Featured ISEP University:

University of Ghana

The University of Ghana is the largest of the four universities in Ghana and currently enrolls over 30,000 students. Originally, the curricular emphasis was on liberal arts, social science, basic science, agriculture and medicine; however, there is currently a national educational reform program to diversify the curriculum and provide more science and technology and post-graduate training.

ISEP's programs at the University of Ghana also offer benefits above and beyond a typical ISEP program including facilitated volunteering, independent studies and research projects, internship opportunities, excursions and a Twi language course.

The campus is located approximately 13 kilometers northeast of Accra, the capital of Ghana. The campus offers many opportunities for international students to get involved in local student life! Off campus, enjoy a day at the beach, a trip to museums and historical sites, art galleries, and beautiful natural scenery!
