

MONTANA MODEL UN 2012

## KEYNOTE SPEECH

### *“DOING GOOD BETTER”*

**DR. KIMBERLY A. MAYNARD**

Dr. Maynard has worked on rebuilding war-torn societies and international disaster relief for 25 years in such crises-affected countries as Afghanistan, Bosnia, Indonesia, Kosovo, Liberia, Rwanda, Somalia, and Tunisia.

She tries to connect the thinking and the doing by researching and improving humanitarian assistance, conflict and needs assessments, peacebuilding methods, reintegration programs (displaced populations and former fighters), community-driven development in war-torn environments, and trauma recovery support.

Dr. Maynard has worked with non-governmental organizations, the US government, the United Nations, the Red Cross, and the World Bank. She served as head of the US Government’s Disaster Assistance Response Team in Macedonia and Kosovo. She has a PhD in International Affairs and is the author of numerous publications, including, *Healing Communities in Conflict: International Assistance in Complex Emergencies*.
