology.
- Attain a cumulative 2.5 overall GPA and a 3.0 GPA in Design & Technology coursework.
- Present a theatre resume and portfolio consisting of class and production work.
- Prepare a written statement explaining their educational and professional goals.

Scenery majors will take a scenery elective

## Theatre B.F.A. - Musical Theatre Performance

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Bachelor of Fine Arts - Theatre: Musical Theatre Performance Concentration

- Students who intend to pursue the Musical Theatre Performance concentration will normally enter the University as Bachelor of Arts students in theatre with a focus in pre-Musical Theatre performance. They should declare intent to pursue the BFA degree no later than the middle of the second semester of the four-year program. Admission is granted by audition at the end of the first year.
- In order to maintain healthy practice, students must take at least one singing and one dance technique course each semester in the program. Introductory courses will include an initial skill assessment to determine the appropriate placement level.

### Course Requirements

| Code                                   | Title                                   | Hours |
|----------------------------------------|-----------------------------------------|-------|
| <b>Lower-Division Required Courses</b> |                                         |       |
| Complete all of the following courses: |                                         |       |
| THTR 103                               | Introduction to House Management        | 1     |

## Musical Theatre Performance Minor General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Minor - Musical Theatre Performance Course Requirements

| Complete 2-3 credits in a focus area (acting, dance, music, or practicum) selected with your advisor. These credits must be upper-division. |                                     | 2-3          |
| <b>Total Hours</b>                                                                                                                          |                                     | <b>27-28</b> |

<sup>1</sup> An advisor in Theatre & Dance must be consulted for guidelines regarding one's specific focus.

## Theatre Education Minor General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic

Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Theatre Education

Individuals completing this minor in Theatre Education must also complete the teaching track of a major in another content area. Students must be formally admitted to the Teacher Education Program and complete all of the professional education licensure requirements. See the Department of Teaching and Learning (<https://www.umt.edu/education/departments/teaching-and-learning/default.php>) in the College of Education for more information.

| Complete 12 credits in a focus area (acting, costumes, literature/history, scenery, etc.) selected with an advisor. 8 of these credits must be upper-division. |                                         | 12        |
| <b>Total Hours</b>                                                                                                                                             |                                         | <b>22</b> |

<sup>1</sup> Students may select sections in the Scene Shop, Costume Shop, or Light Shop.

<sup>2</sup> An advisor in Theatre & Dance must be consulted for guidelines regarding one's specific focus. Dance, Media Arts, or Music courses may count toward these required electives with approval from advisor.

## School of Visual and Media Arts

### Art

The School of Visual and Media Arts provides a comprehensive education in studio art, including intensive hands-on studio practice, art history, criticism, and theory. Programs provide thorough professional training for students interested in careers in the field of art.

Undergraduate degree offerings include the Bachelor of Arts and the Bachelor of Fine Arts in Art. Areas of specialization are:

- Ceramics
- Drawing
- Painting
- Photography

- Printmaking
- Sculpture

## Media Arts

The undergraduate program in Media Arts offers a Bachelor of Arts degree that consists of a uniquely integrated curriculum centered in digital technology as a storytelling and artistic medium. The course of instruction is comprehensive and combines the areas of digital filmmaking and integrated digital media. The undergraduate program also offers Bachelor of Fine Arts degrees with majors in

- Media Arts
- Game Design and Interactive Media
- Sound Design and Media Technology

For more information on the academic programs and to experience the creative work of Media Arts students please visit the Media Arts website (<https://svma.umt.edu/>).

## Advanced Placement Policy

All students, including those who have taken AP examinations, must submit a portfolio to challenge art classes. Undergraduate students may challenge foundations courses only ARTZ 105A and ARTZ 108A.

Portfolios are reviewed at the beginning of each semester. The challenge process waives the requirement to take a specific class, but does not provide any credits. The process of portfolio reviews is as follows:

- Students submit a portfolio of ten .jpeg files or pieces of actual work to the school office two weeks prior to the beginning of the semester.
- If challenging more than one course, students submit examples of work for each course, for example:
  - ten drawing samples for ARTZ 105A, or
  - ten 3-D pieces for ARTZ 108A.

## Transfer Students

Students with transfer credits from another institution must contact the school director for review of transfer transcripts to assess course equivalents.

- Art B.A. (p. 109)
- Art B.A. - Art Education (p. 110)
- Art B.F.A. (p. 111)
- Art B.F.A. - Art Education (p. 112)
- Art History and Criticism Minor (p. 113)
- Art Studio Minor (p. 113)
- Media Arts B.A. (p. 114)
- Media Arts B.F.A. (p. 115)
- Game Design & Interactive Media B.F.A. (p. 117)
- Sound Design & Media Technology B.F.A. (p. 118)
- Media Arts Minor (p. 119)
- Ceramics Certificate (p. 120)
- Creative Coding Certificate (p. 120)
- Creative Entrepreneurship Certificate (p. 121)
- Digital & Graphic Design Certificate (p. 121)

- Game Design Certificate (p. 122)

- Interactive Art & Media Certificate (p. 122)
- The New West: Art and the Environment Certificate (p. 123)
- Photography and Digital Imaging Certificate (p. 123)
- Sonic Arts Certificate (p. 123)
- Sound Design Certificate (p. 124)
- Sound Production Fundamentals Certificate (p. 124)
- Web Design Certificate (p. 125)

## Art B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Art

- This major requires a minimum grade of C in all required courses.

*Last Updated Autumn 2024*

<sup>1</sup> 9 credits must be taken from the ARTZ and GDSN prefixes at the 200-level. The remaining 6 must be taken from the ARTZ and GDSN prefixes at the 200-level, and from MART at the 200-300-level.

## Art B.A. - Art Education

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Bachelor of Arts - Art; Art Education Concentration

- This major requires a minimum grade of C in all required courses.
- Art Education licensure is earned by taking classes in both the School of Visual and Media Arts and the Phyllis J. Washington College of Education (<https://www.umt.edu/education/>). Students complete their BA or BFA in Art in conjunction with courses required from the College of Education.
- Montana Teaching Certification in Art K-12 requires a BA or BFA in Art with a concentration in Art Education, which extends beyond the 120-credit limit, or an MA in Curriculum and Instruction with the required undergraduate credits for teacher certification in art. In addition, students are required to take 35 credits of EDU classes and a Native American Studies Course.
- Those interested in teaching in K-12 schools must complete the teaching concentration of a major in a teaching content area plus the Teacher Education Program through the Department of Teaching and Learning. Additional teaching areas can be added through completion of the teaching concentration of a major or a teaching/education minor in that content area.
- Secondary Education Licensure Program (<https://www.umt.edu/education/departments/teaching-and-learning/tep/default.php>)

- To complete this Art Education concentration, you need to contact the Teaching and Learning Department (<https://www.umt.edu/education/departments/teaching-and-learning/default.php>).

## Secondary Teaching Licensure

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umt.edu/education/departments/currinst/default.php>).

## Art B.F.A.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Fine Arts - Art

- This major requires a minimum grade of C in all required courses.

## Course Requirements

| Code                                                                                                     | Title                                      | Hours     |
|----------------------------------------------------------------------------------------------------------|--------------------------------------------|-----------|
| <b>Foundation Level Requirements</b>                                                                     |                                            |           |
| Complete all of the following courses:                                                                   |                                            |           |
| ARTH 150H                                                                                                | Introduction to Art History                | 3         |
| ARTZ 105A                                                                                                | Visual Language - Drawing                  | 3         |
| ARTZ 108A                                                                                                | Visual Language - 3-D Foundations          | 3         |
| Complete one of the following courses:                                                                   |                                            | 3         |
| GDSN 149A                                                                                                | Digital Imaging I                          |           |

Art B.F.A. - Art Education  
General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Bachelor of Fine Arts - Art; Art Education  
Concentration

- This major requires a minimum grade of C in all major courses.
- Art Education licensure is earned by taking classes in both the School of Visual and Media Arts and the Phyllis J. Washington College of Education (<https://www.umt.edu/education/>). Students complete their BA or BFA in Art in conjunction with courses required from the College of Education.
- Montana Teaching Certification in Art K-12 requires a BA or BFA in Art with a concentration in Art Education, which extends beyond the 120-credit limit, or an MA in Curriculum and Instruction with the required undergraduate credits for teacher certification in art. In addition, students are required to take 35 credits of EDU classes and a Native American Studies Course.
- Those interested in teaching in K-12 schools must complete the teaching concentration of a major in a teaching content area plus the Teacher Education Program through the Department of Teaching and Learning. Additional teaching areas can be added through completion of the teaching concentration of a major or a teaching/education minor in that content area.
- Secondary Education Licensure Program (<https://www.umt.edu/education/departments/teaching-and-learning/tep/default.php>)
- To complete this Art Education concentration, you need to contact the Teaching and Learning Department (<https://www.umt.edu/education/departments/teaching-and-learning/default.php>).

<sup>1</sup> These courses should be in the same discipline to demonstrate an area of concentration. Substitutions for courses in related disciplines outside ARTZ, MART, or GDSN can be approved by supervising faculty. Consult with your advisor before selecting courses.

## Secondary Teaching Licensure

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umt.edu/education/departments/currinst/default.php>).

## Art History and Criticism Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Art History and Criticism

- This is a minor in Art History for those not majoring in Art.
- This minor requires a minimum grade of C in all required courses.

## Art Studio Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic

Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Art Studio

- This minor requires a minimum grade of C in all required courses.

## Media Arts B.A.

The School of Visual and Media Arts continues to lead the way in creating innovative educational experiences for students by offering the most comprehensive fully online Bachelor of Arts degree at the University of Montana. This degree enables students to maximize their creative potential through the study and artistic application of emerging digital technologies. It provides learning opportunities in interactive media, web

and internet technologies, film editing, gaming, and a variety of digital design applications including sound, still image, motion, and animation.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Online Program Option

This program may be completed in an online format (<https://catalog.umont.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umont.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Bachelor of Arts - Media Arts

- This major requires a minimum grade of C in all required courses.

*Last updated Autumn 2024*

<sup>1</sup> School of Visual and Media Arts Electives: Complete 9 credits of courses at the 200-level or above in the following areas: Art History, Art, Graphic Design, and Media Arts. These courses should be chosen in consultation with your advisor

## Media Arts B.F.A

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Fine Arts - Media Arts

- This major requires a minimum grade of C in all required courses.

# Game Design & Interactive Media B.F.A

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## BACHELOR OF FINE ARTS - GAME DESIGN AND INTERACTIVE MEDIA

- This major requires a minimum grade of C in all major courses.
- The Game Design and Interactive Media (GDIM) curriculum provides a grounding in the design, story-telling, illustration, and 3D animation

as paired with creative coding and in-depth game development coursework. Students learn to conceptualize, iterate and produce games that fit their artistic visions as well as their career goals. GDIM is preparation for the professional fields of Mobile App design, Game development, and Interactive Art and Media.

- The Shared Foundation sequence must be completed or be in the process of completion before acceptance into the B.F.A program.

Last updated Autumn 2024

Complete 16 Media Art elective credits of courses at the 200-level or above in the following areas: Art History, Art, Graphic Design and Media Arts. These courses should be chosen in consultation with your advisor.

Sound Design & Media Technology B.F.A

General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Bachelor of Fine Arts - Sound Design and Media Technology

Course Requirements

## Media Arts Minor

The Media Arts minor program lives in the School of Visual and Media Arts (SVMA) and offers an integrated curriculum centered in digital technology as a storytelling, art, and design supplement to the work of those undergraduate students whose major area of study can be enhanced through the application of Media Arts principles and technologies. Depending on the courses taken, the minor can be accomplished completely online.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana

General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Minor - Media Arts

<sup>1</sup> For more information on potential class groupings that will satisfy the elective requirements of the minor, please see the Media Arts Director or advisor.

Ceramics Certificate

The Certificate in Ceramics offers students the opportunity to learn about Ceramics as art making material in both depth and breadth. Students will learn many ceramics techniques, including hand building, wheel throwing, as well as contemporary and historical ceramics. This hands-on learning in studio-based courses offers students time and facilities to express their own ideas and work with others.

General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Post-Secondary Certificate - Ceramics

- This certificate requires a minimum grade of B in all required courses.

Course Requirements

| Code                                   | Title                       | Hours |
|----------------------------------------|-----------------------------|-------|
| Complete all of the following courses: |                             |       |
| ARTZ 231A                              | Ceramics I                  | 3     |
| ARTZ 331                               | Ceramics II (taken twice)   | 6     |
| ARTZ 430                               | Advanced Research- Ceramics | 3     |
| Total Hours                            |                             | 12    |

Creative Coding Certificate

The Creative Coding Certificate allows students to learn the basics of coding and development in computer-mediated art and creative practices. This foundational certificate is open to the entire university community and serves to augment an individual's skills. Students will learn the basics of coding, object-oriented programming, signal flow, and time-based creative processes.

General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Post-Secondary Certificate - Creative Coding

## Creative Entrepreneurship Certificate

This certificate provides students with entrepreneurial skills geared specifically for arts and media careers and encourages students to explore course synergies found across the College of Arts and Media, the College of Business, and the Department of Public Administration and Policy.

The certificate is comprised of introductory business courses, area-specific courses, and a culminating practicum or internship. It is designed to supplement the Arts and Media curricula by providing administrative skills needed to be successful across the creative industries. A Certificate in Creative Entrepreneurship will provide applied practical training and will be available to all College of Arts and Media students within their four-year course plan.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Creative Entrepreneurship

## Digital & Graphic Design Certificate

The Digital & Graphic Design Certificate provides students the opportunity to establish a base understanding of the tools and techniques of computer-based digital imaging, design, and publication. Ranging from photo editing/manipulation and graphical elements (raster and vector) to typography, layout design, and basic animation. Student learn to design elements to convey information in a compelling and persuasive way.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Online Program Option

This program may be completed in an online format (<https://catalog.umd.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umd.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Post-Secondary Certificate - Digital and Graphic Design

## Documentary Film Certificate

The certificate in documentary film provides students with the practical skills and theoretical knowledge needed to successfully communicate concepts and narratives via the modes of non-fiction filmmaking. Students will acquire a foundational knowledge of essential techniques in cinematography, editing, and sound mixing, and apply them in both journalistic and artistic ways.

The skills and knowledge gained through the completion of this certificate are applicable to many fields, and are complimentary to the work of any student seeking to communicate non-fiction narratives through visual means.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Game Design Certificate

The Game Design Certificate allows students to acquire in-demand skills in game design and development. After completing the core group of three courses, which offer foundational knowledge in game theory, game history, and game development techniques, the student may choose a fourth course to deepen their knowledge in one of these areas. Students

are encouraged to have previous experience in coding either through the Creative Coding Certificate or other computer science and development training.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Interactive Art & Media Certificate

The Interactive Art & Media Certificate allows students to learn how to apply computer-mediated artistic skills to interactive systems and artwork. This intermediate-level certificate engages students in interactive theory, interactive technologies (including immersive environments, virtual reality, augmented reality, and generative art), and the aesthetics of interactive art and media.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## The New West: Art and the Environment Certificate

Art provides a critical lens to explore the history, use, and contemporary stewardship of western American lands. Working independently and collaboratively in hands-on research, students will study in the field, studio, seminar, and lecture. This certificate is appropriate for students from a wide range of disciplines. Students learn visual expression skills for innovative interpretations and positive solutions.

Students are admitted to the New West Certificate by completion of application. The application is posted on line through the School of Visual and Media Arts website (<https://www.umt.edu/academics/programs/new-west-art/default.php>).

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Photography and Digital Imaging Certificate

This certificate provides fundamental vocational training for anyone who needs to create or utilize effective, compelling photographic images for visual communication. From practical application to conceptual execution, photography has implications across all academic disciplines from the arts to the sciences. This certificate is designed to develop the student's technical proficiency and creative skill with lens-based media that they can then leverage in whatever career path they might pursue. Students will gain a thorough understanding of camera operation, post-production image editing and retouching, and critical aspects relating to the aesthetics of photography. This certificate is relevant for practically any major discipline across campus. Both fine art and documentary pathways are available.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Sonic Arts Certificate

The Sonic Arts certificate offers students an opportunity to develop skills, technique, and theory in audio and sound. The directed sequence of courses assumes students are coming in with no formal training in sound or audio and allows them to acquire knowledge around the science of

sound, the practical applications of working with sound, capturing and manipulating sound for artistic purposes, and basic studio techniques.

General Certificate Requirements

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Post-Secondary Certificate - Sonic Arts

Sound Design Certificate

The Sound Design Certificate offers students with previous experience in sound (particularly those who have completed the Sound Production Fundamentals Certificate) an opportunity to develop advanced skills, technique, and theory in sound design and production. Students will gain advanced technical skills in mixing, design, and mastering, as well as expand their creative skills in using sound as a medium for art and communication.

This program is based out of the School of Visual & Media Arts, and is in partnership with Schools of the College of the Arts & Media.

General Certificate Requirements

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Sound Production Fundamentals Certificate

The Sound Production Fundamentals Certificate offers students from any background and experience level an opportunity to develop skills, technique, and theory in sound production. These skills may be applied to independent producers, aspiring podcasters, sound designers for media (games, film, or social media), or to the individual working in an area that would benefit from increased skills and knowledge in how to work with and manipulate digital audio and sound. The directed sequence of courses assumes students have no prior formal training in sound or audio.

This program is based out of the School of Visual & Media Arts and is in partnership with School of Journalism and School of Music, both of which are also located within the College of the Arts & Media.

General Certificate Requirements

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Web Design Certificate

The Web Design Certificate allows students to acquire in-demand skills in web design and development. After completing the core group of three courses, which offer foundational knowledge in general creative coding, front-end development, and asset creation, students may choose a fourth course to deepen their knowledge in one of these areas. Students who complete the Web Design Certificate will have knowledge of how the web works, how to develop web sites, and web design approaches.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Online Program Option

This program may be completed in an online format (<https://catalog.umn.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umn.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## College of Business

The College of Business (<http://www.business.umn.edu/>), founded in 1918, is the largest professional school at the University. All programs are accredited by AACSB International The Association to Advance Collegiate Schools of Business, and accounting programs also hold separate AACSB accreditation.

The College of Business at the University of Montana creates transformative, integrated, and student-centric learning experiences, propelling our students to make immediate and sustained impacts on business and society. We nurture our students innate work ethic to develop confident problem solvers and ethical decision makers. We pursue thought leadership and collectively create opportunities for a better life for our students, faculty, and staff.

The goal of the College of Business's programs is to provide a broad foundation in business practice and theory, supplemented by deep expertise within one or more specific business disciplines through majors and certificates. The complexity of contemporary society has increased the need for responsible, ethical leadership in organizations with local and global reach. A professional business education combined with solid grounding in the liberal arts and sciences prepares men and women to meet difficult challenges and to contribute to society in meaningful ways. College of Business graduates work in business, nonprofit, and government sectors all over the world.

## Accounting and Finance Department

The Department of Accounting and Finance prepares ethically aware decision-makers with effective analytical and qualitative business knowledge and skills to become professionals in their respective fields in the region and beyond. We commit to high quality teaching and applying scholarship to professional practice, pedagogy, and theory to enhance the professional accounting and finance fields. The department offers the Master of Accountancy degree and two undergraduate majors within the Bachelor of Science in Business Administration degree: Accounting and Finance. The department also offers a Certificate in Accounting Information Systems.

- Information and Control Assurance Certificate (p. 129)

## Accounting B.S. in Business Administration

The undergraduate accounting program is committed to preparing students to apply accounting and business knowledge in organizations. Students develop competence in a broad range of accounting practices. The curriculum strives to foster critical thinking and problem-solving skills. Students are prepared to enter professional positions in accounting with business, nonprofit, or government organizations. Accounting programs in the College of Business hold separate AACSB International accreditation.

See the College of Business (p. 125) section of the catalog for additional credit restrictions and residency requirements.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science in Business Administration - Accounting

- At least 54 credits must be earned in business classes (ECNS, COB internship courses, and COB faculty-led study abroad courses may be counted as business classes). A minimum GPA of 2.0 is required for these courses.

- No more than 30 credits of ACTG (including ACTG 201 and ACTG 202) may count towards the 120 credits required to graduate.
- At least 27 credits in business, the capstone courses, and all required 400-level accounting courses must be taken at UM.
- All business credits transferred in after matriculating to UM must be pre-approved by the department chair in your major.

**Total Hours** **75-77**

<sup>1</sup> All courses must be completed with a C- or better to satisfy prerequisites for certain major, upper major core, or capstone courses. Students are advised to complete these courses as early as possible, preferably prior to attempting courses in the upper major core. Prerequisites are strictly enforced.

<sup>2</sup> All upper major core courses must be completed before the capstone can be taken.

<sup>3</sup> Students must complete all primary and secondary lower core and upper core courses and their prerequisites and have an approved graduation application to register for their capstones.

<sup>4</sup> No more than 4 credits of ACTG 498 may count towards the 120 credits required to graduate.

## Four Year Plan

| Course                                    | Title                                                                                             | Hours        |
|-------------------------------------------|---------------------------------------------------------------------------------------------------|--------------|

**Total Hours** **120-124**

*Last Updated Autumn 2025*

<sup>1</sup> Students with last names A-L will take WRIT 101 in Fall; Students with last names M-Z will take WRIT 101 in Spring.

<sup>2</sup> Noted courses are offered in specific semesters only - see GSSC to confirm term offered.

## Finance B.S. in Business Administration

The finance curriculum is designed to equip students with a comprehensive foundation in financial management, financial markets and investments. Students will gain competence in making effective decisions, performing complex analyses, providing expert financial advice, and utilizing current technology tools and data sources.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science in Business Administration - Finance

- At least 54 credits must be earned in business classes (ECNS, COB internship and COB faculty let study abroad courses may be counted in business classes). A minimum GPA of 2.0 is required for these courses.
- At least 27 credits in business, the capstone course, AND all required 400-level finance courses must be taken at UM.
- All business credits transferred in after matriculating to UM must be pre-approved by the department chair in your major.

### Course Requirements

| Code                                             | Title                                                                                                                                                                              | Hours |

**Total Hours** 75-77

<sup>1</sup> All courses must be completed with a C- or better to satisfy prerequisites for certain major, upper major core, or capstone courses. Students are advised to complete these courses as early as possible, preferably prior to attempting courses in the upper major core. Prerequisites are strictly enforced.

<sup>2</sup> All upper major core courses must be completed before the capstone can be taken.

<sup>3</sup> Students must complete all primary and secondary lower core and upper core courses and their prerequisites and have an approved graduation application to register for their capstones.

<sup>4</sup> Up to 3 credits of BFIN 498 can count towards the 12-credit elective requirement.

## Four Year Plan

| Course                                                              | Title                                                                                                     | Hours        |

*Last Updated Autumn 2025*

<sup>1</sup> Students with last names A-L will take WRIT 101 in Fall; Students with last names M-Z will take WRIT 101 in Spring.

<sup>2</sup> Noted courses are offered in specific semesters only - see GSSC to confirm term offered.

## Information and Control Assurance Certificate

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Post-Secondary Certificate - Information and Control Assurance

- All students pursuing this certificate must also complete the degree requirements for one of the business majors.
- This program requires a GPA of 3.0 in the listed course requirements.

### Course Requirements

- Logistics & Supply Chain Management Certificate (p. 135)
- Marketing B.S. in Business Administration (p. 136)
- Sustainable Business Strategy Certificate (p. 137)

## Business Management B.S. in Business Administration

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Online Program Option

This program may be completed in an online format (<https://catalog.umont.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umont.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Bachelor of Science in Business Administration - Business Management

- At least 54 credits must be earned in business classes (ECNS, College of Business internship courses, and College of business faculty-led study abroad courses may be counted as business Classes). A minimum GPA of 2.0 is required in these courses.
- At least 27 credits in business courses must be taken at UM.
- All business credits transferred in after matriculating to UM must be pre-approved by the department chair in your major.

<sup>1</sup> All courses must be completed with a C- or better to satisfy prerequisites for certain major, upper major core, or capstone courses. Students are advised to complete these courses as early as possible, preferably prior to attempting courses in the upper major core. Prerequisites are strictly enforced.

<sup>2</sup> All upper major core courses must be completed before the capstone can be taken.

<sup>3</sup> Students must complete all primary and secondary lower core and upper core courses and their prerequisites and have an approved graduation application to register for their capstones.

## Four Year Plan

| Course                        | Title                              | Hours        |
|-------------------------------|------------------------------------|--------------|

# Entertainment, Events, and Sports Management B.S. in Business Administration

The Entertainment, Event, and Sport Management (EESM) program is an interdisciplinary degree program grounded in a comprehensive, business-focused foundation. The program focuses on the future and evolution of entertainment, event, and sport management. Students in this program will gain real-world experience from industry experts. The program emphasizes employability through inclusive community engagement and ethical technology and business practices. Students, excellence, and innovation are the guiding priorities of this program.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science in Business Administration - Entertainment, Events, and Sports Management

- At least 54 credits must be earned in business classes (ECNS, College of Business internship courses, and College of business faculty-led study abroad courses may be counted as business Classes). A minimum GPA of 2.0 is required in these courses.
- At least 27 credits in business courses must be taken at UM.
- All business credits transferred in after matriculating to UM must be pre-approved by the department chair in your major.

**Total Hours****75-77**

- <sup>1</sup> This is a primary lower core requirement. The College of Business requires that credit be earned for STAT 216 (preferred) or one of the other statistics courses below with a C- or better prior to being admitted into an upper-division College of Business major.
- <sup>2</sup> All courses must be completed with a C- or better to satisfy prerequisites for certain major, upper major core, or capstone courses. Students are advised to complete these courses prior to being admitted to an upper-division Business Major. Prerequisites are strictly enforced.
- <sup>3</sup> All upper major core courses must be completed before the capstone can be taken. A student must be listed as a major or minor in business to take these courses. Major or minor in business is defined as junior standing with all primary lower core courses completed, a 2.0 cumulative GPA, and formal admission to the major or minor.
- <sup>4</sup> Students must complete all primary and secondary lower core and upper core courses and their prerequisites and have an approved graduation application to register for their capstones. Students must pass the required comprehensive exam as well as all requisite coursework to earn a passing grade in BGEN 499.

## International Business B.S. in Business Administration

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Bachelor of Science in Business Administration - International Business

- At least 54 credits must be earned in business classes (ECNS, COB internship courses and COB faculty-led study abroad courses may be counted as business classes). A minimum GPA of 2.0 is required for these courses.

- At least 27 credits in business must be taken at UM.
- All business credits transferred in after matriculating to UM must be pre-approved by the department chair in your major.
- In addition to the below requirements, students seeking a major in International Business must complete all degree requirements for a major in Accounting (p. 126), Finance (p. 127), Business Management (p. 130), Management Information Systems (p. 138), or Marketing (p. 136).

#### Language Requirement <sup>4</sup>

Complete the 202 level or equivalent in a modern or classical language. 4-16

#### Electives

Complete 6 credits in courses chosen in consultation with your advisor. 6

**Total Hours** **73-87**

<sup>1</sup> All courses must be completed with a C- or better to satisfy prerequisites for certain major, upper major core, or capstone courses. Students are advised to complete these courses as early as possible, preferably prior to attempting courses in the upper major core. Prerequisites are strictly enforced.

<sup>2</sup> All upper major core courses must be completed before the capstone can be taken.

<sup>3</sup> Students must complete all primary and secondary lower core and upper core courses and their prerequisites and have an approved graduation application to register for their capstones.

<sup>4</sup> A student may be exempt from this requirement if using English as a second language or another language not offered by the University of Montana. Please see the International Business advisor for assistance.

## Digital Marketing Certificate

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Post-Secondary Certificate - Digital Marketing

- All students pursuing a Digital Marketing Certificate must also complete the degree requirements for one of the Business majors.
- This program requires a 3.0 GPA in the listed course requirements.

## Entertainment Management Certificate

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Post-Secondary Certificate - Entertainment Management

- This certificate is open to all majors across campus; however, many courses have business prerequisites.
- This program requires a 3.0 GPA in the listed course requirements.
- A minimum grade of B is required for all certificate courses.
- Special Topics courses (x91) and a maximum of three internship credits (x98) may count towards Certificate electives if approved by the UMEM Program Director.

## Entrepreneurship and New Venture Creation Certificate

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Post-Secondary Certificate - Entrepreneurship and New Venture Creation

- All student pursuing a Certificate in Entrepreneurship and New Venture Creation must also complete the degree requirements for one of the Business majors. This certificate is of particular interest to students interested in launching their own business venture, working for a startup, or launching new initiatives with more established businesses.

#### Course Requirements

## Logistics & Supply Chain Management Certificate

The Logistics and Supply Chain Management (LSCM) certificate equips students with essential skills for mission-critical roles across various industries, including e-commerce, manufacturing, and retail. This program prepares students for internships and careers in global logistics, transportation, distribution, procurement, inventory planning, supply chain analysis, management, and consulting while also fostering awareness of the diverse opportunities within these fields.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Marketing B.S. in Business Administration

The marketing major provides students with knowledge and skills required for the process of marketing products, services, or ideas. The contemporary role of marketing in society is treated from various perspectives, including functional and institutional analysis, as well as the application of decision-making tools.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science in Business Administration - Marketing

- At least 54 credits must be earned in business classes (ECNS, College of Business internship courses, and College of Business faculty-led study abroad courses may be counted as business Classes). A minimum GPA of 2.0 is required in these courses.
- At least 27 credits in business courses must be taken at UM.
- All business credits transferred in after matriculating to UM must be pre-approved by the department chair in your major.

| MART 441    | Browser-based Games                               |       |
| Total Hours |                                                   | 75-77 |

<sup>1</sup> All courses must be completed with a C- or better to satisfy prerequisites for certain major, upper major core, or capstone courses. Students are advised to complete these courses as early as possible, preferably prior to attempting courses in the upper major core. Prerequisites are strictly enforced.

<sup>2</sup> All upper major core courses must be completed before the capstone can be taken.

<sup>3</sup> Students must complete all primary and secondary lower core and upper core courses and their prerequisites and have an approved graduation application to register for their capstones.

## Four Year Plan

| Course                        | Title                                        | Hours        |
|-------------------------------|----------------------------------------------|--------------|
| <b>Freshman</b>               |                                              |              |
| <b>Autumn</b>                 |                                              |              |

*Last Updated Autumn 2025*

<sup>1</sup> Students with last names A-L will take WRIT 101 in Fall; Students with last names M-Z will take WRIT 101 in Spring.

<sup>2</sup> Noted courses are offered in specific semesters only - see GSSC to confirm term offered.

<sup>3</sup> Approved MKTG Tech Electives include: BMIS 326, BMKT 440, BMKT 482, BMKT 483 and BMKT 491

## Sustainable Business Strategy Certificate

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Sustainable Business Strategy

- This program requires a 3.0 GPA in the listed course requirements.

## Management Information Systems Department

- Management Information Systems B.S. in Business Administration (p. 138)
- Cybersecurity B.S. (p. 140)
- Big Data Analytics Certificate (p. 141)
- Cybersecurity Management Certificate (p. 141)

## Management Information Systems B.S. in Business Administration

The Management Information Systems STEM curriculum prepares students to manage an organization's information resources. The major focuses on:

1. analyzing and synthesizing information flows within and across the organization's business processes;
2. effectively managing the acquisition, deployment, and utilization of information systems; and
3. using both information and information technology to enhance the organization's strategic advantage.

The knowledge and skills developed in the curriculum lead to careers in data analytics, cybersecurity, consulting, application development,

infrastructure management, systems analysis, technology and design, electronic commerce, and project management.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science in Business Administration - Management Information Systems

- At least 54 credits must be earned in business classes (ECNS, COB internship courses and College of Business faculty-led study abroad course may be counted in or out of business). A minimum GPA of 2.0 is required for these courses.
- At least 27 credits in business and BMIS 476 must be taken at UM.
- All business credits transferred in after matriculating to UM must be pre-approved by the department chair in your major.

| STAT 451 | Statistical Methods I                         |   |

**Total Hours****75-77**

<sup>1</sup> All courses must be completed with a C- or better to satisfy prerequisites for certain major, upper major core, or capstone courses. Students are advised to complete these courses as early as possible, preferably prior to attempting courses in the upper major core. Prerequisites are strictly enforced.

<sup>2</sup> All upper major core courses must be completed before the capstone can be taken.

<sup>3</sup> Students must complete all primary and secondary lower core and upper core courses and their prerequisites and have an approved graduation application to register for their capstones.

## Four Year Plan

| Course                                    | Title                                                                                             | Hours        |
|-------------------------------------------|---------------------------------------------------------------------------------------------------|--------------|
| <b>Freshman</b>                           |                                                                                                   |              |
| <b>Autumn</b>                             |                                                                                                   |              |

*Last Updated Autumn 2025*

<sup>1</sup> Students with last names A-L will take WRIT 101 in Fall; Students with last names M-Z will take WRIT 101 in Spring.

<sup>2</sup> Noted courses are offered in specific semesters only - see GSSC to confirm term offered.

## Cybersecurity B.S.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Bachelor of Science - Cybersecurity

- At least 54 credits must be earned in business classes (ECNS, COB internship courses and College of Business faculty-led study abroad course may be counted in OR out of business). A minimum GPA of 2.0 is required for these courses.
- At least 27 credits in business and BMIS 476 must be taken at UM.
- All business credits transferred in after matriculating to UM must be pre-approved by the department chair in your major.
- Unless a higher requirement is specified, all primary lower core courses must be completed with a C- or better and a 2.0 GPA in the listed courses prior to admission into the upper-division Cybersecurity major.
- The College of Business requires that credit be earned for STAT 216 (preferred) or one of the other statistics courses listed

below with a C- or better prior to being admitted into the upper-division Cybersecurity major.

### Course Requirements

<sup>1</sup> Students are advised to complete the technical lower core in their freshman and sophomore years.

<sup>2</sup> All upper major core courses must be completed before the capstone can be taken. A student must be listed as a major in Cybersecurity to take these courses. This is defined as junior standing with all primary lower core courses completed, a 2.0 cumulative GPA, and formal admission to the major.

## Big Data Analytics Certificate

The Big Data Analytics (BDA) certificate is designed to provide students with the tools necessary to compete in the Big Data space. Students will use big data tools that are currently available to capture, analyze, and present big data. They will explore a variety of applications with which Big Data tools can be applied, and they will complete a Big Data project. This certificate is currently aimed at students majoring in business, computer science, or mathematics.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Post-Secondary Certificate - Big Data Analytics

- All students pursuing a Big Data Analytics Certificate must also complete the degree requirements for a UM major.
- This program requires a 3.0 GPA in the listed course requirements.

## Cybersecurity Management Certificate

The Cybersecurity Management Certificate is designed to provide students with the technical and management skills necessary to work in the Cybersecurity field. Students will use Cybersecurity skills as a consultant or as an employee helping an organization to develop and implement a Cybersecurity program or respond to security incidents. Students will explore a variety of knowledge areas of Cybersecurity Management and apply that knowledge in a project in the capstone course. The curriculum is based on the Core Knowledge Units developed by the National Security Agency (NSA) and the Department of Homeland Security (DHS). Students will gain skills in programming; networking technology & protocols; databases & analytics; probability & statistics; policy, legal, ethics, and compliance; cybersecurity fundamentals & practices, and cybersecurity management & planning.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Post-Secondary Certificate - Cybersecurity Management

- This program requires a 3.0 GPA in the listed course requirements.

## Course Requirements

| Code                                                                                 | Title                                       | Hours     |

General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Business Administration

- Students must earn a C- or better in any prerequisites and primary lower core courses before taking the upper division business minor courses. These seven (7) courses must be completed with a 2.0 GPA.
- Student can apply to the Business Minor when they have a C- or better in all primary lower core courses, 60 credits, and a 2.0 primary lower core GPA.
- Three of the four upper minor core classes must be completed at the University of Montana - Missoula.
- The upper minor core classes can only be taken after the application to the Minor in Business Administration has been approved.

## Phyllis J. Washington College of Education

The Phyllis J. Washington College of Education (<http://www.coehs.umt.edu/default.php>) is comprised of three academic departments:

## Business Administration Minor General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana

- Counseling
- Educational Leadership
- Teaching and Learning

The Phyllis J. Washington College of Education is also home to the University of Montana Safe Schools Center, National Natives Children's Trauma Center (NNCTC), The Learning and Belong (LAB) Preschool, and Montana Digital Academy (MTDA).

The Phyllis J. Washington College of Education is committed to cultivating professional practices that empower human potential. As a community, we embrace knowledge, respect human dignity, and uphold ethical values. Through collaboration, we strive to enhance society's physical, emotional, and intellectual well-being by generating and sharing knowledge while preparing future counselors, teachers, and educational leaders for success.

The College of Education coordinates the University of Montana Professional Education Unit, a unit comprised of initial teacher preparation at the elementary and secondary levels and the advanced preparation of teachers, educational leaders, and school counselors. The Departments of Teaching and Learning, Educational Leadership, and Counseling prepare professionals for careers through bachelor, master's, specialist, and doctoral degree programs. The teaching and administrative licensure programs in the Phyllis J. Washington College of Education at the University of Montana are accredited by the Council for the Accreditation of Educator Preparation (CAEP) (<http://www.caepnet.org/>). The counseling master's and doctoral programs are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The teacher, administrator, and school counseling programs are also accredited by the Montana Board of Public Education.

- Teaching and Learning Department (p. 143)
  - Early Childhood Education P-3 B.A. (p. 145)
  - Elementary Education B.A. (p. 146)
  - Special Education B.A. (p. 147)
  - Early Childhood Education Minor (p. 148)
  - ESL Education Minor (p. 148)
  - Special Education Certificate (p. 150)
  - Specialized Interventionists for Montana Schools Certificate (p. 149)
  - Teacher Librarian Studies Certificate (p. 149)
  - Reading Education Certificate (p. 150)
  - Secondary Licensure (p. 151)

Information about graduate programs in the Phyllis J. Washington College of Education can be found in the graduate section (p. 464) of this catalog.

## Teaching and Learning Department

The Department of Teaching and Learning offers Bachelor of Arts degrees in Elementary Education (K-8) and Early Childhood Education (P-3). The department also offers coursework toward teaching licensure at both the secondary and K-12 levels for students who are earning or have already completed a baccalaureate degree in one of the following state-approved content areas:

- Art
- Biology

- Chemistry
- Earth Science
- Economics
- English
- English as a Second Language
- French
- General Science Broadfield
- Geography
- German
- Government
- Health and Physical Education
- History
- Latin
- Library
- Mathematics
- Music
- Physics
- Psychology
- Reading
- Russian
- Social Studies Broadfield
- Sociology
- Spanish
- Special Education
- Theatre

At the graduate level, the department offers master and doctoral degrees in Teaching and Learning and Education. For more information please see the Department of Teaching and Learning website (<http://coehs.umd.edu/departments/currinst/default.php>).

## Teacher Preparation

### Elementary and Early Childhood Education

Individuals preparing to teach in elementary schools complete a major in Elementary Education (license for grades K-8) or Early Childhood Education (license for grades P-3). Students apply for admission to the Teacher Education Program usually at the end of the sophomore year in order to continue with the education (EDU and EDEC) sequence of courses. All Elementary and Early Childhood Education majors are advised by full-time advisors within the Department of Teaching and Learning.

### Secondary and K-12 licensure

Students preparing to teach at the middle or high school levels (license for grades 5-12) or in K-12 licensure areas will declare a major in the subject area(s) they wish to teach, e.g., English, Mathematics, Music, or any other of the state-approved major content endorsement areas listed previously. They are advised within their major department(s) and, upon admission to the Teacher Education Program, they also are advised within the Department of Teaching and Learning regarding the requirements necessary to earn secondary or K-12 licensure. All secondary and K-12 licensure students seek admission to the Teacher Education Program usually at the end of the sophomore year and complete coursework required for licensure in Teaching and Learning and in their major content area(s).

### Graduate Programs with Initial Teaching Licensure

Individuals who have completed a bachelor's degree may elect to apply to the department's graduate program and complete a graduate-level certificate or the Master of Education in Teaching and Learning with a concentration in Curriculum Studies with licensure to teach.

### Assessment at Admission to the Undergraduate Teacher Education Program

Individuals seeking licensure to teach must apply for admission to the professional Teacher Education Program. Deadlines for application are September 15 and February 15. Individuals are eligible for consideration for admission if they have:

- been admitted to the University of Montana;
- completed at least 30 semester credits;
- earned a minimum cumulative and major/minor GPA (including all transfer credits) of 2.75;
- completed an English writing course (WRIT 101) with a grade of C- or better;
- demonstrated evidence of writing ability in a letter of intent;
- documented appropriate experience working with children or youth;
- secured supportive recommendations from two faculty members;
- presented results of a national fingerprint-based background check; and
- demonstrated appropriate professional behaviors and dispositions associated with success in the profession.

The Teacher Education Program admission application packet includes a policy and procedures handbook and can be downloaded from the Teacher Education Program admissions website (<https://www.umt.edu/education/departments/teaching-and-learning/tep/default.php>).

Once admitted, licensure candidates must maintain a minimum GPA of 2.75 each semester to continue in the program. Candidates who interrupt their studies for more than two years are placed on inactive status and must apply for readmission to both the University and the Teacher Education Program.

Candidates seeking a K-12 endorsement in library, reading, or special education must have full admission to the Teacher Education Program or be a licensed teacher before applying to one of these specialized programs.

Degree-holding individuals are invited to submit transcripts for review to determine how previous course work applies. They may earn a second baccalaureate degree and/or a teaching license or they may combine elementary, secondary, or K-12 licensure with a master's degree.

### Assessment at Application for Student Teaching

Candidates begin planning for student teaching two semesters prior to placement. Candidates are eligible to student teach if they have:

- full admission into the Teacher Education Program;
- a grade of C- or better in all required licensure courses;
- a minimum cumulative GPA of 2.75 (and 2.75 in each field of licensure);
- results of a current national fingerprint-based background check (Candidates with misdemeanors or felonies may be subject to further review by the Clinical Experience Committee.);
- a completed application to student teach and the consent of the Director of Clinical Experiences;

- for Elementary Education majors, students should be enrolled in Level 3 of the program and have completed all coursework in all previous levels;
- for secondary licensure candidates, all methods courses, two thirds of content course work, and approval by departments in the major/minor content area.

Students should consult the Teacher Education Policy Handbook for application deadlines and procedures.

Internships and practica in library, reading, and special education do not substitute for the student teaching semester required for licensure in a subject field.

### Assessment at Program Completion

Through planning and preparation, their established classroom environment, instruction and professional responsibilities, candidates who complete the teacher licensure program at the University of Montana will be prepared to:

1. Design coherent instruction and assessment that demonstrate knowledge of instructional outcomes as well as a deep understanding of students, content, and pedagogy.
2. Establish a classroom environment that fosters positive, respectful relationships and interactions, cooperative endeavors, high expectations, and a love of learning.
3. Deliver authentic instruction that is responsive to students' needs, incorporating critical thinking, student engagement, and meaningful assessment.
4. Carry out responsibilities inherent in the teaching profession, such as communicating with families, participating in a professional community, maintaining accurate records, and engaging in activities and self-reflection that lead to professional growth and development.

### Indian Education for All

It is Montana's constitutional intent that the state's education system will recognize the distinct and unique cultural heritage of American Indians and will be committed in its education goals to the preservation of their cultural heritage. The intent of the legislature as expressed in MCA20-1-501, Indian Education for All, is that every Montanan, whether Indian or non-Indian, be encouraged to learn about the distinct and unique heritage of American Indians in a culturally responsive manner. It is also intended that educational personnel provide means by which school personnel will gain an understanding for the American Indian people.

Candidates preparing for teaching licensure in all endorsement areas are required to complete a minimum of one course in Native American Studies. Throughout their programs of study, candidates must demonstrate:

1. the ability to integrate into their content areas knowledge of the history, cultural heritage, and contemporary status of American Indians and tribes in Montana;
2. knowledge of how students within different populations, including Montana American Indians, differ in their approaches to learning; and
3. the ability to create instructional opportunities that are adapted to diverse learners, including situations where concentrated generational poverty has affected student academic achievement.

## Programs

- Early Childhood Education P-3 B.A. (p. 145)
- Elementary Education B.A. (p. 146)
- Special Education B.A. (p. 147)
- Early Childhood Education Minor (p. 148)
- ESL Education Minor (p. 148)
- Special Education Certificate (p. 150)
- Specialized Interventionists for Montana Schools Certificate (p. 149)
- Teacher Librarian Studies Certificate (p. 149)
- Reading Education Certificate (p. 150)
- Secondary Licensure (p. 151)

## Early Childhood Education P-3 B.A. General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Early Childhood Education P-3

- This major requires a minimum GPA of 2.75
- Admission to the Teacher Education Program is required to enroll in EDU and EDEC courses.

| EDU 370 | Integrating Technology into Education       | 3 |
| EDU 395 | Clinical Experience                         | 1 |
| EDU 497 | Teaching and Assessing (K-8 Social Studies) | 3 |

#### Level 3

Complete all of the following courses. All courses must be completed concurrently.

|          |                                          |   |
|----------|------------------------------------------|---|
| EDU 395  | Clinical Experience (Level 3)            | 1 |
| EDU 407E | Ethics & Policy Issues                   | 3 |
| EDU 497  | Teaching and Assessing (5-8 Mathematics) | 3 |
| EDU 497  | Teaching and Assessing (K-8 Science)     | 3 |
| EDU 497  | Teaching and Assessing (4-8 Reading)     | 3 |

#### Level 4 - Student Teaching

Complete all of the following courses. All courses must be completed concurrently.

|         |                  |    |
|---------|------------------|----|
| EDU 494 | Seminar          | 1  |
| EDU 495 | Student Teaching | 14 |

**Total Hours** **110**

<sup>1</sup> Other Native American Studies courses may fulfill the NASX 105H requirement. Please consult with the Education Advisor.

## Special Education B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Special Education

- This major requires a minimum GPA of 2.75
- Admission to the Teacher Education Program is required to enroll in any EDU courses.

| NASX 105H    | Introduction to Native American Studies <sup>1</sup> | 3 |
| PSCI 210S    | Intro to American Government                         | 3 |
| or PSCI 220S | Intro to Comparative Government                      |   |
| EDU 222      | Educational Psychology and Child Development         | 3 |

### Health and Physical Education

Complete the following course:

|         |                                                      |   |
|---------|------------------------------------------------------|---|
| HEE 302 | Methods of Instructional Strategies in Elementary PE | 3 |
|---------|------------------------------------------------------|---|

### The Arts

Complete all of the following courses:

|           |                                             |   |
|-----------|---------------------------------------------|---|
| ARTZ 302A | Teaching Early Childhood and Elementary Art | 2 |
| MUSE 397  | Methods: K-8 Music                          | 2 |
| THTR 239A | Creative Drama/Dance: K-8                   | 2 |

### Teacher Education Program - Professional Licensure Courses

#### Level 1

Complete all of the following courses. All courses must be completed concurrently.

|          |                                                    |   |
|----------|----------------------------------------------------|---|
| EDSP 454 | Advanced Academic Interventions                    | 3 |
| EDU 340  | Classroom Management                               | 3 |
| EDU 395  | Clinical Experience                                | 1 |
| EDU 397  | Methods: Teaching & Assessing (PK-3 Early Reading) | 3 |
| EDU 397  | Methods: Teaching & Assessing (Early Numeracy K-4) | 3 |

#### Level 2

Complete all of the following courses. All courses must be completed concurrently.

|          |                                              |   |
|----------|----------------------------------------------|---|
| EDEC 408 | Early Childhood Principles and Practices     | 3 |
| EDSP 405 | Assessment of Students with Exceptionalities | 3 |

|          |                                                        |   |
|----------|--------------------------------------------------------|---|
| EDSP 456 | Introduction to Methods for Low Incidence Disabilities | 3 |
| EDSP 461 | Positive Behavior Supports                             | 3 |
| EDSP 462 | Special Education Law, Policy, and Practice            | 3 |

**Level 3**

Complete all of the following courses. All courses must be completed concurrently.

|          |                                           |   |
|----------|-------------------------------------------|---|
| EDSP 426 | Introduction to Transition & Community    | 3 |
| EDU 395  | Clinical Experience (Level 3)             | 1 |
| EDU 461  | Introduction to Gifted/Talented Education | 3 |
| EDU 497  | Teaching and Assessing (5-8 Mathematics)  | 3 |
| EDU 497  | Teaching and Assessing (4-8 Reading)      | 3 |

**Level 4 - Student Teaching**

Complete all of the following courses. All courses must be completed concurrently.

|         |                                               |    |
|---------|-----------------------------------------------|----|
| EDU 438 | Literacy Assessment, Diagnosis, & Instruction | 3  |
| EDU 494 | Seminar                                       | 1  |
| EDU 495 | Student Teaching (Special Education)          | 11 |

**Total Hours** 112

<sup>1</sup> Other Native American Studies courses may fulfill the NASX 105H requirement. Please consult with the Education Advisor.

## Early Childhood Education Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Minor - Early Childhood Education

- This minor can only be completed by individuals seeking K-8 elementary licensure or currently licensed elementary education teachers.
- EDEC 420 and EDEC 495 are co-requisites and must be completed as the capstone for the ECE minor.

### Course Requirements

| Code                                          | Title                                    | Hours |
|-----------------------------------------------|------------------------------------------|-------|
| <b>Complete all of the following courses:</b> |                                          |       |
| EDEC 408                                      | Early Childhood Principles and Practices | 3     |

|          |                                                     |   |

| EDEC 410 | Families, Communities, Culture                      | 3 |
| EDEC 420 | Meeting Standards Through Play-Based Environments   | 3 |
| EDEC 434 | Social/Emotional Development & Child Guidance       | 3 |
| EDEC 495 | EC Fieldwork/Practicum: Integrated Curriculum       | 3 |
| EDU 222  | Educational Psychology and Child Development        | 3 |
| EDU 397  | Methods: Teaching & Assessing (PK-4 Early Numeracy) | 3 |
| EDU 397  | Methods: Teaching & Assessing (PK-3 Early Literacy) | 3 |

**Total Hours** 24

## ESL Education Minor

- This minor contains course requirements designed to meet state standards. Those interested in teaching in K-12 schools must complete the education/teaching concentration of a major in a teaching content area plus the Teacher Education Program through the Department of Teaching and Learning. Additional teaching areas can be added through completion of the education/teaching concentration of a major or education/teaching minor in that content area.
  - Secondary Education Licensure Program (<https://www.umd.edu/education/departments/teaching-and-learning/tep/default.php>)
  - Licensure Degree Requirements (p. 151)
- To complete this concentration, you need to contact the Teaching and Learning Department. Approvals for this track must come from the Teaching and Learning Department.
- Individuals completing this minor must also complete the education/teaching concentration of a major in another teaching content area.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Minor - ESL Education

- Those seeking a K-12 endorsement in teaching ESL must have full admission to the Teacher Education Program or be a licensed teacher before applying to this specialized program.

## Secondary Teaching Licensure

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umt.edu/education/departments/currinst/default.php>).

## Specialized Interventionists for Montana Schools Certificate

Special education and related service scholars will enhance their learning through this certificate program in addition to their undergraduate degree. This collection of 16 credits addresses secondary transition, teaching learners with low-incidence disabilities, autism intervention, assistive technology, and cultural responsiveness in the schools. Additionally, scholars will learn how to serve students through tele-intervention. Three of the courses have an experiential learning component.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Specialized Interventionists for Montana Schools

### Course Requirements

| <b>Total Hours</b> |                                                                 | <b>16</b> |

## Teacher Librarian Studies Certificate

This program of study can only be completed by those pursuing a teaching endorsement in another content area or by currently licensed teachers. Students must be formally admitted to the Teacher Education Program and complete all of the professional education licensure requirements. Please contact the Department of Teaching and Learning in the College of Education for more information.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Online Program Option

This program may be completed in an online format (<https://catalog.umt.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umt.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Post-Secondary Certificate - Teacher Librarian Studies

- This certificate requires a minimum GPA of 2.75.
- The Library Media Practicum requires 60 hours in a school or public library. All library media coursework must be completed prior to enrolling in the library media practicum.

## Special Education Certificate

This program of study can only be completed by those pursuing a teaching endorsement in another content area or by currently licensed teachers. Students must be formally admitted to the Teacher Education Program and complete all of the professional education licensure requirements. See the Department of Teaching and Learning in the College of Education for more information.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Special Education

- This certificate requires a minimum GPA of 2.75.
- All courses must be completed with a minimum grade of B-.
- All special education coursework must be completed prior to the special education student teaching experience. An application is required to determine special education student teaching eligibility. See Teacher Education Services or the Office of Field Experiences for deadlines.

## Course Requirements

| Code                                     | Title                                                  | Hours |

<sup>1</sup> Initial licensure candidates complete a 10-credit practicum. Currently licensed teachers complete a 6-credit practicum.

## Teacher Education Program - Secondary Licensure

Students preparing to teach at the middle or high school levels (license for grades 5-12) will declare a major in the subject area(s) they wish to teach, e.g., English, mathematics, or any other of the state-approved major content endorsement areas listed previously. They are advised within their major department(s) and, upon admission to the Teacher Education Program, they also are advised within the Department of Teaching and Learning regarding the requirements necessary to earn secondary licensure. All secondary licensure students seek admission to the Teacher Education Program, usually at the end of the sophomore year.

Applicants for Montana teaching licensure must satisfy all degree and licensure requirements as outlined below and those set forth by the Montana Office of Public Instruction.

Information about the Teacher Education Program is available in the department office or on the College of Education website (<http://www.coehs.umt.edu/>).

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Coursework for Teaching Licensure - Secondary Certification

- The Teacher Education Program requires a minimum GPA of 2.75
- The Teacher Education Program coursework is completed in addition to the education concentration of a major in a teaching content area and leads to secondary (5-12) or K-12 teaching licensure in that content area. Individuals must be admitted to the Teacher Education Program to enroll in EDU courses other than EDU 222. See the Teaching and Learning website (<http://coehs.umt.edu/departments/currinst/default.php>) for additional information regarding admission.

| Complete all of the following courses:             |                                                                                        |           |
| EDU 494                                            | Seminar                                                                                | 1         |
| EDU 495                                            | Student Teaching                                                                       | 14        |
| <b>Total Hours</b>                                 |                                                                                        | <b>41</b> |

<sup>1</sup> Students may take any NASX course to fulfill this requirement. If you choose to take a course with a Native American focus outside of the Native American Studies Department, please consult with your Teaching and Learning advisor for approval.

- <sup>2</sup>
- English and Music majors do not complete EDU 481. They meet the literacy requirement through departmental requirements.
  - All students must complete major and/or minor teaching methods courses specific to their content areas. These methods course requirements are listed within the requirements for each program of study.
- <sup>3</sup>
- EDU 395 (K-12 I) is taken concurrently with EDU 444.
  - EDU 395 (K-12 II) is taken concurrently with the content-specific methods course

<sup>4</sup> All content, methods, and education courses must be completed prior to enrolling in the student teaching semester. An application is required to determine student teaching eligibility. See Teacher Education Services or the Office of Clinical Experiences for deadlines.

## W.A Franke College of Forestry and Conservation

The undergraduate curricular programs at the W.A Franke College of Forestry and Conservation (FCFC) provide the knowledge and skills for

students to become effective natural resource professionals. They offer a sequence of learning experiences that build the necessary confidence and critical thinking capabilities to help solve some of humanity's most pressing problems in the stewardship of our shared natural heritage.

Undergraduate programs at the W.A Franke College of Forestry and Conservation have evolved into a unique action-oriented, interdisciplinary experience where students integrate real-world issues into their coursework. Students will utilize the latest technologies in the assessment and analysis of natural resource challenges, and they will simultaneously apply this learning in multiple field settings across the unparalleled natural settings of Montana.

Programs within the College provide a strong foundation in knowledge about natural systems, science, analytical skills, and policy, but each is tailored to the specialized needs of a particular career track or research discipline in the natural resources management professions. Students have an opportunity to emphasize the disciplinary concentration of their choosing, but all students will receive a balance of ecological, physical, and social sciences.

Students uncertain about which specific major best meets their interests and needs will find that the ability to move between majors early in their student career is facilitated by a common foundational core of coursework. Each major's curricular program is designed to fulfill the broad educational goals for all graduates of the University of Montana as well as the specific disciplinary requirements of civil service and professional accrediting organizations.

## Preparation to Enter the W.A Franke College of Forestry and Conservation

Students planning to enter the W.A Franke College of Forestry and Conservation should attain a sound background in English, social studies, mathematics, biology, and other sciences. Entering freshmen and non-resident transfer students will be admitted in accordance with general university admission requirements (p. 39) listed in this catalog. Resident transfer students or current UM students wanting to change their major to the W.A Franke College of Forestry and Conservation must have a grade point average of 2.0 or higher to be admitted.

## Educational Framework at the W.A Franke College of Forestry and Conservation

Students at the W.A Franke College of Forestry and Conservation are expected to demonstrate a range of capabilities before graduation so they can better address the multiple demands facing modern natural resource managers. The College fosters learning through a combination of innovative teaching and scholarship with a focus on state of the art knowledge in the major fields and emerging natural resource challenges. Each major's curriculum follows a similar seven part structure that encourages the sequenced development of foundational knowledge, applied skills, and creative problem-solving. The following description illustrates how the curricula are organized to present the most efficient and engaging pathway to the full development of student capabilities.

### Foundations of Science

Students will be required to have a solid understanding of the primary physical, chemical, and biological drivers of natural systems. Required for all students are an introductory course in inorganic chemistry and a basic biological science course (there are several introductory biology classes that will apply, depending on a student's major). All students

are encouraged to take an introductory course offered by the College that draw together multiple disciplines to demonstrate the historical and cultural dimensions of conservation: The Nature of Montana (NRSM 121S); Careers in Natural Resources (WILD 180) or Wildlife and People (WILD 105N). In the sophomore year most students will take an introductory course in soils to become familiar with the cycling of energy and nutrients in terrestrial ecosystems while students in the Wildlife Biology major will take coursework in molecular biology and genetics. In their junior year all students take an upper-division ecology class. The University's general education requirements and specific College majors ensure all students take additional natural and social science classes to provide the foundations necessary to understand and manage the natural and social systems underlying human uses of natural resources.

### Quantitative and Analytical Skills

All students at the College will attain the quantitative analytical and measurement foundations needed for their professional or research career path. The freshmen level quantitative requirement rests on a proficiency in mathematics that is obtained through one of two routes depending on major: a college algebra/linear math/probability track or an introductory calculus track. All sophomore students take a statistics class which many fulfill through a special course in the analysis of multiple forms of measurement of natural resource characteristics, called Biometrics. Although not required for all majors, most students decide to take a special course in mapping that combines the common applications of geographic information systems (GIS) and the basic attributes of spatial analysis.

### Applied Field Skills

A tremendous advantage of an education at the W.A Franke College of Forestry and Conservation is the proximity of an unlimited field laboratory in both the managed and untrammelled landscapes of Montana. All undergraduates will have multiple opportunities to learn in field settings as a part of lab sections associated with many of FCFC's courses. Some specific academic opportunities, such as the College's Wilderness and Civilization Program, will take students on extended backcountry trips to gain first-hand knowledge of wild settings. Exceptional hands-on learning experiences are provided at the College's Lubrecht Experimental Forest located less than 30 miles from campus on the Blackfoot River. Since students must demonstrate competency and confidence in outdoor field work to be a successful natural resource professional, students are required to select a sophomore-level field measurements course within their major. Although advanced transfer students (>59 transfer credits) to the College, Parks, Tourism, and Recreation Management Students, and Wildlife Biology students may apply other relevant experiences to their field training requirement, completion of a field measurements course is expected before students may enroll in upper-division courses as the needed skills to succeed in subsequent more advanced field labs depend on a solid core of field capabilities.

### Communication

Effectiveness in addressing our shared problems in natural resource management depends on a person's ability to communicate. W.A Franke College of Forestry and Conservation students will graduate with considerable training in written communication with both lower-division requirements at the 200-level and a series of upper-division courses where writing constitutes the major part of course expectations. Each major in the College provides a distributed writing menu for students entering into upper-division courses, such that each student will take at least three classes where writing skills are evaluated. All students take a public speaking class. Students wishing to gain more experience in

public speaking and communication may also take Natural Resources Interpretation (PTRM 310).

## Professional Specialization

Each academic major in the College contains a sequence of courses and learning experiences tailored to the student's specific professional aspirations. Clusters of courses within a major prepare students to obtain the necessary knowledge and professional competencies to perform the tasks of a modern resource manager or research scientist. Coursework combines biophysical and social science training to allow students to recognize and navigate the complexities and context of conservation sciences and natural resources management. Thus, each major has courses representing both ecological and policy development processes as well as a progression of classes covering the knowledge areas and topics of major natural resources disciplines. Students will take a core of required courses (described in the sections below) as well as a balanced selection of professional electives to acquire sufficient balance and depth in their chosen field to emerge with an identified professional specialty.

## Work Experience and Service Learning

Students at the W.A Franke College of Forestry and Conservation will apply what they have learned in real-world settings prior to graduation. This work experience can be obtained in many ways: via internships, summer employment, study abroad opportunities, or specially designed service learning courses. Service experiences will allow students to obtain credit, learn new material, and offer critical work to established organizations to advance conservation goals. In general, requirements for work experience or internships will be counted based on the number of hours worked over the course of a student's entire undergraduate career, with 400 hours or more of work necessary for graduation.

## Capstone Experience

Each academic major in the College offers an opportunity for students to synthesize previous learning in a real-world project via either an undergraduate research project or the completion of a special, integrative capstone course. Undergraduate research projects are designed through close supervision of a student's academic advisor, while the capstone courses bring together a team of faculty who facilitate student oriented problem solving through a focus on an applied management problem or real world case studies that offer vital experience in the preparation of students for their professional careers.

## Other University-wide Requirements for Academic Achievement

The University of Montana has established standards for graduation of all students that include demonstrated proficiencies in oral and written communication as well as a selection of diverse learning experiences identified as general education courses (p. 39). The College's expectations for writing and quantitative skills more than fulfill university-wide requirements for communication, and many of the courses offered by FCFC also fulfill the categories within general education requirements. All FCFC majors also offer sufficient opportunity for students to choose among the full range of UM courses as free electives, such that each person might be able to explore new areas of learning at their own discretion.

## Student Advising

All W.A Franke College of Forestry and Conservation students will have a full-time faculty advisor as well as the extensive advising support provided by the College's Office of Student Services. Students are paired

with a faculty advisor who matches their academic and professional interests and serves as a mentor and advocate for students as they progress through individual academic achievements. Students may change their advisor at any time as their specific interests develop or change. New students needing an advisor and current students who wish to change advisors should contact the College's Office of Student Services. Students are required to consult with their advisors before each registration period, but remain responsible for ensuring they fulfill the published requirements for graduation (p. 36).

## Earth, Water, and Climate Science B.S.

The B.S. in Earth, Water, and Climate Science is designed for students who seek post-graduate employment as a professional geoscientist or preparation for graduate study in Geosciences.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of

Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

# Bachelor of Science - Earth, Water, and Climate Science

## Course Requirements

| Code                                                                                    | Title                                                        | Hours |
|-----------------------------------------------------------------------------------------|--------------------------------------------------------------|-------|

## Environmental Science and Sustainability B.S.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science - Environmental Science and Sustainability Course Requirements

## Environmental Studies B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Environmental Studies

- To obtain depth of knowledge in one or more specialty areas, students are encouraged to work with an Environmental Studies advisor to select a minor or double major from another campus discipline or earn one or more certificates in Environmental Studies.

<sup>1</sup> Upper-division required courses listed in the Humanities and Justice Studies areas may count as upper-division elective courses if another

course within the area was taken (e.g., ENST 480 can count as an upper-division elective if ENST 489S is taken).

<sup>2</sup> BIOB 170N may only be used to satisfy this requirement if not used to satisfy the introductory Biology requirement.

Last updated Autumn 2024

Environmental Studies students are encouraged to select a minor or double major from another campus discipline, or students can work with a faculty advisor and choose from the following focus areas of study:

- Sustainable Business
- Sustainable Food and Farming
- Environmental Knowledge of Native Peoples
- Environmental Justice
- Environmental Pre-Law
- Environmental Writing and Literature
- Environmental Sciences

Please speak with your faculty mentor when selecting focus areas.

## Forestry B.S.

The B.S. in Forestry prepares students to be leaders in the stewardship of forest resources, from water to wildlife to wood products. Through field and classroom experiences, students gain expertise in the core biophysical and ecological processes that shape forested landscapes, and synthesize this knowledge with socio-economic principles to effectively manage, conserve, and restore natural resources.

The program uses the unique natural settings offered in Montana to give students classroom and field learning experiences with skills-based courses, independent studies, internships and research projects that lead to diverse employment opportunities.

With a degree in Forestry students can work as forest ecologists, silviculturalists, timber managers, forest planners, wildland fire specialists, inventory managers, forest rangers, or as range or soil conservationists. The Forestry degree is accredited by the Society of American Foresters and meets the requirements for qualification as Forester for the U.S. Civil Service Commission (440 series). This means student can work as a forester for federal agencies such as the U.S. Forest Service, Bureau of Land Management, Bureau of Indian Affairs as well as for many state agencies and with private industry.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Geosciences B.S.

The B.S. in Geosciences is designed for students who seek post-graduate employment as a professional geoscientist or preparation for graduate study in geosciences.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science - Geosciences Course Requirements

## Geosciences B.S. - Earth Science Education

Individuals interested in teaching in K-12 schools must complete a degree in the content area they want to teach plus the teacher preparation program through the Department of Teaching and Learning. Individuals must complete the teaching track within that degree program, which may contain different course requirements than the non-teaching track since the sequence of courses is designed to meet state standards. Upon completion of the degree program with the teaching track and the secondary licensure program, one will be eligible for a standard Montana teaching license in this content area.

- Secondary Education Licensure Program (<https://www.umt.edu/education/departments/teaching-and-learning/tep/default.php>)
- Licensure Degree Requirements (p. 151)

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science - Geosciences; Earth Science Education Concentration

- Students must be formally admitted to the Teacher Education Program and complete all of the professional education licensure requirements.
- A major GPA of 2.75 is required to be eligible for student teaching.
- This major does not qualify as a single field endorsement. Individuals must complete the teaching track of a second major or minor in another content area.

## Course Requirements

| Code                                          | Title                                | Hours |
|-----------------------------------------------|--------------------------------------|-------|
| <b>Lower-Division Core</b>                    |                                      |       |
| Complete all of the following courses:        |                                      |       |

## Secondary Teaching Licensure

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umt.edu/education/departments/currinst/default.php>).

## Parks, Tourism, and Recreation Management B.S.

The B.S. in Parks, Tourism & Recreation Management degree is designed to prepare students for professional positions developing and managing nature-based recreation experiences and park resources for public land management agencies, nonprofit organizations, and the nature-based tourism industry. Students pursuing this degree must choose between an concentration in Recreation Resources Management or Nature-Based Tourism. The Recreation Resources Management concentration provides the educational background necessary for evaluating and managing wild lands to protect their recreational, heritage, and ecological

values. The Nature-Based Tourism concentration is designed to combine an understanding of social, cultural, political, environmental, and economic contexts surrounding tourism in a natural resource setting. All students learn the processes and conceptual skills needed to determine alternative management strategies, make management decisions, and carry out management programs. Included are courses leading to an understanding of the basic ecological characteristics of recreational lands. Students also take courses dealing with human behavior and management. Emphasis is placed on presenting problems that would be encountered while managing national parks and forests, state and regional parks, wilderness areas, and other recreation resources of international and national significance.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science - Parks, Tourism, and Recreation Management

### Course Requirements

| Code                                              | Title                                                                                                                                          | Hours |
|---------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| <b>Lower-Division Major Required Courses</b>      |                                                                                                                                                |       |
| Complete all of the following courses:            |                                                                                                                                                |       |
| PTRM 141Y                                         | National Parks and American Culture                                                                                                            | 3     |

## Wildlife Biology B.S. - Aquatic General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science - Wildlife Biology; Aquatic Concentration

- This major requires a minimum GPA of 2.5.

### Course Requirements

| Code                                   | Title                                   | Hours |
|----------------------------------------|-----------------------------------------|-------|
| <b>Major Required Courses</b>          |                                         |       |
| Complete all of the following courses: |                                         |       |
| BIOB 160                               | Principles of Living Systems            | 3     |
| BIOB 161N                              | Principles of Living Systems Lab        | 1     |
| BIOB 170N                              | Principles of Biological Diversity      | 3     |
| BIOB 272                               | Genetics and Evolution                  | 4     |
| BIOE 370                               | General Ecology                         | 3     |

#### Major Required Courses - Aquatic Concentration

Complete all of the following courses:

|          |                                            |   |
|----------|--------------------------------------------|---|
| BIOE 428 | Freshwater Ecology                         | 5 |
| BIOO 340 | Biology and Management of Fishes           | 4 |
| NRSM 385 | Watershed Hydrology                        | 3 |
| WILD 280 | Fisheries Techniques                       | 3 |
| WILD 408 | Aquatic Habitat Conservation & Restoration | 4 |

Complete one of the following courses: 3-4

|            |                              |  |
|------------|------------------------------|--|
| BIOE 406   | Behavior & Evolution         |  |
| BIOM 427   | General Parasitology         |  |
| & BIOM 428 | and General Parasitology Lab |  |
| BIOO 462   | Entomology                   |  |
| WILD 485   | Aquatic Invertebrate Ecology |  |

#### Outside Major Required Courses

Complete all of the following courses:

|             |                                   |   |
|-------------|-----------------------------------|---|
| CHMY 121N   | Introduction to General Chemistry | 4 |
| COMX 111A   | Introduction to Public Speaking   | 3 |
| M 162       | Applied Calculus                  | 4 |
| or M 171    | Calculus I                        |   |
| STAT 216    | Introduction to Statistics        | 4 |
| or WILD 240 | Intro to Biostatistics            |   |

#### Writing in the Disciplines Requirement

Complete any three of the courses from the following lists:

The following courses are required in the Aquatic Concentration:

|          |                                            |  |
|----------|--------------------------------------------|--|
| BIOE 428 | Freshwater Ecology                         |  |
| BIOO 340 | Biology and Management of Fishes           |  |
| WILD 408 | Aquatic Habitat Conservation & Restoration |  |

The following courses are additional options that can also be used to fulfill the Writing in the Disciplines requirement:

|          |                                  |  |
|----------|----------------------------------|--|
| BIOB 483 | Phylogenetics and Evolution      |  |
| BIOE 342 | Field Ecology                    |  |
| BIOE 403 | Comparative Vertebrate Anatomy   |  |
| BIOO 340 | Biology and Management of Fishes |  |
| BIOO 470 | Ornithology                      |  |
| BIOO 475 | Mammalogy                        |  |

|           |                                              |  |
|-----------|----------------------------------------------|--|
| FORS 330  | Forest Ecology                               |  |
| FORS 341  | Timber Harvesting & Roads                    |  |
| FORS 349  | Practice of Silviculture                     |  |
| FORS 440  | Forest Stand Management                      |  |
| NRSM 344  | Ecosystem Science and Restoration Capstone   |  |
| NRSM 349E | Climate Change Ethics and Policy             |  |
| NRSM 379  | Collaborations in Natural Resource Decisions |  |
| NRSM 462  | Rangeland Ecology                            |  |
| NRSM 475  | Environment & International Development      |  |
| PTRM 300  | Recreation Behavior                          |  |
| PTRM 451  | Tourism & Sustainability                     |  |
| PTRM 482  | Wilderness & Protected Area Management       |  |
| WILD 410  | Wildlife Policy                              |  |
| WILD 470  | Conservation of Wildlife Populations         |  |
| WILD 499  | Thesis                                       |  |

**Total Hours**

## Wildlife Biology B.S. - Terrestrial

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science - Wildlife Biology; Terrestrial Concentration

- This major requires a minimum GPA of 2.5.

## Course Requirements

| Complete any three of the courses from the following lists:                         |                                                                                                                                                                                       |       |

The following courses are required in the Terrestrial Concentration:

WILD 470 Conservation of Wildlife Populations

And two of the following three:

BIOO 340 Biology and Management of Fishes

BIOO 470 Ornithology

BIOO 475 Mammalogy

The following courses are additional options that can also be used to fulfill the Writing in the Disciplines requirement:

BIOB 483 Phylogenics and Evolution

BIOE 342 Field Ecology

BIOE 403 Comparative Vertebrate Anatomy

BIOO 340 Biology and Management of Fishes

BIOO 470 Ornithology

BIOO 475 Mammalogy

FORS 330 Forest Ecology

FORS 341 Timber Harvesting & Roads

FORS 349 Practice of Silviculture

FORS 440 Forest Stand Management

NRSM 344 Ecosystem Science and Restoration Capstone

NRSM 349E Climate Change Ethics and Policy

NRSM 379 Collaborations in Natural Resource Decisions

NRSM 462 Rangeland Ecology

NRSM 475 Environment & International Development

PTRM 300 Recreation Behavior

PTRM 451 Tourism & Sustainability

PTRM 482 Wilderness & Protected Area Management

WILD 410 Wildlife Policy

WILD 470 Conservation of Wildlife Populations

WILD 499 Thesis

**Total Hours**

**71-72**

## Four Year Plan

| Course                      | Title                                                                | Hours        |

## Ecological Restoration Minor General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Ecological Restoration

### Course Requirements

| Code                                   | Title                            | Hours |

## Geography Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Geography Education Minor

- This minor contains course requirements designed to meet state standards. Those interested in teaching in K-12 schools must complete the education/teaching concentration of a major in a teaching content area plus the Teacher Education Program through the Department of Teaching and Learning. Additional teaching areas can be added through completion of the education/teaching concentration of a major or education/teaching minor in that content area.
  - Secondary Education Licensure Program (<https://www.umt.edu/education/departments/teaching-and-learning/tep/default.php>)
  - Licensure Degree Requirements (p. 151)
- To complete this minor, you need to contact the Teaching and Learning Department. Approvals for this minor must come from the Teaching and Learning Department.
- Individuals completing this minor must also complete the education/teaching concentration of a major in another teaching content area.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Secondary Teaching Licensure

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umt.edu/education/departments/currinst/default.php>).

## Geosciences Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana

General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Mountain Studies Minor

Mountain Studies is an interdisciplinary field of study focusing on the physical and human dimensions of mountain environments. Coursework in the minor emphasizes biophysical-ecological and mountain-society interactions, including a critical analysis of the processes of change and influence shaping local and regional mountain environments today. The minor in Mountain Studies takes advantage of existing faculty expertise and an array of courses to provide students with a science-based curriculum and global perspective. Students pursuing the minor in mountain studies will develop knowledge and skills appropriate for graduate study and for working with government and non-government agencies and groups. A field-based experience, either domestically or in an international setting, is encouraged.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Mountain Studies

- In addition to completing the requirements for a major in any discipline, students electing the minor in Mountain Studies must have a GPA of 3.0 in their major and complete a minimum of 18 additional credits in this minor.
- Each student must complete the core course, then complete 15 additional credits that support the student's academic interests in Mountain Studies. All elective courses must be approved by the program director.
- The Mountain Studies minor requires at least 6 credits in courses numbered 300 and above.
- Students can receive credit for special topics courses, relevant experiential learning and internship experiences, and for relevant courses taken at other universities.

## Wilderness Studies Minor

**Andrea Stephens, Director of Undergraduate and Field Education for the Wilderness Institute.**

The Wilderness Studies minor is an interdisciplinary undergraduate program that combines campus- and field-based experiences. Students investigate sustainability, wildland conservation, and the human-environment relationship through the lenses of ecology, humanities, arts, and social sciences. Students earn the Wilderness Studies minor by completing the Wilderness and Civilization program, an 18 credit fall semester immersion program. Wilderness and Civilization is open to all majors. Students must apply for the program, which is limited to 25 students each year. Applicants must have sophomore standing or higher and a cumulative GPA  $\geq 3.0$  for all college work. Applications are due by April 1 and are available online on the Wilderness Institute website (<http://www.cfc.umt.edu/wi/>).

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Wildlife Biology Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Wildlife Biology

## Environmental and Nature Writing Certificate

The Certificate in Environmental and Nature Writing (ENW) offers students multiple course opportunities to practice and improve their understanding of and skills in writing about nature and the environment, as well as in evaluating and critiquing such writing. It provides hands-on internship experiences with a biannual environmental literary journal and an annual community reading series, both run by EVST graduate students and advised by EVST faculty.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Geographic Information Systems Certificate

The Certificate in Geographic Information Systems (GIS) is a complement to any existing major at the University of Montana or as an addition to a bachelor's degree obtained at another university. Earning the GIS Certificate will ensure you have the knowledge, understanding, and training necessary to acquire, process, analyze, and properly display digital geographic data.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Geographic Information Systems

- This certificate requires a minimum GPA of 3.0.
- To earn a GIS Certificate, students must either complete or have completed an undergraduate degree and complete a minimum of 18 semester credit hours (six courses), including 9 to 10 core GIS course credits and 8 to 9 advanced GIS elective credits.

## Indigenous Knowledge and Environmental Sustainability Certificate

The Certificate in Indigenous Knowledge and Environmental Sustainability focuses on examining the relationship between Indigenous communities and their environments. This includes understanding how Indigenous communities are working to restore their Native landscapes, reestablish sustainable practices, and revitalize ethnobotanical knowledge and traditional food systems.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Northern Rockies Outdoor Leadership Certificate

The Northern Rockies Outdoor Leadership Certificate is designed through collaboration of multiple University of Montana programs as a certificate to complement any major across campus for students interested in gaining and strengthening leadership skills through engagement in diverse conceptual courses and outdoor field settings. The purpose of the program is to provide undergraduate students or individuals with an undergraduate degree with leadership training and application that can be applied to any professional, academic, and personal setting in their future.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Northern Rockies Outdoor Leadership

- Students are required to do an internship where they can apply their leadership skills with a professional partner. Internships can include on-campus initiatives like the Freshman Wilderness Experience and other student-led trips as well as off-campus internships with local, regional, or global partners. Internships will be approved by the coordinating committee and will be tracked through the W.A. Franke College of Forestry and Conservation.

## Sustainable Agriculture and Food Systems Certificate

The Certificate in Sustainable Agriculture and Food Systems helps prepare students to effectively build a more sustainable agriculture and food system for current and future generations. Students develop their knowledge and skills through upper-division courses that emphasize systems thinking, interdisciplinary study, civic engagement, and experiential, service learning at the campus-community PEAS farm.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Post-Secondary Certificate - Sustainable Agriculture and Food Systems

- Students must achieve at least an overall grade point average of 3.0 for courses within the certificate program.

- The certificate will only be awarded upon the successful completion of all requirements and the attainment of a baccalaureate degree.

## Water Science and Society Certificate

The Water Science and Society Certificate provides students from a range of majors with foundational knowledge in water science and policy. Students take courses in the biological, physical, and policy sciences, and courses focused on skills relevant to understanding and managing water. The certificate culminates in a capstone experience that enables students to apply conceptual water knowledge to a project.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

<sup>1</sup> The course that satisfies this requirement must include a substantive project that is focused on water. To meet this requirement, students can complete a thesis, an internship, or a field course. Alternatively, they can complete one of the art courses listed below. In all cases, the project needs to be focused on water.

## College of Health

The College of Health (<https://www.umt.edu/health/>) houses six schools that provide undergraduate and graduate degrees for professional, clinical, and research careers. Opportunities to receive certificates and dual degrees are available as well as online programs for some degrees. In addition, the College provides advising for pre-medical sciences and offers courses in the health sciences that are open to students in all majors. The College is a member of the campus-wide UM Health and Medicine (UMHM) program that connects students, degree programs, researchers, and community partners. The College is also associated with the Family Medicine Residency of Western Montana and the Western Montana AHEC.

### Schools within the College:

- School of Integrative Physiology and Athletic Training (p. 177)
- School of Physical Therapy and Rehabilitation Science (p. 499)
- School of Public and Community Health Sciences (p. 183)
- School of Social Work (p. 185)
- School of Speech, Language, Hearing, and Occupational Sciences (p. 187)
- Skaggs School of Pharmacy (p. 190)
- School of Integrative Physiology and Athletic Training (p. 177)
  - Integrative Physiology B.S. - Health and Exercise Science (p. 178)
  - Integrative Physiology B.S. - Health Enhancement (p. 180)
  - Athletic Injury Certificate (p. 181)
  - Exercise is Medicine Certificate (p. 182)
  - Sports Coaching Certificate (p. 182)
  - Wilderness Emergency Medicine Certificate (p. 182)
- School of Public and Community Health Sciences (p. 183)
  - Public Health B.S. (p. 183)
  - Global Public Health Minor (p. 184)
- School of Social Work (p. 185)
  - Bachelor of Social Work (p. 185)
  - Gerontology Minor (p. 186)
- School of Speech, Language, Hearing, and Occupational Sciences (p. 187)
  - Communicative Sciences and Disorders B.A. (p. 187)
  - Communicative Sciences and Disorders Minor (p. 188)
  - Neurodivergence Inclusion and Supports Certificate (p. 189)
  - Speech Language Pathology Assistant Certificate (p. 189)
- Skaggs School of Pharmacy (p. 190)
  - Pharmaceutical Sciences B.S. (p. 191)
  - Pharmaceutical Science B.S. - Non-Professional Concentration (p. 192)
  - Doctor of Pharmacy (p. 193)
- Pre-Medical Sciences (p. 194)

## School of Integrative Physiology and Athletic Training

### Vision

To be a leading educational destination for research and educational programs focused on empowering the next generation of professionals to enhance health and physical activity for a diverse society.

### Mission

The School of Integrative Physiology and Athletic Training prepares graduates to be competitive entry-level professionals or candidates for advanced study in applied and clinical health professions. The faculty, staff, and students of the School of Integrative Physiology and Athletic Training engage in professional education, scholarly activity, and meaningful public service. The School emphasizes the integration of healthy lifestyles, basic science, preventative medicine, and clinical care across the lifespan.

The School of Integrative Physiology and Athletic Training (IPAT) will:

1. Provide high-quality education and experiential learning opportunities in order to foster professional competence in students and recent graduates.
2. Foster an environment of interprofessional learning and cooperation for future professionals in healthcare.
3. Contribute cutting-edge basic and applied research and scholarly activity in the field.
4. Invest in faculty and staff development to ensure students are optimally prepared for an evolving professional workplace.
5. Cultivate community relationships to serve students' needs, while providing outreach and service to our discipline, community, and university.

Student learning goals include:

1. Identify the historical underpinnings of the fields of integrative physiology and athletic training, and understand how they influence modern practices in these fields.
2. Explain complex principles in the student's area of specialization using effective dissemination techniques, including oral and written communication skills.
3. Practice collaboration with peers and colleagues in the student's chosen area of specialization.
4. Utilize evidence-based practices in professional settings or applications.
5. Display a basic level of competence requisite for their chosen field of study or advanced study.
6. Provide service related to the student's area of specialization to the community.

## Programs

Undergraduate students major in Integrative Physiology and choose from one of the following concentrations:

- Health and Exercise Science (p. 178)
- Health Enhancement (p. 180)

## Activity Classes

The IPAT department also provides a large activity program (ACT classes numbered 100-287, and ACTV 189 (<https://catalog.umd.edu/search/?P=ACTV%20189>) ) which includes instruction in a wide variety of individual, team, recreational, and fitness activities. Goals of this program include helping students:

1. Develop and maintain long-term health-related fitness,
2. Develop motor performance skills that facilitate regular and continuous participation in physical activity, and
3. Develop the adult "inner athlete" who continually strives to reach optimal potential through involvement in challenging endeavors.

Any University of Montana student may elect to apply up to four credits of activities courses (ACT) toward a baccalaureate degree.

## Special Degree Requirements

All Integrative Physiology majors must earn a minimum grade of a C- in all required courses, including prerequisites, except for special cases of higher requirements in Athletic Training noted below. In-department and out-of-department courses specifically listed in this catalog as

requirements for Integrative Physiology majors must be taken for a traditional letter grade.

- Integrative Physiology B.S. - Health and Exercise Science (p. 178)
- Integrative Physiology B.S. - Health Enhancement (p. 180)
- Athletic Injury Certificate (p. 181)
- Exercise is Medicine Certificate (p. 182)
- Sports Coaching Certificate (p. 182)
- Wilderness Emergency Medicine Certificate (p. 182)

## Integrative Physiology B.S. - Health and Exercise Science

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

*Last updated Autumn 2024*

Students must complete at least 18 elective credit hours in addition to the required courses above.

Additional classes will be needed for those hoping to complete prerequisites for PT, PA, Med, OT, Chiropractic schools, etc. See advisor.

<sup>1</sup> If last name starts with A-L take WRIT 101. M-Z take COMX 111A  
<sup>2</sup> Held off campus at the Missoula College  
<sup>3</sup> If student takes BIOH 201N & BIOH 211N or another 200 level Anatomy and Physiology sequence, they will need to take additional upper division credits to meet the University requirement of 39 upper division credits for graduation.

# Integrative Physiology B.S. - Health Enhancement

The Health Enhancement concentration of the Integrative Physiology and Athletic Training major is for students who will instruct physical education and health classes within a K-12 primary/secondary education system. Comprehensive training includes coursework in education and pedagogy in addition to specific work related to exercise, physical education, and health related content knowledge. Foundational teaching concepts are provided through primary and secondary health enhancement coursework and theory and practice in community health education. Topical knowledge is provided by the courses, motor control/ learning, and exercise physiology. This curriculum is thematically related to lifestyle medicine and *Exercise is Medicine*, including basic nutrition, personal health and wellness, promotion of wellbeing in K-12 classrooms, program planning in community health, and foundations of health and human performance. Aspects of coaching, exercise programing, and professional development are provided through coursework in strength training and conditioning, basic exercise prescription, prevention and care of athletic injuries, and legal and ethical issues in health and exercise professions.

## Admission Policies for the Health Enhancement Concentration

Individuals seeking licensure to teach must apply for admission to the professional Teacher Education Program. Deadlines for application are September 15 and February 15. Individuals are eligible for consideration for admission if they have:

- been admitted to the University of Montana;
- completed at least 30 semester credits;
- earned a minimum cumulative GPA (including all transfer credits) of 2.75;
- completed an English writing course (WRIT 101) with a grade of C- or better;
- demonstrated evidence of writing ability in an application essay;
- documented appropriate experience working with children or youth;
- secured supportive recommendations from two faculty members;
- presented results of a national fingerprint-based background check; and
- demonstrated appropriate professional behaviors and dispositions associated with success in the profession

Once admitted, licensure candidates must maintain a minimum GPA of 2.75 each semester to continue in the program. Candidates who interrupt their studies for more than two years are placed on inactive status and must apply for readmission to both the University and the Teacher Education Program.

Candidates seeking a K-12 endorsement in library, reading, or special education must have full admission to the Teacher Education Program or be a licensed teacher before applying to one of these specialized programs.

Degree-holding individuals are invited to submit transcripts for review to determine how previous course work applies. They may earn a second baccalaureate degree and/or a teaching license or they may combine elementary, secondary, or K-12 licensure with a master's degree.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science - Integrative Physiology; Health Enhancement Concentration

- Students must take all core and elective courses from the University of Montana's curriculum, but can receive credit for transfer courses upon approval of IPAT advisor.

## Athletic Injury Certificate General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of

Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - Athletic Injury

### Course Requirements

## School of Public and Community Health Sciences

Located in Missoula, Montana, the University of Montana School of Public and Community Health Sciences (SPCHS) is housed within the College of Health (CoH). The Montana Board of Regents approved the SPCHS administrative unit in March 2005, with its first class of students enrolled during the fall of 2006. We are the first and only Council on Education for Public Health (CEPH) accredited program in Montana.

- What is public health?
  - Public health practitioners work to solve the world's most pressing health problems, such as COVID-19 and climate change. They focus on preventing disease by promoting a healthier lifestyle, implementing educational programs, developing policies, administering services, conducting research, and regulating health systems as a way to achieve these goals.
- What does public health encompass?
  - Public health practitioners work to improve the health of individuals and communities both locally and globally. They confront health issues such as controlling infectious disease and reducing environmental hazards. They also work to develop applications in prevention programs to improve health.
- What impact does public health have on our lives?
  - Public health impacts our lives by creating healthier communities, reducing the impact of natural disasters and global epidemics, and addressing health disparities.
- What types of careers are available in the field of public health?
  - Public Health encompass a wide variety of careers related to epidemiology, biostatistics, environmental health, health administration, community health, and preparedness or preventive medicine.

For more information about the School of Public and Community Health Sciences, including contact information for faculty members, please visit the School of Public and Community Health Sciences website (<http://health.umt.edu/publichealth/>).

## Global Public Health Minor

The Global Public Health (GPH) Minor, an inter-disciplinary program, is for students of any major who want to engage with timely global issues. Public health across the world is intertwined with economics, politics, data science, environmental science, history, medicine, information technology, and many other disciplines. The GPH minor helps prepare tomorrow's professionals to thrive while facing global challenges.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Global Public Health

- Students must take all core courses from The University of Montana's curriculum, but can receive content credit for relevant practicum and internships experience and for relevant courses taken at other universities if approved by the program director.

## School of Social Work

Social work is a human service profession concerned with the prevention of social problems, the maintenance of satisfying social relationships, and the enhancement of human development. It focuses on people and their social environment. Social workers employ a range of knowledge and skills as the basis for constructive intervention on behalf of various client populations. The Bachelor of Social Work degree prepares graduates for generalist social work practice.

The undergraduate major in social work is available for those who wish to prepare for:

1. professional employment in the social services;
2. entry into a graduate school of social work;
3. graduate education in other helping service professions.

- Bachelor of Social Work (p. 185)
- Gerontology Minor (p. 186)

## Bachelor of Social Work General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Online Program Option

This program may be completed in an online format (<https://catalog.umn.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umn.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Bachelor of Social Work

- This major requires a minimum cumulative institutional GPA of 2.75.
- A minimum of 41 social work credits are required for this degree.
- Admission into the School of Social Work requires a 2.75 overall GPA, a 3.00 in Social Work courses and completion of 4 of 7 extra departmental courses.

*Last updated Autumn 2024*

- <sup>1</sup> Four of the seven extra-departmental courses must be completed with a grade of C- or above to enter Social Work classes 300 and above. S W 100S and S W 200 also need to be completed with a cumulative GPA of 3.0.
- <sup>2</sup> Development psych classes covering Lifespan, such as PSYX at the Missoula College may satisfy both PSYX 230 and PSYX 233 requirements.
- <sup>3</sup> Practicum Admission Requirements: Complete S W 100S, S W 200, S W 300, S W 350, S W 360 with combined GPA of 3.0, overall GPA of 2.75 and an approved Practicum Application.

## Gerontology Minor

Students in the Gerontology Minor program will study issues of aging from an interdisciplinary perspective and come to understand the interplay between them, including the health and medical as well as social and psychological needs of older persons. This interdisciplinary minor is housed in the College of Health, and students in any major may complete the program. Students must consult with the gerontology advisor in their department to select elective, practicum, and integrating courses that will meet the requirements of the minor.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic

Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

- <sup>1</sup> This course should be chosen based upon the student's major. A similar course will be identified in other majors not listed here.
- <sup>2</sup> Pharmacy students must complete requirements for the Bachelor of Science in Pharmaceutical Sciences or another baccalaureate degree to receive a minor.
- <sup>3</sup> Psychology students must complete an additional 3 credit elective.
- <sup>4</sup> Students in majors that do not have access to a practicum course may enroll in AHHS 395 for 3 credits of service learning experience compatible with the student's major and interests.
- <sup>5</sup> A student must take a minimum of 3 elective credits with at least 25% of the content focused on gerontology. Students may petition for approval of another elective course.

## School of Speech, Language, Hearing, and Occupational Sciences

The Bachelor of Arts in Communicative Sciences and Disorders prepares students for graduate study in speech-language pathology, audiology, various education specialties, business, and healthcare as well as such fields as developmental and cognitive psychology.

- Communicative Sciences and Disorders B.A. (p. 187)
- Communicative Sciences and Disorders Minor (p. 188)
- Neurodivergence Inclusion and Supports Certificate (p. 189)
- Speech Language Pathology Assistant Certificate (p. 189)

## Communicative Sciences and Disorders B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Online Program Option

This program may be completed in an online format (<https://catalog.umd.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umd.edu/online-programs/definitions/>).

and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Bachelor of Arts - Communicative Sciences and Disorders

- All courses with the CSD subject code require a minimum grade of C to count toward the major.
- All other courses require a minimum grade of C-.

<sup>1</sup> Students may take another physical science course with the approval of the department.

## Communicative Sciences and Disorders Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Online Program Option

This program may be completed in an online format (<https://catalog.umd.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umd.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Minor - Communicative Sciences and Disorders

- All courses with the CSD subject code require a minimum grade of C to count toward the major.
- All other courses require a minimum grade of C-.

## Skaggs School of Pharmacy

The Skaggs School of Pharmacy, established in 1907 at Montana State College, was transferred to the University of Montana in 1913 and currently resides in the College of Health. The Skaggs School of Pharmacy has two departments: Pharmacy Practice and Biomedical and Pharmaceutical Sciences. The School offers undergraduate, graduate, and professional degree programs, including the Doctor of Pharmacy program which is fully accredited by the Accreditation Council for Pharmacy Education (<https://www.acpe-accredit.org/>).

### Doctor of Pharmacy

Students interested in clinical practice as a licensed pharmacist should explore this program. The curriculum offered by the Skaggs School of Pharmacy consists of a six-year program leading to Doctor of Pharmacy (Pharm.D.) degree. The first two years, or pre-professional portion of the curriculum, are spent in studies of the basic biological and physical sciences, chemistry, and other pre-requisites. The final four years are in the professional program, which is divided into three years of didactic coursework followed by a year of direct practice in patient care through experiential courses in a variety of practice sites in the community. During the first three years of the professional program, students devote their time to the study of the biomedical and pharmaceutical sciences and pharmacy practice. Areas of study include biochemistry, microbiology, medicinal chemistry, pharmaceuticals, pharmacology, social behavioral and administrative sciences, and therapeutics. The final professional year is entirely experiential and designed to fully prepare students to enter the profession as pharmacist patient care providers. The professional curriculum includes required and elective coursework. Students admitted to the Doctor of Pharmacy program also have the opportunity to pursue a dual degree (M.B.A., M.P.H., M.S. in Pharmaceutical Sciences) or a B.S. in Pharmaceutical Sciences degree. Post graduate, pharmacy residency, or fellowship training is encouraged as those with an advanced degree or residency training are in demand for research, academic positions, and specialty advanced clinical practice positions.

To practice as a pharmacist in the United States, one must become a registered pharmacist. This requires completing practical experience under the direction of registered pharmacists, graduating with a Pharm.D. degree from an accredited Doctor of Pharmacy professional program, and passing both the NAPLEX and MPJE exams administered by the National Association of Boards of Pharmacy.

Career opportunities exist in the fields of community pharmacy, ambulatory care pharmacy, hospital and other institutional pharmacy, federal or state government service, public health agencies, and with the pharmaceutical industry. Those with advanced degrees or residency training are in demand for research positions, specialty clinical practice, and clinical faculty positions.

### Pre-professional Program

Pre-professional (pre-pharmacy) curriculum, which requires a minimum of two years of full-time study, may be taken at any accredited college or university. Students at the University of Montana-Missoula may enter the pre-pharmacy program during any semester. It is recommended that students considering the Pharmacy professional program declare pre-pharmacy as their major as early as possible to ensure appropriate advising. Upon designating Pre-Pharmacy as a major, students will be assigned an advisor from within the School of Pharmacy.

### Professional Pharmacy Program

Students must apply for admission to the Pharm.D. professional program. Class size in the professional pharmacy program is restricted and admission to the program is competitive. For information on program requirements and the application procedure, refer to Prospective Students on the Pharmacy program website (<http://health.umt.edu/pharmacy/>).

### B.S. in Pharmaceutical Sciences

Students interested in research instead of clinical practice should consider the Bachelor of Science degree in Pharmaceutical Sciences. The four-year non-professional option in the B.S. in Pharmaceutical Sciences (BSPS) program is intended for students with interests in research, pharmaceutical or biotechnical companies, or government agencies. A professional option for the degree is restricted to students already enrolled in the Doctor of Pharmacy program.

### High School Preparation

In addition to the general University admission requirements, coursework in algebra, trigonometry, biology, chemistry, physics, and computers/information technology are recommended for either the Pharm.D. or BSPS degree.

### Graduate Degrees in Pharmaceutical & Biomedical Sciences

The School offers graduate degree programs in several areas of pharmaceutical and biomedical sciences. These are research-oriented degrees designed to prepare graduates to create new knowledge and medications for future use in patient care. Students interested in a research career should review the specific requirements for seeking a graduate degree. These graduate-level programs provide education and training in pharmaceutical sciences and drug design, toxicology, and molecular genetics. Program graduates are well prepared for careers in academia, government, and industry.

### Graduate Programs

Students interested in pursuing a graduate research degree should have completed a baccalaureate degree program. Students must apply to the graduate program. Information about the admission requirements and application process are posted on the Department of Biomedical and Pharmaceutical Sciences webpage (<http://health.umt.edu/biomed/graduate/default.php>).

## Department of Pharmacy Practice

Vincent J. Colucci, Chair

The Department of Pharmacy Practice provides academic course work for the Doctor of Pharmacy degree, precept students during their experiential rotations, conducts research in the broad area of health care, scholarship of teaching and learning, and provides service to the profession of pharmacy and other health care disciplines.

## Department of Biomedical and Pharmaceutical Sciences

Elizabeth A. Putnam, Chair

The Department of Biomedical and Pharmaceutical Sciences offers a curriculum in support of the Doctor of Pharmacy (Pharm.D.) degree and undergraduate and graduate programs in the biomedical and

pharmaceutical sciences. Graduate degree programs include the M.S. and Ph.D. in Pharmaceutical Sciences and Drug Design and Toxicology.

- Pharmaceutical Sciences B.S. (p. 191)
- Pharmaceutical Science B.S. - Non-Professional Concentration (p. 192)
- Doctor of Pharmacy (p. 193)

## Pharmaceutical Sciences B.S.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Science - Pharmaceutical Sciences

- The Skaggs School of Pharmacy offers two concentrations in the the B.S. in Pharmaceutical Sciences. This is the professional option that is restricted to students admitted to the Doctor of Pharmacy program. To be eligible for licensure as a pharmacist, students must obtain the Doctor of Pharmacy degree. See the Doctor of Pharmacy (<http://catalog.umn.edu/colleges-schools-programs/health-professions-biomedical-sciences/skaggs-school-of-pharmacy/doctor-of-pharmacy/>) catalog page for more information.
  - Students must be admitted to the Doctor of Pharmacy degree program and complete all required coursework for the first two years including the first IPPE. Students enrolled in the professional pharmacy curriculum are assessed a supplemental fee. This fee does not apply to Pre-Pharmacy students. Refer to the fees (<https://catalog.umn.edu/expenses-services-organizations/expenses/>) section of the catalog for details.
  - In addition, students must demonstrate proficiency in pharmaceutical calculation by successfully completing a competency assessment prior to entering the second professional year.
- For students seeking an undergraduate degree to prepare for research rather than clinical practice, please see the B.S. in Pharmaceutical Sciences (non-professional) concentration (p. 192).

### Course Requirements

| Code                                   | Title                     | Hours |
|----------------------------------------|---------------------------|-------|
| Biology                                |                           |       |
| Complete all of the following courses: |                           |       |
| BIOH 112                               | Human Form and Function I | 3     |

|          |                                |   |
|----------|--------------------------------|---|
| BIOH 113 | Human Form and Function II     | 3 |
| BIOB 260 | Cellular and Molecular Biology | 4 |

#### General and Organic Chemistry

Complete all of the following courses:

|                       |                                                   |   |
|-----------------------|---------------------------------------------------|---|
| CHMY 141N & CHMY 142N | College Chemistry I and College Chemistry I Lab   | 5 |
| CHMY 143N & CHMY 144N | College Chemistry II and College Chemistry II Lab | 5 |
| CHMY 221 & CHMY 222   | Organic Chemistry I and Organic Chemistry I Lab   | 5 |
| CHMY 223              | Organic Chemistry II                              | 3 |

#### Physics

Complete all of the following courses:

|           |                              |   |
|-----------|------------------------------|---|
| PHSX 205N | College Physics I            | 4 |
| PHSX 206N | College Physics I Laboratory | 1 |

#### Mathematics

Complete the following course:

|       |                  |   |
|-------|------------------|---|
| M 162 | Applied Calculus | 4 |
|-------|------------------|---|

Complete one of the following courses:

|          |                            |   |
|----------|----------------------------|---|
| STAT 216 | Introduction to Statistics | 4 |
| PSYX 222 | Psychological Statistics   | 4 |
| SOCI 202 | Social Statistics          | 4 |

#### Communication & Social Sciences

Complete all of the following courses:

|              |                                 |   |
|--------------|---------------------------------|---|
| COMX 111A    | Introduction to Public Speaking | 3 |
| or THTR 120A | Introduction to Acting I        | 3 |
| PSYX 100S    | Intro to Psychology             | 3 |
| or SOCI 101S | Introduction to Sociology       | 3 |

#### Upper-Division Core Courses

Complete all of the following courses:

|                     |                                                                     |   |
|---------------------|---------------------------------------------------------------------|---|
| PHAR 329            | Microbes & Medicines                                                | 4 |
| PHAR 331            | Pharmaceutics                                                       | 4 |
| PHAR 341 & PHAR 361 | Pharmaceutical Pathophysiology I and Pharmaceutical Science Lab I   | 5 |
| PHAR 342 & PHAR 362 | Pharmaceutical Pathophysiology II and Pharmaceutical Science Lab II | 5 |
| PHAR 371            | Integrated Studies I                                                | 1 |
| PHAR 372            | Integrated Studies II                                               | 1 |
| PHAR 381            | Pharmaceutical Biochemistry                                         | 4 |
| PHAR 421            | Medicinal Chemistry I                                               | 3 |
| PHAR 422            | Medicinal Chemistry II                                              | 3 |
| PHAR 443            | Pharmacology & Toxicology I                                         | 4 |
| PHAR 444            | Pharmacology & Toxicology II                                        | 4 |

#### Clinical Sciences

Complete all of the following courses:

|                     |                                           |   |
|---------------------|-------------------------------------------|---|
| PHAR 432            | Clinical Pharmacokinetics                 | 3 |
| PHAR 451 & PHAR 471 | Therapeutics I and Integrated Studies III | 4 |
| PHAR 452 & PHAR 472 | Therapeutics II and Integrated Studies IV | 4 |

#### Social, Behavioral & Administrative Sciences

|                     |                                                 |   |
|---------------------|-------------------------------------------------|---|
| PHAR 300 & PHAR 360 | Pharmacy Practice I and Pharmacy Practice Lab I | 5 |
|---------------------|-------------------------------------------------|---|

|                                                          |                                                          |            |
|----------------------------------------------------------|----------------------------------------------------------|------------|
| PHAR 310                                                 | Pharmacy Practice II                                     | 2          |
| PHAR 311                                                 | Healthy People                                           | 1          |
| PHAR 350                                                 | Introduction to Drug Information                         | 1          |
| PHAR 412<br>& PHAR 463                                   | Pharmacy Practice III<br>and Pharmaceutical Care Lab III | 3          |
| PHAR 460                                                 | Pharmaceutical Care Lab II                               | 1          |
| <b>Introductory Pharmacy Practice Experiences (IPPE)</b> |                                                          |            |
| Complete all of the following courses:                   |                                                          |            |
| PHAR 480                                                 | Community Pharmacy IPPE                                  | 3          |

## Pharmaceutical Science B.S. - Non-Professional Concentration

The Skaggs School of Pharmacy offers two concentrations in the B.S. in Pharmaceutical Sciences. This is the non-professional concentration that is open to all students whose primary career interests are in research and discovery, careers at pharmaceutical and biotechnology companies, and work in government institutions and agencies. This degree offers a broad pharmaceutical sciences background that will prepare students for work in disciplines critical to the discovery and development of new drugs and therapies as well as agencies regulating these disciplines. While it also meets pre-pharmacy requirements, it is not required for applying to the professional Doctor of Pharmacy program. Courses provided through the Doctor of Pharmacy program will have additional fees attached.

Note: Students enrolled in the Doctor of Pharmacy program who are interested in the B.S. in Pharmaceutical Sciences should look at the professional concentration in the B.S. in Pharmaceutical Sciences (<https://catalog.umn.edu/colleges-schools-programs/health/skaggs-school-of-pharmacy/bs-pharmaceutical-sciences/>).

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

# Pharmacy, Doctor of (Pharm.D.)

## Licensure in Montana

An applicant for licensure as a registered pharmacist in Montana must pass national examinations as required by the Montana State Board of Pharmacy. To qualify for the examinations, the applicant must be of good moral character and a graduate of an accredited school of pharmacy with a Doctor of Pharmacy degree; however, an applicant will not receive a license until all requirements have been met.

- Pre-pharmacy coursework must be completed before entering the professional pharmacy program.
- Students should note some pre-pharmacy courses have prerequisites and they should consider that when planning their schedules.
- Applicants to the professional pharmacy program must present proof of having completed at least 20 hours of observation in a pharmacy, other health care or social field, a writing assignment about the experience, and one evaluation form from someone involved with the applicant in such an experience.
- The Pharmacy College Admission Test (PCAT) must be taken within two years of application. Applications for the professional program are submitted through the PharmCAS system. See the School's prospective student webpage (<https://www.umt.edu/pharmacy/prospective-students/>) for more information.

## Doctor of Pharmacy

- Students must apply for admission to the professional program (<http://health.umt.edu/pharmacy/>). Students enrolled in the professional pharmacy curriculum are assessed a supplemental fee. This fee does not apply to pre-pharmacy students. Refer to the fees (<https://catalog.umt.edu/expenses-services-organizations/expenses/>) section of this catalog for details.
- Students must demonstrate proficiency in pharmaceutical calculation by successfully completing a competency assessment prior to entering the second professional year.

## Special Degree Requirements

Refer to graduation requirements (p. 36) listed previously in the catalog.

Doctor of Pharmacy students must:

1. Meet the general University requirements for graduation.
2. Have a 2.5 GPA to start the Pharm.D. program.
3. Earn a grade point average of 2.0 or higher in each of the following areas:
  - a. all courses attempted at The University of Montana-Missoula (cumulative institutional GPA).
  - b. all courses which carry a pharmacy (PHAR) prefix (pharmacy GPA).
  - c. all required courses in the professional pharmacy curriculum (professional GPA).
4. Required pharmacy course work must be completed with a grade of C- or better.
5. Complete at least six full academic years, including pre-pharmacy instruction, and a minimum of eight semesters of professional instruction as a full-time student registered for a minimum of twelve credits per semester.
6. Complete not less than 204 credits of course work with a minimum of 142 credits in the professional program.

7. Complete all other accreditation-required activities for pharmacy students (ACPE Standards 2016).

## Pre-Medical Sciences

Mark A. Pershouse, Director and Associate Professor

Health care continues to be one of the most rapidly expanding areas of our society. Careers in the health professions have expanded both in

numbers and in the variety of opportunities. The rewards of a career in health care include excellent salaries, stability of employment, geographic mobility, and the opportunity to help other people. The Pre-Medical Sciences Program is an inclusive, non-judgmental advising program that helps students become well-informed, well-prepared applicants to programs in allopathic medicine, osteopathic medicine, chiropractic medicine, dentistry, naturopathic medicine, optometry, physician assistant studies, podiatry, and veterinary medicine.

## PreMed Intake Path

For students interested in pursuing a career in the health professions, the University of Montana has begun a new PreMed Intake Path. This one-year long major is designed to expose students to the academic rigor associated with science courses at UM and to expose the students to the breadth of career opportunities in the health professions without causing the student to lose ground on other students in the discipline.

During the first year and beginning at UM's Fall Orientation and/or Bear Tracks, students are advised through a combination of a Freshman PreMed advisor (Mark Pershouse or Jason Granvold) and their academic advisor and recommended attendance in a weekly two-hour course, HMED 140 - Introduction to Health Professions. This course covers the selection of a major, introduces the students to a wide variety of health care careers, and begins to teach the skills required to apply successfully to health professions schools. Once a major is selected (before the end of the first year, ideally), students will be assigned a major-specific advisor to assist them in preparation for their chosen health care path. This advisor typically is in addition to their academic advisor for the major.

Students are encouraged to meet with the Health Professions advisor each semester to continue with the health professional school pre-requisite academic plan and to prepare for a competitive application.

Pre-Medical Sciences is not a major at the University of Montana. The Pre-Medical coursework will help students to gain admission to a professional school or program while completing a degree in a field of study. Students may select any major as a field of study, but specific pre-professional courses must be completed. When selecting a major, remember that a science major is not required for admissions into professional schools. It is more important to perform well in your chosen major. Professional schools are most concerned with the overall quality, scope, and difficulty of undergraduate work rather than the major.

Pre-professional courses are designed to provide a strong foundation in the sciences, highly developed communication skills, and a solid background in the social sciences and humanities. Curriculum guides outlining minimal course requirements established by professional schools are available from the Pre-medical Sciences office and from the Pre-Medical Sciences website (<http://umt.edu/premed> (<http://health.umt.edu/premed/>)). Because many majors within the sciences, social sciences, and humanities can provide strong preparation for medical school, the Pre-Medical Sciences Advising Program gives students the opportunity to interact with advisors from diverse disciplines in addition to their advisor for their major.

The minimal requirements for professional school should be completed prior to graduation and prior to taking the admission test required by professional schools. Since specific subject requirements vary among institutions, students should discuss their academic plans with their Pre-Medical Sciences advisor.

Admission to a professional school is very competitive. Students must maintain a high grade-point average in college if they expect to be admitted, even though many schools are changing to a more holistic approach to admissions. All required courses must be taken for letter grades. In addition, the applicant must score well on the appropriate professional admissions test. These tests are designed to measure basic academic ability in the natural sciences, reading ability, and problem solving skills.

Besides academic accomplishments and admission exam scores, acceptance by a professional school is also dependent upon letters of recommendation, volunteer experience, job shadowing, undergraduate research, and personal interviews conducted by the professional school. It is important that students consult with a Pre-Medical Sciences advisor and with an academic advisor in their major each year to make sure that they can satisfy the necessary requirements for graduation within the time available. The Pre-Medical Sciences Director will also discuss procedures, advise, and assist the student during the process of applying to a professional school.

## High School Preparation

High school students contemplating a career in the health professions should have three to four years of mathematics, courses in chemistry and physics and a solid background in literature and social science.

## College of Humanities and Sciences

The College of Humanities and Sciences

([https://www.umt.edu/humanities-sciences/?](https://www.umt.edu/humanities-sciences/?_gl=1*1p8oh7k*_gcl_au*NjA2NDU1OTU2LjE3NDgzNzUyNTA)

[\\_gl=1\\*1p8oh7k\\*\\_gcl\\_au\\*NjA2NDU1OTU2LjE3NDgzNzUyNTA](https://www.umt.edu/humanities-sciences/?_gl=1*1p8oh7k*_gcl_au*NjA2NDU1OTU2LjE3NDgzNzUyNTA).) is the

intellectual core of the University of Montana. We fulfill the central purpose for which the University was chartered in 1893: to provide a liberal education and integrated knowledge of the humanities and the sciences.

A liberal arts education gives students the means to think broadly and test the value of diverse ideas, beliefs, and facts. It empowers them to continue the learning process throughout life. By studying the ways of thinking and expression that are characteristic of the humanities and the social sciences, students will be educated citizens. They will be enabled to think critically about social analysis, creativity in the arts and humanities, aesthetics, and values. Equally important is effective expression of one's understandings. Clear thinking, cogent expression, and solid values provide the foundation of successful careers.

A particular strength of the College is the breadth of its disciplines and programs. This breadth makes possible a varied and flexible curriculum that advances both general programs and specialized education on the undergraduate and graduate levels. Another strength is the quality of the faculty. Its members have a distinguished record of teaching, research and creation of new knowledge, and service to our communities. Their commitment to undergraduate liberal arts education is demonstrated by the quality of the graduates the College has produced. The pre-professional education received here has enabled University of Montana graduates to compete successfully for admission to graduate schools across the nation. A third strength of the College is its commitment to students as they pursue their academic studies at the University. This is reflected in close student/faculty relationships and in the continuous attention given by the College to the effect that policies, procedures, and administrative practices have on students' educational experience.

## African-American Studies

African-American Studies at the University of Montana connects African and African-American (including Latin America and the Caribbean) history, experiences, and perspectives with the 21st century. The goal of the African-American Studies curriculum is to develop basic knowledge of, and appreciation for, the diverse experiences of the African Diaspora, and their contributions to the nations into which they were incorporated. Through this study students will recognize that the African-American narrative connects to the core issues of nation formation, identity politics, social movements, and the liberal state. Those who take this minor will likewise be equipped to talk alongside, through, and in the midst of the racial fracture lines that mark this nation as a country where the color of one's skin is socially significant. In all these efforts, we promote scholarship that is driven first and foremost by an interest in creating knowledge and furthering our understanding of the African-American experience. The interdisciplinary curriculum of African-American Studies includes course offerings from the following academic disciplines: anthropology, economics, English, geography, history, music, political science, and sociology. Some topics of study include:

- African heritage and cultural continuity among African-Americans;
- African-American identity issues and cultural variation;
- the history of African-American protest and resistance, including the abolitionist, anti-lynching, and civil rights movements;
- the Harlem Renaissance;
- the social dynamics of integration and segregation; and
- the various circumstances of, and prospects for, African Americans in the 21st century.

Students graduate from this program prepared for exciting careers in social justice advocacy, law, social services, entertainment, business, athletics, and any position that requires sharp analytical skills and the ability to speak with sophistication and nuance about this country's racial divisions.

- African-American Studies B.A. (p. 197)
- African-American Studies Minor (p. 198)
- African-American Studies Certificate (p. 199)

## African-American Studies B.A.

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - African-American Studies

- At least 9 credits of the 15 credits of elective courses must be upper-division (300- or 400-level).
- Each student must complete a 3-credit capstone project as an independent study in which they conduct a research project, service project, activist/organizing project, or artistic project focused on an issue pertinent to the African-American community. All projects must be approved by the African-American Studies Director.

## African-American Studies Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## African-American Studies Certificate

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Post-Secondary Certificate - African-American Studies

## Anthropology

Mizuki Miyashita, Chair

Anthropology is the study of people, both ancient and contemporary, in their biological, archaeological, cultural, and linguistic context. Anthropology uses a holistic approach to integrate findings from the social sciences, natural sciences, and humanities. The primary educational mission of the Department of Anthropology is teaching, research, and professional service in order to impart the critical importance of understanding the human condition and its relevance to an increasingly diverse world. To accomplish this task, the Department of Anthropology provides a curriculum that will help students understand and appreciate the range of human cultures as well as the significance of biological evolution of the human condition. Through our undergraduate and graduate programs, students not only achieve a broad cross-cultural education but also prepare to apply their anthropological knowledge in their chosen career paths. A minor, Bachelor of Arts, Master of Arts, and Doctor of Philosophy degrees are offered in Anthropology, with concentrations or specializations available at every level. For undergraduates, the B.A. can include concentrations in Archaeology, Cultural and Ethnic Diversity, Forensic and Biological Anthropology, and Linguistics, or a general degree crafted to the interests of the student. Parallel missions to promote the study of human diversity and experience are advanced by the Linguistics Program, which is also housed in the department. Additional offerings include certificates in Forensic Science and Historic Preservation. These certificates are interdisciplinary by nature, but are administered within the Anthropology Department.

Anthropology is an interconnected discipline and majors are urged to acquire a broad background especially in the natural and social sciences and the humanities. Recommended areas of study are biology, economics, English, geography, geosciences, history, communication studies, linguistics, Native American studies, philosophy, political science, psychology, and sociology.

# Anthropology B.A.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Online Program Option

This program may be completed in an online format (<https://catalog.umont.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umont.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Anthropology B.A. - Archaeology

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

| ANTY 466 | Archaeological Survey       |
| ANTY 467 | Archaeological Field School |

**Archaeology Allied Science Electives**

Complete 6 credits in Biology, Geography, or Geology. All 6 credits must be in the same discipline. 6

Complete 6 credits in Computer Science, Environmental Studies, Forestry, History, Native American Studies, or Mathematical Sciences. All 6 credits must come from the same discipline. 6

**Total Hours** 60

## Anthropology B.A. - Cultural and Ethnic Diversity

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Anthropology; Cultural and Ethnic Diversity Concentration

### Course Requirements

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| Complete 6 credits of advisor approved electives in Anthropology, History, or Sociology. Please see your advisor about which courses may fulfill this requirement. | 6 |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|

Complete 6 credits of advisor approved electives in African-American Studies, Asian Studies, Native American Studies, or Women’s Studies. Please see your advisor about which courses may fulfill this requirement.

Total Hours 63

# Anthropology B.A. - Forensic and Biological Anthropology

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Anthropology; Forensic and Biological Anthropology Concentration

### Course Requirements

| Code                                         | Title                                   | Hours |
|----------------------------------------------|-----------------------------------------|-------|
| Lower-Division Core Courses                  |                                         |       |

## Anthropology B.A. - Linguistic Anthropology

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana

General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

### Online Program Option

This program may be completed in an online format (<https://catalog.umn.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umn.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Anthropology Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of

Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Anthropology

## Forensic Studies Certificate

The Certificate in Forensic Studies is primarily designed as a step toward a baccalaureate degree for those interested in a career in the forensic sciences or a related field. It is also designed as an avenue for law enforcement agents, forensic scientists, or other professionals in the justice system to satisfy mandatory continuing education requirements for continued employment or promotion.

Students may complete the requirements either as resident students at UM-Missoula or completely online.

To earn a certificate in Forensic Studies the student must complete a minimum of 18 credits, including 6 credits in core forensic science courses.

## General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Online Program Option

This program may be completed in an online format (<https://catalog.UMT.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.UMT.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

Post-Secondary Certificate - Forensic Studies

Course Requirements

| Code                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Title                                     | Hours |

| Complete one 3-credit course that has been designated as a University of Montana - Missoula General Education Group VIII (Ethics and Human Values) course in any department.                                                                                                                                                                                                                                                                                                                                      |                                           | 3     |
| Total Hours                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                           | 18    |

Historic Preservation Certificate

Historic Preservation is the interdisciplinary field that seeks to identify, document, preserve, and protect significant structures, sites, and landscapes.

General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

<sup>1</sup> An internship must be with an approved, appropriate preservation-based agency or focused on an approved preservation-based topic.

Applied Science

The Bachelor of Applied Science (B.A.S.) degree at the University of Montana is designed for individuals who have completed an Associate of Applied Science (A.A.S.) degree and who want to pursue additional education to strengthen their planned or previous training and improve career advancement opportunities. As such, students pursuing the B.A.S. build a tailored degree plan that suits their specific academic and professional goals.

For additional information, individuals should contact the College of Humanities and Sciences Academic Advising office at [HSAdvising@umontana.edu](mailto:HSAdvising@umontana.edu).

- Bachelor of Applied Science (p. 209)

## Bachelor of Applied Science

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Applied Science

### Degree Requirements

Only students who have earned an A.A.S. degree from a regionally accredited institution for higher education with at least a 2.50 cumulative GPA are eligible to pursue the B.A.S. at UM. The degree requirements for the B.A.S. degree include completion of:

- A minimum of 127 total earned semester credits.
- The University of Montana General Education Requirements (GERs). Categories and approved courses are listed on the General Education Requirements website. (p. 39)
- Students must complete 39 upper-division credits. At least 30 of the 39 upper-division credits must be from the degree plan.

### Degree Plan

As part of the B.A.S. curriculum, students must develop a degree plan tailored to their academic and professional goals. Due to the nature of the B.A.S., courses from multiple disciplines may be included. Students initially meet with a B.A.S. advisor in the College of Humanities and Sciences for assistance in developing their degree plan curriculum. Students then create a committee that consists of at least 3 faculty members from disciplines represented in the plan. This committee provides final approval of the proposed curriculum.

It is important to understand that the B.A.S. degree does not identify a specific discipline major. Even though some plans may consist of courses from one discipline (e.g. communication studies, psychology, geology), the student is *not* a Communication Studies, Psychology, or Geology major. Hence, the B.A.S. student's transcript and diploma will not indicate a specific major.

## Central and Southwest Asian Studies

The University of Montana has emerged as a national and international leader in recognizing the significance of Central and Southwest Asia and translating that awareness into a major academic program. The program builds on significant faculty experience and expertise in the region and includes scholars from a variety of academic disciplines. The program has also organized intensive summer language training programs at UM as well as summer study tours for K-12 teachers to Central Asia. It also hosts an annual conference that brings leading scholars, diplomats, analysts, and journalists to the UM campus.

The University of Montana offers an undergraduate major as well as a minor in Central and Southwest Asian Studies. Arabic, Chinese, and Russian language instruction are also offered. Faculty exchanges have been organized with universities in China, Egypt, Georgia, Kazakhstan, Kyrgyzstan, Morocco, Russia, and Tajikistan.

- Central and Southwest Asian Studies B.A. (p. 209)
- Central and Southwest Asian Studies Minor (p. 210)

<sup>1</sup> Students are strongly recommended to take a third or fourth year of language study.

## Central and Southwest Asian Studies Minor

The Central and Southwest Asian Studies Minor is available to all students and consists of eighteen credits. Students selecting the minor are required to successfully complete ANTY 141H and six credits in foundational Central and Southwest Asian Studies courses (200-level courses). Students must then complete nine credits of additional course work at the 300- or 400- level. No language courses are required; however, students pursuing the minor are strongly encouraged to meet the university-wide general education modern and classical language competency requirement by completing at least the second semester of one of the following languages (100 level or higher): Chinese, Persian, Arabic, Turkish or Russian. Participation in a study-abroad program is strongly recommended.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic

Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Communication Studies

Communication Studies engages in both social-scientific and humanistic approaches to the analysis, understanding, and improvement of human communication. The discipline traces its roots to ancient Greek and Roman studies of the functions of public discourse in society, but in the twentieth century communication came to embrace the studies of interpersonal and small group interaction, human relations in organizations, media and society, and intercultural interaction. Although interdisciplinary in spirit, the discipline has a core of knowledge, theory, and concepts concentrating on such things as symbols, messages, interactions, networks, audiences, and persuasive campaigns. Uniting the field is the belief that the role of communication in human experience is basic to comprehending complex situations and problems in the modern world. The discipline has roles in both the broad traditions of liberal arts education and in the development and refinement of practical skills.

The Department of Communication Studies at the University of Montana-Missoula focuses on three broad areas of study: interpersonal interaction and human relationships, organizational communication, and rhetoric and public discourse. The knowledge and skills the student may acquire in each of these areas are important to functioning effectively in one's personal life, at work, and as a citizen of the larger society in a rapidly changing world.

The program in Communication Studies helps to prepare students for such diverse professions as: public relations officer, marketing analyst, human resources or personnel manager, community mediator, political speech writer, health communication trainer, social services director, or student services coordinator. Also, undergraduate and graduate study

can assist the student in pursuing advanced studies for law, the ministry, and higher education.

Communication Studies B.A. - Advocacy and Social Movements  
General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/ Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Bachelor of Arts - Communication Studies; Advocacy and Social Movements Concentration

The Major in Communication Studies requires 36 credits in Communication Studies (COMX) courses with 18 of those credits in courses numbered 300 or above.

## Course Requirements

## Communication Studies B.A. - Interpersonal and Family Communication

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Communication Studies; Interpersonal and Family Communication Concentration

- The Major in Communication Studies requires 36 credits in Communication Studies (COMX) with 18 of those credits in courses numbered 300 or above.
- For the Interpersonal and Family Communication concentration, students must complete an additional 9 credits in allied courses to reach a total of 45 credits.
- A maximum of 6 credits in COMX 312 and a maximum of 6 credits in COMX 398 may count toward the major.

## Communication Studies Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana

General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Online Program Option

This program may be completed in an online format (<https://catalog.umd.edu/online-programs/definitions/>). Students interested in pursuing an online degree or certificate program are strongly encouraged to contact the offering department to discuss specific program and course modalities (<https://catalog.umd.edu/online-programs/definitions/>) and create a plan of study with an academic advisor. The course requirements listed below may not be consistently offered via online delivery.

## Minor - Communication Studies

- The Minor in Communication Studies requires a minimum of 20 credits in Communication Studies (COMX) courses with at least 9 credits in courses numbered 300 and above.
- A maximum of 6 credits in COMX 312 may count toward the minor.

## Public Relations Certificate

The certificate in Public Relations develops participants' knowledge and skills related to strategic communication and prepares students for careers in public relations specialties.

Classes are offered in both traditional classroom and online formats. Courses will be scheduled online frequently enough to complete the requirements for the certificate over a two-year period online.

### General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Democracy Studies

What is democracy's past, present, and future? The Minor in Democracy Studies equips students with the knowledge, methodological tools, and critical perspectives to tackle this pressing question as intellectuals and as engaged citizens of their community, region, nation, and world. An interdisciplinary minor, this program harnesses the expertise of faculty in several departments to focus student learning on the human experience with democratic governments and societies. Courses in core disciplines of the humanities and social sciences (History, Philosophy, and Political Science) anchor the program. Additional course offerings from other departments enhance and diversify the curriculum.

Students completing a minor in Democracy Studies learn that democracy has been and remains a capacious, contested concept that encompasses essential yet varied sectors of human experience. They gain an understanding of such classic political topics as voting and elections, political parties and lobbying, and constitutional adjudication and the structure of government. They also engage with an array of other subjects and problems that have defined and animated democratic polities (e.g. civil society and education, media and public opinion, corruption and scandal, dissent and disobedience, justice and equality, political economy and the distribution of wealth, leadership and organization, civil rights and civil liberties).

Students select from a series of foundational courses that ground them in the history, politics, and ethics of democracy. They then choose from a range of elective courses across varied disciplines to both broaden and deepen their understanding of the democratic experience and its challenges. As a capstone to the minor, students can complete an internship or conduct a research or civic engagement project guided by faculty.

- Democracy Studies Minor (p. 217)

# Democracy Studies Minor

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Minor - Democracy Studies

### Course Requirements

- Students must complete at least 12 upper-division (300-level or above) credits.
- Special Topics courses taught at the 300- and 400-level (391 or 491) may count as upper-division area courses provided that they have a suitable content. Students should consult the department advisor and director of the Democracy Studies minor.
- The following credits requirements and limitations apply. Students must complete:
  - at least 6 credits in History (HSTA/HSTR), but no more than 9 credits.
  - at least 3 credits in Philosophy (PHL), but no more than 9 credits.
  - at least 6 credits in Political Science (PSCI), but no more than 9 credits.
  - no more than 6 credits in Business (BGEN/BMIS).
  - no more than 6 credits in Environmental Studies (ENST).
  - no more than 6 credits in Journalism (JRNL).
  - no more than 6 credits in Non-Profit Administration (NPAD).
  - no more than 3 credits in Public Health (PUBH).
  - no more than 6 credits in Sociology (SOCI).

## East Asian Studies

The East Asian Studies major positions students to pursue graduate work in East Asian Studies as well as careers in academia, government, education, business, law, and any other discipline in which East Asian countries are key global players.

The program builds on a long history of institutional commitment to East Asia. Ambassador Mike Mansfield first taught Far Eastern History at the University of Montana from 1934-1942. UM has the strongest Japanese language program in the Northern Rockies and has a 30-year history in teaching Mandarin Chinese. UM also maintains many exchange, research, and study abroad programs, including programs in education, law, business, and journalism.

The East Asian Studies major provides UM students with a broad understanding of the major cultures of this dynamic region and gives students the freedom to tailor their studies to focus on China or Japan. The major requires a spread of courses to ensure that students receive training in the traditional cultures of the East Asian region, which represent major contributions to the world's philosophical and artistic systems. Students are able to choose from a variety of contemporary political, economic, and cultural courses to suit their goals.

To learn more about the East Asian Studies major, contact the Director of the Mansfield Center, Deena Mansour (deena.mansour@umontana.edu).

## Economics

The Department of Economics considers its teaching goals to be threefold:

1. To present students with the basic theoretical tools of economic analysis, relevant facts, and institutional material, which will assist them as civic leaders.
2. To introduce students majoring in economics to the various special fields of study within economics. This training, along with extensive

work in the other liberal arts and sciences, is intended to instill breadth of intellectual interest, critical habits of thought, a problem-solving attitude, and facility of expression.

3. To help meet, through graduate work, the increasing demands for competent professional economists in industry, commerce, government and education.

Courses cover general economic theory, environmental economics, monetary theory, international economics, public finance, labor economics, economic development, comparative economic systems, econometrics, and industrial organization.

Students major in economics leading to a Bachelor of Arts degree.

- Economics B.A. (p. 219)
- Economics B.A. - Economics Education (p. 220)
- Economics Minor (p. 221)
- Economics Education Minor (p. 222)

## Economics B.A. General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Economics Course Requirements

| Code                                   | Title                                     | Hours |
|----------------------------------------|-------------------------------------------|-------|
| <b>Lower-Division Core</b>             |                                           |       |

<sup>1</sup> The advanced writing requirement must be met by successfully completing ECNS 481 (<https://catalog.umd.edu/search/?P=ECNS%20481>).

<sup>2</sup> Students planning graduate study in economics should take M 171 (<https://catalog.umd.edu/search/?P=M%20171>) and M 172 (<https://catalog.umd.edu/search/?P=M%20172>) and consider M 221 (<https://catalog.umd.edu/search/?P=M%20221>) and M 307 (<https://catalog.umd.edu/search/?P=M%20307>) as well as ECNS 511 (<https://catalog.umd.edu/search/?P=ECNS%20511>), ECNS 513 (<https://catalog.umd.edu/search/?P=ECNS%20513>) and ECNS 560 (<https://catalog.umd.edu/search/?P=ECNS%20560>).

<sup>3</sup> ECNS 398 (<https://catalog.umd.edu/search/?P=ECNS%20398>) does NOT count toward the total required credits for the major.

| <b>Total Hours</b>              |                                                                    | <b>122</b> |

<sup>1</sup> Most students begin with M 115, but some students only need Calculus and Stats. Some students may need to take additional or remedial math courses to prepare for M 115, M 162, or M 171.

<sup>2</sup> M 162 or M 171 complete this requirement, but students who are advanced in math or plan to pursue a Masters in Economics should take M 171 and M 172.

<sup>3</sup> GPHY 323S, PSCI 336, PSCI 365, PSCI 431, FORS 320, M 221, and M 307 can count towards the Economics Elective requirement

<sup>4</sup> M 162 or M 171 must be taken before ECNS 301. Students who have completed Calculus before Year 2 are allowed to take ECNS 301 in Fall Year 2.

<sup>5</sup> STAT 216 must be taken before ECNS 403

Last updated Autumn 2024

Economics B.A. - Economics Education

• This major concentration contains course requirements designed to meet state standards. Those interested in teaching in K-12 schools must complete the education/teaching concentration of a major in a

teaching content area plus the Teacher Education Program through the Department of Teaching and Learning. Additional teaching areas can be added through completion of the education/teaching concentration of a major or education/teaching minor in that content area.

- Secondary Education Licensure Program (<https://www.umt.edu/education/departments/teaching-and-learning/tep/default.php>)
- Licensure Degree Requirements (p. 151)
- To complete this concentration, you need to contact the Teaching and Learning Department. Approvals for this track must come from the Teaching and Learning Department.
- This major does not qualify as a single field endorsement. Individuals must complete the education/teaching concentration in a second major or education/teaching minor in another content area.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - Economics; Economics Education Concentration

| GPHY 323S | Economic Geography of Rural Areas                        |
| PSCI 365  | Public Policy Issues and Analysis                        |

### Education Course

Complete the following course:

|         |                                                       |   |
|---------|-------------------------------------------------------|---|
| EDU 497 | Teaching and Assessing (Methods: 5-12 Social Studies) | 3 |
|---------|-------------------------------------------------------|---|

### Total Hours

47

<sup>1</sup> The advanced writing requirement must be met by successfully completing ECNS 481 (<https://catalog.umt.edu/search/?P=ECNS%20481>).

<sup>2</sup> Students planning graduate study in economics should take M 171 (<https://catalog.umt.edu/search/?P=M%20171>) and M 172 (<https://catalog.umt.edu/search/?P=M%20172>) and consider M 221 (<https://catalog.umt.edu/search/?P=M%20221>) and M 307 (<https://catalog.umt.edu/search/?P=M%20307>) as well as ECNS 511 (<https://catalog.umt.edu/search/?P=ECNS%20511>), ECNS 513 (<https://catalog.umt.edu/search/?P=ECNS%20513>) and ECNS 560 (<https://catalog.umt.edu/search/?P=ECNS%20560>).

<sup>3</sup> ECNS 398 (<https://catalog.umt.edu/search/?P=ECNS%20398>) does NOT count toward the total required credits for the major.

## Secondary Teaching Licensure

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umt.edu/education/departments/currinst/default.php>).

## Economics Minor

### General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of

Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

<sup>1</sup> M 115 (<https://catalog.umn.edu/search/?P=M%20115>) and M 162 (<https://catalog.umn.edu/search/?P=M%20162>) should be taken before enrolling in ECNS 301 (<https://catalog.umn.edu/search/?P=ECNS%20301>).

<sup>2</sup> Students are required to complete STAT 216 (<https://catalog.umn.edu/search/?P=STAT%20216>) (or equivalent) with a C- or better before enrolling in ECNS 403 (<https://catalog.umn.edu/search/?P=ECNS%20403>).

## Economics Education Minor

- This minor contains course requirements designed to meet state standards. Those interested in teaching in K-12 schools must complete the education/teaching concentration of a major in a teaching content area plus the Teacher Education Program through the Department of Teaching and Learning. Additional teaching areas can be added through completion of the education/teaching

concentration of a major or education/teaching minor in that content area.

- Secondary Education Licensure Program (<https://www.umn.edu/education/departments/teaching-and-learning/tep/default.php>)
- Licensure Degree Requirements (p. 151)
- To complete this concentration, you need to contact the Teaching and Learning Department. Approvals for this track must come from the Teaching and Learning Department.
- Individuals completing this minor must also complete the education/teaching concentration of a major in another teaching content area.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

<sup>1</sup> M 115 (<https://catalog.umd.edu/search/?P=M%20115>) and M 162 (<https://catalog.umd.edu/search/?P=M%20162>) should be taken before enrolling in ECNS 301 (<https://catalog.umd.edu/search/?P=ECNS%20301>).

<sup>2</sup> Students are required to complete STAT 216 (<https://catalog.umd.edu/search/?P=STAT%20216>) (or equivalent) with a C- or better before enrolling in ECNS 403 (<https://catalog.umd.edu/search/?P=ECNS%20403>).

## Secondary Teaching Licensure

For endorsement to teach this subject, a student also must gain admission to the Teacher Education Program and meet all the requirements for secondary teaching licensure (p. 151). For more information, see the Teaching and Learning Department webpage (<https://www.umd.edu/education/departments/currinst/default.php>).

## English

More than a century old, the Department of English is among the oldest and most prestigious units at the University. As one of the campus's original departments, it offered some of the University's inaugural courses, including literature classes taught by UM's first president, Oscar J. Craig. In 1919, Rhodes Scholar H.G. Merriam inaugurated one of the first creative writing programs in the country. Two recent Pulitzer Prize Winners - William Finnegan and Andrew Sean Greer - received their M.F.A.'s from the department.

Our Composition program serves the entire University by offering the first-year composition requirement WRIT 101 as well as courses in advanced composition and graduate seminars in the teaching of writing.

Upper-Division Creative Writing Courses

Complete 3 of the following courses. One of the courses must be a 400-level workshop (CRWR 410, 411, 412).

|           |                                  |
|-----------|----------------------------------|
| CRWR 310  | Intermediate Fiction Workshop    |
| CRWR 311  | Intermediate Poetry Workshop     |
| CRWR 312A | Intermediate Nonfiction Workshop |
| CRWR 320  | The Art and Craft of Revision    |
| CRWR 391  | Special Topics                   |
| CRWR 410  | Advanced Fiction Workshop        |
| CRWR 411  | Advanced Poetry Workshop         |
| CRWR 412  | Advanced Nonfiction Workshop     |
| CRWR 425  | Storytelling                     |
| CRWR 491  | Special Topics                   |

Capstone

Complete one of the following courses:

|          |                     |
|----------|---------------------|
| CRWR 480 | Fiction Capstone    |
| CRWR 481 | Poetry Capstone     |
| CRWR 482 | Nonfiction Capstone |

Language Requirement <sup>1</sup>

Complete the 202-level proficiency in either a modern or classical language other than English.

Total Hours 46-60

<sup>1</sup> Students may either take four sequential semesters (101, 102, 201, 202) of a language sequence or demonstrate proficiency through examination. Language proficiency examinations are available through the Department of World Languages and Cultures.

Four Year Plan

| Course       | Title                               | Hours |
|--------------|-------------------------------------|-------|
| Freshman     |                                     |       |

*Last updated Autumn 2024*

## English B.A. - Creative Writing

The Creative Writing program is predicated on the model of the workshop, and focuses on three areas of study: poetry, fiction, and nonfiction. Undergraduates who select the creative writing concentration fulfill some of the same requirements as those in literature, while also participating in a series of small writing workshops, gaining the techniques needed to craft poetry and/or prose that work towards artistic excellence. Graduate students pursuing an M.F.A. degree complete a series of writing workshops and seminars designed to develop their creative work and expand their understanding of literary technique. The Creative Writing faculty is augmented each year by visiting Hugo and Kittredge fellows. The program sponsors the graduate literary magazine, *CutBank*, now in its fourth decade of publishing works of poetry, prose and art. Additionally, undergraduate students have the opportunity to contribute to and edit their own literary magazine, *The Oval*.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - English; Creative Writing Concentration

<sup>1</sup> The Creative Writing faculty recommend students take more than one 200-level workshop (CRWR 210A, 211A, 212A) to fulfill this requirement; however, students may substitute one of the other courses listed in lieu of a workshop. Other courses may be substituted at the discretion of the student's advisor.

<sup>2</sup> Students may either take four sequential semesters (101, 102, 201, 202) of a language sequence or demonstrate proficiency through examination. Language proficiency examinations are available through the Department of World Languages and Cultures.

Four Year Plan

| Course                                                    | Title                                                                                                                                     | Hours     |

Last updated Autumn 2024

<sup>1</sup> Students may repeat CRWR 310A, 311, or 312 up to three times.

English B.A. - Literature

Under the Literature concentration, students ground their study of literature in a series of introductory courses in major themes and historical approaches, intermediate courses in Shakespeare and literary theory, and a senior seminar that requires the development of a research project. Students complement these core courses with a selection of electives that engage specific genres, authors, and periods, as well as different disciplines and literatures of diversity (e.g. Native American Literature). M.A. students select graduate seminars in American, British, and world literatures as well as other disciplines, their course work culminating in either a traditional thesis or a portfolio of seminar papers revised in collaboration with a committee. The Literature concentration imparts an understanding of not only the aesthetic richness of canonical and emerging literatures but also the historical and cultural forces that have contributed to their making. The classes are of a size that makes discussion an important part of a student s experience.

## General Degree Requirements

To earn a baccalaureate degree, all students must complete successfully, in addition to any other requirements, the University of Montana General Education Requirements. Please refer to the General Education Requirements page (p. 39) for more information.

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (p. 36).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Montana-Missoula is required for graduation. Please see the Academic Policies and Procedures page (p. 25) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

## Bachelor of Arts - English; Literature Concentration

- Students majoring in English with the concentration in Literature must earn 36 of their total credits in Department of English courses.
