

Welcome to Griz Nation!

Curry Health Center must receive documentation of MMRs and screening for tuberculosis exposure. You must complete the following medical requirements before you register for classes.

1. You can do this by filling out the Medical Requirement form included in this packet and providing documentation of your MMRs.
2. Once we receive your immunization records and TB Questionnaire we will review your information and notify you of your clearance to register via the Health Portal.

OR

1. Go to our Health Portal: <https://curryhealthcenterhealthportal.sa.umt.edu>
2. Log in using your Net ID
3. Click on the **Forms Tab** and complete the Tuberculosis Questionnaire form.
 - a. If you answer yes to any of the questions you must be screened for TB at a United States medical facility. This may be done at Curry Health Center.
 - b. Acceptable tests are: PPD skin test (if positive include reading in millimeters), QuantiFERON or T-Spot). You can enter these results under the **Immunization Tab** and upload the scanned TB test via the **Upload Tab**.
4. The State of Montana also requires you to submit proof of 2 MMR vaccines, or 2 doses rubeola and rubella **or** IgG titers for both rubeola and rubella.
 - a. Please enter the dates you received these vaccines or titers under the **Immunizations Tab**.
 - b. Upload a copy of your immunizations via the **Upload Tab**.
5. Once we receive your uploaded immunization records and Tuberculosis Questionnaire we will review your information and notify you via the Health Portal of your clearance to register.
