UM Summer Exploration invites high school students to engage in a transformational learning opportunity during a live-in, shared, one-week campus experience. Participants will explore all aspects of student life at UM as they engage with faculty in the classroom during the day and in meaningful social activities in the evenings and during the weekend. This program is open to in-state and out-of-state students who are entering their sophomore, junior or senior year and are at least 16 years old. Students can select one of two courses offered and will earn one college credit.

**ENST 191: Climate Change in Glacier National Park**
Wild Rockies Field Institute
This course takes the study of climate change out of textbooks and into the wild landscapes of Montana’s Northern Rockies. Students will camp under the stars, hike through old growth forests and along alpine ridgelines, see the last remnants of Glacier National Park’s fading namesake glaciers, and view the region’s charismatic wildlife. While exploring this unique landscape, students will examine the regional effects of climate change and they will meet with people who are working to address these issues. No prior camping and/or hiking experience is required to participate in this course. Learn more about the Wild Rockies Field Institute by visiting: [www.wrfi.net](http://www.wrfi.net)

**PUBH 191: Introduction to Public Health**
University of Montana
Given COVID-19, climate change, and other emerging issues throughout the world, public health has never been more important. This short-course will provide an overview of the field of public health. Specific topics of focus include an exploration of the five disciplines of public health (epidemiology, social and behavioral sciences, health policy, environmental health and biostatistics), an overview of different tools and techniques used in the field, and a discussion related to employment opportunities within public health. Learn more about public health at UM by visiting: [health.umt.edu/publichealth](http://health.umt.edu/publichealth)

**COST:**
$1,200
(course fee, room and board, all meals and program costs)

There is no cost for Montana GEAR UP students. If you are a non-Montana GEAR UP student, limited scholarships and funding is available!
