Elective Courses

MPH students may take 9 elective credits of courses offered from the School of Public and Community Health Sciences and/or from other departments in order to create a plan of study that tailors the learning experience to their needs. If a student wishes to transfer in credits that are not already on the list of approved elective courses, a **Transfer Credit Approval Form** needs to be filled out by the student and submitted to his/her advisor and the Department Chair for approval. The written approval must be placed in the student's official file. The approved Elective Courses list can be found here: http://health.umt.edu/publichealth/current-students/mph-cph-curriculum/electives.php.
