

Course: Intermediate Weight Training - ACT 110 - 04
Location: Fitness & Recreation Center (FRC) 2nd Floor Weight Room
Days and class time: Tuesday/Thursday 10:00 am – 10:50 am
Instructor: Alex Marks (alexander.marks@umontana.edu)

Overview: This class gives students the opportunity to learn or refine their exercise technique, and learn new methods to help them achieve their strength and fitness goals.

Objectives:

1. Learn and reinforce proper exercise technique, exposing students to different types of exercises.
2. Explore several different types of weight training that can be employed to accomplish various strength related goals.
3. Give students the opportunity to write and perform their own weight training program, designed to work towards their individual goals.

Requirements (attire, equipment, etc.):

Griz Card: All students must have their Griz Card every day to enter the FRC. Any student denied access to the FRC for any reason will be marked absent for the day.

Attire: Come to every class prepared to play (gym clothes, close-toed sneakers, water bottle). Any student unable to participate due to inappropriate attire will be marked absent for the day.

Grading/Attendance: All students are allowed 6 hours of absences during the semester without jeopardizing their credit. All absences count as such, even if for documented medical illness/injury, family emergency, sleeping in, missing class to study for a test, University of Montana sponsored events, personal days not recognized by UM, or staying out too late the night before. In other words, **WE DO NOT EXCUSE ABSENCES FOR ANY REASON. It is strongly recommended that students plan ahead and save their 6 hours of allowed absences for minor illnesses or other unexpected events that may occur during the semester.** Missing 7 or more hours will result in a grade of “NCR” (No-Credit). Due to the large number of ACTivity Classes and limited facility availability **we do not offer make-up classes or other alternatives to making up for missed hours (papers, reports, etc.).**

Punctual attendance and appropriate attire is required of all students. Students are required to be dressed down and ready to participate at the beginning of class, and participate for the duration of the class. Any student that is unable to participate for the duration of the class due to late arrival, early exit, or inappropriate attire will be marked absent for that hour. Students should plan accordingly to meet these requirements. ACTivity Class Instructors have the independent authority to allow their **entire class** no more than 5 minutes of flexibility at the beginning OR at the end of class, depending on the course constraints.

Each registered student voluntarily and knowingly assumes the risks inherent to the activity in which they are participating. If a student experiences a significant event (for example, a **documented extended** illness, major injury, or the death of an immediate family member) and cannot complete the minimum participation and attendance requirements, the ACTivity Class Director will assist the student with class withdrawal or work with the student to complete a “Petition to Extend Allowed Absences”.

Students should consult their instructors immediately if they have special needs related to their attendance. **Petitions to Extend Allowed Absences are not permitted after the last instructional day prior to finals week**, and are available from ACTivity Class Instructors, McGill Hall 117, or the HHP website at:

http://coehs.umt.edu/departments/hhp/activity_classes/petition/default.php

A note from the Curry Health Center or other medical provider that serves as documentation that a student missed class due to a minor illness or routine appointment will NOT be considered an “excused” absence. It is still an absence and will count towards the 6 hours of allowed absences each student receives for the semester. Students cannot petition to extend absences when missing a single ACTivity Class for any reason. Missing a single ACTivity Class will count towards the 6 hours of allowed absences each student receives for the semester.

Accommodations: The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students (DSS). If a student thinks he/she may have a disability adversely affecting their ACTivity Class participation or attendance, the student should contact DSS in Lommasson 154. The H²PAC Program may be able to work with the student and DSS to provide an appropriate accommodation. A student needing an accommodation for another reason should immediately notify the ACTivity Class Director; hence options for an accommodation that will not substantially alter the fundamental objectives of the course can be explored.

Any student requesting ACTivity Class accommodations for a religious observance should provide the ACTivity Class Director with a written request to consider a reasonable modification for that observance by the end of the second week of the ACTivity Class. If the Department of Health and Human Performance and the student cannot agree on a reasonable accommodation, the student may file a complaint with the Office of Equal Opportunity and Affirmative Action/ Title IX Coordinator at 243-5710; www.umt.edu

Safety: Let Alex know if you have any preexisting injuries or if you’re pregnant. Be sure to listen to your body and go at your own pace. Immediately report any in-class injuries to Alex.

Semester schedule: The class schedule will largely depend on you and your personal fitness goals. As the semester continues, new strength training exercises will be introduced based upon fitness levels and improved knowledge within the gym. While performance will not be monitored, I can certainly be available to suggest specific exercises and hold students accountable to a lifting routine if so requested.
