

NAME: _____ D.O.B.: _____ Student ID#: _____

III. Tuberculosis (TB) Screening Questionnaire

Please read the following questions:

1. Have you ever had close contact with persons known or suspected to have active TB disease?
2. Have you been a resident, volunteer or employee of high-risk congregate settings (e.g., correctional facilities, long-term care facilities, and homeless shelters)?
3. Have you ever been a member of any of the following groups that may have an increased incidence of latent *M. tuberculosis* infection or active TB disease: medically underserved, low-income, or abusing drugs or alcohol?
4. Have you been a volunteer or health-care worker who served clients who are at increased risk for active TB disease?
5. Were you born or had frequent or prolonged visits to one of the countries listed below?

If yes, please CIRCLE the country, below

Afghanistan	Djibouti	Lithuania	Rwanda

If you answered:

'Yes' to one or more of the above questions

If the answer is YES - University of Montana requires proof of TB testing done in a United States medical facility. This may be done at Curry Health Center. Acceptable tests are: PPD skin tests (if positive include reading in millimeters), QuantiFERON or T-SPOT.

'No' to questions 1-5

If the answer to all of the above questions is NO, no further testing or further action is required.
