The University of Montana Big Sky Poll collects and reports information about Montanans' perceptions of local, state, and federal issues. The poll is directed by Dr. Sara Rinfret, Associate Professor and Director of the Master of Public Administration Program, and Dr. Justin Angle, Associate Professor of Marketing and Warren and Betsy Wilcox Faculty Fellow.

The UM Big Sky Poll telephone survey was conducted from August 13-31, 2018 with 618 registered Montana voters. The margin of error (MOE) is $+/-4$ at a 95 percent confidence level. Survey results were weighted by geography and gender to more accurately reflect demographics of the registered voter population in Montana. Questions one through six reflect the responses of the entire sample, while questions seven and eight reflect the responses of just likely Montana voters. The margin of error for questions seven and eight is $+/-4.5$ at a 95 percent confidence level with the same weighting as the rest of the document. All values have been rounded, which may cause some of the totals to not equal 100 percent.
*Use of poll findings requires attribution to the University of Montana Big Sky Poll.

1. In your opinion, what is the most important issue facing Montana today?

|  | Overall <br> Sample | Woman <br> (Female) | Man <br> (Male) | Urban | Rural |
| :--- | :---: | :---: | :---: | :---: | :---: |
