Upcoming Training

Public Health & Mental Health Collaboration

Did you know that addressing community mental health can prevent chronic diseases? This training will allow participants the opportunity to gain an understanding of how mental health support systems and mental health issues intersect with public health.

Objectives:

At the end of this training, participants will be able to:

- Understand the structure of the mental health support system from the federal to the local and tribal level
- Explain why community mental health issues are public health issues
- Discuss how addressing community mental health and preventing chronic diseases are intertwined
- Define key terminology in mental health and substance abuse care and support systems

- **Date:** 11/17/23
- **Time:** 9 am-11 am (MDT)
- **Cost:** No-Cost
- **Location:** Online Webinar
- **Trainer:** Nathan Munn

This learning opportunity is funded by
MT DPHHS
Public Health System Improvement Office

**Meet The
Trainer!**

Originally from the Pacific Northwest, Nathan Munn has called Helena, Montana, his home since 1993. He earned his Bachelor's in Psychology from Seattle Pacific University and his Doctorate in Medicine from the University of Washington. He did his post-doctorate residency in psychiatry at the University of Colorado in Denver. After practicing psychiatry for ten years, he has been in academia for seventeen years teaching psychology courses at Helena College University of Montana. He went on to obtain his Master's in Public Health from the University of Montana in April 2021. In his free time, he enjoys race-walking, all things Star Trek, and spending time with his partner Michelle and their Grade Danes.
