

Application for Visiting Graduate Student Status

“Visiting Graduate Student” status is offered at The University of Montana for one year to students admitted to graduate study elsewhere but are visiting our area and wish to use our facilities for research and/or recreation purposes. This form must be completed and returned to The University of Montana Graduate School prior to the visiting student’s arrival. If students plan to enroll in classes while visiting, they must apply for graduate non-degree status through the Graduate School office.
