Course Description

WRIT 101 is a course in public writing, a kind of writing that is meant to communicate with and engage a specific audience toward a specific community issue. Your purpose will ultimately be to write a proposal that could have positive impacts on an important issue within your local community. To do so, we will work on **four writing projects** throughout the course, culminating in a proposal that would ideally be sent to the decision maker(s) and argue for the specific change requested.
