UM Summer Exploration invites high school students to engage in a transformational learning opportunity during a live-in, shared, two-week experience. Participants will explore all aspects of student life at UM as they engage with faculty in the classroom during the day and in meaningful social activities in the evenings and during the weekend. This program is open to in-state and out-of-state students who are entering their sophomore, junior or senior year and are at least 16 years old. Students can select one of three courses offered and will earn two college credits.

**PUBH 191: INTRODUCTION TO PUBLIC HEALTH AND HEALTH SCIENCES UNIVERSITY OF MONTANA**

Public health has never been more important. Through laboratory tours, community field trips, and authentic research experiences, this course will explore this rapidly growing field (including epidemiology and environmental health) and the related health sciences as you engage with faculty, clinicians, researchers and UM students. Gain a better understanding of the disciplines that comprise the broad public health field, as well as college degree and employment opportunities for the future. Learn more at health.umt.edu/publichealth

**BIOB 191: MONTANA HABITATS UNIVERSITY OF MONTANA - MISSOULA COLLEGE**

Explore the geologic and climatological influences on Montana’s remarkable diversity of ecosystems and species. Learn about how the dominant vegetation patterns across Montana influence the distribution of wildlife. Connect this knowledge to discussions of energy dynamics in living systems and examine the human influence on natural environments. Gain experience with hands-on study of Montana flora and fauna, including field trips to local open spaces and visits with natural history professionals. Learn more at mc.umt.edu

**ENST 191: ENVIRONMENTAL ETHICS: CLIMATE CHANGE AND SENSE OF PLACE WILD ROCKIES FIELD INSTITUTE**

Take your education into Montana’s wild landscape. Camp under the stars and hike along alpine ridgelines while examining the regional effects of climate change and meeting the people who are working to address these complex issues. Perfect for adventurous students who are eager to learning outside and building a better world, this course will include a backpacking expedition in one of Montana’s iconic wilderness areas. No prior backpacking and/or camping experience is required. Learn more about the Wild Rockies Field Institute at wrfi.net

**JULY 16-29**

**PRIORITY APPLICATION DEADLINE: APRIL 10**

**$2,800 course fee, room and board, all meals and program costs**

There is no cost for Montana GEAR UP students.
