### III. Tuberculosis (TB) Screening Questionnaire

Please read the following questions:

1. Have you ever had close contact with persons known or suspected to have active TB disease?
2. Have you been a resident, volunteer or employee of high-risk congregate settings (e.g., correctional facilities, long-term care facilities, and homeless shelters)?
3. Have you ever been a member of any of the following groups that may have an increased incidence of latent *M. tuberculosis* infection or active TB disease: medically underserved, low-income, or abusing drugs or alcohol?
4. Have you been a volunteer or health-care worker who served clients who are at increased risk for active TB disease?
5. Were you born or had frequent or prolonged visits to one of the countries listed below?

If yes, please CIRCLE the country, below

Afghanistan	Djibouti	Libya	Russian Federation
Algeria	Dominica	Lithuania	Rwanda
Angola	Dominican Republic	Madagascar	Sao Tome and Principe
Anguilla	Ecuador	Malawi	Senegal
Argentina	El Salvador	Malaysia	Sierra Leone
Armenia	Equatorial Guinea	Maldives	Singapore
Azerbaijan	Eritrea	Mali	Solomon Islands
Bangladesh	Eswatini	Malta	Somalia
Belarus	Ethiopia	Marshall Islands	South Africa
Belize	Fiji	Mauritania	South Sudan
Benin	French Polynesia	Mexico	Sri Lanka
Bhutan	Gabon	Micronesia (Federated States of)	Sudan
Bolivia (Plurinational State of)	Gambia	Mongolia	Suriname
Bosnia and Herzegovina	Georgia	Morocco	Tajikistan

Democratic Republic of the Congo	Lesotho	Republic of Moldova	
	Liberia	Romania	

Source: World Health Organization Global Health Observatory, Tuberculosis Incidence 2020. Countries with incidence rates of  $\geq 20$  cases per 100,000 population. For future updates, refer to [https://www.acha.org/documents/resources/guidelines/ACHA\\_Tuberculosis\\_Screening\\_April2022.pdf](https://www.acha.org/documents/resources/guidelines/ACHA_Tuberculosis_Screening_April2022.pdf)

If you answered:

☐

**'Yes' to one or more of the above questions**

If the answer is YES - University of Montana requires proof of TB testing done in a United States medical facility. This may be done at Curry Health Center. Acceptable tests are: PPD skin tests (if positive include reading in millimeters), QuantiFERON or T-SPOT.

☐

**'No' to questions 1-5**

If the answer to all of the above questions is NO, no further testing or further action is required.
