

Study Jam Group Tutoring

Mission Statement

Study Jam supports undergraduate students' progress toward degree completion by facilitating no-additional-cost-to-students, peer-led, group tutoring. In a collaborative learning environment, Study Jam helps students succeed in sentinel coursework through guided exploration; responsive, curricular-based learning strategies; and informal study communities. Study Jam also fosters a proactive, academically nimble, lifelong learner.

Key Programs and Services

Study Jam is a key component in the Office for Student Success tutoring and placement success network. Mondays, Tuesdays, and Wednesday evenings and at various times during the middle of the day throughout the semester, students meet in the Lommasson Center for free, peer-based tutoring. Students may seek assistance for over **40 sentinel courses in 12 academic disciplines** during these sessions. Together, peers work as members of a learning collective to develop knowledge and build skills.

Utilization

UNIQUE STUDENTS SERVED = 408

STUDENT SESSIONS = 1,919

Year Update

For the 22/23 Academic Year, Study Jam tutoring leveraged mixed delivery methods, EAB Navigate, and social media to promote academic support for our catalog of services. From introducing tutors via Instagram to partnering with the OSS Tech Team to utilize Navigate for one-to-one tutoring appointments and messaging, this year was a year of refining successful pilots and learning from other successful interventions.

One-to-One Tutoring Appointments

Our one-to-one tutoring program has served as a cornerstone of academic support services, with 254 scheduled appointments. This personalized approach has proved invaluable, fostering deeper understanding and promoting academic growth. Notably, 192 students participated, achieving a commendable 76% show rate.

Group-Based Tutoring

Recognizing a growing demand, we have expanded our group-based tutoring offerings. In the past year, we facilitated 1,722 individual checks for drop-in tutoring sessions, as confirmed by EAB Navigate. This not only reflects substantial demand but also underscores the popularity of our collaborative learning environment and the need for quality academic tutors who have undergone additional training.

Future Directions and Ongoing Commitment

Study Jam Tutoring remains committed to enhancing services, adapting to evolving needs, and fostering an inclusive, supportive learning environment. Our success in one-to-one appointments and increasing demand for group-based tutoring motivates us to continue refining and expanding our offerings. Our focus will continue to look for ways to increase tutoring utilization during summer sessions; to improve the Academic Tutoring Internship as a way of supporting peer tutors; and to recruit and train qualified tutors in collaboration with faculty and staff.
