

Quick User Guide

1. Place the backdrop approximately 4 feet from the photo booth.
2. Place the stool mid-way between the photo booth and the backdrop.
3. Adjust the height of the stool to frame your face in the screen.
4. Follow the instructions on the screen to get started!
5. You'll have the chance to take 3 photos, with time between each. Once these are complete, you can select one photo to edit. You should receive your photos by email to the address you entered.

Tips for Success

- Play with lighting. Turn off overhead lights if you experience a halo effect or close nearby blinds/curtains if you experience glare.
- Play with the on-screen editing tools like teeth whitening and blemish removal. Add filters. Have fun!
- Upload your Iris headshot photo as your LinkedIn and Handshake profile pictures for a polished and professional presentation.
- Make an appointment with one of our ELCS Career Coaches to explore career options, review your resume, assess your interview skills, and integrate hands-on learning experiences to develop your skills and build your network! Schedule an appointment on Navigate.
