

Rationale for Changes to Procedure 202.4.1 General Education Subcommittee Responsibilities

The proposed revisions clarify the General Education review process, which was last revised in 2011. The revisions serve the following purposes:

- 1) To provide a clear guide of the review process for future members of the General Education Committee
- 2) In the event of an appeal of a General Education decision, these clarified procedures will allow ECOS to easily determine whether standard review procedures have been followed.
